1. GENERAL DESCRIPTION OF THE OFFERING PROGRAMME

Under the programme, Société Générale Effekten GmbH (the "**Issuer**") may, in its sole discretion, publicly offer and/or list on a regulated market in the European Economic Area the TURBO Warrants and Unlimited TURBO Warrants described in this Securities Note (the "**Securities**").

General information on this Securities Note can be found in section 3.

1.1. Overview of the Issuer

The Issuer is a limited liability company established under German law with its registered office in Frankfurt am Main, Federal Republic of Germany. The business address is: Neue Mainzer Straße 46-50, 60311 Frankfurt am Main, Federal Republic of Germany.

The Issuer is a wholly owned subsidiary of Société Générale Frankfurt, Federal Republic of Germany, which is a branch of Société Générale, Paris, French Republic.

The Issuer's legal entity identifier (LEI) is 529900W18LQJJN6SJ336.

Further information on the Issuer and specific risks related to the Issuer can be found in the Registration Document.

1.2. Overview of the Guarantor

The Securities are unconditionally and irrevocably guaranteed by Société Générale, Paris, French Republic (the "Guarantor") in accordance with the guarantee issued as of 5 December 2024 (the "Guarantee"). The Guarantor is a public limited company (*société anonyme*) under French law and has the status of a bank. The registered office of the Guarantor is 29 boulevard Haussmann, 75009 Paris, French Republic, and the administrative office is 7 cours Valmy, 92972 Paris-La Défense, French Republic.

The Guarantor's legal entity identifier (LEI) is O2RNE8IBXP4R0TD8PU41.

Further information on the Guarantor can be found in particular in section 4.2. Specific risks relating to the Guarantor can be found in section 2.1.

For more information about the Guarantee, see section 4.1.

1.3. Overview of the Securities

The Securities are bearer bonds under German law within the meaning of § 793 of the German Civil Code (*BGB*).

The Securities grant the investor, subject to the occurrence of a particular event, the right to require the Issuer to pay a Redemption Amount when exercising.

In this context, the payment or occurrence of certain events depends to a large extent on an underlying to which the Securities relate. Under this programme, the following assets are considered as underlyings: shares, ETF shares, indices, precious metals, futures contracts and currency exchange rates.

The Securities differ in their structure and functioning. In this context, the following product types are covered:

TURBO Warrants

- Classic;
- X-Classic; or
- Stop-Loss.

TURBO Warrant could be issued with type CALL or PUT.

Unlimited TURBO Warrants and Unlimited TURBO Warrants:

- BEST;
- X-BEST: or
- Not BEST
 - Standard;
 - o SMART

Unlimited TURBO Warrant could be issued with type CALL or PUT.

Although each type of product has special features in its structure, all Securities have in common that with the occurrence of a barrier event (Knock-out Event), the Securities expire. If there is no Knock-out Event, but the exercise of the Securities (by the investor or automatically), the Redemption Amount depends on the Reference Price of the Underlying on the Valuation Date specified in the terms and conditions. Depending on the performance of the underlying, an investor may lose all or part of its invested Capital Amount. The amount of the Redemption Amount depends to a large extent on the value of the underlying.

The occurrence of certain events may result in an early termination of the Security and a total loss to the investor.

There is no interest on the Securities. In any case, the Securities will be paid out in cash. There is no physical delivery of the Underlying.

The conditions applicable to a Security on a case-by-case basis shall be determined by the Issuer in the Final Terms of the Securities.

Further information on the Securities can be found in section 5. and, specifically, on their functioning, in section 6. Specific risks related to the securities can be found in section 2.2.

An investment in these Securities is only suitable for investors if they are familiar with the nature of those Securities. Interested investors should be aware of all the risks associated with the purchase of the Securities. Investors should therefore have sufficient knowledge and/or experience with the Securities, their functioning and dependence on the Underlying.

1.4. Overview of the Offer and Trading

The Securities issued by the Issuer will be underwritten by Société Générale ("**Offeror**") on the basis of a general underwriting agreement. The Offeror will offer the Securities to potential investors.

For the Securities, admission to trading on a regulated market and/or a multilateral trading facility within the European Economic Area may be applied for. However, the Securities may also be offered without being admitted to trading.

Further information on the offer can be found in particular in section 5.7.; more information on trading the Securities can be found in section 5.8.

2. RISK FACTORS

The following section is divided into risk factors related to the Guarantor (section 2.1.) and risks arising from the nature of the Securities (section 2.2.). Each of these sections lists the risk factors in categories and subcategories.

The Issuer assessed each risk taking into account the negative effects and the likelihood of occurrence and used this assessment as a measure of the materiality of the risks.

The two most important risks for each category are highlighted by a grey frame. The risk factors listed below in a category are not listed according to their materiality.

The measure of the materiality of the risks in relation to the Guarantor is set out in the Registration Document of the Guarantor incorporated by reference into this Securities Note. For the risks associated with the Security, materiality depends to a large extent on the parameters set out in the Final Terms. Examples of such parameters are the Underlying, the Strike, the Ratio, the Exercise Date, and the Knock-out Barrier. These parameters determine both the probability of occurrence of a particular event and the associated risk, as well as the extent of the impact on the security upon occurrence of the risk. In each case, the Issuer makes a statement below, which puts the probability of occurrence in relation to possible effects. The probability of occurrence is compared to the respective risk event in the individual risk factors (e.g., the greater... the more likely it is). The impact of the occurrence of the described risk is then assessed by the Issuer, for example, by describing a possible partial or even total loss of the capital amount used by the investor or an expiration of the Security.

The risks described below may occur individually or together. They can mutually reinforce their effects.

Important Note: Both here and in the following sections, the "Capital Amount" (purchase price) paid for the purchase includes all other costs associated with the purchase.

2.1. Risk Factors relating to the Guarantee

The risks relating to the Guarantor are incorporated by reference and forms part of this Securities Note (see section "3.7.1. Guarantor"). The risks may affect the Guarantor 's ability to meet its obligations under the Guarantee to the Securityholders.

2.2. Risks arising from the nature of the Securities

2.2.1. Risks relating directly to the structure of the Securities

This section sets out the specific risks associated with the purchase of Securities.

A feature common to all of the Securities issued under this Securities Note is that the Securityholder may incur a **total loss** of the purchase price paid. The Securityholders of all Securities also bear the **risk of loss**, because the Securities are **not capital-protected** and do **not provide for a minimum repayment**.

The risks presented in section (a) Risks to TURBO Warrants below apply to all Securities. The additional risks associated with Unlimited TURBO Warrants are listed separately in section (b) Risks for Unlimited TURBO Warrants.

(a) Risks in the case of TURBO Warrants

(aa) Worthless expiration of TURBO Warrants

(1) On the Exercise Date

In the case of a TURBO Warrant (**CALL**), if the Reference Price of the Underlying on the Exercise Date is **equal to or below** the Strike, the warrant will expire **worthless**. In the case of a TURBO Warrant (**PUT**), if the Reference Price of the Underlying on the Exercise Date is **equal to or above** the Strike,

the warrant will expire **worthless**. The closer the Reference Price to the Strike, the higher the probability of such an expiration.

(2) During the term

Additionally, Securityholders bear a substantial risk that their TURBO Warrants will **expire** prior to the end of their term. This will be the case **immediately upon the occurrence of a Knock-out Event**. The Securityholder will then receive **no payment** (variant Classic and X-Classic) or **no or only a small payment** (variant Stop-Loss). The Capital Amount paid by the Securityholder for the TURBO Warrant will be lost. The Securityholder will suffer a **total loss or almost a total loss**. The closer the price of the Underlying to the Knock-out Barrier, the more likely such a loss will occur.

(3) Special case with Underlying Share, ETF Share or Share Index!

In the case of TURBO Warrants with Shares as the Underlying, the Securityholder bears the separate risk of an expiration: In many cases, dividend payments result in the gross dividend being deducted from the quoted price of the Share. If the share price is close to the Knock-out Barrier, the deduction from the quoted price may trigger a Knock-out Event. This may also occur in the case of an ETF Share or a share index.

(bb) Special risks relating to the pricing of TURBO Warrants

There is a **risk of disproportionate price losses** in the case of TURBO Warrants if the following condition is met: The price of the Underlying is close to the Strike. The closer the price of the Underlying is to the Strike, the greater the leverage and the **higher** the **probability** of a Knock-out Event occurring. The consequence of this is: The **greater the leverage** of a TURBO Warrant, the **greater the risk of a total loss** or an almost total loss.

(cc) Risks relating to the exercise of TURBO Warrants

In the case of TURBO Warrants (European exercise), the Securityholder **cannot** exercise the TURBO Warrants during their term. During this period, the value of the TURBO Warrants can only be realised by selling the TURBO Warrants. Market participants must be found who are prepared to purchase the TURBO Warrants at an appropriate price. The lower the achievable selling price, the greater the loss for the investor.

(dd) Risks of a threatening Knock-out Event

A Knock-out Event may occur on the basis of prices of the Underlying determined during the trading hours other than the trading hours of the TURBO Warrants. In this case, there is a risk that the Securityholder may be unaware that a Knock-out Event is imminent or may not become aware in good time. Possible consequence: The Securityholder may be unable to sell his TURBO Warrants in good time and may have to accept the **total loss or almost the total loss** of the Capital Amount.

The same applies, if the price determination for the Underlying is (temporarily) suspended. After price determination recommences, the price of the Underlying is below or above, as applicable, the Knock-out Barrier and a Knock-out Event has therefore occurred. In these circumstances, Securityholders will be unable to sell their TURBO Warrants prior to the occurrence of the imminent Knock-out Event. The more likely a Knock-out Event occurs, the more likely a total loss is.

(ee) Limitation of term for TURBO Warrants (CALL) on U.S. shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The Terms and Conditions may provide that, if the company which issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, and the Business Day prior to the ex-dividend date or the dividend record date falls into the term of the TURBO Warrant (CALL), the term of the Security shall automatically end early. In this case, the Exercise Date is the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The monetary amount paid in these circumstances may be lower than the amount that the Securityholders would have received at the end of the prescribed term. Investors should also note that

early redemption due to a dividend payment will take place at a time that is unfavourable from the point of view of the holders of the Securities, because the holders will be expecting a further increase in the price of the Securities precisely at that time. This risk depends on the probability of the occurrence of an ex-day or dividend cut-off date during the term of the TURBO Warrant (CALL). The amount of an investor's loss is essentially dependent on the price of the Underlying.

(ff) TURBO Warrants on indices with reference to the final settlement price

(1) On the Exercise Date

Investors should note that in the case of TURBO Warrants based on indices, it may be specified in the Terms and Conditions that the determination of the Redemption Amount does not depend on the closing price of the index but is based exclusively on the final settlement price defined in the Final Terms (e.g., in the case of DAX, the Eurex final settlement price for options on DAX). A possibly higher (type CALL) or lower (type PUT) closing price of the respective index on the Valuation Date compared to the respective settlement price is not taken into account for the determination of the Redemption Amount. This can lead to **losses** for the investor.

(2) During the term

In this variant a Knock-out Event also occurs if the Reference Price on the Valuation Date is equal to or below (type CALL) or above (type PUT) the Knock-out Barrier. The Capital Amount paid by the Securityholder for the TURBO Warrant will be lost. The Securityholder will suffer a total loss or almost a total loss. The closer the Reference Price of the Underlying on the Valuation Date to the Knock-out Barrier, the more likely such a loss will occur.

(b) Risks in the case of Unlimited TURBO Warrants

(aa) Risks relating to a missing term

(1) Occurrence of a Knock-out Event between the Exercise Dates

Unlimited TURBO Warrants have the special feature that the warrants may only be exercised on **specific dates**. The particular implication of this is that if Securityholders miss that date, they must wait until the next date for exercise. They then bear the risk that the warrant will expire worthless in the meantime due to a Knock-out Event.

(2) Realisation of the financial value of the Unlimited TURBO Warrants by sale

Additional risks arise from the fact that the Unlimited TURBO Warrants do not have a limited term. Securityholders must therefore sell their Unlimited TURBO Warrants in order to realise their financial value. This involves bearing the risk of an unexpected Knock-out Event resulting in a **total loss or an almost total loss** of the purchase price paid. Again, the closer the price of the Underlying is to the Knock-out Barrier, the more likely such a loss is to occur.

(bb) Risks relating to the adjustment of the Strike

Risks arise for the Securityholder from the fact that the Strike of the Unlimited TURBO Warrants is adjusted on each calendar day by the Adjustment Amount. The calculation of the Adjustment Amount depends on the Reference Interest Rate chosen by the Calculation Agent and the Risk Premium determined by the Calculation Agent; Unlimited TURBO Warrants with Futures Contracts as Underlying have the special feature that the calculation of the Adjustment Amount is based solely on the Risk Premium.

Securityholders bear the risk that the Issuer's refinancing costs and therefore the Reference Interest Rate may rise. They also bear the risk that the Issuer may calculate a higher Risk Premium to compensate for its risk.

If the Reference Interest Rate and/or the Risk Premium change on any day (in the case of a daily determination of the Adjustment Amount) or an Adjustment Date (in the case of a monthly determination of the Adjustment Amount), this will affect the Adjustment Amount. The resulting risks are shown in the

following examples, in which it is assumed for the purposes of illustration that the value of the Underlying changes but that all other factors affecting the price of the Unlimited TURBO Warrant remain unchanged:

- Unlimited TURBO Warrants (CALL): The Securityholder bears the risk that the Reference Interest Rate and/or the Risk Premium may rise. This will lead to an increase in the Adjustment Percentage and consequently in the Adjustment Amount. As a result, there will be a greater increase in the Strike when each daily adjustment is made. The consequence of this, in turn, is that there will be a greater decrease in the price of the Unlimited TURBO Warrant (CALL) when each daily adjustment is made.
- Unlimited TURBO Warrants (PUT): The Securityholder bears the risk that the Reference Interest Rate decreases and/or the Risk Premium may rise. This will lead to an increase in the Adjustment Percentage, which is preceded by a negative sign. The negative Adjustment Amount will therefore be greater. As a result, there will be a greater decrease in the Strike when each daily adjustment is made. The consequence of this, in turn, is that there will be a greater decrease in the price of each Unlimited TURBO Warrant (PUT) when the daily adjustment is made.
- Knock-out Barrier equal to Strike (BEST and X-BEST): The Securityholder bears the risk that a Knock-out Event is triggered by the daily adjustment of the Strike and therefore of the Knock-out Barrier. This is because the adjustment of the Strike can lead to a reduction in the gap between the Strike and the current price of the Underlying. The closer the Underlying price is to the Knock-out Barrier, the more likely such a loss will occur.
- Knock-out Barrier above/below the Strike (**Not BEST**): The daily adjustment of the Strike makes it necessary to adjust the Knock-out Barrier. If the Strike, Knock-out Barrier and current price of the Underlying are already close to each other, the Securityholder bears the risk that the adjustment will trigger a Knock-out Event. The closer the Underlying price is to the Knock-out Barrier, the more likely such a loss will occur.
- (cc) Limitation of term for Unlimited TURBO Warrants (CALL) on U.S. shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The terms and conditions may provide that, if the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, the term of the Security automatically ends prematurely. In this case, the Exercise Date will be the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The monetary amount paid in these circumstances may be lower than the amount that the Securityholders would have received upon exercise. Investors should also note that early redemption due to a dividend payment will take place at a time that is unfavourable from the point of view of the Securityholders, because they will be expecting a further increase in the price of the Securities precisely at that time. This risk depends on the probability of the occurrence of an ex-day or dividend cut-off date during the term of the Unlimited TURBO Warrant (CALL). The amount of an investor's loss is essentially dependent on the price of the Underlying.

Investors also face the risk that it may only be possible to invest the amounts they receive in the event of early expiry at a return which is lower than the anticipated return from the Securities redeemed early.

(dd) Knock-out Barrier close to the Strike in the case of Unlimited TURBO-Warrants Not BEST

There is a special feature in the variant **Not BEST**: The Knock-out Barrier is above (Unlimited TURBO Warrant (CALL)) or below (Unlimited TURBO Warrant (PUT)) the respective Strike. If and upon the occurrence of a Knock-out Event, the Securityholder receives **no or only a small payment**. The purchase price paid for the Unlimited TURBO Warrant is lost. In financial terms the Securityholder is faced with a **total loss or an almost total loss**.

2.2.2. Exchange rate risks in connection with the Securities

(a) Impairment of the Security due to exchange rate changes

Securityholders may face currency risks if the price or Underlying is expressed in a different currency than the Issue Currency and the amounts payable has to be converted into the Issue Currency on an exchange rate which is not already predetermined at issue (non quanto). Exchange rates are determined by supply and demand on the international foreign exchange markets. Exchange rates are affected by general economic factors, speculative activity and actions by governments and central banks. These may even include legal controls and restrictions on foreign exchange transactions. Exchange rates are therefore subject to significant fluctuations. Securityholders bear the risk, where applicable, that unfavourable developments on the foreign exchange market may reduce the value of the Securities and increase the **risk of loss** for the investor.

(b) Impairment of the price of the Underlying due to exchange rate changes

Securityholders may also be exposed to currency risks if the price of the Underlying is expressed in a currency ("Foreign Currency") other than the Issue Currency and then converted into the Issue Currency. Thus, the Reference Price is subject not only to the price risk of the Underlying, but also to exchange rate risk. Thus, an unfavourable performance of the Foreign Currency against the Issue Currency could cancel out a positive performance of the Underlying. Result: Although the price of the Underlying in the Foreign Currency has risen, the value of the price of the Underlying in the Issue Currency decreases and thus also the value of the Security due to an unfavourable development on the foreign exchange market. The more negative the currency ratio develops, the greater the investor's loss (assuming that the Underlying does not change in the exchange rate in Foreign Currency). This can lead to losses up to total losses at the investor.

2.2.3. Risks arising from the Underlying to which the Securities are linked

The performance of the Securities depends to a large degree on the expected and actual performance of the Underlying.

The link to an Underlying entails risks that may have an adverse effect on the value of the Securities. In particular, the choice of Underlying by the Issuer is not based on its estimates of the future performance of the Underlying selected.

(a) Risk of fluctuations in the value of the Underlying

(aa) Dependence of payments under the security on the Underlying

Securityholders are affected by fluctuations in the value of the Underlying. These may have an adverse impact on the value of the Securities.

If investors purchase a Security with an Underlying, they also bear the risks associated with the Underlying as Securityholders. In particular, they bear the risk of fluctuations in the value of the Underlying. The fluctuations in the value of the Underlying depend on a variety of factors: Corporate actions or economic events relating to the business of the Underlying (e.g., deterioration of the results of a public corporation (*Aktiengesellschaft*)), general economic factors and speculative activities. It is therefore not possible to make reliable statements about the future performance of the Underlying for the Securities. In particular, the performance of an Underlying in the past does not represent a guarantee of its future performance. The selection of an Underlying is not based on the expectations or estimates of the Issuer with respect to the future performance of the Underlying selected. Securityholders are therefore not able to predict in advance the repayment for the Securities that they can expect in the future

If the value of the Underlying has fallen (type CALL) or even if it has risen (type PUT), Securityholders may suffer substantial losses (up to a **total loss**) on the repayment of the Securities or the early termination of the Securities.

(bb) Dependence of the value of the security on the underlying (in the case of a sale)

The same applies to sales of the Securities. The critical factor in this case is the value of the Underlying at the time of sale. If the value of the Underlying has fallen (type CALL) or risen (type PUT) between the purchase and sale of the warrants, the Securityholders may incur a significant loss. If the Underlying is worthless on the sale of the Security, the Securityholders of a CALL warrant may even suffer a **total loss** or an almost total loss.

(cc) Risks relating to limited information with respect to the Underlying

Information about the Underlying may not be publicly available or available only to a limited extent. Securityholders may therefore have no access or only limited access to detailed information about the respective Underlying. This may apply to the current price of the Underlying as well as the past and future performance of the Underlying and of its volatility. Due to such a lack of information, investor may be able to anticipate negative developments too late or not at all. The less information an investor has about an Underlying, the higher the probability that that risk can arise. For Securityholders, this can lead to a **total or partial loss** of the Capital Amount invested.

(b) Risks relating to Shares as the Underlying

(aa) Dependence on the company's share price

If investors invest in Securities with a Share as the Underlying, they bear similar risks as in the case of a direct investment in that Share.

These include risks arising from the fluctuations in the company's share price. This includes the risk of the company becoming insolvent and of insolvency proceedings or a similar proceeding according to the applicable law of the company, being initiated with respect to the company's assets. The risk exists for the Securityholders in all cases that the relevant share may become **worthless** as the Underlying of their Security, thereby realising the risks presented in section 2.2.1. resulting from the nature of the security. The Securityholders of a Security with type CALL will then suffer a **total loss**.

(bb) Lower level of legal stability in the country of the registered office of the company

Additional risks apply to shares of companies with a registered office or business activity in countries with a low level of legal stability. The risk could consist, for example, of governments taking unpredictable measures or of nationalisation. This could result in a total or partial loss of the value of the share. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.

(cc) Volatility and Illiquidity of the Share

Shares of companies with a low to medium market capitalisation may be subject to greater risks than the shares of larger companies. Such risks relate in particular to the volatility of the shares and the possible insolvency of the companies. In addition, shares of companies with a low market capitalisation may be highly illiquid due to low trading volumes. This volatility and illiquidity may have a negative impact on the share price and therefore the risks associated with the securities and shown in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(dd) Adjustment measures in the case of Shares

Securities with a share as the Underlying are also subject to adjustment measures, that may arise as a result of events relating to the company issuing the shares. Such adjustment measures become necessary in the event of corporate actions (e.g., capital increases) by the company concerned. The possibility cannot be ruled out that an adjustment measure may subsequently prove to be inappropriate or disadvantageous for the Securityholders. It may also be the case that an adjustment measure places a Securityholder in a worse financial position than before the adjustment measure was carried out. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ee) Shares in the form of depositary receipts

If the Underlying consists of depositary receipts rather than shares (e.g., American depositary receipts ("ADRs") or global depositary receipts ("GDRs"), referred to together as "Depositary Receipts"), additional risks may arise. Each Depositary Receipt represents one or more shares or a fraction of a security of a foreign company. For Depositary Receipt, the legal owner of the underlying shares is the depositary bank of the Depositary Receipts, which also acts as the issuing agent.

In the event of the insolvency of the depositary bank and/or the initiation of enforcement proceedings with respect to it, the underlying shares in question may be subject to restrictions on their disposal and/or their economic value may be realised in connection with enforcement measures against the depositary bank. This means that the Depositary Receipt will lose its value as an Underlying and the Securities linked to the Depositary Receipt could become worthless. The investor will be faced with a risk of **total loss** in such a scenario.

(c) Risks relating to ETF Shares as the Underlying

(aa) Dependence on the performance of an index, basket or specific individual assets

The purpose of an index-based ETF (Exchange Traded Fund) is to replicate the performance of an index, a basket or specific individual assets as closely as possible. The value of the ETF therefore depends in particular on the price performance of the individual index or basket constituents or of the individual asset. If the ETF or the index, basket or specific individual asset underlying the ETF falls in value, there is therefore, in the case of type CALL, the risk of an unlimited fall in the price of the ETF, which may have an adverse effect on the value of the Securities. If the ETF or the index, basket or specific individual asset underlying the ETF rises in value, there is therefore, in the case of type PUT, the risk of an unlimited rise in the price of the ETF, which may have an adverse effect on the value of the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.

(bb) Use of derivative financial instruments

Index-based ETFs whose performance is linked to an index or basket will normally invest in securities that are not included in the index or basket. In addition, derivative financial instruments and techniques are used in order to link the value of the ETF Share to the performance of the index or basket. The use of these derivative financial instruments and techniques involves risks for the ETF which may be greater in certain cases than the risks of traditional forms of investment. The ETF may also incur losses due to the default of the counterparty in a transaction involving the use of derivatives, e.g., in the case of OTC swap transactions. This may then negatively affect the value of the ETF Share and thus on the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This may result in a **loss** in relation to the Securities.

(cc) Liquidation risks for collateral provided

The statutory and regulatory provisions apply to collateral provided by counterparties to the investment company for index-based ETFs in connection with securities lending, repurchase and OTC transactions for the purpose of minimising the risk of counterparty default. However, the possibility cannot be ruled out that individual items of collateral may be worthless when the liquidation event occurs or may lose all of their value by the date of liquidation. Consequently, the risks identified in section 2.2.1. may be more likely to occur. To that extent, there is a risk that the ETF Share may lose all of its value and therefore a risk of **total loss** in respect of the Securities.

(dd) Risk of replacement of the index

In certain circumstances (e.g., there are no exchange prices available for the components), the calculation or publication of the index replicated by the index-based ETF or basket may be suspended or even discontinued. Furthermore, the index constituents or basket constituents may be changed, or the index or basket may be replaced by a different index or basket. The investor therefore faces the risk that the index or individual constituents may be replaced. This may have a negative impact on the value of the ETF share and, consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ee) Costs of an ETF

The performance of the ETF whose shares form the Underlying for the Securities is affected among other things by costs charged to the ETF directly or indirectly. Investors are exposed to the risk that these costs may have a negative impact on the performance of the ETF. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(ff) Market risk

Since price falls or losses of value in the securities acquired by the ETF or its other investments are reflected in the price of the individual ETF Shares, there is a general risk that ETF Share prices may fall. Even if the ETF investments are widely spread and highly diversified, the risk exists that a general downward trend on particular markets or exchanges could be reflected in a decline in ETF Share prices. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(gg) Illiquid investments

The ETF may invest in assets that are illiquid or subject to a minimum holding period. For this reason, it may be difficult for the ETF to sell the relevant assets at an appropriate price or at all, if it is forced to do so in order to generate liquidity. The ETF may suffer significant losses if it has to sell illiquid assets to enable it to redeem ETF Shares, and it may be that the illiquid assets can only be sold at a low price. This may have an adverse effect on the value of the ETF and therefore on the value of the Securities. Investments in illiquid assets may also result in difficulties in calculating the net asset value of the ETF. This may in turn lead to delays affecting payments to investors in connection with the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(hh) Delayed publication of the net asset value

In certain circumstances (e.g., exchange prices for the components are not or not available in time), it may be the case that an ETF is late in publishing its net asset value. This may result in a delay in redeeming the Securities and, if there is a negative movement in the market for example, may have an adverse impact on the value of the Securities. Consequently, the risks identified in section 2.2.1. may be more likely to occur. In the event of a delay in the redemption of the Securities, investors also bear the risk that their reinvestment of the relevant proceeds will firstly be delayed and may only be possible on less favourable terms. This can lead to a **loss** in relation to the Securities.

(ii) Liquidation of a fund

The possibility that an ETF may be liquidated during the term of the Securities cannot be ruled out. In this event, the Issuer is entitled, subject to the respective terms and conditions, to make adjustments with respect to the Securities. Adjustments of this nature may provide in particular for the replacement of the relevant ETF by a different ETF. In such cases, the possibility also exists that the Issuer may terminate the Securities prematurely. The Redemption Amount to be paid as a result may be less than the investor's Capital Amount and may result in losses, up to and end with a **total loss**, with the investor.

(d) Risks relating to Indices as the Underlying

(aa) Dependence of the value fluctuation of the Index

If investors invest in Securities with an Index as the Underlying, they bear similar risks as in the case of a direct investment in that Index or a direct investment in the constituents of the relevant Index.

The value of an index is calculated on the basis of the value of its constituents. Changes in the prices of the index constituents, the composition of the index and other factors affecting the index constituents are reflected in the level of the index. Changes in the level of the index in turn directly affect the value of the Securities. Securityholders therefore bear the risk that changes in the index level may have an adverse impact on the return on an investment in these Securities. Fluctuations in the value of one index constituent may be reinforced by fluctuations in the value other index constituents. This may trigger or intensify a for the investor negative development in the level of the index. In such cases, there is a risk

that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. If such risks were realised, the consequence for the Securityholder could be the **total or partial loss** of the respective Capital Amount invested.

(bb) Termination of an Index

An index used as an Underlying may not be available for the entire term of the Securities. The Securityholder therefore bears the risk, that the index may be discontinued, replaced or may be calculated in future by the Calculation Agent. In these or other circumstances specified in the Final Terms, the Securities may also be terminated by the Issuer. In such cases, the Redemption Amount may be less than the capital invested and a **risk of loss** for investors may arise.

(cc) Concentration risk

The index serving as the Underlying may only replicate the performance of assets in particular countries or particular sectors. In this event, Securityholders are exposed to concentration risk. This will be the case, for example, if the constituents of an index consist solely of shares from a particular country. Generally, unfavourable (type CALL) or favourable (type PUT) economic performance in that country may have a negative (type CALL) or positive (type PUT) impact on the level of the index. The same applies if an index is composed of shares of companies in the same industry sector. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. Depending on the structure and type of the warrants, the Securityholder may incur substantial losses or even a **total loss** if the index does not perform as expected.

(dd) No influence of the Issuer on the Index

The Issuer and its affiliated companies have no influence on the index serving as the Underlying for the Securities issued by the Issuer. The index is compiled and calculated by the respective Index Administrator regardless of the Securities. The Issuer or its affiliated companies therefore has no influence on the method of calculating, determining and publishing the index. It is also not involved in decisions about possible changes in the index or on a possible cessation of the index. The Securityholder bears the risk that the methods of calculation applied to the index may be altered or modified by the index administrator in a way which (unfavourably) affects the payment to the Securityholders. In addition, the issuer may make adjustments in accordance with the terms and conditions or, if necessary, terminate the Securities in an extraordinary manner. The Securityholder is at risk that the measures described may disadvantageously affect the value of the securities and that the risks associated with the securities and indicated in section 2.2.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.

(ee) Currency risk contained in the Index

The Securityholder bears the risk that index constituents may be traded in different currencies and therefore be subject to differing currency effects. This applies in particular to indices focusing on more than one country or industry sector. It may also be the case that index constituents are first of all translated from one currency into the relevant currency for the calculation of the index. This applies, for example, if an index is calculated in euros but the index constituents consist of shares traded in euros, Swiss francs and US dollars. The Securityholders are exposed to different currency and exchange-rate risks in these circumstances. An unfavourable (type CALL) or favourable (type PUT) development in the exchange rates of a currency in this context may have an adverse (type CALL) or positive (type PUT) effect on the index constituent traded in that currency. This means that the negative (type CALL) or positive (type PUT) development of this exchange rate can have a negative (type CALL) or positive (type PUT) effect on the index used as underlying. The Securityholder thus bears the risk that a lower (type CALL) or higher (type PUT) index level may make the risks associated with the securities and indicated in section 2.2.1, more likely to occur. This can lead to a **loss** in relation to the Securities.

(ff) Risks relating to indices that are new or not generally recognised

The following should be noted in the case of indices that are new developed and do not have historical data or are not generally recognised or indices which serve as the Underlying only for a specific Security: Their composition and calculation may be subject to a lower degree of transparency than in the case of generally recognised and established indices. In some cases, information about the index may also not be available to the same extent. Moreover, subjective criteria may play a significantly greater role in the

composition of such indices. This may lead to higher fluctuations in the value of the index level and therefore the risk listed in section 2.2.3 (d) (aa) is more likely to arise. This can lead to a **loss** in relation to the Securities.

(e) Risks relating to Precious Metals as the Underlying

(aa) Dependence on the development of the price of the Precious Metals

If investors invest in Securities with a Precious Metal as the Underlying, they bear similar risks as in the case of a direct investment in that Precious Metal.

The performance of Securities linked to Precious Metals (e.g., gold, silver) depends on the development of the price of the respective Precious Metal. The development of the price of a Precious Metal may be affected by the following factors: supply and demand, speculation, production bottlenecks, delivery difficulties, insufficient market participants, political unrest, economic crises, political risks (export restrictions, war, terrorism), unfavourable weather conditions and natural disasters. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(bb) Volatility and Illiquidity

Prices of Precious Metals are subject to greater fluctuations and precious metal markets may be less liquid than, for instance, equities markets. Changes in supply and demand may therefore have a greater impact on prices and volatilities. Another characteristic of markets for precious metals is that they have only a small number of active market participants. This increases the risk of speculative activity and price distortions. In such cases, there is a risk that the risks associated with the securities and identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(cc) Price indications as relevant price of the Precious Metals

For the purpose of determining the occurrence of a Knock-out Event for Securities with precious metals as the Underlying, price indications are also used. These price indications are published on special Reuters pages by banks trading in the international interbank market for metals. The publication of these price indications is not monitored or supervised by a governmental or international supervisory body. In the case of Securities with a precious metal as the Underlying, Securityholders therefore face the risk that a Knock-out Event may occur solely on the basis of such a price indication. The risks associated with a Knock-out Event have already been set out above under 2.2.1. This can lead to a **loss** in relation to the Securities.

(dd) Political risks

Precious metals are frequently extracted in emerging markets to meet demand from industrial nations. However, the political and economic situation in emerging markets is usually considerably less stable than in the industrialised countries. Emerging markets are more exposed to the risks of rapid political change and economic setbacks. Investor confidence may be shaken by political crises. This can negatively (type CALL) or positively (type PUT) affect the prices of precious metals in turn. War or armed conflict in particular may change the supply of and demand for certain precious metals. In addition, it is possible that industrialised countries may impose an embargo on the export and import of precious metals. This may have a direct or indirect negatively (type CALL) or positively (type PUT) impact on the price of the precious metal used as the Underlying. The value of the Securities may also be unfavourably affected as a result and the risks identified in section 2.2.1.. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

(f) Risks relating to Futures Contracts as the Underlying

(aa) Dependency of price fluctuations of the reference value underlying the Futures-Contract

If investors invest in Securities with a Futures Contract as the Underlying, they bear similar risks as in the case of a direct investment in that Futures Contract.

The value of the Futures Contract usually depends directly on the price of the reference value underlying the Futures Contract. In particular, commodities (so-called commodity futures), indices, bonds or virtual

currencies can be used as reference values. Individual risks with regard to the reference values are mentioned below:

In the case of commodity futures as Underlying, specific risks associated with the relevant commodities (e.g., oil, gas, aluminium, coffee, orange juice, copper or uranium) may arise which are often related to the risks presented in section 2.2.3. (e) on precious metals. In the case of agricultural raw materials as commodities, cyclical pattern of supply and demand can result in significant fluctuations in prices. Unfavourable weather conditions and natural disasters can have a negative impact over the long term on the delivery of specific commodities for the whole year. A supply crisis of this nature may result in significant and unpredictable fluctuations in prices.

In the case of futures contracts on indices, the risks listed in section 2.2.3. (d) of indices may occur and negatively (type CALL) or positively (type PUT) affect the price of the futures contract as the Underlying of a Security.

In the case of futures contracts on bonds, the Securityholders are also exposed to the risk of insolvency of the issuer of the respective bond(s) underlying the futures contract, If the issuer of a bond underlying a futures contract fails to fulfil its obligations in connection with the relevant bond, the price for the futures contracts falls.

In the case of futures contracts on virtual currencies, the Securityholders are exposed to the risk of the respective futures specifications (e.g., price limits to curtail volatility of the virtual currency) and the risk associated with the relevant virtual currency. Virtual currencies are currently mainly stateless digital currencies and unregulated entities whose prices are subject to volatile spikes and crashes. It cannot be ruled out that the regulatory treatment of virtual currencies by national authorities and courts or international standard setting bodies could be subject to changes in the future. As a result, the purchase and/or direct or indirect investment in specific virtual currencies may be prohibited or otherwise restricted.

The realisation of the risks associated with these reference values may have a negative (type CALL) or positive (type PUT) impact on the price of the futures contract. As a result, the value of the securities can be unfavourably affected and the risks shown in section 2.2.1. may occur with a higher probability. This can lead to a **loss** in relation to the Securities.

(bb) Expiry dates and Roll-over

Since every futures contract has a specific expiry date, the terms and conditions may provide that (especially for Securities with longer terms) the Issuer will replace the futures contract stipulated as the Underlying in the terms and conditions at a time specified in the terms and conditions, with a futures contract that, apart from a later expiry date, has the same contract specifications as the original Underlying futures contract ("Roll-over"). This can lead to a loss in relation to the Securities.

(cc) Pricing and tick size

Futures contracts may be priced on the futures exchange in units (e.g., currencies, index points, percentage) or in fractions of decimals. Investors should also note that the "tick size" (the minimum price movement) of the futures contract may affect the occurrence of a Knock-out Event. The tick size may be defined by the futures exchange in different ways (e.g., EUR 5.00 in the case of the FTSE MIB futures contract or 0.5/32 in the case of the 10-year U.S. Treasury Note futures contract). A change in price of one tick on the futures exchange can therefore result in a Knock-out Event if the difference between the Strike and the Knock-out Barrier is less than the tick size. In this case, the investor suffers a **total loss or an almost total loss**.

(dd) Futures price may differ significantly from the cash price of the reference value underlying the futures contract

As a result of the particular characteristics of futures trading, market phases may occur in trading in futures contracts, during which (against the expectation of the investors) there is **no** close correlation between the development of the price of the futures contract and the development of the cash price of the reference value underlying the futures contract. Moreover, there may be market phases in which the price behaviour of the futures contract on the futures market is **uncorrelated** with the price behaviour of the asset on the cash market. There is therefore a risk that (contrary to the investor's expectations)

the price of the futures contract does not develop in the same way as the cash price of the reference value underlying the futures contract. If the price of the futures contract develops negatively as a result, the risks identified in section 2.2.1. may occur. This can lead to a **loss** in relation to the Securities.

(g) Risks relating to Currency Exchange Rates as the Underlying

If investors invest in Securities with a Currency Exchange Rate as the Underlying, they bear similar risks as in the case of a direct investment in that currency exchange rate.

In the case of Securities linked to Currency Exchange Rates as the Underlying, the determination of whether a Knock-out Event has occurred is based on the prices quoted on the international interbank spot market. A Knock-out Event (with the risks set out in 2.2.1.) can therefore occur at any time during global trading on these markets.

Currency exchange rates are derived from supply and demand for currencies on the international currency markets which are subject to a variety of economic factors, such as the rate of inflation in the particular country, differences in interest rates compared with other countries, the expected performance of the relevant economy, the global political situation, the convertibility of one currency into another, the security of monetary deposits in the respective currency and actions taken by governments and central banks (e.g., exchange controls and restrictions). In addition to these factors which can be assessed, however, other factors which are difficult to predict may be relevant, for example factors of a psychological nature such as crises of confidence in the political leadership of the country or other speculative considerations. Psychological elements of this nature can also have a significant effect on the value of the particular currency. These factors may be reflected accordingly in currency exchange rates and therefore have an unfavourable impact on the value of Securities with currency exchange rates as the Underlying. Consequently, the risks identified in section 2.2.1. may be more likely to occur. This can lead to a **loss** in relation to the Securities.

2.2.4. Risks relating to the pricing and tradability of the Securities

(a) Market price risks

During the term of the Securities, the price of the Securities may vary significantly, because the price of the Securities depends not only on the creditworthiness of the Issuer and of the Guarantor, but also essentially on the value of the Underlying and the design of the Security (see in particular the 2.2.1. and 2.2.2.). During the term of the Securities, the price of the Securities may vary significantly. This may result in the value of the Securities falling below the Capital Amount paid by for the purchase of the Securities.

If Securityholders sell their Securities prior to redemption, they must take account that the sale proceeds generated in any particular case may be substantially lower than the Capital Amount paid by the Securityholder for the purchase of the Securities.

As the performance of the Securities is not certain at the time of their purchase due to their dependence on the performance of the Underlying and the structure of the Security, investors will have to bear any **losses** in value during the term. The more negative the value of the securities, the greater the investor's loss.

(b) Liquidity risks

Investors bear the risk that there will not be a liquid market for trading in the Securities, due to the structured component of the Securities and their dependence on the Underlying. This means that they may not be able to sell the Securities at a time of their choosing or are forced to sell at a later date at potentially lower prices.

A listing of the Securities on an exchange can never be guaranteed. If a listing does not exist, purchases and sales of the Securities are significantly difficult or in practice impossible. Even if the Securities are listed, the derivative structure of the Securities may result in low turnover on the respective exchange, which makes it difficult to sell the Securities at a favourable price and, as a result, create an <u>illiquid</u> market for the Securities.

If investors are forced to sell the Securities in an illiquid market, there is a risk of a small value for them to be redeemed and to suffer a corresponding loss. The more illiquid the market, the more likely it is that the prices raised do not reflect the actual value of the Securities.

(c) Determination of secondary market prices for the Securities / pricing risks

Securityholders bear the risk that they may not be able to sell the Securities at a particular time or at a particular price, since the Securities are structured securities and, as a result, the formation of prices in the secondary market is different compared to plain bonds.

Thus, in normal market conditions, Société Générale (the "Market Maker") regularly quotes buying and selling prices for the Securities ("Market Making"). The Market Maker may also be an affiliated company of Société Générale or another financial institution. However, the Market Maker does not guarantee that the prices it quotes are appropriate. Equally, the Market Maker provides no guarantee that prices will be available for the Securities at all times during their entire term. The prices set by the market maker may therefore differ significantly from the fair or economically expected value of the Securities.

The Market Maker may also change the method it uses to determine the prices quoted at any time in its discretion. For example, the Market Maker may modify its calculation model and/or increase or reduce the bid/offer spread. Moreover, in the event of market disruptions or technical problems, the availability of the electronic trading system used may be restricted or suspended. In the case of abnormal market conditions or extreme price fluctuations on the securities markets, the Market Maker will not generally provide bid and offer prices. Securityholders therefore bear the risk that in some circumstances they will have no quoted price for their Securities. This means that Securityholders will not be able to sell their Securities in the market at an appropriate price in all situations.

The opening hours of a market for the Securities frequently differ from the opening hours of the market for the respective Underlying. In this event, the Market Maker may have to estimate the price of the Underlying to be able to determine the price of the relevant Security. These estimates may turn out to be incorrect and have unfavourable consequences for the Securityholders.

Investors should also note: The issue size of the Securities specified in the Final Terms merely refers to the number of Securities offered (offer volume) and cannot be used as an indication of the volume of Securities actually issued or outstanding. In consequence, no conclusions can be drawn from the issue size specified about the liquidity of the Securities for the purposes of possible trading transactions.

Due to the specific structure of the Securities and the resulting complex pricing, an investor is highly dependent on the price formed by the Market Maker in the event of a sale of the Securities. In all these cases described in this section, there may be a loss on the part of the investor.

(d) Risks from potential conflicts of interest

(aa) Further transactions

The Issuer and its affiliated companies may pursue interests that do not take into account the interests of the Securityholders or may conflict with them. This may occur in connection with carrying out further transactions, business relationships with the issuer of the Underlying or the exercise of other functions.

The Issuer and its affiliated companies are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer may conclude transactions relating to the respective Underlying. This applies in particular to the conclusion of so-called hedging transactions in relation to the Securities, in particular the hedging of the risk to Issuer from the derivative component of the Securities (i.e. the dependence of the securities on the underlying). Such transactions or hedging transactions may have a negative (type CALL) or positive (type PUT) impact on the performance of the Underlying. They may also adversely affect the value and/or the tradability of the Securities. In this context, the Issuer may pursue economic interests that conflict with the interests of the investors.

The value of the Securities may also be affected by the unwinding of some or all of these transactions and hedging transactions, respectively.

The Issuer and its affiliated companies may buy and sell Securities for its own account or for the account of third parties and may issue additional Securities. These transactions may reduce the value of the Securities. The launching of further, competing products on the market may adversely affect the value of the Securities. Due to the impairment of the Securities, the investor may suffer a **loss** on the sale of the Securities. The greater the impairment of the Securities, the greater the loss of the investor.

(bb) Business relationships

The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. A business relationship of this kind may consist of advisory and trading activities, for example. The Issuer may take actions in this context which it considers appropriate to safeguard its own interests arising from this business relationship. In so doing, the Issuer is not obliged to have regard to the impact on the Securities or on the Securityholders.

The Issuer may enter into or participate in transactions which influence the value of the Underlying. Since the value of the Securities is materially dependent on the fluctuations in the value of the Underlying, such business relationships with the issuer of the Underlying may adversely affect the value of the Securities and the investor may suffer a **loss**. The greater the impairment of the Securities, the greater the loss of the investor.

(cc) Information relating to the Underlying

The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Securityholders could therefore make wrong decisions in relation to the Securities which could result in a loss, up to and including the **total loss** of the Capital Amount invested, as a result of missing, incomplete or false information about the Underlying (type PUT: in particular about an expected increase in value). The greater the impairment (type CALL) or increase in value (type PUT) of the Underlying, the greater the investor's loss.

2.2.5. Risks arising from the taxation of the Securities or the Underlying

(a) Risks relating to taxation of the Securities

Tax laws and practice are subject to changes, which may take effect retroactively. This can have a negative effect on the value of the Securities and/or the market price of the Securities. The tax treatment of the Securities may change in comparison with their tax treatment at the date of purchase of the Securities, for example. Therefore, due to the specific dependence of the Securities on the performance of the Underlying, Securityholders therefore bear the risk that they may make an incorrect assessment of the taxation of the income resulting from the purchase of the Securities. But there is also a possibility that the taxation of the income resulting from the purchase of the Securities may change to the disadvantage of the Securityholders.

Securityholders bear the risk of changes in the specific tax treatment of the Securities. This may negatively affect the value of the Securities and the investor may suffer a corresponding **loss**. The stronger this negative effect, the greater the loss.

(b) Risks relating to the retention of U.S. withholding tax (FATCA)

It is not expected that the reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("FATCA") will affect the amount of any payment received by an applicable clearing system. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It may also affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or

intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. To the extent any withholding tax under FATCA applies, Securityholders will <u>not</u> receive any payment in respect of this deduction to **compensate** for the deduction. This is because neither the Issuer nor any paying agent or any other person is under an obligation to make any such compensatory payment to the Securityholders. The Securityholders may therefore receive lower payments than expected in such circumstances.

(c) Risks relating to the retention of U.S. withholding tax (Section 871(m IRC))

U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "Section 871(m) Regulations") generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a "Non-U.S. Holder") with respect to certain financial instruments linked to U.S. equities, ETFs or indices that reference U.S. equities ("U.S. Underlying Equities"). Certain Securities under this Base Prospectus are therefore potentially subject to U.S. withholding tax when referencing U.S. Underlying Equities.

For such Securities, if U.S. source dividend payments are made in respect of U.S. Underlying Equities, the Issuer intends to take any applicable tax obligation under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the "IRC") into account in its ongoing adjustment of the price of the Underlying by withholding at a rate of 30 percent on any dividend equivalents. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any such Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

2.2.6. Risks arising from adjustments and terminations

(a) Adjustments

Securityholders bear the risk that the Securities may be adjusted.

The terms and conditions specify certain events on the occurrence of which the terms and conditions may be adjusted.

Such so-called extraordinary events or adjustment events arise in particular with regard to events which have a specific impact on the underlying of the securities. For example, the following events should be mentioned: the determination of the listing of Underlying, the elimination of the Underlying or the elimination of the possibility for the Issuer to enter into the necessary hedging transactions in relation to the Underlying. However, adjustments to the security itself may also occur, such as legislative changes or tax events that have a negative impact on security. In the event that the terms and conditions are adjusted, the Securities continue to exist. These measures may result in a **loss** for the investor. The more negative the impact of the adjustments, the higher the potential loss for the investor.

(b) Termination risk

Securityholders bear the risk that the Securities may be terminated.

Such extraordinary termination may arise in particular where an adjustment of the terms and conditions as a result of an extraordinary event is not appropriate in relation to the Underlying (see the execution of this risk in section (a). This risk arises in particular from the derivative structure of the Securities and the dependence of the Securities on the Underlying.

In the event of the termination of the Securities, the Extraordinary Termination Amount may be very low in some cases. It could be lower than the amount the Securityholders would have received if the extraordinary termination of the Securities had not taken place. Securityholders will incur a loss if the

Extraordinary Termination Amount is less than the Capital Amount used to acquire the Securities. A **total loss** is also possible. The worse the performance of the security, the greater the risk of an investor's loss in the event of the termination of the Security.

(c) Reinvestment risk

Furthermore, Securityholders bear the risk that the Securities may be terminated at a time that is unfavourable from their point of view and therefore repaid early (reinvestment risk). This risk arises as a result of the termination risk presented in section (b). If the Securityholders may be expecting a further increase in the price of the Securities at precisely that time, this expectation may therefore no longer be fulfilled due to the ending of its term. In addition, in the event of such an extraordinary termination, the amount to be paid by the issuer may be reinvested on less favourable market terms than applied at the date the Securities were purchased. This may mean that the overall return to be achieved may be significantly lower than the return expected on the Securities terminated. The investor may therefore suffer a **loss** in the reinvestment of the amount paid under the Securities. The less favourable the conditions of a reinvestment, the greater the loss.

3.4. Final Terms

3.4.1. New Securities

For Securities that are offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under this Base Prospectus ("**New Securities**"), the Final Terms are prepared using the form of the Final Terms (see section "10. Form of Final Terms"). These Final Terms contains the terms and conditions of the issue completed accordingly (see section "8. Terms and Conditions"), omitting those conditions not relevant to these Securities and filling in the placeholders or replacing the conditions with the appropriate content.

In the event of an increase of the issue size of New Securities, the additional Securities or series of Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the terms and conditions of this Securities Note. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e., they have the same ISIN and the same features.

3.4.2. Former Securities

For Securities that (i) were offered publicly and/or admitted to trading on a regulated or other comparable market for the first time under a Former Base Prospectus (see section "3.7.2. Former Base Prospectuses"), (ii) whose characteristics are covered by the present Base Prospectus and (iii) which are not subject to a continuation of the public offering in accordance with section 3.5. ("Former

Securities"), the Final Terms are documented using the form of the Final Terms (see section "10. Form of Final Terms"). These Final Terms contain the product description completed accordingly (see section "9. Product Description for Former Securities"). The terms and conditions of this Securities Note (see section "8. Terms and Conditions") are not applicable.

In the event of an increase of the issue size of Former Securities, the additional Securities or series of Securities, as described in the previous paragraph, will be documented using the form of the Final Terms and the product description. The additional Securities will form a single series economically with the Securities already issued (corresponding to the increased issue size), i.e., they have the same ISIN and the same features.

3.5. Continuation of the public offering of Securities

The Form of Final Terms for the purposes of the continuation of the public offering is contained in the Former Base Prospectuses. This information is incorporated by reference and forms part of this Base Prospectus (see section "3.7.2. Former Base Prospectuses").

In addition, Securities issued under the Former Base Prospectuses and for which the public offer is to be continued under this Base Prospectus are identified by the mention of their ISIN in section "11. ISIN List". The Final Terms of the Securities mentioned are published on the website www.warrants.com (here after entering the relevant ISIN in the search field of the country-specific website and then under "Documentation").

3.6. Third-Party Information

The Issuer confirms that information provided by third parties included in this Securities Note has been reproduced correctly and that – as far as the Issuer is aware and was able to deduce from the information published by that third party – no facts have been omitted that would render the information reproduced incorrect or misleading.

As a source of information for the description of the Underlying, these websites may then refer in turn to websites whose contents may be used as a source of information for the description of the Underlying and as information about the development of the price of the Underlying. The Issuer gives no guarantee of the correctness of the contents and completeness of the data presented on these third-party websites. The information on the third-party websites is not part of this Securities Note, unless this information were incorporated by reference in this Securities Note.

4. DESCRIPTION OF THE GUARANTEE

4.1. Nature and scope of the Guarantee provided for the Securities

The Guarantor irrevocably and unconditionally guarantees to each Securityholder that, if for any reason the Issuer fails to pay any sum or amount payable by it to the Securityholders in respect of a Security (including any premiums or other amounts of whatever nature or additional amounts that become payable under the Securities), as soon as those payments become due under one of the Securities referred to, the Guarantor will pay to the Securityholders on demand the amount payable by the Issuer to the Securityholders as if the payment had been made by the Issuer in accordance with the Terms and Conditions of the Securities.

If the Relevant Resolution Authority (as defined in the Terms and Conditions (Product specific Terms)) exercises its Bail-in Power (as defined in the Terms and Conditions (Product specific Terms)) on senior unsecured liabilities of the Guarantor, which results in the write-down or cancellation of all, or a portion, of the principal amount of those unsecured liabilities or of an outstanding amount payable in respect of, and/or interest on, those unsecured liabilities, and/or the conversion of all, or a portion, of the principal amount of those unsecured liabilities or of an outstanding amount payable in respect of, or interest on, those unsecured liabilities into shares or other securities or other obligations of the Guarantor or of another person, including by means of a variation of the Terms and Conditions for the purpose of the exercise of such Bail-in Power, then the Guarantor's payment or delivery obligations under the present Guarantee shall be equal to the amounts or delivery that would be due if the Guarantor were itself the issuer of the Securities.

This Guarantee constitutes a separate obligation and is independent of the validity and enforceability of the obligations of the Issuer under the Securities. The intent and purpose of this Guarantee is to ensure that the Securityholders, under all circumstances and regardless of any factual and legal circumstances, motivations and considerations on the basis of which the Issuer may fail to effect payment, shall receive principal and interest and all other amounts payable pursuant to the Terms and Conditions of the relevant Securities on the due dates in accordance with the relevant Terms and Conditions.

All payments in respect of the Securities or under the Guarantee shall be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any tax jurisdiction, unless such withholding or deduction is required by law. In the event that any amounts are required to be deducted or withheld for or on behalf of any tax jurisdiction, the Issuer or, as the case may be, the Guarantor shall (except in certain circumstances), to the fullest extent permitted by law, pay such additional amounts as may be necessary, in order that each Securityholder after deduction or withholding of the relevant taxes, duties, assessments or governmental charges, will receive the full amount then due and payable, as more fully described in the Terms and Conditions. In this context, tax jurisdiction refers to all regional administrative bodies or authorities of Germany authorised to collect taxes (in the case of payments by Société Générale). No additional amounts shall be paid for any withholding or deduction made pursuant to FATCA or Section 871(m) IRC.

The Guarantor's obligations under this Guarantee shall remain in full force and effect until all amounts due under the Securities have been paid in full. Any amendments to this Guarantee prejudicial to the interests of the Securityholders shall only apply to Securities issued after the date those amendments were made. Furthermore, these obligations of the Guarantor are additional to, and not instead of, the Securities or other guarantees or indemnities existing at the relevant time in favour of a Securityholder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

The obligations of the Guarantor under this Guarantee constitute direct, unconditional, unsecured and unsubordinated obligations of the Guarantor, ranking as senior preferred obligations in accordance with Article L. 613-30-3 of the French Monetary and Financial Code (*Code monétaire et financier*). Such obligations rank *pari passu* without priority among themselves and:

(i) pari passu with all other direct, unconditional, unsecured and unsubordinated obligations of the Guarantor outstanding as of the date of the entry into force of law no. 2016-1691 (the "Law") on 11 December 2016;

- (ii) pari passu with all other present or future direct, unconditional, unsecured and senior preferred obligations (as provided for in Article L. 613-30-3 I 3° of the French Monetary and Financial Code) of the Guarantor issued after the date of the entry into force of the Law on 11 December 2016;
- (iii) junior to all present or future obligations of the Guarantor benefiting from statutorily preferred exceptions; and
- (iv) senior to all present and future senior non-preferred obligations (as provided for in Article L. 613-30-3 I 4° of the French Monetary and Financial Code) of the Guarantor.

The Guarantor may deposit principal or interest not claimed by the Securityholders within twelve months after the Relevant Date with the Local Court (*Amtsgericht*) in Frankfurt am Main, even if such Securityholders are not in default of acceptance of payment. To the extent that such deposit is made, and the right of withdrawal is waived, the claims of the Securityholders against the Issuer shall cease. Relevant Date in this context refers to the date on which the respective payment first becomes due or, if the amounts payable have not been received in full by the calculation agent on or before that due date, the date on which those amounts have been received in full and notice has been given to the Securityholders in this respect in accordance with the Terms and Conditions.

This Guarantee is governed by and shall be construed in accordance with German law.

Place of performance shall be Frankfurt am Main, Federal Republic of Germany.

The Guarantor hereby appoints Société Générale, Frankfurt Branch as its authorised agent for receipt of service (authorised recipient) in Germany with respect to all proceedings and undertakes to appoint another person as its authorised recipient for this purpose in the event that Société Générale, Frankfurt Branch no longer acts as the authorised recipient.

To the extent permitted by law, the Regional Court (*Landgericht*) in Frankfurt am Main shall have exclusive jurisdiction over all actions or other legal proceedings arising as a result of, or in connection with, this Guarantee.

5 December 2024 Société Générale

4.2. Information about the Guarantor

The description and the financial information of the Guarantor for the purpose of this Securities Note were incorporated by reference and form part of this Securities Note (see section "3.7.1. Guarantor").

5. GENERAL INFORMATION ON THE SECURITIES

5.1. Information about the Securities

5.1.1. General

(a) Type and class of the Securities

The Securities are bearer bonds in accordance with German law within the meaning of § 793 of the German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**")).

The Securities and the rights and duties of the investors and of the Issuer shall be based on the laws of the Federal Republic of Germany.

The Securities may be structured in different variants. An explanation of the functionality of the different variants can be found in section "6. Description of the Securities" of this Securities Note. This section describes in particular how the value of the Securities is affected by the value of the Underlying.

The features of the Securities and further information on the individual issues can only be determined shortly prior to publication of the Final Terms. They will be specified and published in the Final Terms.

This includes the following information, for example:

- International Securities Identification Number (ISIN), other securities identification numbers and/or exchange codes;
- issue date (payment date);
- issue size;
- issue currency; and
- Underlying

A Form of the Final Terms can be found in section "10. Form of Final Terms" of this Securities Note.

(b) Form of the Securities / Transferability

The Securities will be either issued in dematerialised form or represented by a global bearer security (the "**Global Security**"). In the case of Securities in dematerialized form the Final Terms will provide the name and the address of the entity in charge for keeping the records. The restrictions set out in section "7. Selling Restrictions" must be observed.

(aa) German Global Security

German Global Security will be represented by a Global Security. If so provided in the Final Terms, the Securities will be initially represented by a temporary global bearer security (the "**Temporary Global Security**"). This will then be exchanged for a permanent global bearer security (the "**Permanent Global Security**") following the presentation of certificates of non-U.S. ownership. The Temporary Global Security and the Permanent Global Security are referred to in the following as the Global Security.

The Global Security will be deposited with either

- C.I.K. NV/SA, Avenue de Schiphol 6, 1140 Brussels, Kingdom of Belgium (Euroclear Belgium);
- Clearstream Banking AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany; or
- Clearstream Banking S.A., 42 Avenue JF Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg, together with Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, 1210 Brussels, Kingdom of Belgium; (each a "Clearing System").

The Clearing System is specified in the Final Terms. Definitive securities for the Securities will not be issued.

The Securityholders shall receive co-ownership participations in or rights with respect to the Global Security which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into German Central Register Securities during the term.

(bb) German Central Register Security

If so provided in the Final Terms, the Securities will be evidenced as electronic securities (the "Central Register Securities") pursuant to § 4 (2) of the German Electronic Securities Act (Gesetz über elektronische Wertpapiere, "eWpG").

Generally, Clearstream Banking AG, Mergenthalerallee 61, 65760 Eschborn, Federal Republic of Germany, in its function as central securities depository, will maintain the central register for the Central Register Securities. Also, to the extent permitted by the provisions of the eWpG, another central securities depository may be selected as the registrar of Central Register Securities in the Final Terms. The relevant central securities depository shall be specified in the Final Terms (in each case a "Clearing System" or a "Central Securities Depository").

Central Register Securities are issued by entering them in the electronic central register maintained by the register-keeping agent and by previously depositing the Terms and Conditions for the Security with the register-keeping agent as a permanent electronic instrument. The central register is maintained by a register-keeping agent acting in the capacity of a Central Securities Depository. As a result of the maintenance of the central register by a Central Securities Depository, the Central Register Securities are entered into the book-entry system.

The Central Register Security is registered with the Central Securities Depository. The Central Securities Depository is entered in the central register as the holder (collective entry) and administers the Securities on a fiduciary basis for the respective creditors (beneficiaries (*Berechtigte*), as defined by the eWpG)). Central Register Securities in collective entry are deemed by law to be collective securities holdings. There is no right to individual entry in the name of a creditor. The Securities shall be transferred as a co-ownership interest in the collective securities holding in accordance with applicable law and the rules and regulations of the Clearing System.

The Issuer reserves the right to convert the form of the securitisation into a German Global Security during the term.

(cc) Danish Dematerialised Registered Security

If so provided in the Final Terms, the Securities will be issued in uncertified and dematerialised bookentry form and will only be evidenced by book entries in the system of VP SECURITIES A/S, Weidekampsgade 14, P.O. Transfers of Securities and other registration measures shall be made in accordance with the SFIA, the regulations, rules and operating procedures applicable to and/or issued by Euroclear Sweden. The

Issuer is entitled to receive from Euroclear Sweden, at its request, a transcript of the register for the Securities.

(jj) Norwegian Dematerialized Registered Security

If so provided in the Final Terms, the Securities will be in dematerialized registered form and will only be evidenced by book entries in the system of the Norwegian Central Securities Depositary VPS ASA, P.O. Box 4, 0051, Oslo, Kingdom of Norway (VPS) (the "Clearing System") for registration of securities and settlement of securities transactions in accordance with the Norwegian Securities Register Act (om registrering av finansielle instrumenter 2002 5. juli nr. 64, "NSRA"). Transfers of the title to the Securities and other registration measures shall be made in accordance with the NSRA, the regulations, rules and operating procedures applicable to and/or issued by VPS.

(kk) Portuguese Dematerialised Security

If so provided in the Final Terms, the Securities will be represented by book-entry securities (the "Book-Entry Securities") which shall be registered in an account held with the Central de Valores Mobiliários (CVM) managed by Interbolsa - Sociedade Gestora de Sistemas de Liquidação e de Sistemas Centralizados de Valores Mobiliários, S.A., Avenida da Boavista, 3433 4100-138 Porto – Portuguese Republic, (the "Clearing System"). Definitive Securities will not be issued.

The Securityholders shall receive ownership participations in or rights with respect to the Book-Entry Securities which are transferable in accordance with applicable law and the rules and regulations of the Clearing System.

(c) Status of the Securities

The Securities constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer. The Securities rank *pari passu* with all present and future unsecured and unsubordinated liabilities of the Issuer, including deposit liabilities. This does not apply to liabilities,

- (i) which have preferred or subordinated status due to contractual terms between the Issuer and the respective third-party creditor. A subordinated status may be agreed in particular in the context of so-called subordinated bonds of the Issuer, subordinated loans or profitsharing rights, to which a lower rank is assigned in insolvency proceedings on the basis of a contractual agreement; and
- (ii) which have preferred or subordinated status due to the provisions of law. The Issuer has no influence on these legal requirements.

(d) Guarantee

The payment and, where relevant, delivery obligations of the Issuer under the Terms and Conditions are guaranteed by an unconditional and irrevocable Guarantee of Société Générale, Paris, French Republic.

(e) Limited Recourse

The Issuer also enters into hedging transactions relating to the Securities with the Guarantor. The respective hedging transaction is intended to cover the amount of any payments due under the Securities. The Issuer's payment obligations arising from the Securities are limited to the financial resources provided by the Guarantor in the context of the hedging transactions (limited recourse). The rights of the Securityholders under the Guarantee are not affected by the limited recourse, however, and the obligations of the Guarantor under the Guarantee are not limited; accordingly, all Securityholders shall continue to have the right to initiate judicial or other proceedings against the Guarantor or assert other claims against the Guarantor in order to enforce obligations due under the Guarantee, including in particular with respect to defaulted payments.

(f) Exercise of the Bail-in Power of the Relevant Resolution Authority on obligations of Société Générale

If the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on obligations within the meaning of Article L 613-30-3 I 3 of the French Monetary and Financial Code (*Code monétaire et financier*) of the Guarantor ranking junior to the liabilities of the Guarantor which benefit from statutorily preferred exceptions in accordance with Article L 613-30-3 I 1°and 2°of the French Monetary and Financial Code and which do not constitute obligations within the meaning of L 613-30-3 I 4 of the French Monetary and Financial Code, and this exercise of the Bail-in Power results in the write-down or cancellation of all, or a portion, of the principal amount of those liabilities or of an outstanding amount payable in respect of, and/or interest on, those liabilities, and/or the conversion of all, or a portion, of the principal amount of those liabilities or of an outstanding amount payable in respect of, or interest on, those liabilities into shares or other securities or other liabilities of the Guarantor or of another person, including by means of a variation of the Terms and Conditions for the purpose of the exercise of such Bail-in Power, then

- the liabilities of the Issuer to the Securityholders under the Securities shall be limited and written down to the amounts of principal or interest that the Securityholders would have received, and/or the value of the shares or other securities or liabilities of the Guarantor or of another person that would have been delivered to the Securityholders if the Securities had been directly issued by the Guarantor itself and accordingly all of the liabilities under the Securities had been affected directly by the exercise of the Bail-in Power, and
- the Issuer shall be entitled, instead of payment by the Issuer, to require the Securityholders to demand payment of all, or a portion, of the amounts due under the Securities after the write-down and/or delivery of shares or other securities or other liabilities of the Guarantor or of another person following any conversion referred to under section (i) above, directly by the Guarantor under the Guarantee for the liabilities of the Issuer.

If and to the extent that the Issuer requires the Securityholders to demand payment and/or delivery directly by the Guarantor under the Guarantee for the liabilities of the Issuer, the liabilities of the Issuer under the Securities shall be deemed to have been extinguished. "Bail-in Power" means the legal power of cancellation, write-down or conversion existing from time to time in accordance with the laws, regulations, rules or provisions relating to the resolution of banks, banking groups, credit institutions and/or other investment firms domiciled in France that apply to the Guarantor (or its legal successors) in France, including, but not limited to, such laws, regulations, rules or provisions that have been implemented, approved or resolved in connection with a Directive of the European Union or a Regulation of the European Parliament and of the Council for the purpose of creating a framework for the recovery and resolution of credit institutions and investment firms and/or in connection with a French resolution system under the French Monetary and Financial Code, or other applicable laws or regulations as amended, or other laws and regulations under which liabilities of a bank, banking group, credit institution or investment firm or of one of their respective subsidiaries may be written down, cancelled and/or converted into shares or other securities or liabilities of the debtor or of another person.

The "Relevant Resolution Authority" is an authority entitled to exercise the Bail-in Power.

Following exercise of the Bail-in Power by the Relevant Resolution Authority, a repayment of the principal amount of the Securities or the payment of interest on the Securities (to the extent of the portion of the Securities affected by the exercise of the Bail-in Power) shall not become due and payable, unless such repayment or payment would also have been permitted to be made by the Guarantor under the laws and regulations applying at the time to payments on senior unsecured liabilities if the Guarantor itself had been the issuer of the Securities, and the Terms and Conditions of the Securities shall be deemed to be amended accordingly.

The write-down or amendment with respect to the Securities described above shall not constitute grounds for termination and the Terms and Conditions of the Securities shall continue to apply in relation to the remaining principal amount or outstanding amount payable in respect of the Securities, subject to any amendment of the amount of interest payable in order to reflect the write-down of the principal amount and other changes to the Terms and Conditions which the Relevant Resolution Authority may resolve in compliance with the applicable laws and regulations relating to the resolution of banks, banking groups, credit institutions and/or other investment firms domiciled in France.

(g) Payments under the Securities

Payments of amounts to the Securityholders shall be made on the relevant due date via the Clearing System specified in the Final Terms.

All taxes or charges that may be incurred in connection with the payment of the redemption amount shall be borne by the Securityholders. By making the payment to the Clearing System, the Issuer shall be released from its obligation under the Terms and Conditions.

(h) Calculation Agent

All calculations under the Securities shall be made by the calculation agent in accordance with the Terms and Conditions.

(i) Paying Agent

All payments under the Securities shall be made by the paying agent in accordance with the Terms and Conditions.

(j) Information about the Benchmarks Regulation with respect to the authorization of the Administrator

Amounts payable under these securities may be calculated with reference to one or more reference values (also referred to respectively as "Benchmarks") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, as amended (the "Benchmarks Regulation"). The Final Terms will specify whether the Benchmark is provided by an Administrator which is included in the register of Administrators and Benchmarks ("Benchmarks Register") established and maintained by the European Securities and Markets Authority ("ESMA") in accordance with Article 36 of the Benchmarks Regulation. If the Administrator ("Benchmark Administrator") is included in the Benchmarks Register, the name of the Benchmark Administrator will also be listed in the Final Terms. In addition, the Final Terms will indicate whether further Benchmarks are provided by a Benchmark Administrator included in the Benchmarks Register. If this is the case, the name of the respective Benchmark Administrator will also be listed in the Final Terms.

5.1.2. Term and Termination

The term of the TURBO Warrants is limited. It ends on the exercise date. The exercise date is specified in the relevant Final Terms at the time of issue of the Securities. The term of the Unlimited TURBO Warrants is not limited. TURBO Warrants and Unlimited TURBO Warrants may expire early, however, in accordance with the provisions of the Terms and Conditions (e.g., in the case of an occurrence of a Knock-out Event).

The Issuer may terminate the Securities extraordinarily in accordance with the Terms and Conditions (e.g., on the occurrence of certain extraordinary events).

5.1.3. Description of the rights arising from the Securities

A description of the rights of the Securityholders under the Securities can be found in section "6. Description of the Securities".

In the event of so-called Adjustment Events or Extraordinary Events, however, the Issuer is entitled to adjust the Terms and Conditions and thus the rights of the Securityholders arising from the Securities. The adjustment shall be made in such a way as to maintain, as far as possible, the economic situation of the Securityholders under the Securities. The events are specified in the respective Terms and Conditions.

5.2. Interests of natural and legal persons involved in the issue/offer of the Securities

5.2.1. Further Transactions

The Issuer and companies affiliated to it are active on a daily basis in the international and German securities, foreign exchange, credit derivatives and commodity markets. They may therefore enter into transactions directly or indirectly related to the Securities for their own account or for the account of clients. In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. When concluding these transactions, the Issuer and companies affiliated to it may act as if the Securities had not been issued.

In addition, the Issuer and companies affiliated to it may conclude transactions relating to the respective Underlying. Such transactions may have a negative impact on the performance of the Underlying. For the purpose of these transactions, the Issuer and companies affiliated to it may pursue economic interests which conflict with the interests of the investors.

They also include transactions entered into by the Issuer and companies affiliated to it in order to hedge their obligations arising from the Securities. The value of the Securities may also be affected by the unwinding of some or all of these hedging transactions.

The Issuer and companies affiliated to it may buy and sell Securities for their own account or for the account of third parties and may issue additional Securities.

5.2.2. Business Relationships

The Issuer and its affiliated companies may have a business relationship with the issuer of the Underlying. Examples of a business relationship of this kind include:

- the granting of a loan;
- custodian activities:
- activities in connection with managing risks; or
- advisory and trading activities.

This may adversely affect the value of the Securities.

The following applies in relation to the Securities: The Issuer and companies affiliated to it may take actions which they consider appropriate to safeguard their own interests arising from this business relationship. In so doing, the Issuer and companies affiliated to it are not obliged to have regard to the impact on the Securities or on the Securityholders.

The Issuer and companies affiliated to it may enter into or participate in transactions which influence the value of the Underlying. Such business relationships with the issuer of the Underlying may adversely affect the value of the Securities. This may result in a conflict of interest on the part of the Issuer.

5.2.3. Information relating to the Underlying

The Issuer and its affiliated companies may possess or obtain material, non-public information about the Underlying. The Issuer and its affiliated companies are under no obligation to disclose information of this nature to the Securityholders. Interested investors are therefore dependent on publicly available information for the purpose of analysing the respective Underlying.

5.2.4. Pricing

Société Générale or a company affiliated to it may act as Market Maker for the Securities.

The Market Maker is responsible for quoting prices for the Securities. The prices are then not formed directly by supply and demand. This distinguishes pricing for the Securities from trading on an exchange where prices are based on supply and demand. However, the Securities may be admitted to trading on trading venues on which the prices are based on supply and demand and on the quotes made by the Market Maker.

Société Générale or its affiliated companies may also act as Market Maker for the Underlying.

Market Making may have a significant effect on the price of the Underlying and therefore also on the value of the Securities. The prices quoted by the Market Maker will not always be the same as the prices that would have developed from liquid trading on an exchange. Prices quoted by the Market Maker in the secondary market are determined on the basis of the fair value of the Securities. The fair value of the Securities depends on the value of the Underlying, among other factors.

The Market Maker sets the spread between the bid and offer prices. The bid price is the price at which the Market Maker sells the Securities. The spread depends both on supply and demand for the Securities and also on particular income considerations. Certain costs are deducted when pricing the Securities over their term. The costs are not always distributed equally over the term, however. Costs may be deducted from the fair value of the Securities in their entirety at an early date specified by the Market Maker. The prices quoted by the Market Maker may therefore differ significantly from the fair value or expected economic value of the Securities. Furthermore, the Market Maker may at any time modify the method it uses to determine the prices quoted. For example, it may increase or reduce the spread between the bid and offer prices.

Its function as Market Maker both for the Securities and possibly also for the Underlying does not constitute an obligation on the part of the Issuer towards the Securityholders. In both cases, the Issuer or its affiliated companies may therefore cease to act as Market Maker at any time.

5.3. Reasons for the offer of the Securities and use of proceeds

The Securities are being offered and the proceeds will be used solely for the purpose of generating profits in the context of the Issuer's general business activities. To the extent quantifiable, the estimated total costs of the respective issue/offer of the Securities and the estimated net proceeds will be published in the relevant Final Terms.

The Redemption Amounts will be calculated on the basis of a price of the Underlying defined in the Terms and Conditions, but the Issuer has no obligation to the investors to invest the proceeds from the issue of the Securities in the Underlying. Securityholders have no ownership rights in the Underlyings or their constituents. The Issuer is free to determine how the proceeds from the issue of the Securities are used.

5.4. Disclosure of resolutions relating to the Securities

Each issue of the Securities forms part of the normal business activities of the Issuer in accordance with its Articles of Association and does not require the passing of any internal resolutions.

5.5. Factors affecting the tax treatment of any income from the Securities

The tax legislation of the investor's member state and the Issuer's country of incorporation may have an impact on the income from the Securities.

The Issuer accepts no responsibility for the deduction or payment of taxes at source. **Interested** investors are urgently recommended to consult their tax advisers about taxation in particular cases.

5.6. Information about the Underlying

The rate, level or price of the respective Underlying of the Securities is the primary factor affecting the value of the Securities.

During the term of the Securities, Securityholders participate in principle in both positive and negative movements in the price of the respective Underlying.

In particular, the level of the Redemption Amount of the Securities normally depends on the rate, level or price of the Underlying on the relevant Valuation Date.

5.6.1. General description of the Underlying

The Securities described in the Base Prospectus may be linked to the performance of shares, ETF shares, indices, precious metals, futures contracts or currency exchange rates.

The Securities are linked for this purpose to a single Underlying, as specified in the Final Terms, for example a single share or a single index.

The respective Underlying is published in the relevant Final Terms. Sources of further information, including whether or not that information is available free of charge, can also be found in the relevant Final Terms.

The Issuer does not intend to provide any further information about the Underlying or Underlyings after the issue of the Securities.

5.6.2. Disruption Events relating to the Underlying

Suspensions or restrictions of trading or other disruptions relating to the Underlying (as described in detail in the Final Terms in relation to the respective Underlying; respectively a "**Disruption Event**") may affect the price of the Underlying. A Disruption Event may also affect the calculation of the level of the Redemption Amount as a result. A Disruption Event occurs, for example, if the price of the Underlying cannot be determined on a Valuation Date. The consequence of such a Disruption Event may be that a substitute price is calculated for the relevant Underlying, for example. The specific provisions applicable to an Underlying to correct the effects of a Disruption Event are specified in the Terms and Conditions.

5.6.3. Adjustments to the Terms and Conditions due to events affecting the Underlying

Certain events may have a material impact on the determination of the price of the Underlying specified in the Terms and Conditions.

The following represent examples of adjustment events:

- capital increases for capital contributions;
- the final discontinuation of the exchange listing of the Underlying;
- the discontinuation of the calculation or publication of an index; or
- other events which make it impossible to determine the Reference Price. They also include
 e.g., events which mean that the Underlying is no longer determined and published on a
 regular basis (respectively an "Adjustment Event").

If an Adjustment Event occurs, the adjustment rules provided for in the Terms and Conditions are applied. The definitions of Adjustment Events are specified in the Terms and Conditions.

5.7. Conditions for the offer of Securities

5.7.1. Offer of Securities

The Securities issued by the Issuer will be underwritten by Société Générale (legal entity identifier (LEI): O2RNE8IBXP4R0TD8PU41), telephone: +33 (0)1 42 14 20 00, domiciled in Paris, French Republic) (the "**Offeror**") subject to a general underwriting agreement dated 15 January 2015. The Offeror will offer the Securities to potential investors.

The applicable Final Terms will state whether or not the Securities will be publicly offered. The details of the offer and sale, in particular the relevant payment date, start of the offering, the relevant offer/issue size as well as the relevant initial issue price with regard to each issue hereunder will be set out in the relevant Final Terms.

In the case of an offer of Securities during a subscription period which will be specified in the Final Terms any details of the offer (e.g., issue size) that will be determined at the end of the subscription period shall be published by the Issuer without delay at the end of the subscription period on the website as set out in the Final Terms. The Issuer may further provide for an offer and sale after the subscription period at a price which is subject to change. In this case the issue price will be determined continuously.

5.7.2. Potential Investors, Categories of Investor

The Securities may be offered to retail investors, institutional investors and/or other qualified investors, subject to the restrictions presented in section "7. Selling Restrictions" of this Securities Note.

The countries where the offer take place (each an "Offer Country") will be stated in the respective Final Terms.

5.7.3. Issue Price of the Securities, Pricing

(a) Disclosure of the price at which the Securities are offered (Initial Issue Price)

The initial issue price per Security is normally stated in the Final Terms. The selling price or, in the case of continuous public offers, the continuous offer prices of the Securities are subsequently determined on an ongoing basis.

The initial offer price and, in the case of continuous public offers, the continuous offer prices of the Securities are based on the internal pricing models of Société Générale. In addition to a front-end fee and placement commission, the initial offer price may also include an expected margin that is not apparent to investors. This margin will be collected by Société Générale. In principle, this margin may include costs that Société Générale has incurred or is yet to incur, in particular costs for structuring the Securities, hedging risk, and selling the Securities. The Final Terms state the amount of the Issuer's costs included in the initial issue price for the Securities, where known to the Issuer.

Contractual partners of the persons or entities purchasing the Securities issued by the Issuer may receive benefits for selling those Securities. Such contractual partners may also receive any front-end fee charged. In addition, the contractual partners of the purchaser may receive benefits in the form of payments in kind for selling the Securities.

(b) Other costs and taxes that may be charged to the subscriber or purchaser

The Issuer and/or Offeror will not charge purchasers any costs other than the above issue, subscription and/or selling prices. Information on other costs and taxes that may be charged or levied by online banks, investors' own banks or the given trading venue must be obtained from those sources.

5.7.4. Delivery of the Securities

The Securities will be delivered by depositing them in the Clearing System on the Payment Date specified in the respective Final Terms. Upon purchase after the Payment Date, the Securities will be delivered in accordance with applicable local market practice.

Definitive certificates for the Securities will not be issued.

5.8. Admission of the Securities to trading and trading rules

Application may be made to have the Securities admitted to trading on a regulated market or a multilateral trading facility ("MTF") in the European Economic Area ("EEA Trading Venue").

However, the Securities may be offered without being admitted to trading on an EEA Trading Venue.

5.8.1. Admission of the Securities to trading

The Final Terms will disclose any application or intention to apply for the Securities to be admitted to trading on an EEA Trading Venue. The Final Terms will also state the first date on which the Securities are or are expected to be admitted to trading, if known.

In addition, the Final Terms will disclose all EEA Trading Venues on which Securities of the same category are already admitted to trading.

The Final Terms will state any application or intention to apply for the Securities to be admitted to trading on another EEA Trading Venue, even as a potential secondary listing. In this case, the Final Terms will

also name the respective trading venue and, if known, the date on which the Securities were or are expected to be included in trading on such market or trading system.

The Securities may be admitted to trading on the following EEA Trading Venues:

- Barcelona Stock Exchange
- Euronext Access Paris
- Euronext Amsterdam N.V.
- Euronext Brussels N.V./S.A.
- Euronext Paris S.A.
- Frankfurt Stock Exchange Open Market (Freiverkehr)
- Hi-MTF
- Madrid Stock Exchange
- MTF SeDeX
- Nordic MTF
- Spectrum MTF
- Stuttgart Stock Exchange (Baden-Württembergischen Wertpapierbörse) Regulated Unofficial Market (Freiverkehr)

Even if the Offeror files the application for admission to trading, there is no guarantee that it will be granted. Nor is there a guarantee of active trading in the Securities. The Issuer is under no obligation to ensure that the Securities remain admitted to trading over their term.

5.8.2. Name and address of intermediaries in secondary trading

If the Issuer or a third party engaged by it can act as market maker for the Securities, that market maker will quote bid (buy) and ask (sell) prices under normal market conditions during the normal trading hours of the Securities in accordance with the rules and regulations of the given trading venue(s) for the purposes of securing liquidity for the respective Security. If the Issuer appoints intermediaries in secondary trading on a regulated market, the name and address of the respective institutions acting as intermediaries in secondary trading pursuant to a binding commitment will be published in the Final Terms, giving a description of the primary provisions of their commitment.

5.9. Post-Issuance Information

The Issuer does not intend to provide post-issuance information in relation to the Securities, unless the Terms and Conditions expressly provide for notices to be published in specific cases. This applies, for example, if adjustments are made. In such cases, the information will be published on the website(s) specified in the Final Terms or any respective successor website.

5.10. Credit Ratings of the Securities

The Securities described in the Base Prospectus are not rated.

6. DESCRIPTION OF THE SECURITIES

This section details the operation of the Securities that may be issued under the Base Prospectus.

The potential Securities operate differently depending on the type or variant of Security, which are categorised as follows:

TURBO Warrants

The Issuer may issue TURBO Warrants as "TURBO Warrants (CALL)" and "TURBO Warrants (PUT)".

Depending on how the occurrence of a Knock-out Event is determined, TURBO Warrants (CALL) and TURBO Warrants (PUT) can be issued as

- Classic:
- X-Classic; or
- Stop-Loss.

Unlimited TURBO Warrants

The Issuer may issue Unlimited TURBO Warrants as "Unlimited TURBO Warrants (CALL)" and "Unlimited TURBO Warrants (PUT)".

Depending on how the occurrence of a Knock-out Event is determined, Unlimited TURBO Warrants (CALL) and Unlimited TURBO Warrants (PUT) can be issued as

- BEST;
- X-BEST; or
- Not BEST
 - Standard
 - SMART

6.1. General Information on Warrants

The following descriptions of the Securities outline several variants of warrants. The relevant features of the warrants are given in the Terms and Conditions set out in the Final Terms.

6.1.1. Effect of the Underlying on the Performance of the Warrants

The warrants are linked to an Underlying, which can be a share, an ETF share, an index, a precious metal, a futures contract or a currency exchange rate. The Underlying is specified in the Final Terms.

During their term, the price of the warrants depends on the performance of the respective Underlying.

A distinction is drawn between type call and put. The following examples assume that the price of the Underlying changes while all other factors influencing the price of the warrant remain unchanged. The price of the **call** warrant <u>normally</u> **increases** when the value of the Underlying **increases**. Conversely, the price of the call warrant <u>normally</u> **decreases** when the value of the Underlying **decreases**. The situation is different for **put** warrants: the price of the put warrant <u>normally</u> **increases** when the value of the Underlying **decreases**. Conversely, the price of the put warrant <u>normally</u> **decreases** when the value of the Underlying **increases**.

However, a number of other factors influence the price of the warrants (for details see 6.2.3. and 6.3.3.).

6.1.2. Exercising the Warrants

Before the Redemption Amount can be paid out, the warrants must be exercised. A distinction is drawn between American and European exercise styles. Securityholders may exercise warrants with **American exercise** during the exercise period. Warrants with **European exercise** are exercised automatically on the Exercise Date, without any action required from the Securityholder. Warrants with American exercise are also exercised automatically on the last day of their exercise period. The condition for automatic exercise is that the warrants do not expire worthless on the respective exercise

date. In other words, the Issuer is required to make a payment to Securityholders in accordance with the Terms and Conditions of the warrants.

The Exercise Date and exercise style are specified in the Final Terms. The Terms and Conditions also detail the procedure for effective exercise of the warrants.

Securityholders **cannot** exercise warrants with **European** exercise during their term. During this period, the value of the warrants can only be realised by selling them. However, for these warrants this is likewise conditional on finding market participants who are prepared to purchase the warrants at an appropriate price.

Unlimited TURBO Warrants have the following **special feature**: they are not exercised automatically but can be exercised by the Securityholder on one of the small numbers of Exercise Dates specified in the Terms and Conditions. Consequently, Securityholders cannot freely decide when to exercise their warrants. Unlimited TURBO Warrants are thus similar to warrants with European exercise style, despite not being exercised automatically. They are also referred to as Bermuda warrants.

6.1.3. Reference Price and Price of the Underlying

The Reference Price of the Underlying on the Valuation Date is the deciding factor in determining the amount of payments to Securityholders. The Final Terms specify which price of the Underlying is used as the Reference Price. For example, they may provide for the relevant Reference Price to be determined as the closing price of a share on a stock exchange specified in the Terms and Conditions.

6.1.4. Adjustments, Extraordinary Termination

The Terms and Conditions of all Securities specify certain adjustment events whose occurrence may trigger an adjustment to the Terms and Conditions. The Issuer will adjust the Terms and Conditions in such manner that the economic position of the Securityholder is the same as before the adjustment event to the extent possible. The adjustment events depend on the type of Underlying.

Examples of adjustment events include the cessation of the Underlying or the discontinuation of its listing, changes in laws or taxation events. Another adjustment event may arise if the Issuer is no longer able to enter into the necessary hedges.

In the case of termination events, the Issuer is also entitled to terminate the Securities extraordinarily and to redeem them at the termination amount determined in accordance with the Terms and Conditions. The termination events are specified in the respective Terms and Conditions. These extraordinary termination rights will be exercised, for example if changes occur to the relevant underlying of the Securities which make it impossible in the opinion of the Calculation Agent to adjust the Terms and Conditions in a way which makes sense from a financial point of view or if the price quotation of the Underling was cancelled without replacement.

In the event of extraordinary termination, the Securityholders lose all of their rights arising from the Securities, except for their claim to payment of the termination amount determined in accordance with the Terms and Conditions. There is even a risk that the termination amount paid will be equal to 0 (zero) (0). In this event, the Securityholders will incur a total loss of the Capital Amount paid for the purchase of the Securities. The following is an example of such a case: The company whose shares form the underlying for the respective Security becomes insolvent. The share becomes worthless as a result. There is no question of making an adjustment to the Terms and Conditions in this case. The Issuer will therefore terminate the Security extraordinarily in this event. The Securityholders will suffer a total loss.

6.1.5. Currency Conversion

The Terms and Conditions of the Securities may contain provisions governing currency conversion. For example, the amounts payable in the Terms and Conditions may initially be expressed in a foreign currency and not the issue currency. In this event, these amounts are then converted into the issue currency on a Valuation Date at the relevant conversion rate specified in the Final Terms. The same applies to all other amounts payable in accordance with the Terms and Conditions that are initially expressed in a foreign currency (non quanto).

However, the Terms and Conditions may specify a 1:1 conversion rate (e.g., EUR 1.00/USD 1.00) (quanto). In this case, the issue currency/foreign currency exchange rate on the Valuation Date is irrelevant.

6.2. Detailed Information on TURBO Warrants

6.2.1. Features

TURBO Warrants have a fixed term and are exercised automatically on the Exercise Date (European exercise). Securityholders **cannot exercise** TURBO Warrants during their term and must sell them in order to realise their financial value.

6.2.2. Knock-out Event

(a) Classic

The special feature of TURBO Warrants is that they **expire worthless prior to the end of their term** if and upon the occurrence of a Knock-out Event. In this case, the Securityholder receives no Redemption Amount and in financial terms is faced with a **total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of a TURBO Warrant (CALL). In the case of a TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period. In the variant with final settlement price, this also occurs if the Reference Price on the Valuation Date is equal to or below (TURBO Warrant (CALL)) or above (TURBO Warrant (PUT)) the aforementioned Knock-out Barrier.

If a TURBO Warrant (CALL) expires worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If a TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

The Knock-out Barrier corresponds to the Strike. The Terms and Conditions specify the relevant prices of the Underlying used to determine a Knock-out Event. The relevant price may for example be any quoted price of a share on a specific stock exchange or any index level quoted by an index sponsor. Unlike in the case of the Reference Price on the Valuation Date, a number of prices for the Underlying are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

(b) X-Classic

The special feature of TURBO Warrants is that they **expire worthless prior to the end of their term** if and upon the occurrence of a Knock-out Event. In this case, the Securityholder receives no Redemption Amount and in financial terms is faced with a **total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of a TURBO Warrant (CALL). In the case of a TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period. In the variant with final settlement price, this also occurs if the Reference Price on the Valuation Date is equal to or below (TURBO Warrant (CALL)) or above (TURBO Warrant (PUT)) the aforementioned Knock-out Barrier.

For the X-Classic variant, the occurrence of a Knock-out Event is determined not just by the level of the DAX® (ISIN DE0008469008), but also by the level of the X-DAX® (ISIN DE000A0C4CA0). The X-DAX® corresponds to the DAX® in terms of its composition, but unlike the DAX®; it is not based on real prices from the Xetra electronic trading system, but on derivatives whose prices are also available outside regular trading hours. The X-DAX® therefore covers also the pre- and post-trading. This means the daily hours during which the Knock-out Barrier can be reached, exceeded or fallen below are thus considerably longer than in the case of ordinary TURBO Warrants linked to the DAX®, which substantially increases the possibility that a Knock-out Event will occur.

If a TURBO Warrant (CALL) expires worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If a TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

The Knock-out Barrier corresponds to the Strike. The Terms and Conditions specify the relevant prices of the Underlying used to determine a Knock-out Event. All DAX® AND X-DAX® levels quoted by the Index Sponsor must be observed. Unlike in the case of the Reference Price on the Valuation Date, many prices are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

(c) Stop-Loss

One special feature of TURBO Warrants is that they expire **almost worthless prior to the end of their term** if and upon the occurrence of a Knock-out Event. In this case the Securityholder receives no or only a small Redemption Amount, if at all, and in financial terms is faced with an **almost total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of a TURBO Warrant (CALL). In the case of a TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period. In the variant with final settlement price, this also occurs if the Reference Price on the Valuation Date is equal to or below (TURBO Warrant (CALL)) or above (TURBO Warrant (PUT)) the aforementioned Knock-out Barrier.

If a TURBO Warrant (CALL) expires, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If a TURBO Warrant (PUT) expires, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

The Knock-out Barrier is always just above (TURBO Warrant (CALL)) or below (TURBO Warrant (PUT)) the respective Strike. The Terms and Conditions specify the Knock-out Barrier and the relevant prices of the Underlying used to determine a Knock-out Event. The relevant price may for example be any quoted price of a share on a specific stock exchange or any index level quoted by an index sponsor. Unlike in the case of the Reference Price on the Valuation Date, a number of prices for the Underlying are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

6.2.3. Redemption in the case of TURBO Warrants

(a) General

If **no** Knock-out Event occurs before or on the Exercise Date, the TURBO Warrants are exercised automatically. What the Securityholder receives in the case of automatic exercise depends on the Reference Price for the Underlying on the Valuation Date specified in the terms and conditions. The definition of Reference Price in the Terms and Conditions has to be carefully considered as the Reference Price of an index, for example, is not always equal to the closing price.

In the scenarios outlined below, the TURBO Warrants are redeemed as follows subsequent to effective exercise (any currency conversions are not considered in the scenarios):

TURBO Warrants (CALL)

The Securityholder receives a Redemption Amount calculated as follows: the Redemption Amount equals the Reference Price of the Underlying on the Valuation Date minus the Strike, multiplied by the Ratio. Expressed as a formula:

Redemption Amount = $(RP - ST) \times R$

where:

RP= Reference Price of the Underlying on the Valuation Date

ST = StrikeR = Ratio

TURBO Warrants (PUT)

The Securityholder receives a Redemption Amount calculated as follows: the Redemption Amount equals the Strike minus the Reference Price of the Underlying on the Valuation Date, multiplied by the Ratio. Expressed as a formula:

Redemption Amount = $(ST - RP) \times R$

where:

ST = Strike

RP= Reference Price of the Underlying on the Valuation Date

R = Ratio

The Redemption Amount is generally paid out within two to five Business Days following the Valuation Date. If a Reference Price for the Underlying is not determined on a Valuation Date, the Valuation Date is postponed. This may potentially involve rescheduling the day on which the Redemption Amount is paid to the Securityholder.

(b) Special Feature of variant X-Classic

The Redemption Amount is calculated solely on the basis of the Reference Price for the Underlying DAX®. The levels of the X-DAX® are not taken into account in this case. Any X-DAX® level exceeding (TURBO Warrant (CALL)) or falling below (TURBO Warrant (PUT)) the level of the DAX® will not be taken into consideration when calculating the Redemption Amount.

(c) Special Feature of variant Stop-Loss

The Terms and Conditions may provide that, dividend distributions of the Underlying lead to an adjustment of the Strike and the Knock-out Barrier. If this applies, the Issuer of the TURBO Warrants Stop-Loss with a Share, ETF Share or share Index as Underlying may adjust the Strike and the Knock-out Barrier in the following cases: The Share or ETF Share used as Underlying distributes a dividend, or a dividend is distributed in respect of a share included in the share Index used as the Underlying. The Strike and the Knock-out Barrier is adjusted taking into account the adjustment made to the Share price, the ETF Share price or the level of the share Index as a result of the dividend payment, which in turn is adjusted to reflect the taxes, withholding tax in accordance with Section 871(m) IRC or other levies, fees and costs payable on the dividend distributions. For the avoidance of doubts: the term "dividend" includes dividends and also (other) distributions.

6.2.4. Leverage, pricing of TURBO Warrants

The price of a TURBO Warrant is subject to often significant fluctuations. The leverage effect is a key feature of such warrants and describes the phenomenon where changes in the price of the Underlying have a **disproportionate** effect on changes in the price of the TURBO Warrant.

If the price of the Underlying for a TURBO Warrant (CALL) increases, the price of the warrant increases disproportionately. If the price of the Underlying for a TURBO Warrant (CALL) decreases, the price of such warrant decreases disproportionately.

If the price of the Underlying for a TURBO Warrant (**PUT**) **decreases**, the price of the warrant **increases disproportionately**. If the price of the Underlying for a TURBO Warrant (**PUT**) **increases**, the price of such warrant **decreases disproportionately**.

TURBO Warrants feature greater exposure to the leverage effect than standard warrants that are not subject to early termination upon occurrence of a Knock-out Event.

In the case of TURBO Warrants, the leverage effect occurs in particular if the following condition is met: the price of the Underlying is close to the Strike. The closer the price of the Underlying is to the Strike, the **higher** the **probability** of a Knock-out Event occurring. Consequence: **the leverage increases**. The

further the price of the Underlying is from the Strike, the **lower** the **probability** of a Knock-out Event occurring. Consequence: the **leverage decreases**.

The following factors (not exhaustive) also impact the price of a TURBO Warrant:

- the degree of fluctuation (volatility) of the Underlying. In general, the volatility of the Underlying has little impact on the price of the TURBO Warrant. However, that impact increases when the price of the Underlying is in close proximity to the Strike of the TURBO Warrant;
- general changes in interest rate levels;
- spreads on the capital market for maturities comparable to the term of the respective TURBO Warrant:
- for TURBO Warrants with shares as the Underlying, dividends expected or actually distributed during the term of the TURBO Warrant;
- remaining term of the TURBO Warrant.

6.2.5. Limitation of term for TURBO Warrants (CALL) on U.S. shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The Terms and Conditions may contain the following clause: if the Underlying is a U.S. share or a certain U.S. ETF Share or Indices that reference U.S. equities, and the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, and the Business Day prior to the ex-dividend date or the dividend record date falls within the term of the TURBO Warrant (CALL), the term of the Security shall automatically end early. In this case, the Exercise Date is the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The Issuer intends to take the view that payments made in respect of such Securities are not subject to the tax withholding obligation in accordance with Section 871(m) IRC. However, this is not an uncontested view and the Inland Revenue Service (IRS) may assert that certain payments made in respect of such Securities are subject to the withholding obligation under Section 871(m) IRC. If it transpires that the view taken by the IRS is correct, Securityholders may be subject to tax in accordance with Section 871(m) IRC. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors. Investors must contact their custodian regarding any potential tax refund in accordance with the respective U.S. laws. In addition, the mandatory uniform pricing for all investors means that the maximum applicable tax rate is routinely applied.

6.2.6. Tax withheld by the Issuer in the case of TURBO Warrants (CALL) on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities (the "Issuer Solution")

In the case of TURBO Warrants (CALL) that (i) are linked to the performance of a U.S. Share or a certain U.S. ETF Share or Indices that reference U.S. equities, and (ii) were not terminated before the business day prior to the ex-dividend date or before the dividend record date, the Issuer intends to take the tax obligation under Section 871(m) IRC into account in the initial and subsequent valuation of the Securities, and to ensure compliance with the tax withholding obligation by means of internal rules to be determined accordingly. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors.

To the extent withholding under Section 871(m) IRC is required, the Issuer intends to withhold at a rate of 30 percent on any dividend equivalents. This withholding is in addition to any withholding applicable to the Issuer's hedge. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

6.3. Detailed Information on Unlimited TURBO Warrants

6.3.1. Features

Unlimited TURBO Warrants have <u>no</u> fixed term and Securityholders can only exercise them on one of the small numbers of exercise dates specified in the terms and conditions. This means that Unlimited TURBO Warrants are <u>not</u> exercised automatically on a defined date. Securityholders must exercise or sell their Unlimited TURBO Warrants in order to realise their financial value.

6.3.2. Knock-out Event

(a) BEST

One special feature of Unlimited TURBO Warrants is that they expire **worthless** if and upon the occurrence of a Knock-out Event. In this case, the Securityholder receives no redemption amount and in financial terms is faced with a **total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of an Unlimited TURBO Warrant (CALL). In the case of an Unlimited TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period.

If an Unlimited TURBO Warrant (CALL) expires worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If an Unlimited TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

For BEST, the Knock-out Barrier is equal to the Strike (**B**arrier **E**qual **ST**rike). The Terms and Conditions specify the Knock-out Barrier on the Launch Date and the relevant prices of the Underlying used to determine a Knock-out Event. The latter may for example be any quoted price of a share on a specific stock exchange or any index level quoted by an index sponsor. Thus, unlike in the case of the Reference Price on the Valuation Date, a number of prices for the Underlying are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

The Knock-out Barrier and thus the Strike change in line with the Adjustment Amount on each calendar day between the Launch Date and the respective Valuation Date. The Adjustment Amount is recalculated on each calendar day or each month (in the case of a monthly determination of the Adjustment Amount). Among other things, it includes a Risk Premium determined by the Calculation Agent and collected by the Issuer. Upon issue, the Knock-out Barrier, Strike and Risk Premium correspond to the values stated in the Final Terms.

(b) X-BEST

One special feature of Unlimited TURBO Warrants is that they expire **worthless** if and upon the occurrence of a Knock-out Event. In this case, the Securityholder receives no redemption amount and in financial terms is faced with a **total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of an Unlimited TURBO Warrant (CALL). In the case of an Unlimited TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period.

For the X-BEST variant, the occurrence of a Knock-out Event is determined not just by the level of the DAX® (ISIN DE0008469008), but also by the level of the X-DAX® (ISIN DE000A0C4CA0). The X-DAX® corresponds to the DAX® in terms of its composition, but unlike the DAX®; it is not based on real prices from the Xetra electronic trading system, but on derivatives whose prices are also available outside regular trading hours. The X-DAX® therefore covers also the pre- and post-trading. This means the daily hours during which the Knock-out Barrier can be reached, exceeded or fallen below are thus considerably longer than in the case of ordinary Unlimited TURBO Warrants linked to the DAX®, which substantially increases the possibility that a Knock-out Event will occur.

If an Unlimited TURBO Warrant (CALL) expires worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If an Unlimited TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

For BEST, the Knock-out Barrier is equal to the Strike (**B**arrier **E**qual **ST**rike). The Terms and Conditions specify the Knock-out Barrier on the Launch Date and the relevant prices of the Underlying used to determine a Knock-out Event. All DAX® AND X-DAX® levels quoted by the Index Sponsor must be observed. Unlike in the case of the Reference Price on the Valuation Date, many prices are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

The Knock-out Barrier and thus the Strike change in line with the Adjustment Amount on each calendar day between the Launch Date and the respective Valuation Date. The Adjustment Amount is recalculated on each calendar day or each month (in the case of a monthly determination of the Adjustment Amount). Among other things, it includes a Risk Premium determined by the Calculation Agent and collected by the Issuer. Upon issue, the Knock-out Barrier, Strike and Risk Premium correspond to the values stated in the Final Terms.

(c) Not BEST

(aa) Standard

One special feature of Unlimited TURBO Warrants is that they expire **almost worthless** if and upon the occurrence of a Knock-out Event. In this case the Securityholder receives only a small Redemption Amount, if at all, and in financial terms is faced with an **almost total loss**.

A Knock-out Event occurs as soon as the relevant price of the Underlying reaches or falls below its Knock-out Barrier just once during the Monitoring Period of an Unlimited TURBO Warrant (CALL). In the case of an Unlimited TURBO Warrant (PUT), a Knock-out Event occurs as soon as the relevant price of the Underlying reaches or exceeds its Knock-out Barrier just once during the Monitoring Period.

If an Unlimited TURBO Warrant (CALL) expires almost worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If an Unlimited TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

The Knock-out Barrier is always just above (Unlimited TURBO Warrant (CALL)) or below (Unlimited TURBO Warrant (PUT)) the respective Strike. The Terms and Conditions specify the Knock-out Barrier and the relevant prices of the Underlying used to determine a Knock-out Event. The relevant price may for example be any quoted price of a share on a specific stock exchange or any index level quoted by an index sponsor. Unlike in the case of the Reference Price on the Valuation Date, a number of prices for the Underlying are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

The Strike changes in line with the Adjustment Amount on each calendar day between the Launch Date and the respective Valuation Date. In the case of a daily determination of the Adjustment Amount, the Adjustment Amount is recalculated on each calendar day. In the case of a monthly determination of the Adjustment Amount, the Adjustment Amount is recalculated on each month. Among other things, the Adjustment Amount includes a Risk Premium determined by the Calculation Agent and collected by the Issuer. The Knock-out Barrier is also newly determined on each business day or each month, respectively. Upon issue, the Knock-out Barrier, Strike and Risk Premium correspond to the values stated in the Final Terms.

(bb) SMART

One special feature of Unlimited TURBO Warrants is that they expire **almost worthless** if and upon the occurrence of a Knock-out Event. In this case the Securityholder receives only a small redemption amount, if at all, and in financial terms is faced with an **almost total loss**.

A Knock-out Event occurs if, during the Monitoring Period, (i) a relevant price of the Underlying to which an Unlimited TURBO Warrant (CALL) is linked reaches or falls below its Strike just once, or (ii) the Reference Price reaches or falls below its Knock-out Barrier just once. In the case of an Unlimited TURBO Warrant (PUT), a Knock-out Event occurs if, during the Monitoring Period, (i) a relevant price of the Underlying to which an Unlimited TURBO Warrant (PUT) is linked reaches or exceeds its Strike, or (ii) the Reference Price reaches or exceeds the Knock-out Barrier.

If an Unlimited TURBO Warrant (CALL) expires worthless, unlike in the case of a standard call warrant the Securityholder cannot rely on a recovery in the price of the Underlying and thus the price of the call warrant. If an Unlimited TURBO Warrant (PUT) expires worthless, unlike in the case of a standard put warrant the Securityholder cannot rely on a decrease in the price of the Underlying and thus an increase in the price of the put warrant.

The Knock-out Barrier is always just above (Unlimited TURBO Warrant (CALL)) or below (Unlimited TURBO Warrant (PUT)) the respective Strike. The Terms and Conditions specify the Knock-out Barrier and the relevant prices of the Underlying used to determine a Knock-out Event. The relevant price may for example be any quoted price of a share on a specific stock exchange or any index level quoted by an index sponsor. Unlike in the case of the Reference Price on the Valuation Date, a number of prices for the Underlying are significant for a Knock-out Event to occur. In all cases, Securityholders should read the Terms and Conditions to ascertain which prices are capable of triggering a Knock-out Event.

The Strike changes in line with the Adjustment Amount on each calendar day between the Launch Date and the respective Valuation Date. In the case of a daily determination of the Adjustment Amount, the Adjustment Amount is recalculated on each calendar day. In the case of a monthly determination of the Adjustment Amount, the Adjustment Amount is recalculated on each month. Among other things, the Adjustment Amount includes a Risk Premium determined by the Calculation Agent and collected by the Issuer. The Knock-out Barrier is also newly determined on each business day or each month, respectively. Upon issue, the Knock-out Barrier, Strike and Risk Premium correspond to the values stated in the Final Terms.

6.3.3. Redemption in the case of Unlimited TURBO Warrants

(a) General

If **no** Knock-out Event has occurred, the Unlimited TURBO Warrants can be exercised or sold. What the Securityholder receives upon exercising them depends on the Reference Price for the Underlying on the respective Valuation Date.

In the scenarios outlined below, the Unlimited TURBO Warrants are redeemed as follows following effective exercise (any currency conversions are not considered in the scenarios):

Unlimited TURBO Warrants (CALL)

The Securityholder receives a Redemption Amount calculated as follows: The Redemption Amount equals the Reference Price of the Underlying on the Valuation Date minus the Strike valid on the Valuation Date, multiplied by the Ratio. Expressed as a formula:

Redemption Amount = $(RP - ST) \times R$

where:

RP= Reference Price of the Underlying on the Valuation Date

ST = Strike valid on the Valuation Date

R = Ratio

Unlimited TURBO Warrants (PUT)

The Securityholder receives a Redemption Amount calculated as follows: The Redemption Amount equals the Strike valid on the Valuation Date minus the Reference Price of the Underlying on the Valuation Date, multiplied by the Ratio. Expressed as a formula:

Redemption Amount = $(ST - RP) \times R$

where:

ST = Strike valid on the Valuation Date

RP= Reference Price of the Underlying on the Valuation Date

R = Ratio

The Redemption Amount is generally paid out within two to five business days following the Valuation Date. If a Reference Price for the Underlying is not determined on a Valuation Date, the Valuation Date is postponed. This may potentially involve rescheduling the day on which the Redemption Amount is paid to the Securityholder.

(b) Special Feature variant X-BEST

The Redemption Amount is calculated solely on the basis of the Reference Price for the Underlying DAX®. The levels of the X-DAX® are not taken into account in this case. Any X-DAX® level exceeding (Unlimited TURBO Warrants (CALL)) or falling below (Unlimited TURBO Warrants (PUT)) the level of the DAX® will not be taken into consideration when calculating the Redemption Amount.

6.3.4. Daily Adjustment of the Strike

The Strike of an Unlimited TURBO Warrants is adjusted on a daily basis by the Adjustment Amount. The Adjustment Amount can be positive or negative. This gives the following results (the examples below assume that the Strike changes while all other factors influencing the value of the warrant remain unchanged):

Unlimited TURBO Warrants (CALL): if the Adjustment Amount is positive, the Strike of the Unlimited TURBO Warrant (CALL) increases. Increasing the Strike has a **negative** effect on the price of the Unlimited TURBO Warrant (CALL). If the Adjustment Amount is negative, the Strike of the Unlimited TURBO Warrant (CALL) decreases. Decreasing the Strike has a **positive** effect on the price of the Unlimited TURBO Warrant (CALL).

Unlimited TURBO Warrants (PUT): if the Adjustment Amount is negative, the Strike of the Unlimited TURBO Warrant (PUT) decreases. Decreasing the Strike has a **negative** effect on the price of the Unlimited TURBO Warrant (PUT). If the Adjustment Amount is positive, the Strike of the Unlimited TURBO Warrant (PUT) increases. Increasing the Strike has a **positive** effect on the price of the Unlimited TURBO Warrant (PUT.

(a) Daily and monthly calculation of the Adjustment Amount

In the case of a daily calculation of the Adjustment Amount, the Adjustment Amount is recalculated for each calendar day and **deducted from** or **added** to the Strike. It is calculated by multiplying the Strike valid on the preceding day by an Adjustment Percentage.

In the case of a monthly calculation of the Adjustment Amount, the Adjustment Amount is calculated for each month and **deducted from** or **added** to the Strike unchanged on a daily basis. It is calculated by multiplying the Strike valid on the first day of the month by an Adjustment Percentage.

(b) Calculating the Adjustment Percentage

The Adjustment Percentage is calculated on the basis of the Reference Interest Rate and the Risk Premium. Where Futures Contracts are used as the Underlying, the special feature is that the Adjustment Percentage comprises solely the Risk Premium and is always positive (Unlimited TURBO Warrants (CALL)) or negative (Unlimited TURBO Warrants (PUT)). The Reference Interest Rate is based on the refinancing rates applicable to the Issuer. The Risk Premium is collected by the Issuer to cover the risks associated with issuing the Securities. The Issuer determines this **at its reasonable discretion**.

In the case of **Unlimited TURBO Warrants (CALL)**, the Reference Interest Rate and Risk Premium are added together.

Adjustment Percentage = Reference Interest Rate + Risk Premium

The Adjustment Percentage is normally **positive**, meaning that the Adjustment Amount is also **positive**. In the case of Unlimited TURBO Warrants (CALL), the Strike therefore **increases** as a result of its daily adjustment. Consequently, each adjustment of the Strike has a **negative** effect on the price of the call warrant.

In the case of Unlimited TURBO Warrants (CALL), the Adjustment Percentage is only negative if the refinancing rates applicable to the Issuer are negative and exceed the Risk Premium collected by the Issuer. Consequence: both the Adjustment Percentage and the Adjustment Amount are **negative**. Decreasing the Strike has a **positive** effect on the price of the Unlimited TURBO Warrant (CALL).

In the case of **Unlimited TURBO Warrants (PUT)**, the Risk Premium is deducted from the Reference Interest Rate.

Adjustment Percentage = Reference Interest Rate - Risk Premium

In the case of Unlimited TURBO Warrants (PUT), the deciding factor is whether the Risk Premium collected by the Issuer exceeds the Reference Interest Rate.

If the Risk Premium is lower than the Reference Interest Rate, the Adjustment Percentage is **positive**, meaning that the Adjustment Amount is also **positive**. In the case of Unlimited TURBO Warrants (PUT), the Strike therefore **increases** as a result of its daily adjustment. Consequently, each adjustment of the Strike has a **positive** effect on the price of the Unlimited TURBO Warrant (PUT).

If the Risk Premium is higher than the Reference Interest Rate, the Adjustment Percentage is **negative**, meaning that the Adjustment Amount is also **negative**. In the case of Unlimited TURBO Warrants (PUT), the Strike therefore **decreases** as a result of its daily adjustment. Consequently, each adjustment of the Strike generally has a **negative** effect on the value of the Unlimited TURBO Warrant (PUT).

Please note: In the case of Unlimited TURBO Warrants (CALL), the Risk Premium is added to the Reference Interest Rate. In the case of Unlimited TURBO Warrants (PUT), the Risk Premium is deducted from the Reference Interest Rate. As a result, the Risk Premium (when considered in isolation) always helps to ensure that each and every adjustment of the Strike has a **negative** effect on the value of the Unlimited TURBO Warrant – both for Unlimited TURBO Warrants (CALL) and Unlimited TURBO Warrants (PUT).

6.3.5. Adjustment of the Knock-out Barrier in the case of Unlimited TURBO Warrants Not BEST

In the case of a daily determination of the Knock-out Barrier, the Issuer determines the Knock-out Barrier for each business day, taking into consideration the prevailing market conditions. Since the Strike also changes on a daily basis, the gap between the Knock-out Barrier and the Strike changes constantly.

In the case of a monthly determination of the Knock-out Barrier, the Issuer determines the Knock-out Barrier for each Barrier Adjustment Period, taking into consideration the prevailing market conditions. Since the Strike changes on a daily basis while the Knock-out Barrier remains constant over the Barrier Adjustment Period, the gap between the Knock-out Barrier and the Strike changes constantly over the course of a Barrier Adjustment Period.

6.3.6. Adjustment of the Strike and the Knock-out Barrier due to dividends distributed in respect of the Underlying

In the case of Unlimited TURBO Warrants with a share, ETF Share or share index as the Underlying, the Issuer may adjust the Strike and the Knock-out Barrier if: a dividend is distributed in respect of the Share or ETF Share used as the Underlying, or a dividend is distributed in respect of a share included in the share Index used as the Underlying. The Strike and the Knock-out Barrier is adjusted taking into account the adjustment made to the Share price, the ETF price or the level of the share index as a result of the dividend payment, which in turn is adjusted to reflect the taxes, withholding tax in accordance with Section 871(m) IRC or other levies, fees and costs payable on the dividend distributions. For the avoidance of doubts: the term "dividend" includes dividends and also (other) distributions.

6.3.7. Leverage, pricing of Unlimited TURBO Warrants

The price of an Unlimited TURBO Warrant is subject to often significant fluctuations. The leverage effect is a key feature of such Securities and describes the phenomenon where changes in the price of the Underlying have a **disproportionate** effect on changes in the price of the Unlimited TURBO Warrant.

If the price of the Underlying for an Unlimited TURBO Warrant (CALL) increases, the price of that Unlimited TURBO Warrant (CALL) increases disproportionately. If the price of the Underlying for an Unlimited TURBO Warrant (CALL) decreases, the price of such warrant decreases disproportionately.

If the price of the Underlying for an Unlimited TURBO Warrant (**PUT**) **decreases**, the price of that Unlimited TURBO Warrant (**PUT**) **increases disproportionately**. If the price of the Underlying for an Unlimited TURBO Warrant (**PUT**) **increases**, the price of such warrant **decreases disproportionately**.

Unlimited TURBO Warrants feature greater exposure to the leverage effect than standard warrants that are not subject to early termination upon occurrence of a Knock-out Event.

In the case of Unlimited TURBO Warrants, the leverage effect occurs in particular if the following condition is met: the price of the Underlying is close to the Strike. The closer the price of the Underlying is to the Strike, the **higher the probability** of a Knock-out Event occurring. Consequence: the leverage **increases**. The further the price of the Underlying is from the Strike, the **lower the probability** of a Knock-out Event occurring. Consequence: the leverage **decreases**.

The following factors (not exhaustive) also impact the price of an Unlimited TURBO Warrant:

- the degree of fluctuation (volatility) of the Underlying. In general, the volatility of the Underlying has little impact on the price of the Unlimited TURBO Warrant. However, that impact increases when the price of the Underlying is in close proximity to the Strike of the Unlimited TURBO Warrant;
- general changes in interest rate levels;
- spreads on the capital market for maturities comparable to the term of the respective Unlimited TURBO Warrant;
- for warrants with shares as the Underlying, dividends expected or actually distributed during the term of the Unlimited TURBO Warrant.

6.3.8. Limitation of term for Unlimited TURBO Warrants (CALL) on U.S. shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities

The Terms and Conditions may contain the following clause: If the Underlying is a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and the company that issued the Underlying (or is the company referenced by the ETF or included in the Index) pays a dividend, the term of the Security automatically ends prematurely. In this case, the Exercise Date is the Business Day preceding the Business Day prior to the ex-dividend date (or the Business Day preceding the dividend record date, if the dividend record date is earlier than the ex-dividend date).

The Issuer intends to take the view that payments made in respect of such Securities are not subject to the tax withholding obligation in accordance with Section 871(m) IRC. However, this is not an uncontested view and the Inland Revenue Service (IRS) may assert that certain payments made in respect of such Securities are subject to the withholding obligation under Section 871(m) IRC. If it transpires that the view taken by the IRS is correct, Securityholders may be subject to tax in accordance with Section 871(m) IRC. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors. Investors must contact their custodian regarding any potential tax refund in accordance with the respective U.S. laws. In addition, the mandatory uniform pricing for all investors means that the maximum applicable tax rate is routinely applied.

6.3.9. Tax withheld by the Issuer in the case of Unlimited TURBO Warrants (CALL) on U.S. Shares, with respect to certain U.S. ETF Shares or Indices that reference U.S. equities ("Issuer Solution")

In the case of Unlimited TURBO Warrants (CALL) that (i) are linked to the performance of a U.S. Share or a certain U.S. ETF Share or Index that reference U.S. equities, and (ii) were not terminated before

the business day prior to the ex-dividend date or before the dividend record date, in the event that dividend payments are made in respect of the Underlying the Issuer intends to take the tax obligation under Section 871(m) IRC into account in its ongoing adjustment of the Strike, and to ensure compliance with the tax withholding obligation by means of internal rules to be determined accordingly. Investors should note that the Issuer's compliance with the tax withholding obligation under Section 871(m) IRC prevents it from issuing tax certificates in respect of tax payments made by individual investors.

To the extent withholding under Section 871(m) IRC is required, the Issuer intends to withhold at a rate of 30 percent on any dividend equivalents. This withholding is in addition to any withholding applicable to the Issuer's hedge. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.

7. SELLING RESTRICTIONS

7.1. Introduction

Aside from publishing and filing this Prospectus, any supplements and/or the respective Final Terms in the Federal Republic of Germany and in those countries where the Prospectus has been notified, the Issuer has not taken and will not take any action to permit the public offer of the Securities or their possession or the distribution of offering documents in relation to the Securities in a jurisdiction that requires specific action to be taken for that purpose.

The distribution of this Prospectus and the offer of the Securities may be subject to legal restrictions in certain jurisdictions. This may relate primarily to the offer, sale, holding and/or delivery of Securities as well as the distribution, publication and possession of the Prospectus. Persons who gain access to the Securities and/or the Prospectus are required to independently seek information on and comply with such restrictions.

The Securities and the Prospectus may only be distributed in a given jurisdiction if this complies with the laws of such jurisdiction and does not give rise to obligations on the part of the Issuer. In particular, the Prospectus may not be used by any person or entity for the purposes of an offer or advertisement (a) in a jurisdiction in which the offer or advertisement is not approved but where such approval is required, and/or (b) to or with respect to a person for whom such offer or advertisement is not lawful.

Neither the Base Prospectus nor any supplements nor the respective Final Terms represent an offer or an invitation to any person for the purchase of Securities and can in no way be regarded as a recommendation by the Issuer to purchase Securities.

7.2. European Economic Area

A public offer of the Securities may be made in a member state of the European Economic Area ("**EEA**") in accordance with the following terms and conditions:

- after the date of publication of the Base Prospectus approved by the competent authority
 of that member state or approved in another member state and notified to the competent
 authority in that member state, provided that
 - the Base Prospectus has been supplemented by the Final Terms providing for an offer subject to the obligation to publish a prospectus (non-exempt offer), in accordance with the Prospectus Regulation,
 - the non-exempt offer is only made in the period whose beginning and end are specified in the Base Prospectus or in the Final Terms, and
 - the Issuer has consented in writing to their use for the purposes of the non-exempt offer:
- at any time to persons who are qualified investors within the meaning of the Prospectus Regulation;
- at any time in any member state to fewer than 150 natural or legal persons per member state (who are not qualified investors within the meaning of the Prospectus Regulation); or
- at any time under any of the other circumstances specified in Article 1 (4) of the Prospectus Regulation.

None of the offers under the last three points may require the Issuer to publish a prospectus in accordance with Article 6 of the Prospectus Regulation or a supplement to a prospectus in accordance with Article 23 of the Prospectus Regulation.

For the purposes of these selling restrictions, the term "public offer of the Securities", when used in relation to Securities in a member state, means a communication to persons in any form and by any means, presenting sufficient information on the terms of the offer and the securities to be offered, so as to enable an investor to decide to purchase or subscribe for those securities.

7.3. United Kingdom

All purchasers of the Securities acknowledge and agree that an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the United Kingdom Financial Services and Markets Act 2000 ("FSMA")) may only be communicated or caused to be communicated in connection with the issue or sale of the Securities in circumstances in which Section 21(1) FSMA does not apply to the Issuer.

The applicable provisions of the FMSA must be complied with in respect of any and all action taken in connection with the Securities that originates from or otherwise involves the United Kingdom.

7.4. United States of America

The Securities and guarantees for these Securities have not been and will not be registered under the United States Securities Act of 1933 as amended (the "Securities Act") or the securities laws of any state of the United States or of its territories, nor has trading in the Securities been approved by the Commodity Futures Trading Commission ("CFTC") in accordance with the United States Commodity Exchange Act as amended (the "CEA"). No commodity pool operator has been or will be registered for the Issuer (or its legal successor) in accordance with the CEA and the CFTC rules established under the CEA (the "CFTC Rules"), and the Issuer is not and will not be registered as an investment company in accordance with the United States Investment Company Act of 1940 as amended and the rules and regulations promulgated thereunder (the "Investment Company Act"). The Securities are offered and sold pursuant to an exemption from the registration requirements of the Securities Act under Regulation S of the Securities Act (Regulation S). They may only be offered, sold, resold, pledged or otherwise transferred at any time as part of an offshore transaction (as defined in Regulation S) to, or for the account or benefit of persons who do not meet the definitions set out below:

- A a U.S. person as defined in Regulation S of the Securities Act (a "U.S. Person as Defined in Regulation S"), or within the meaning of the CEA, a CFTC Rule or guidelines proposed or promulgated under the CEA or an order proposed or promulgated under the CEA (for the avoidance of doubt, a U.S. person is any person who is not a "non-United States person" as defined in CFTC Rule 4.7(a)(1)(iv), however excluding, for the purposes of point (D) of CFTC Rule 4.7(a)(1)(iv), the exception for qualified eligible persons who are not U.S. persons) (a "U.S. Person as Defined in the CEA").
- B a U.S. person as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended, with the exception of traders or other professional fiduciaries organised or registered in the United States and acting outside the United States for the benefit or account of a non-U.S. person in respect of a non-discretionary or similar account (other than an estate or trust) (a "U.S. Person as Defined by the IRS").

Each person or account being a U.S. Person as Defined in Regulation S, a U.S. Person as Defined in the CEA or a U.S. Person as Defined by the IRS is hereinafter referred to as a "**U.S. Person**". Each person or account not being a U.S. Person as defined in this document is hereinafter referred to as a "**Permitted Transferee**".

BY PURCHASING THE SECURITIES, EACH PURCHASER WILL BE DEEMED OR REQUIRED TO HAVE AGREED TO THE FOREGOING RESTRICTIONS AND THE PROHIBITION ON RESELLING OR OTHERWISE TRANSFERRING THE SECURITIES HELD BY THEM, WITH THE EXCEPTION OF RESALE AND TRANSFER AS PART OF OFFSHORE TRANSACTIONS (AS DEFINED IN REGULATION S) OUTSIDE THE UNITED STATES TO PERSONS WHO ARE PERMITTED TRANSFEREES AS DEFINED ABOVE.

THE ISSUER, FIDUCIARY, INVESTMENT MANAGER, ADMINISTRATOR AND THE CUSTODIAN (WHERE APPLICABLE) OR THEIR AFFILIATED COMPANIES ARE NOT REQUIRED TO RECOGNISE ANY RESALE OR OTHER TRANSFER NOT COMPLIANT WITH THESE RESTRICTIONS. TRANSFERS OF THE SECURITIES TO PERSONS WITHIN THE UNITED STATES OR TO U.S. PERSONS (AS DEFINED ABOVE) WILL BE VOID AB INITIO. THE ISSUER, FIDUCIARY,

INVESTMENT MANAGER, ADMINISTRATOR AND THE CUSTODIAN (WHERE APPLICABLE) MAY DEMAND THAT PERSONS WITHIN THE UNITED STATES OR U.S. PERSONS (AS DEFINED ABOVE) IMMEDIATELY TRANSFER THE SECURITIES TO A PERMITTED TRANSFEREE. IF APPLICABLE, THE ISSUER OR FIDUCIARY (IN EACH CASE WHERE RELEVANT) MAY FURTHERMORE CONFISCATE THE SECURITIES FROM SUCH PERSONS FOR THE PURPOSES OF CANCELLING THEM.

8. TERMS AND CONDITIONS

The Terms and Conditions consist of the general terms (the "General Terms"), the product-specific terms (the "Product-Specific Terms") and the product data (the "Table of Product Details") of the Securities (together the "Terms and Conditions"). The Terms and Conditions in certain places contain options or a variety of possible options for a provision (indicated by square brackets or frames) or omissions (indicated by placeholder). The Final Terms provide the missing information and specify which of the possibilities provided by the Terms and Conditions shall apply with respect to specific conditions.

 - (ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index; the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether this is the case; or
 - (iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange, in such case, the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether a Futures Exchange Adjustment would be required. The Issuer shall make Adjustments in its reasonable discretion (billiges Ermessen) (§ 315 BGB).

reasonable discretion (billiges Ermessen) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the level of the Index.

- 4. Any reference made to the Index and/or the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the replacement index and/or the index sponsor of the replacement index. All related definitions shall be deemed to be amended accordingly.
- 5. Adjustments shall take effect as from the date (the "Cut-off Date") determined by the Issuer in its reasonable discretion (billiges Ermessen) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
- 6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 6 of the General Terms.
- 7. Any adjustment in accordance with this § 5 of the Product-Specific Terms does not preclude a subsequent termination in accordance with § 6 paragraph 1 of the Product-Specific Terms on the basis of the same event.
- 8. If the Index is no longer provided by the Index Sponsor but by another acceptable person, company or institution as the new Index Sponsor (the "Successor Index Sponsor"), all amounts payable under the Securities will be determined on the basis of the Index being provided by the Successor Index Sponsor and any reference made to the Index Sponsor in these Terms and Conditions shall, if the context so admits, then refer to the Successor Index Sponsor. The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether this is the case.
- 9. If the Index Sponsor materially modifies the calculation method of the Index with effect on or after the Launch Date, or materially modifies the Index in any other way (except for modifications which are contemplated in the calculation method of the Index relating to a change with respect to any index components, the market capitalisation or with respect to any other routine measures), each an "Index Modification", then the Calculation Agent is entitled to continue the calculation and publication of the Index on the basis of the former concept of the Index and its last determined level. The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether an Index Modification has occurred.

10. "Extraordinary Event" means:

- (d) a change in the currency in one or more index components and such change has a material effect on the level of the Index. The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether this is the case;
- (e) the Index Sponsor (i) ceases to provide the Index and/or materially or frequently delays the publication of the level of the Index or the relevant data for calculating the level of the Index and the Issuer is not able to calculate the Index without the Index Sponsor's information and/or (ii) materially modifies its terms and conditions for the use of the Index and/or materially increases its fees for the use or calculation of the Index so that it is no longer economically reasonable to reference such Index and such modification and/or increase,

- respectively, are relevant with respect to the Securities. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case;
- (f) the occurrence of an Index Modification; or
- (g) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

 - (a) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Price Source Adjustments, in cases where:
 - (i) the Price Source Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether this is the case;

- (ii) the Price Source Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Precious Metal; the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether this is the case; or
- (iii) in cases where no Price Source Adjustment occurs but where such Price Source Adjustment would be required pursuant to the adjustment rules of the Price Source; in such case, the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether a Price Source Adjustment would be required. - 4. Adjustments shall take effect as from the date (the "Cut-off Date") determined by the Issuer in its reasonable discretion (billiges Ermessen) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Price Source) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Price Source.
- 5. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 6 of the General Terms.

 - (i) the Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether this is the case;
 - (ii) the Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Futures Contract; the Issuer shall decide in its reasonable discretion (billiges Ermessen) (§ 315 BGB) whether this is the case; or

- 5. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 6 of the General Terms.

Upon the occurrence of an Extraordinary Event which has a material effect on the Currency Exchange Rate or the Reference Price, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event in accordance with the following provisions (each an "Adjustment"). The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether an Extraordinary Event has occurred and whether such Extraordinary Event has a material effect on the Currency Exchange Rate or the Reference Price.
- 2. An Adjustment may result in:
 - (a) the definition of the Currency Exchange Rate or the Reference Price being adjusted,

All Underlyings

- [•] Upon the occurrence, as determined by the Calculation Agent in its reasonable discretion (billiges Ermessen) (§ 317 BGB), of an Administrator/Benchmark Event to a Benchmark (the "Affected Benchmark") on or after the Launch Date the following shall apply:
 - (a) the Calculation Agent shall, using reasonable discretion (billiges Ermessen) (§ 317 BGB), determine the Benchmark that is the successor to or replacement of the Affected Benchmark which is formally recommended by any Relevant Nominating Body (the "Successor Benchmark"); or
 - (b) if no Successor Benchmark is available, the Calculation Agent shall, using reasonable discretion (billiges Ermessen) (§ 317 BGB), determine the Benchmark which is customarily applied in international [debt] capital markets transactions for the purposes of determining the Affected Benchmark (the "Alternative Benchmark" and together with the Successor Benchmark, the "New Benchmark").

If the Issuer determines a New Benchmark as described above, then such New Benchmark shall subsequently be used in place of the Affected Benchmark as of the relevant effective date notified by the Issuer to the Securityholders or, at the latest, for the immediately following period for which the Benchmark is to be determined (the "**Determination Period**") and subsequently for all following Determination Periods.

In the case of a New Benchmark, the Issuer shall in its reasonable discretion (billiges Ermessen) (§ 315 BGB) make any such additional adjustments to the Terms and Conditions in order to follow market practice in relation to the New Benchmark or

(a) as are necessary to reflect any increased costs of the Issuer providing such exposure to the New Benchmark;

and/or

(b) in the case of more than one New Benchmark, making provision for allocation of exposure between the New Benchmarks;

and/or

(c) as are necessary to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to the Issuer as a result of the replacement of the Benchmark.

Where:

- "Administrator/Benchmark Event" means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event all as determined by the Issuer.
- "Benchmark" means any figure which is a benchmark as defined in the Benchmarks Regulation and where any amount payable under the Securities, or the value of the Securities, is determined by reference in whole or in part to such figure, all as determined by the Issuer.
- "Benchmark Modification or Cessation Event" means, in respect of the Benchmark any of the following has occurred or will occur:
 - (a) any material change in such Benchmark;
 - (b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark;
 - (c) a regulator or other official sector entity prohibits the use of such Benchmark for the Issuer or any other entity generally or in respect of the Securities.
- "Benchmarks Regulation" means the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended by Regulation (EU) 2019/2089).

"Non-Approval Event" means, in respect of the Benchmark:

- (a) any authorisation, registration, recognition, endorsement, equivalence or approval in respect of the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be obtained;
- (b) the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be included in an official register; or
- (c) the Benchmark or the administrator or sponsor of the Benchmark does not or will not fulfil any legal or regulatory requirement applicable to the Securities, the Issuer or the Benchmark,

in each case, as required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities. For the avoidance of doubt, a Non-Approval Event shall not occur if the Benchmark or the administrator or sponsor of the Benchmark is not or will not be included in an official register because its authorisation, registration, recognition, endorsement, equivalence or approval is suspended if, at the time of such suspension, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension.

"Relevant Nominating Body" means, in respect of the replacement of the Affected Benchmark:

- (a) [the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (i) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (ii) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (iii) a group of the aforementioned central banks or other supervisory authorities or (iv) the Financial Stability Board or any part thereof][•].
- "Rejection Event" means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence, approval or inclusion in

any official register which, in each case, is required in relation to the Securities, the Benchmark or the administrator or sponsor of the Benchmark under any applicable law or regulation for the Issuer or any other entity to perform its obligations in respect of the Securities.

"Suspension/Withdrawal Event" means, in respect of the Benchmark:

- (a) the relevant competent authority or other relevant official body suspends or withdraws or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator or sponsor of the Benchmark which is required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities; or
- (b) the Benchmark or the administrator or sponsor of the Benchmark is or will be removed from any official register where inclusion in such register is or will be required under any applicable law in order for the Issuer or any other entity to perform its obligations in respect of the Securities.
- (c) For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is or will be suspended or where inclusion in any official register is or will be withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension or withdrawal.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Calculation Agent shall determine which terms shall apply in its reasonable discretion (billiges Ermessen) (§ 317 BGB).

Any amendments made by the Issuer pursuant to this § 5 [paragraph ●] of the Product-Specific Terms shall be notified by the Issuer pursuant to § 6 of the General Terms as soon as practicable following the determination thereof. Such notice shall be irrevocable and shall specify the date on which the relevant adjustments become effective.

In the case of the occurrence of an Administrator/Benchmark Event due to the Benchmarks Regulation, the provisions of this § 5 [paragraph •] of the Product-Specific Terms shall take precedent over any other provisions in these Terms and Conditions under which the Issuer may make adjustments to the Terms and Conditions due to the occurrence of the same event; the Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether this is the case.

§ 6 EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether this is the case.

The following paragraph shall be applicable for Underlying Share

The Issuer may also freely elect to terminate the Securities prematurely in the case of a takeoverbid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

The following paragraph shall be applicable for Underlying Index

The Issuer may also freely elect to terminate the Securities prematurely in the case of an Index Modification in accordance with § 5 paragraph 9 of the Product-Specific Terms.

The following paragraph may be applicable for all Underlying

The Issuer may also freely elect to terminate the Securities prematurely in the case of a negative Strike.

[•. [If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the "Hedging Disruption"), the Calculation Agent may freely elect to terminate the Securities prematurely. The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether a Hedging Disruption has occurred.]

[The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of [Share][any Shares] [ETF Share][any ETF Shares] [Index][any index components] [Precious Metal][the Precious Metal] [Futures Contract][the Futures Contract] [Currency Exchange Rate][one of the currencies underlying the Currency Exchange Rate] or (B) it will incur materially increased costs in performing the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "Change in Law"). The Calculation Agent shall decide in its reasonable discretion (billiges Ermessen) (§ 317 BGB) whether a Change in Law has occurred.]

- [•]. If the Issuer has not made any adjustments in its reasonable discretion (billiges Ermessen) (§ 315 BGB) pursuant to § 5 paragraph [•] of the Product-Specific Terms due to the occurrence of an Administrator/Benchmark Event, the Issuer may, but is not obliged to, terminate extraordinarily the Securities.
- [•]. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 6 of the General Terms within [number] Business Days following the occurrence of the relevant event (the "Extraordinary Termination Notice"). The Extraordinary Termination Notice shall designate a Business Day as per which the extraordinary termination shall become effective (the "Extraordinary Termination Date") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than [number] Payment Business Days following the publication of the Extraordinary Termination Notice.
- [•]. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "Extraordinary Termination Amount"). The Calculation Agent shall calculate the Extraordinary Termination Amount in its reasonable discretion (billiges Ermessen) (§ 317 BGB) by taking into account prevailing market conditions[and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 271 paragraph 2 German Commercial Code (Handelsgesetzbuch, HGB), the "Affiliates") in connection with transactions or investments concluded by it in its reasonable commercial discretion (vernüftiges kaufmännisches Ermessen) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "Hedging Transactions")] [other provisions].
- [•]. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the [ordinal number] Payment Business Day following the Extraordinary Termination Date.

	[if the Securities may constitute "packaged" products and no key information document (KID) will be provided] [- applicable -
	The Securities are not intended to be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of (i) a retail client as defined in Article 4 (1) point (11) of Directive 2014/65/EU (as amended, "MiFID II"); (ii) a costumer within the meaning of Directive 2016/97/EU (as amended or superseded, the Insurance Distribution Directive), where that customer would not qualify as a professional client as defined in Article 4 (1) point (10) MiFID II); or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, "PRIIPS Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering, or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.] [other provisions]]

[Additional U.S. Federal Income Tax Considerations:	[The Securities are Specified Securities for purposes of Section 871(m) IRC.] [Section 871(m) IRC Withholding Tax: In the event that U.S. source dividend payments are made in respect of [Share][the Company] [ETF Share][the Fund Company][a company included in the ETF Index] [Index][an Index Component], the Issuer intends to take any applicable tax obligation under Section 871(m) IRC into account in its [TURBO Warrants (CALL)][initial and subsequent valuation of the Securities] [Unlimited TURBO Warrants (CALL)][ongoing adjustment of the Strike] by withholding at a rate of 30 percent on any dividend equivalents. Because many central securities depositories do not provide identifying information regarding the beneficial owners of any U.S. equity-linked Security, and because the Issuer does not expect the clearing system(s) clearing the Securities will provide such information, the Issuer is unable to apply any reduced rates of withholding to the Securities. If the beneficial owner of a payment is entitled to a reduced rate of withholding under a treaty, this may result in over-withholding and the beneficial owner may not be able to obtain a refund. The Issuer will not be able to assist in any treaty or refund claims. Non-U.S. investors entitled to a reduced rate of withholding should consult their tax advisers regarding an investment in the Securities.] [other provisions]]
