

CREDIT SUISSE INTERNATIONAL

(Incorporated in England)

Registration Document

This Registration Document comprises:

- Table of Contents (page 2);
- Risk Factors (pages 3 to 12);
- Certain information incorporated herein by reference, which has been filed with the *Commission de Surveillance du Secteur Financier* (the “**CSSF**”), as specified below under the heading “Information Incorporated by Reference” (pages 13 to 18); and
- General Information (pages 19 to 24).

For purposes of this Registration Document, unless the context otherwise requires, we use the term the "Issuer" when we refer to Credit Suisse International and the term "CSi" when we refer to Credit Suisse International and its consolidated subsidiaries. We use the term "Group" or "Credit Suisse" when we refer to Credit Suisse Group AG (the Issuer's indirect parent company) and its consolidated subsidiaries. We use the term "the Bank" when we are only referring to Credit Suisse AG, one of the Swiss bank subsidiaries of the Group, and its consolidated subsidiaries.

This Registration Document has been prepared pursuant to Article 6(3) of Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”) and Article 7 of the Commission Delegated Regulation (EU) 2019/980 of 14 March 2019.

This Registration Document has been approved by the CSSF, as competent authority under the Prospectus Regulation. The CSSF only approves this Registration Document as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the issuer that is the subject of this Registration Document.

This Registration Document will be valid for 12 months following the approval of this Registration Document dated 8 July 2020. The obligation to supplement this Registration Document in the event of significant new factors, material mistakes or material inaccuracies does not apply once this Registration Document is no longer valid.

This Registration Document and the documents incorporated by reference will be available on the website of the Luxembourg Stock Exchange, at www.bourse.lu, and on the Issuer's website at <https://www.credit-suisse.com/be/en/investment-banking/financial-regulatory/international.html>. Except for the copies of the documents incorporated by reference in the Registration Document available on the websites specified herein, no information contained on the websites to which links have been provided is incorporated by reference in the Registration Document.

Prospective investors should read the entire document and, in particular, the Risk Factors set out on pages 3 to 12 of this Registration Document when considering an investment in Credit Suisse International securities.

Registration Document dated 8 July 2020

Table of Contents

3 - 12	Risk Factors
13 - 18	Information Incorporated by Reference
19 - 24	General Information
19	Credit Suisse International
19 - 20	Ratings
20	Organisational Structure
20 - 21	Major Shareholders
21	Change
21 - 23	Names and Addresses of Directors and Executives
23	Directors' Conflicts of Interest
23 - 24	Legal and Arbitration Proceedings
24	Statutory Auditors
24	Additional Information; Documents on Display
24	Responsibility Statement

Risk Factors

CSi faces a variety of risks that are substantial and inherent in its businesses, including liquidity risk, credit risk, market risk, country risk, operational risk, legal and regulatory risk, conduct risk, reputational risk, and technology risk. These are described in more detail below.

CSi has direct access to funding sources of the Group. After making enquiries of the Group, the Directors of CSi have received a confirmation that the Group will ensure that CSi maintains a sound financial position and is able to meet its debt obligations for the foreseeable future. As a result, risks affecting the Group will also apply to CSi. The risk factors affecting the Group are set out on pages 43 to 52 of the Group Annual Report 2019 which is incorporated by reference into this Registration Document.

1. Liquidity risk

Liquidity risk is the risk that CSi will not be able to meet both expected and unexpected, current and future cash flow and collateral needs without affecting either daily operations or the financial condition of the firm. In this context, liquidity risk implies funding liquidity risk, not market liquidity risk.

→ For further information on liquidity risk management, refer to “*ii) Liquidity Risk*” in “*45 – Financial Risk Management – Risks Detail*” in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

1.1 CSi’s liquidity could be impaired if it were unable to access the capital markets, sell its assets or if its liquidity costs increase

CSi’s ability to borrow on a secured or unsecured basis and the cost of doing so can be affected by increases in interest rates or credit spreads, the availability of credit, regulatory requirements relating to liquidity or the market perceptions of risk relating to CSi, certain of its counterparties or the banking sector as a whole, including its perceived or actual creditworthiness. An inability to obtain financing in the unsecured long-term or short-term debt capital markets, or to access the secured lending markets, could have a substantial adverse effect on CSi’s liquidity. In challenging credit markets, CSi’s funding costs may increase or it may be unable to raise funds to support or expand its businesses, adversely affecting its results of operations.

→ For further information, refer to “*Operating Environment*” in “*Strategic Report – Credit Suisse International at a glance*” in the 2019 CSi Annual Report.

If CSi is unable to raise needed funds in the capital markets (including through offerings of equity, regulatory capital securities and other debt), it may need to liquidate unencumbered assets to meet its liabilities. In a time of reduced liquidity, CSi may be unable to sell some of its assets, or it may need to sell assets at depressed prices, which, in either case, could adversely affect its results of operations and financial condition.

CSi holds buffers of high quality liquid assets, including government securities, and it is provided with unsecured funding from the Bank, in a combination of 120 day and 400 day evergreen tenors, subordinated debt, and equity. CSi also generates funding from its structured notes issuance platform.

As documented in the most recent CSi Internal Liquidity Adequacy Assessment (“**ILAAP**”) document, the assessment concludes that CSi holds sufficient liquidity under the internal risk measures and the regulatory-defined stress measure liquidity coverage ratio, consistent with the Board-approved risk appetite and limits.

2. Credit risk

Credit risk is the risk of a loss arising as a result of a borrower or counterparty failing to meet its financial obligations or as a result of deterioration in the credit quality of the borrower or counterparty.

→ For further information on credit risk management and risk mitigation, refer to “*iv) Credit Risk*” in “*Note 45 – Financial Risk Management – Risks Detail*” in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

2.1 CSi may suffer significant losses from its credit exposures

CSi’s businesses are subject to the fundamental risk that borrowers and other counterparties will be unable to perform their obligations. CSi’s credit exposures exist across a wide range of transactions that it engages in with a large number of clients and counterparties, including lending relationships, commitments and letters of credit, as well as derivative, currency exchange and other transactions. CSi’s exposure to credit risk can be exacerbated by adverse economic or market trends, as well as increased volatility in relevant markets or instruments. For example, adverse economic effects arising from the COVID-19 outbreak, such as

disruptions to economic activity and global supply chains, will likely negatively impact the creditworthiness of certain counterparties and result in increased credit losses for CSi's businesses. In addition, disruptions in the liquidity or transparency of the financial markets may result in CSi's inability to sell, syndicate or realise the value of its positions, thereby leading to increased concentrations. Any inability to reduce these positions may not only increase the market and credit risks associated with such positions, but also increase the level of risk-weighted assets on CSi's balance sheet, thereby increasing its capital requirements, all of which could adversely affect its businesses.

CSi's regular review of the creditworthiness of clients and counterparties for credit losses does not depend on the accounting treatment of the asset or commitment. Changes in creditworthiness of loans and loan commitments that are fair valued are reflected in trading revenues.

Management's determination of the provision for loan losses is subject to significant judgement. CSi's banking businesses may need to increase their provisions for loan losses or may record losses in excess of the previously determined provisions if their original estimates of loss prove inadequate, which could have a material adverse effect on CSi's results of operations.

→ For further information on provisions for loan losses and related risk mitigation, refer to "*Allowances and impairment losses financial instruments subject to expected credit loss model*" in "3 – Critical Accounting Estimates and Judgements in Applying Accounting Policies" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

Under certain circumstances, CSi may assume long-term credit risk, extend credit against illiquid collateral and price derivative instruments aggressively based on the credit risks that it takes. As a result of these risks, CSi's capital and liquidity requirements may continue to increase.

→ For further information on wrong-way risk exposures and how they are calculated, refer to "*Wrong-way risk (WWR)*" in "*Note 45 – Financial Risk Management – Risks Detail*" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

2.2 Defaults by one or more large financial institutions could adversely affect financial markets generally and CSi specifically

Concerns, rumours about or an actual default by one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships between institutions. This risk is sometimes referred to as systemic risk. Concerns about defaults by and failures of many financial institutions, including those in or with significant exposure to the eurozone, could lead to losses or defaults by financial institutions and financial intermediaries with which CSi interacts on a daily basis, such as clearing agencies, clearing houses, banks, securities firms and exchanges. CSi's credit risk exposure will also increase if the collateral it holds cannot be realised or can only be liquidated at prices insufficient to cover the full amount of the exposure.

3. Market risk

Market risk is the risk of a loss arising from fair-valued financial instruments in response to adverse changes in interest rates, credit spreads, foreign currency exchange rates, equity and commodity prices and other relevant market parameters, such as volatilities and correlations.

→ For further information on market risk management, refer to "*i) Market Risk*" in "*Note 45 – Financial Risk Management – Risks Detail*" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

3.1 The ongoing global COVID-19 pandemic has adversely affected, and may continue to adversely affect, CSi's business, operations and financial performance

Since December 2019, the COVID-19 pandemic has spread rapidly and globally, with a high concentration of cases in countries in which CSi conducts business. The ongoing global COVID-19 pandemic has adversely affected, and may continue to adversely affect, CSi's business, operations and financial performance.

The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains and economic activity, and the market has entered a period of significantly increased volatility. The spread of COVID-19 is currently having an adverse impact on the global economy, the severity and duration of which is difficult to predict, and has adversely affected CSi's business, operations and financial performance. This impact is likely to continue and to affect CSi's credit loss estimates, mark-to-market losses, trading revenues, net interest income as well as CSi's ability to successfully realize our strategic objectives. Should current economic conditions

persist or continue to deteriorate, the macroeconomic environment could have a continued adverse effect on these and other aspects of CSi's business, operations and financial performance, including decreased client activity or demand for CSi's products, disruptions to CSi's workforce or operating systems, possible constraints on capital and liquidity or a possible downgrade to CSi's credit ratings.

The extent of the adverse impact of the pandemic on the global economy and markets will depend, in part, on the measures taken to limit the spread of the virus and counter its impact and, in part, on the size and effectiveness of the compensating measures taken by governments and how quickly and to what extent normal economic and operating conditions can resume. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or adversely affects CSi's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described or incorporated by reference in this registration document or CSi's Annual Report 2019, or may pose other risks not presently known to CSi or not currently expected to be significant to CSi's business, operations or financial performance. CSi is closely monitoring the potential adverse effects and impact on CSi's operations, businesses and financial performance, including liquidity and capital usage, though the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation.

→ For further information, refer to "Political and Economic environment" in "Credit Suisse International at a glance – Operating Environment" and "Macro-Economic Environment" in "Principal risks and uncertainties – Other significant Risks" in the 2019 CSi Annual Report.

3.2 CSi may incur significant losses on its trading and investment activities due to market fluctuations and volatility

CSi maintains significant trading and investment positions and hedges in the debt, currency and equity markets, and in private equity, hedge funds, real estate and other assets. These positions could be adversely affected by volatility in financial and other markets, that is, the degree to which prices fluctuate over a particular period in a particular market, regardless of market levels. To the extent that CSi owns assets, or has net long positions, in any of those markets, a downturn in those markets could result in losses from a decline in the value of its net long positions. Conversely, to the extent that CSi has sold assets that it does not own, or has net short positions, in any of those markets, an upturn in those markets could expose CSi to potentially significant losses as it attempts to cover its net short positions by acquiring assets in a rising market. Market fluctuations, downturns and volatility can adversely affect the fair value of CSi's positions and its results of operations. Adverse market or economic conditions or trends have caused, and in the future may cause, a significant decline in CSi's net revenues and profitability.

3.3 CSi's hedging strategies may not prevent losses

If any of the variety of instruments and strategies CSi uses to hedge its exposure to various types of risk in its businesses are not effective, CSi may incur losses. CSi may be unable to purchase hedges or be only partially hedged, or its hedging strategies may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk.

3.4 CSi takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows

Foreign currency exchange rates are impacted by macro factors such as changes in interest rates, results or anticipated results of elections, political stability and economic growth, as well as changes in stock markets, the actions of central banks and the supply and demand of the currencies in question.

If CSi fails to hedge or otherwise manage its exposure to fluctuations in foreign currency exchange rates effectively, this may have an impact on CSi's financial condition and results of operations, which could, in turn, lead to a decrease in the value of its securities.

→ For further information on currency risk management, refer to "Currency Risk" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

3.5 Market risk could exacerbate other risks faced by CSi

If CSi were to incur substantial trading losses, for example, its need for liquidity could rise sharply while its access to liquidity could be impaired. In conjunction with another market downturn, CSi's customers and counterparties could also incur substantial losses of their own, thereby weakening their financial condition and increasing CSi's credit and counterparty risk exposure to them.

3.6 Uncertainties regarding the possible discontinuation of benchmark rates may adversely affect CSi's business, financial condition and results of operations and may require adjustments to its agreements with clients and other market participants, as well as to its systems and processes

In July 2017, the Financial Conduct Authority ("FCA"), which regulates the London interbank offered rate ("LIBOR"), announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. CSi has identified a significant number of its liabilities and assets linked to LIBOR and other benchmark rates across businesses that require transition to alternative reference rates. The discontinuation or future changes in the administration of benchmarks could result in adverse consequences to the return on, value of and market for securities and other instruments whose returns or contractual mechanics are linked to any such benchmark, including those issued and traded by CSi. For example, alternative reference rate-linked products may not provide a term structure, may calculate interest payments differently than benchmark-linked products, which could lead to greater uncertainty with respect to corresponding payment obligations, and would likely require a change in contractual terms of products currently indexed on terms other than overnight. The replacement of LIBOR or any other benchmark with an alternative reference rate could negatively impact the value of and return on existing securities and other contracts and result in mispricing and additional legal, financial, tax, operational, market, compliance, reputational, competitive or other risks to CSi, its clients and other market participants. For example, CSi may face a risk of litigation, disputes or other actions from clients, counterparties, customers, investors or others regarding the interpretation or enforcement of related provisions or if it fails to appropriately communicate the effect that the transition to alternative reference rates will have on existing and future products. In addition, any transition to alternative reference rates will require changes to CSi's documentation, methodologies, processes, controls, systems and operations, which will also result in increased effort and cost. There may also be related risks that arise in connection with the transition. For example, CSi's hedging strategy may be negatively impacted or market risk may increase in the event of different alternative reference rates applying to its assets compared to its liabilities.

→ For further information, refer to "Replacement of interbank offered rates" in "Credit Suisse International at a glance – Operating Environment – Regulatory environment" in the 2019 CSi Annual Report.

4. Country risk

Country risk is the risk of a substantial, systemic loss of value in the financial assets of a country or group of countries, which may be caused by dislocations in the credit, equity and/or currency markets.

→ For further information on market risk management, refer to "v) Country Risk" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

4.1 CSi's businesses and organisation are subject to the risk of loss from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates

As part of a global financial services company, CSi's businesses are materially affected by conditions in the financial markets, economic conditions generally and other developments in Europe, the US, Asia and elsewhere around the world. CSi's financial condition and results of operations could be materially adversely affected if these conditions do not improve, or if they stagnate or worsen. Further, various countries in which CSi operates or invests have experienced severe economic disruptions particular to that country or region, including extreme currency fluctuations, high inflation, or low or negative growth, among other negative conditions. Volatility increased in the beginning of 2020 and equity market indices declined amid concerns surrounding the spread of COVID-19. Concerns about weaknesses in the economic and fiscal condition of certain European countries have continued, especially with regard to how such weaknesses might affect other economies as well as financial institutions (including CSi) which lent funds to or did business with or in those countries.

4.2 CSi may not be able to transact legally with its EU clients following the UK's exit from the European Union

Following extensive negotiations with the EU on the terms of its withdrawal, the UK ceased to be a member of the EU on 31 January 2020. Under the terms of the concluded withdrawal agreement, the UK will continue to be bound by EU laws for a transitional period, but it may be challenging to agree the details of new arrangements (including the granting of reciprocal equivalence determinations under the UK and EU's respective financial services legislation) before such period ends on 31 December 2020. Uncertainty over the outcome of the negotiations surrounding the withdrawal of the UK from the EU persisted throughout 2019

and that uncertainty will likely continue to some extent in 2020. That uncertainty may continue to have a negative economic impact in the UK. CSi is continuing to closely monitor this situation and its potential impact.

CSi provides a comprehensive range of services to clients through both the London operations and a number of different branches across the European Union. Following the UK's withdrawal from the EU, CSi may no longer be able to legally transact with EU clients.

The Group is executing a Group-wide plan and is in the course of building out trading capabilities in locations in existing companies within the Group. CSi is in the process of transferring certain EU clients and EU venue-facing businesses to Group entities in the EU27.

→ For further information, refer to "UK exit from the EU" in "Principal risks and uncertainties – Other Significant Risks" and "EU (EU) Exit Strategy" in "Credit Suisse International at a glance – Strategy" in the 2019 CSi Annual Report.

4.3 CSi may face significant losses in emerging markets

An element of the Group's strategy is to increase its private banking businesses in emerging market countries. CSi's implementation of that strategy will necessarily increase its existing exposure to economic instability in those countries. CSi monitors these risks, seeks diversity in the sectors in which it invests and emphasises client-driven business. CSi's efforts at limiting emerging market risk, however, may not always succeed. Various emerging market countries have experienced and may continue to experience severe economic, financial and political disruptions or slower economic growth than in prior years. The possible effects of any such disruptions, such as sanctions imposed on certain individuals and companies, may cause an adverse impact on CSi's businesses and increased volatility in financial markets generally.

→ For further information on country risk management, refer to "Country Risk" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

5. Non-Financial risk

Non-financial risk is the risk of a loss resulting from inadequate or failed internal processes, people and systems or from external events.

→ For further information, refer to "vii) Non-financial risk" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

5.1 CSi's risk management procedures and policies may not always be effective

CSi has risk management procedures and policies designed to manage its risk. These techniques and policies, however, may not always be effective, particularly in highly volatile markets. CSi continues to adapt its risk management techniques, in particular value-at-risk and economic capital, which rely on historical data, to reflect changes in the financial and credit markets. No risk management procedures can anticipate every market development or event, and CSi's risk management procedures and hedging strategies, and the judgements behind them, may not fully mitigate its risk exposure in all markets or against all types of risk.

→ For further information on value-at-risk, refer to "Value-at-Risk" in "Note 45 – Financial Risk Management – Risks Detail – Market Risk" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

5.2 CSi's actual results may differ from its estimates and valuations

CSi makes estimates and valuations that affect its reported results, including measuring the fair value of certain assets and liabilities, establishing provisions for contingencies and losses for loans, litigation and regulatory proceedings, accounting for goodwill and intangible asset impairments, evaluating its ability to realise deferred tax assets, valuing equity-based compensation awards, modelling its risk exposure and calculating expenses and liabilities associated with its pension plans. These estimates are based on judgement and available information, and its actual results may differ materially from these estimates.

→ For further information on these estimates and valuations, refer to "Note 3 – Critical Accounting Estimates and Judgements in Applying Accounting Policies" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

CSi's estimates and valuations rely on models and processes to predict economic conditions and market or other events that might affect the ability of counterparties to perform their obligations to CSi or impact the value of assets. To the extent CSi's models and processes become less predictive due to unforeseen market conditions, illiquidity or volatility, CSi's ability to make accurate estimates and valuations could be adversely affected.

5.3 CSi's accounting treatment of off-balance sheet entities may change

CSi enters into transactions with special purpose entities (“SPEs”) in its normal course of business, and certain SPEs with which it transacts business are not consolidated and their assets and liabilities are off-balance sheet. CSi may have to exercise significant management judgement in applying relevant accounting consolidation standards, either initially or after the occurrence of certain events that may require CSi to reassess whether consolidation is required. Accounting standards relating to consolidation, and their interpretation, have changed and may continue to change. If CSi is required to consolidate an SPE, its assets and liabilities would be recorded on CSi's consolidated balance sheets and CSi would recognise related gains and losses in its consolidated statements of operations, and this could have an adverse impact on CSi's results of operations and capital and leverage ratios.

→ For further information on the extent of CSi's involvement in SPEs, refer to “*Note 41 – Interests in Other Entities*” in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

6. Legal and regulatory risk

6.1 CSi's exposure to legal liability is significant

CSi faces significant legal risks in its businesses, and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which CSi operates.

Credit Suisse and its subsidiaries are subject to a number of material legal proceedings, regulatory actions and investigations, and an adverse result in one or more of these proceedings could have a material adverse effect on its operating results for any particular period, depending, in part, upon its results for such period.

→ For further information relating to these and other legal and regulatory proceedings, refer to “*8 – Legal and Arbitration Proceedings*” in this Registration Document and “*Note 40 – Guarantees and Commitments*” in notes to the consolidated financial statements in the 2019 CSi Annual Report.

It is inherently difficult to predict the outcome of many of the legal, regulatory and other adversarial proceedings involving Credit Suisse's businesses, particularly those cases in which the matters are brought on behalf of various classes of claimants, seek damages of unspecified or indeterminate amounts or involve novel legal claims. Management is required to establish, increase or release reserves for losses that are probable and reasonably estimable in connection with these matters, all of which requires significant judgement.

→ For further information, refer to “*Note 3 – Critical accounting estimates and judgements in applying accounting policies*” and “*Note 2 – Significant accounting policies*” in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

6.2 If CSi fails to manage its legal risk effectively, this may have an impact on CSi's financial condition and results of operations, which could in turn lead to a decrease in the value of its securities

Legal risks include, among other things, the risk of litigation (for example, as a result of mis-selling claims); disputes (for example, over the terms of legacy trades); the inadequacy of transaction documentation (for example, ambiguous terms); unenforceability (for example, of security arrangements); uncertainty with respect to applicable laws and regulations (including change in laws or regulations); and employee disputes. Some of these risks result in claims which CSi defends, settles or results in actual litigation that, in each case, CSi may incur legal expenses to defend.

If a transaction which CSi has entered into is determined to be unenforceable against a counterparty, there is an increased risk that other counterparties which have entered into similar transactions will seek to have those transactions set aside. This may also lead to regulatory scrutiny of such transactions, all of which could lead to significant costs for CSi, even where the outcome is determined in its favour.

→ For further information relating to legal and regulatory proceedings, refer to “*Note 40 – Guarantees and Commitments*” in notes to the consolidated financial statements in the 2019 CSi Annual Report.

6.3 Regulatory changes may adversely affect CSi's business and ability to execute its strategic plans

As a participant in the financial services industry, CSi is subject to extensive regulation by governmental agencies, supervisory authorities and self-regulatory organisations around the world. Such regulation is

increasingly extensive and complex and, in recent years, costs related to compliance with these requirements and the penalties and fines sought and imposed on the financial services industry by regulatory authorities have increased significantly and may increase further. These regulations often serve to limit activities, including through the application of increased capital, leverage and liquidity requirements, customer protection and market conduct regulations and direct or indirect restrictions on the businesses in which CSi may operate. Such limitations can have a negative effect on CSi's business. To the extent that disinvestment is required from certain businesses, losses could be incurred, as CSi may be forced to sell such businesses at a discount, which in certain instances could be substantial, as a result of both the constrained timing of such sales and the possibility that other financial institutions are liquidating similar investments at the same time. If this happens, this may have an impact on CSi's financial condition and results of operations, which could in turn lead to a decrease in the value of its securities.

→ For further information on legal and regulatory risk management, refer to "*Legal (including Regulatory) Risk*" in "*45 – Financial Risk Management – Risks Detail*" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

6.4 If CSi were to become subject to the use of "resolution" measures by a resolution authority (or pre-resolution measures), investors could lose some or all of their investment in certain securities (such as unsecured notes, warrants and certificates) issued by CSi

Under the Banking Act 2009 (the "**UK Banking Act**"), which implements the EU Bank Recovery and Resolution Directive ("**BRRD**") in the United Kingdom, the Bank of England (or, in certain circumstances, HM Treasury) has substantial powers to implement resolution measures with respect to a UK financial institution (such as CSi) if the PRA considers that (i) the relevant institution is failing or is likely to fail and action is necessary in the public interest and (ii) the Bank of England considers that the other conditions to implementing resolution measures have been satisfied.

These resolution powers include powers to:

- direct the sale of the relevant institution or the whole or part of its business and assets to a third party purchaser;
- transfer all or part of the business of the relevant institution to a "bridge bank";
- transfer the impaired or problem assets of the relevant institution to an asset management vehicle to allow them to be managed over time; and
- exercise the "bail-in" tool (as discussed below), which could result in a write down of the amount owing or conversion of the relevant security to equity.

The above tools may be used in any combination. Alternatively, as a last resort, HM Treasury is given powers, subject to meeting certain further public interest conditions, to take the relevant institution into temporary public ownership (i.e. nationalisation).

The UK Banking Act also allows the Bank of England to take certain "pre-resolution" measures, which may include mandatory write-down of regulatory capital or conversion of regulatory capital to equity prior to the implementing of any resolution measures which may have a similar effect to the use of the "bail in" tool (as described below), but would apply only to certain regulatory capital meeting certain conditions. In addition, the Bank of England may (i) modify contractual arrangements (such as the terms and conditions of securities issued by the relevant institution) in certain circumstances, (ii) suspend enforcement or termination rights that might be invoked as a result of the exercise of the resolution powers, and (iii) disapply or modify laws in the UK (with possible retrospective effect) to enable the recovery and resolution powers under the UK Banking Act to be used effectively.

The exercise of any resolution power, any pre-resolution measures or even the suggestion of their potential exercise could materially adversely affect the value of any securities issued by CSi, and could lead to holders of such securities losing some or all of their investment. Prospective investors should assume that the UK government would not provide extraordinary public financial support, or if it did, only as a last resort after the bail-in tool or other resolution tools have been utilised.

Further, notwithstanding that CSi is an unlimited company and, as a result, upon its liquidation its creditors have a right of recourse against CSi's shareholders, holders of securities issued by CSi may not be able to benefit from such recourse if CSi becomes subject to the exercise of any resolution power or pre-resolution power or if such power is exercised in a manner which prevents its liquidation (or otherwise changes the nature of the insolvency procedure to which CSi may ultimately become subject).

6.5 The exercise by the UK resolution authority of the "bail-in" tool (or pre-resolution powers to write down or convert regulatory capital) in relation to securities issued by CSi would result in the write down and/or conversion to equity of such securities

In addition to the other powers described above, the Bank of England may exercise the "bail-in" tool in relation to a failing UK financial institution. The "bail-in" tool includes the powers to:

- write down to zero (i.e. cancel) a liability or modify its terms for the purposes of reducing or deferring the liabilities of the relevant institution; and/or
- convert a liability from one form or class to another (e.g. from debt to equity).

The exercise of the "bail-in" or similar pre-resolution powers (as described above) could result in (i) the cancellation of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, any securities issued by CSi, and/or (ii) the conversion of all or a portion of the principal amount of, interest on, or any other amounts payable on, such securities into shares or other securities or other obligations of CSi or another person, and/or (iii) the amendment of the maturity of such securities or the amount of interest or any other amount payable on such securities or the date on which such interest or other amount becomes payable, including by means of a variation to the terms of the securities, in each case, to give effect to the exercise by the Bank of England of such powers.

The exercise of any resolution power, including the "bail-in" tool (or any pre-resolution powers in relation to regulatory capital), in respect of CSi and any securities issued by it or any suggestion of any such exercise could materially adversely affect the rights of the holders of such securities, the value of their investment in such securities and/or the ability of CSi to satisfy its obligations under such securities, and could lead to the holders of such securities losing some or all of their investment in such securities. In addition, even in circumstances where a claim for compensation is established under the 'no creditor worse off' safeguard in accordance with a valuation performed after the resolution action has been taken, it is unlikely that such compensation would be equivalent to the full losses incurred by the holders of such securities in the resolution, and there can be no assurance that holders of such securities would recover such compensation promptly.

6.6 Holders of securities issued by CSi may not be able to anticipate the exercise of the "bail-in" tool, any resolution power or any pre-resolution measure to reduce or convert regulatory capital

The resolution powers are intended to be exercised pre-emptively, i.e. prior to the point at which insolvency proceedings with respect to the relevant institution would be initiated, subject to certain conditions.

It is uncertain how the Bank of England would assess such conditions in different pre-insolvency scenarios affecting the relevant institution. The Bank of England is also not required to provide any advanced notice to holders of securities of the relevant institution of its decision to exercise any resolution power. Therefore, holders of the securities issued by CSi may not be able to anticipate a potential exercise of any such powers nor the potential effect of any such exercise on CSi and any such securities.

6.7 Holders of securities issued by CSi may have very limited rights to challenge the exercise of the "bail-in" tool, any resolution power or any pre-resolution measure

If CSi were to be taken into a resolution regime or subjected to pre-resolution measures, holders of securities issued by CSi would have very limited rights to challenge the exercise of powers by the Bank of England, even where such powers have resulted in the write down or conversion of such securities to equity. Additionally, such holders may have only very limited rights to have that decision judicially reviewed. Further, the Bank of England would be expected to exercise such powers without the consent of the holders of the affected securities.

7. Conduct risk

Credit Suisse defines conduct risk as the risk that improper behaviour or judgement by its employees results in negative financial, non-financial, or reputational impact to its clients, employees, the bank, and the integrity of the markets.

→ For further information on conduct risk management, refer to "viii) *Conduct Risk*" in "Note 45 – *Financial Risk Management – Risks Detail*" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

7.1 CSi may suffer losses arising from conduct issues

Credit Suisse globally defines conduct risk as the risk that improper behaviour or judgement by its employees results in negative financial, non-financial or reputational impact to its clients, employees, the bank, and the integrity of the markets. Some conduct risks are inherent in CSi's business and could negatively impact clients, employees, the market or competition. These inherent risks can arise from a variety of causes including failed processes, product design, business set-up, execution of organisational change, or as unintended consequences of business decisions. All staff across the bank are responsible for identifying operational or control incidents as they occur, including conduct risks. Controls exist to mitigate conduct risks and to prevent them from occurring.

CSi may suffer losses due to employee misconduct. CSi's businesses are exposed to risk from potential non-compliance with policies or regulations, employee misconduct or negligence or fraud, which could result in civil or criminal investigations and charges, regulatory sanctions and serious reputational or financial harm. Although it is not always possible to deter employee misconduct, CSi has controls in place to prevent and mitigate against employee misconduct and the consequences thereof.

8. Reputational risk

Reputational risk is the risk that an action, transaction, investment or event results in damages to CSi's reputation as perceived by clients, shareholders, the media and the public.

→ For further information on reputational risk management, refer to "x) *Reputational Risk*" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

8.1 Failure to manage the risks it faces may cause damage to CSi's reputation, which is a key asset, and CSi's competitive position could be harmed if its reputation is damaged

CSi acknowledges that, as a large global financial institution, with a wide range of businesses and stakeholders, it may be subject to general criticism or negative perception from time to time which may negatively impact its reputation. CSi also acknowledges that it will knowingly engage in specific activities where opinions may vary depending on the perspective and standpoint of each party, and which may lead to negative perception from some stakeholders.

Reputational risk may arise from a variety of sources, including, but not limited to, the nature or purpose of a proposed transaction, action or client relationship, the identity or nature of a potential client, the regulatory or political climate in which the business will be transacted or significant public attention surrounding the transaction itself.

In the highly competitive environment arising from globalisation and convergence in the financial services industry, a reputation for financial strength and integrity is critical to CSi's performance, including its ability to attract and retain clients and employees. CSi's reputation could be harmed if its comprehensive procedures and controls fail, or appear to fail, to address conflicts of interest, prevent employee misconduct, produce materially accurate and complete financial and other information or prevent adverse legal or regulatory actions.

Failure by CSi to manage many of the risks set out above, particularly conduct risk and regulatory and legal risk, can lead to damage to one of CSi's most valuable assets – its reputation.

9. Technology risk

Technology risk is the risk of failure or malfunction of storage, server or other technology assets impacting business operability and access to information, and leading to harm or loss.

→ For further information on technology risk management, refer to "ix) *Technology Risk*" in "Note 45 – Financial Risk Management – Risks Detail" in the notes to the consolidated financial statements in the 2019 CSi Annual Report.

9.1 CSi's business may be disrupted by technology-related failures such as service outages or information security incidents

Technology risk is inherent not only in the Group's IT assets, but also in the people and processes that interact with them including through dependency on third-party suppliers and the worldwide telecommunications infrastructure. The Group seeks to ensure that the data used to support key business processes and reporting is secure, complete, accurate, available, timely and meets appropriate quality and integrity standards. The Group requires its critical IT systems to be identified, secure, resilient and available and support its ongoing operations, decision making, communications and reporting. The Group's systems must also have the capability, capacity, scalability and adaptability to meet current and future business

objectives, the needs of its customers and regulatory and legal expectations. Failure to meet these standards and requirements may result in adverse events that could subject the Group to reputational damage, fines, litigation, regulatory sanctions, financial losses or loss of market share.

9.2 CSi is exposed to cyber risk

The Group recognises that cyber risk represents a rapidly evolving, external risk landscape. The financial industry continues to face cyber threats from a variety of actors who are driven by monetary, political and other motivations.

CSi may be compromised as a result of cyber attacks, security breaches, unauthorised access, loss or destruction of data, unavailability of service, computer viruses or other events. Any such event could subject CSi to litigation or cause CSi to suffer a financial loss, a disruption of its businesses, liability to its clients, regulatory intervention or reputational damage. CSi could also be required to expend significant additional resources to modify its protective measures or to investigate and remediate vulnerabilities or other exposures.

Information Incorporated by Reference

CSi has direct access to funding sources of the Group. After making enquiries of the Group, the Directors of the Issuer have received a confirmation that the Group will ensure that the Issuer maintains a sound financial position and is able to meet its debt obligations for the foreseeable future. In light of this the Issuer has determined that financial information relating to the Group be included in this Registration Document.

The following information filed with the CSSF is incorporated herein by reference:

General Information

1. Credit Suisse International

The Issuer, a bank domiciled in England established under English law, was incorporated in England and Wales under the Companies Act 1985, on 9 May 1990, with registered no. 2500199. The Issuer was re-registered as an unlimited company under the name "Credit Suisse Financial Products" on 6 July 1990, and was renamed "Credit Suisse First Boston International" on 27 March 2000 and "Credit Suisse International" on 16 January 2006.

The Issuer is an indirect wholly owned subsidiary of Credit Suisse Group AG. The Issuer's registered head office is in London and is located at One Cabot Square, London E14 4QJ and its telephone number is +44 (0)20 7888 8888. The Issuer's legal entity identifier (LEI) is E58DKGMJYYYYJLN8C3868.

The Issuer is authorised by the PRA and regulated by the FCA and the PRA.

The Issuer is an unlimited liability company and, as such, its shareholders have a joint, several and unlimited obligation to meet any insufficiency in the assets of the Issuer in the event of its liquidation. The joint, several and unlimited liability of the shareholders of the Issuer to meet any insufficiency in the assets of the Issuer will only apply upon liquidation of the Issuer. Therefore, prior to any liquidation of the Issuer, the creditors may only have the benefit of recourse to the assets of the Issuer and not to those of its shareholders.

The Issuer commenced business on 16 July 1990. Its principal business is banking, including the trading of derivative products linked to interest rates, foreign exchange, equities, commodities and credit. The primary objective of the Issuer is to provide comprehensive treasury and risk management derivative product services. The Issuer has established a significant presence in global derivative markets through offering a full range of derivative products and continues to develop new products in response to the needs of its customers and changes in underlying markets. The business is managed as a part of the Global Markets and Investment Banking and Capital Markets Divisions of Credit Suisse AG. For more information on Credit Suisse International's principal markets and activities, see sub-sections "Business Model", on page 9, and "Strategy", on page 9 to 11 of the 2019 CSi Annual Report.

The liquidity and capital requirements of CSi are managed as an integral part of the wider Credit Suisse framework. This includes the local regulatory liquidity and capital requirements in the UK. CSi has direct access to funding sources of the Group. After making enquiries of the Group, the Directors of the Issuer have received a confirmation that the Group will ensure that the Issuer maintains a sound financial position and is able to meet its debt obligations for the foreseeable future. For further information on the Issuer's expected financing of its business activities, please see "Capital Resources" and "Liquidity" under the heading "Performance" on page 13 of the 2019 CSi Annual Report, and the first paragraph under the heading "Information incorporated by reference into this Registration Document" on pages 13 to 18 of this Registration Document. For information on Credit Suisse AG's expected financing of its business activities, please see "III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management" and "III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management" on pages 108 to 134 in the Group Annual Report 2019. In addition, for the Bank, please see "Note 24 – Long-term debt" in "VIII – Consolidated financial statements – Credit Suisse (Bank)" on page 451 and "Note 36 – Capital adequacy" in "VIII – Consolidated financial statements – Credit Suisse (Bank)" on pages 497 and 498 of the Annual Report 2019.

2. Ratings

The credit ratings of the Issuer referred to in this Registration Document have been issued by S&P Global Ratings Europe Limited ("S&P"), Fitch Ratings Limited ("Fitch") and Moody's Deutschland GmbH ("Moody's").

The Issuer has been assigned senior unsecured long-term debt ratings of "A+" from S&P, "A" from Fitch and "A1" from Moody's.

Explanation of ratings as of the date of this document:

"A+" by S&P: An obligor rated "A" has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The modifier "+" is appended to the rating to denote the relative standing within the rating category.

"A" by Fitch: An "A" rating denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

"A1" by Moody's: Obligations rated "A" are judged to be upper-medium grade and are subject to low credit risk. The modifier "1" indicates that the obligation ranks in the higher end of its generic rating category.

Each of S&P, Fitch and Moody's is established in the European Union (the "EU") and registered under Regulation (EC) No. 1060/2009 (as amended) (the "CRA Regulation"). In general, and subject to certain exceptions (including the exception outlined below), European regulated investors are restricted from using a credit rating for regulatory purposes if such a credit rating is not issued by a credit rating agency established in the EU and registered under the CRA Regulation, unless the rating is provided by a credit rating agency operating in the EU before 7th June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused. As such, each of S&P, Fitch and Moody's is included in the list of credit rating agencies published by the European Securities and Markets Authority ("ESMA") on its website (at www.esma.europa.eu/page/List-registered-and-certified-CRAs) in accordance with the CRA Regulation.

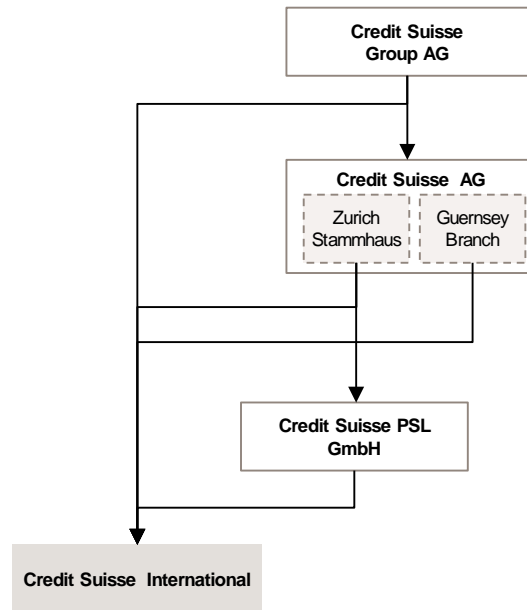

3. Organisational Structure

The subsidiaries of the Issuer which are consolidated in the financial statements contained in the 2019 CSi Annual Report are listed under sub-section "Composition of the CSi Group" on pages 129 to 133 of the 2019 CSi Annual Report. The Issuer is an indirect wholly owned subsidiary of Credit Suisse Group AG. For information on the Issuer's relationship to Credit Suisse Group AG, see page 9 of the 2019 CSi Annual Report.

4. Major Shareholders

The shareholders of the Issuer are:

- i. Credit Suisse Group AG, whose head office is at Paradeplatz 8, CH-8001 Zürich, Switzerland, and who is the ultimate parent of the consolidated Credit Suisse Group which includes Credit Suisse AG;
- ii. Credit Suisse AG, a Swiss bank and a leading global bank acting through its registered head office at Paradeplatz 8, CH-8001 Zürich, Switzerland (Zurich Stammhaus) which provides its clients with private banking, investment banking and asset management services worldwide;
- iii. Credit Suisse AG, Guernsey Branch, whose place of business is at Helvetia Court, Les Echelons, South Esplanade, St Peter Port GY1 3ZQ, Guernsey was established as a Branch of Credit Suisse AG on 1 April 1986 and whose principal activities are deposit taking, bond issuing and lending the funds received within the Credit Suisse Group; and
- iv. Credit Suisse PSL GmbH, whose registered office is c/o Credit Suisse AG, Paradeplatz 8, 8001 Zürich, Switzerland and was incorporated in Zürich, Switzerland on 29 September 2009 and whose principal activity is to finance, purchase, hold, manage and sell financial participations in other Credit Suisse Group companies.

There is trading of shares in the Issuer between these shareholders and therefore the respective shareholdings will change from time to time, although the Issuer will remain an indirect wholly owned subsidiary of Credit Suisse Group AG.

5. Change

There has been no significant change in the financial position of CSi since 31 December 2019.

There has been no material adverse change in the prospects of CSi since 31 December 2019.

There has been no significant change in the financial performance of CSi since 31 December 2019 to date of this Registration Document.

Please see pages 18 to 20 of the 2019 CSi Annual Report, and the "*Risk Factors*" section of this Registration Document (pages 3 to 12) that together disclose the principal risks to the Issuer.

6. Names and Addresses of Directors and Executives

The business address of the members of the Board of Directors is One Cabot Square, London E14 4QJ.

Mr Michael Dilorio stepped down from the Board of Directors on 11 May 2020, and his resignation is effective from the same date.

Accordingly, the current members of the Board of Directors, their role within the Issuer and their principal activities outside the Issuer, if any, are as follows:

Board Member	External Activities
John Devine (Non-Executive Chair)	<ul style="list-style-type: none"> ○ Independent member and Chair of the Board of Directors, Chair of the Nomination Committee, Interim Chair of the Risk Committee and Member of the Conflicts Committee of the Issuer and Credit Suisse Securities (Europe) Limited. ○ Mr. Devine is also <ul style="list-style-type: none"> ▪ Non-Executive Director, Chair of Audit Committee, Member of Risk Committee, and Remuneration Committee and Member of Nominations Committee of Standard Life Aberdeen PLC; and

	<ul style="list-style-type: none"> ▪ Non-Executive Director, Chair of Audit Committee, Member of Risk Committee and Nominations Committee of Citco Custody (UK) Ltd and Citco Custody Holding Ltd Malta.

Pages 1 to 7 of the 2019 CSi Annual Report provide further information on the Issuer's Board of Directors.

7. Directors' Conflicts of Interest

There are no potential conflicts of interest of the members of the Board of Directors between their duties to the Issuer and their private interests and/or other duties. Potential conflicts of interest of members of the Board of Directors due to roles held with Credit Suisse Group AG / Credit Suisse AG are managed by a Board Conflicts Committee and Conflicts Management Framework.

8. Legal and Arbitration Proceedings

During the period of 12 months ending on the date of this Registration Document, there have been no governmental, legal or arbitration proceedings which may have, or have had in the recent past, significant effects on the financial position or profitability of CSi, and the Issuer is not aware of any such proceedings being either pending or threatened, except as disclosed in the 2019 CSi Annual Report under the heading

“Contingent Liabilities and Other Commitments” (Note 40 to the consolidated financial statements of CSi) on pages 127 to 128.

Provision for litigation is disclosed in Note 29 to the consolidated financial statements on page 94 of the CSi 2019 Annual Report.

9. Statutory Auditors

The Issuer's auditor is PricewaterhouseCoopers LLP, 1 Embankment Place, London, WC2N 6RH. PricewaterhouseCoopers LLP is registered to carry out audit work by the Institute of Chartered Accountants in England and Wales.

At the Annual General Meeting of the Group on 30 April 2020, shareholders voted to accept the Board's proposal to have the independent registered public accounting firm PricewaterhouseCoopers AG (PwC) Birchstrasse 160, CH-8050 Zurich, Switzerland to succeed KPMG AG (KPMG), Raffelstrasse 28, CH-8045 Zurich, Switzerland, as the Group's new external auditor. KPMG is registered with the Swiss Expert Association for Audit, Tax and Fiduciary.

The Board and shareholders of the Issuer have appointed PwC as the new statutory auditor for the Issuer, effective for the fiscal year ending 31 December 2020.

Further information on the Issuer's auditor may be found on page 40 of the 2019 CSi Annual Report.

10. Additional information; Documents on Display

For the term of this Registration Document, the current Articles of Association of the Issuer may be inspected in physical or electronic format at One Cabot Square, London E14 4QJ. Information on the Issuer's objects can be found at Article 5.1 of its Articles of Association. This document is also available on the Credit Suisse website at <https://www.credit-suisse.com/media/assets/investment-banking/docs/financial-regulatory/international/csi-articles-of-association.pdf>.

For information on the Issuer's share capital, see “Share Capital and Share Premium” (note 33 to the consolidated financial statements) on page 98 of the 2019 CSi Annual Report.

11. Responsibility Statements

The Issuer takes responsibility for this Registration Document. To the best knowledge of the Issuer, the information contained in this Registration Document is in accordance with the facts and the Registration Document makes no omission likely to affect its import.

The information contained in this Registration Document relating to the shareholders of the Issuer on pages 20 to 21 and the information incorporated by reference at points 3, 4, 5, 6, 7, 8 and 9 on page 13 under the section entitled **Information incorporated by reference into this Registration Document**, was provided to the Issuer by its shareholders. It is confirmed that such information has been accurately reproduced, and as far as the Issuer is aware and is able to ascertain from information published by the shareholders, no facts have been omitted which would render the reproduced information inaccurate or misleading.

**APPENDIX 1 – INFORMATION FOR THE PURPOSES OF ART. 26(4) OF THE REGULATION (EU)
2017/1129**

[Binding English language version:]

KEY INFORMATION ON THE ISSUER		
Who is the Issuer of the Securities?		
Domicile and legal form, law under which the Issuer operates and country of incorporation		
CSi is incorporated under English law as an unlimited liability company domiciled in England and Wales and which operates under English law. Its Legal Entity Identifier (LEI) is E58DKGMJYYYJLN8C3868.		
Issuer's principal activities		
The principal activities of CSi are banking, including the trading of derivative products linked to interest rates, foreign exchange, equities, commodities and credit.		
Major shareholders, including whether it is directly or indirectly owned or controlled and by whom		
CSi is an indirect wholly owned subsidiary of Credit Suisse Group AG.		
Key managing directors		
Board of Directors:		
<ul style="list-style-type: none"> • John Devine, Non-Executive Chair • Paul Ingram • Christopher Horne • Alison Halsey • David Mathers 	<ul style="list-style-type: none"> • Caroline Waddington • Jonathan Moore • Andreas Gottschling • Nicola Kane • Debra Jane Davies 	
Statutory auditors		
PricewaterhouseCoopers LLP, 1 Embankment Place, London, WC2N 6RH.		
What is the key financial information regarding the Issuer?		
CSi derived the key financial information included in the tables below as of and for the years ended 31 December 2019 and 2018 from the CSi Annual Report 2019.		
CSi consolidated statement of income		
(USD million)	Year ended 31 December 2019 (audited)	Year ended 31 December 2018 (audited)¹
Net interest income	162	215
Commission and fee income	336	489
Allowance for credit losses	(4)	(7)
Net gains/(losses) from financial assets/liabilities at fair value through profit or loss	1,271	1,004
Net revenues	1,919	1,875
Net profit attributable to Credit Suisse International shareholders	336	59
CSi consolidated statement of financial position		
(USD million)	Year ended 31 December 2019 (audited)	Year ended 31 December 2018 (audited)
Total assets	233,678	231,753
Borrowings	14,116	19,555
Debt in issuance – Senior	13,601	10,652
Debt in issuance – Subordinated	408	1,494
Net loans	3,103	3,512
Deposits	435	1,028
Total shareholders' equity	22,786	22,660
What are the key risks that are specific to the Issuer?		
The Issuer is subject to the following key risks:		
1. Liquidity risk arising from potential inability to borrow or access the capital markets on suitably favourable terms or to sell its assets. This may also arise from increased liquidity costs.		

¹ 2018 numbers have been restated to disclose the impact of discontinued operations. Details are included in CSi's financial statements for the year ended 31 December 2019 at Note 31 – Discontinued Operations and Assets and Liabilities Held for Sale.

2. The Issuer may suffer significant losses from its credit exposures, which exist across a wide range of transactions and counterparties and may be exacerbated by adverse market conditions (including the impact of COVID-19), increased volatility in certain markets or instruments or disruption in the liquidity or transparency of financial markets. In addition, disruptions in the liquidity or transparency of the financial markets may result in the Issuer's inability to sell, syndicate or realise the value of its positions, thereby leading to increased concentrations. Any inability to reduce these positions may not only increase the market and credit risks associated with such positions, but also increase the level of risk-weighted assets on the Issuer's balance sheet, thereby increasing its capital requirements, all of which could adversely affect its businesses. Default or concerns of default by one or more large financial institutions could negatively impact the Issuer's business and the financial market generally, and the Issuer's credit risk exposure will increase if the collateral it holds cannot be realised at prices sufficient to cover the full amount of the exposure.
3. Market fluctuations, volatility relating to the Issuer's trading and investment activities (against which its hedging strategies may not prove effective), uncertainties regarding the possible discontinuation of benchmark rates and adverse economic conditions may impact the Issuer's financial condition and results of operations. The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains and economic activity, and the market has entered a period of significantly increased volatility. The spread of COVID-19 is currently having an adverse impact on the global economy, the severity and duration of which is difficult to predict. This has adversely affected, and may continue to adversely affect, the Issuer's business, operations and financial performance. This impact is likely to continue and to affect the Issuer's credit loss estimates, mark-to-market losses, trading revenues and net interest income, as well as the Issuer's ability to successfully realise its strategic objectives. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or adversely affects the Issuer's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein, or may pose other risks which are not presently known to the Issuer or not currently expected to be significant to its business, operations or financial performance. The Issuer is closely monitoring the potential adverse effects and impact on its operations, businesses and financial performance, including liquidity and capital usage, though the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation. The Issuer's financial position and cash flows are exposed to foreign currency exchange fluctuations, and this and other market risks could exacerbate other risks to which the Issuer is exposed.
4. The Issuer is exposed to risks from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates, including ongoing uncertainty over the outcome of the negotiations surrounding the withdrawal of the UK from the European Union, following which the Issuer may not be able to transact legally with the European Union. An element of the strategy of Credit Suisse Group AG and its consolidated subsidiaries is to increase its private banking businesses in emerging market countries. The Issuer's implementation of this strategy will increase its exposure to economic instability in those countries, which could result in significant losses.
5. The Issuer's existing risk management procedures and policies may not always be effective, particularly in highly volatile markets, and may not fully mitigate its risk exposure in all markets or against all types of risk. Moreover, the Issuer's actual results may differ materially from its estimates and valuations, which are based on judgment and available information and rely on predictive models and processes. The same is true of the Issuer's accounting treatment of off-balance sheet entities, including special purpose entities, which requires it to exercise significant management judgment in applying accounting standards; these standards (and their interpretation) have changed and may continue to change.
6. The Issuer's exposure to legal risks is significant and difficult to predict and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which the Issuer operates. If the Issuer fails to manage these risks effectively, this could lead to a decrease in the value of its securities. Regulations applicable to the Issuer (as well as regulations and changes in enforcement practices applicable to its clients) may adversely affect its business and ability to execute its strategic plans. In addition, the applicable resolution and bail-in legislation (including the EU Bank Recovery and Resolution Directive) may affect the Issuer's security holders, who would have very limited rights to challenge the exercise of the bail-in tool, any resolution power or any pre-resolution measure.
7. The Issuer is exposed to the risk that improper behaviour or judgement, misconduct, or non-compliance with policies or regulations by the Issuer's employees results in negative financial, non-financial or reputational impacts on its clients, employees, the Issuer and the financial markets. In addition, the Issuer's position in the highly competitive financial services industry could be harmed by damage to its reputation arising from the factors mentioned above or failures of the Issuer's procedures and controls.
8. The Issuer's business may be disrupted by technology-related failures such as service outages or information security incidents, and the Issuer could be compromised by cyber incidents.
