PR Notes and PR Warrants may be issued in the denominations or numbers as agreed between the Issuer and the relevant Dealer(s) (as defined herein) either as PR Notes and PR Warrants which (i) are offered to the public and do not fall within an exemption from the requirement to publish a prospectus under the Prospectus Regulation and, where such Notes are, in addition, issued with a minimum denomination of less than €100,000 (or its equivalent in any other currency at the date of issue of the Notes),

being hereinafter referred to respectively as "**Non-Exempt PR Notes**" and "**Non-Exempt PR Warrants**" or (ii) are offered to the public and fall within an exemption from the requirement to publish a prospectus under the Prospectus Regulation and, where such Notes are, in addition, issued with a minimum denomination of at least €100,000 (or its equivalent in any other currency at the date of issue of the Notes), being hereinafter referred to respectively as "**Exempt PR Notes**" and "**Exempt PR Warrants**".

As at the date of this Securities Note, ASX Benchmarks Pty Limited (equivalence under Article 30 of Regulation (EU) 2016/1011, as amended (the "**Benchmarks Regulation**")) and EMMI appear on the register of administrators and benchmarks (the "**ESMA Benchmarks Register**") established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation.

If a benchmark (other than the BBSW Rate and EURIBOR) is specified in the applicable Final Terms, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the ESMA Benchmarks Register.

The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law the Issuer does not intend to update the Prospectus or any applicable Final Terms to reflect any change in the registration status of the administrator.

Tranches of Notes to be issued under the Programme may be rated or unrated. Where a Tranche of Notes issued under the Programme is to be rated, such rating will not necessarily be the same as the relevant rating assigned to the Notes already issued. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning credit rating agency.

The Prospectus is valid for 12 months after the approval of this Securities Note in relation to PR Notes. The obligation by the Issuer to supplement the Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when the Prospectus is no longer valid.

Governing Law:	The applicable Final Terms and the Notes issued by the Issuer will be governed by, and construed in accordance with, the laws of the Netherlands.
Variable Interest Rate Notes with a multiplier or other leverage factor:	The Issuer may issue Notes with variable interest rates. Such Variable Interest Rate Notes can include multipliers or other leverage factors, or caps or floors, or any combination of those features.

Fixed Rate Notes:	The Issuer may issue Fixed Rate Notes. Such Notes will bear interest at a fixed Rate of Interest, which remains constant during the life of the Notes.
Floating Rate Notes:	The Issuer may issue Floating Rate Notes. Such Notes will bear interest at a floating Rate of Interest, which will be subject to market fluctuations in interest rates. The floating Rate of Interest at any time may be lower than the rates on other Notes.
Zero Coupon Notes:	The Issuer may issue Zero Coupon Notes. Such Notes will bear no interest and an investor will receive no return on the Notes until redemption.

Part 3: Types of Reference Asset Linked Notes

Tailor-Made Interest Notes:	The Issuer may issue Tailor-Made Interest Notes. Such Notes will bear interest at a variable Rate of Interest based upon an Underlying Rate(t), which will be subject to market fluctuations, and an Underlying Margin(t) as set out in the applicable Final Terms, which may be less favourable than the margin on floating rate securities issued by the Issuer that are linked to the same reference rate as the Underlying Rate(t).
Step-up Interest Notes:	The Issuer may issue Step-Up Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period. The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, which increases periodically during the life of the Notes by the Step-Up(t), as specified in the applicable Final Terms (other than if such Variable Rate Interest Period is the first Interest Period, for which the Notes will bear interest at a fixed Rate of Interest).
Floater Interest Notes:	The Issuer may issue Floater Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period. The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based upon an Underlying Rate(t), which will be subject to market fluctuations, and an Underlying Margin(t), as set out in the applicable Final Terms. In calculating the Rate of Interest in respect of any Variable Rate Interest Period, a Multiplier(t) is applied to the Underlying

Rate(t). The Multiplier(t) will be specified in the applicable Final Terms.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Floater with Lock-In Interest Notes:

The Issuer may issue Floater with Lock-In Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based (subject to the Underlying Rate(t) for an Interest Payment Date(t) meeting the Lock-In Criterion with respect to the Lock-In(t)) upon an Underlying Rate(t), which will be subject to market fluctuations, and an Underlying Margin(t), as specified in the applicable Final Terms.

In calculating the Rate of Interest in respect of any Variable Rate Interest Period (i) in respect of which the Underlying Rate(t) does not meet the Lock-In Criterion with respect to the Lock-In(t) (each as specified in the applicable Final Terms) and (ii) where no previous Underlying Rate(t) has met the Lock-In Criterion with respect to the Lock-In(t), a Multiplier(t) is applied to the Underlying Rate(t) and such Rate of Interest is capped at the Cap(t). Both the Multiplier(t) and the Cap(t) will be specified in the applicable Final Terms.

If the Underlying Rate(t) meets the Lock-In Criterion with respect to the Lock-In(t), then the Rate of Interest payable in respect of such Interest Payment Date(t) and all subsequent Interest Payment Dates, regardless of the Underlying Rate(t) on such subsequent Interest Payment Dates, will be the Rate of Interest(Lock-In)(t), as set out in the applicable Final Terms.

Reverse Floater Interest Notes:

The Issuer may issue Reverse Floater Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, equal to the Fix(t), as specified in the applicable Final Terms, minus the Underlying Rate(t) (multiplied by a Multiplier(t) specified in the applicable Final Terms), which will be subject to market fluctuations.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Ratchet Floater Interest Notes:

The Issuer may issue Ratchet Floater Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed Rate of Interest(Fixed)(t) during any Interest Period(t) falling within the Fixed Rate Interest Period.

"Ratchet Floor without Cap"

If the Final Terms specify that "Ratchet Floor without Cap" will be applicable, the Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period. The Rate of Interest in respect of an Interest Payment Date(t) will be the greater of (i) the sum of (1) the product of (a) the Multiplier1(t) and (b) the Rate of Interest in respect of the previous Interest Payment Date(t) and (2) the Ratchet(t) (each as specified in the applicable Final Terms) and (ii) the sum of (1) the product of (a) the Multiplier2(t) and (b) the Underlying Rate(t) and (2) the Underlying Margin(t) (each as specified in the applicable Final Terms).

"Ratchet Floor with Cap"

If the Final Terms specify that "Ratchet Floor with Cap" will be applicable, the Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period. The Rate of Interest in respect of an Interest Payment Date(t) will be the greater of (i) the sum of (1) the product of (a) the Multiplier1(t) and (b) the Rate of Interest in respect of the previous Interest Payment Date(t) and (2) the Ratchet(t) (each as specified in the applicable Final Terms) and (ii) the sum of (1) the product of (a) the Multiplier2(t) and (b) the Underlying Rate(t) and (2) the Underlying Margin(t) (each as specified in the applicable Final Terms). Such variable Rate of Interest will be capped at the Cap(t), which is specified in the applicable Final Terms.

"Ratchet Cap without Floor"

If the Final Terms specify that "Ratchet Cap without Floor" will be applicable, the Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period.

The Rate of Interest in respect of the first Interest Payment Date(t) will be based upon an Underlying Rate(t) (multiplied by a Multiplier2(t) specified in the applicable Final Terms), which will be subject to market fluctuations, and an Underlying Margin(t), as set out in the applicable Final Terms.

The Rate of Interest in respect of all subsequent Interest Payment Dates will be the lesser of (i) the sum of (1) the product of (a) the Multiplier1(t) and (b) the Rate of Interest in respect of the previous Interest Payment Date(t) and (2) the Ratchet(t) (each as specified in the applicable Final Terms) and (ii) the sum of (1) the product of (a) the Multiplier2(t) and (b) the Underlying Rate(t) and (2) the Underlying Margin(t) (each as specified in the applicable Final Terms). As a result, the Rate of Interest in respect of the second and all subsequent Variable Rate Interest Periods will be capped at the sum of (i) the product of (1) the Multiplier1(t) and (2) the Rate of Interest in respect of the previous Interest Payment Date(t) and (ii) the Ratchet(t).

"Ratchet Cap with Floor"

If the Final Terms specify that "Ratchet Cap with Floor" will be applicable, the Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period.

The Rate of Interest in respect of the first Interest Payment Date(t) will be based upon an Underlying Rate(t) (multiplied by a Multiplier2(t) specified in the applicable Final Terms), which will be subject to market fluctuations, and an Underlying Margin(t), as set out in the applicable Final Terms.

The Rate of Interest in respect of all subsequent Interest Payment Date(t) will be the lesser of (i) the sum of (1) the product of (a) the Multiplier1(t) and (b) the Rate of Interest in respect of the previous Interest Payment Date(t) and (2) the Ratchet(t) (each as specified in the applicable Final Terms) and (ii) the sum of (1) the product of (a) the Multiplier2(t) and (b) the Underlying Rate(t) and (2) the Underlying Margin(t) (each as specified in the applicable Final Terms).

Switchable (Fixed to Floating) Interest Notes:

The Issuer may issue Switchable (Fixed to Floating) Interest Notes. Such Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate.

Where the Issuer has elected to convert from a fixed rate to a floating rate, the Notes will bear interest at a variable Rate of Interest(Floating)(t) in respect of any Interest Period commencing on and including the Interest Payment Date specified in the election notice or, if no date is specified, in respect of the Interest Period commencing on and including the Interest Payment Date following the exercise by the Issuer of such election, and for each subsequent Interest Period thereafter up to and including the Interest Period ending on (but excluding) the final Interest Payment Date. During such Variable Rate Interest Period, the Notes will bear interest at a variable Rate of Interest(Floating)(t) based upon an Underlying Rate(t)

(multiplied by a Multiplier(t) specified in the applicable Final Terms), which will be subject to market fluctuations, and an Underlying Margin(t), as set out in the applicable Final Terms.

Where the Issuer has not elected to convert from a fixed rate to a floating rate, the Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)).

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Switchable (Floating to Fixed) Interest Notes:

The Issuer may issue Switchable (Floating to Fixed) Interest Notes. Such Notes may bear interest at a rate that the Issuer may elect to convert from a floating rate to a fixed rate.

Where the Issuer has elected to convert from a floating rate to a fixed rate, the Notes will bear interest at a fixed Rate of Interest(Fixed)(t) in respect of any Interest Period commencing on and including the Interest Payment Date specified in the election notice or, if no date is specified, in respect of the Interest Period commencing on and including the Interest Payment Date following the exercise by the Issuer of such election, and for each subsequent Interest Period thereafter up to and including the Interest Period ending on (but excluding) the final Interest Payment Date.

Where the Issuer has not elected to convert from a floating rate to a fixed rate, the Notes will bear interest at a variable Rate of Interest(Floating)(t). The Notes will bear interest at a variable Rate of Interest(Floating)(t), during any Variable Rate Interest Period, based upon an Underlying Rate(t) (multiplied by a Multiplier(t) specified in the applicable Final Terms), which will be subject to market fluctuations, and an Underlying Margin(t), as set out in the applicable Final Terms.

The Rate of Interest(Floating)(t) in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Steepener Interest Notes:

The Issuer may issue Steepener Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based upon a Spread(t) (multiplied by a Multiplier(t) specified in the applicable Final

Terms), which is calculated as the difference when the Underlying Rate2(t) is subtracted from the Underlying Rate1(t).

The Rate of Interest calculated in accordance with the above will be capped at the Cap(t).

Steepener with Lock-In Interest Notes:

The Issuer may issue Steepener Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, at the Reference Rate(t) (subject to the Reference Rate(t) for an Interest Payment Date(t) meeting the Lock-In Criterion with respect to the Lock-In(t)). The Reference Rate(t) is based upon a Spread(t) (multiplied by a Multiplier(t) specified in the applicable Final Terms), calculated as the difference when the Underlying Rate2(t) is subtracted from the Underlying Rate1(t).

In calculating the Rate of Interest in respect of any Variable Rate Interest Period (i) in respect of which the Reference Rate(t) does not meet the Lock-In Criterion with respect to the Lock-In(t) (each as specified in the applicable Final Terms) and (ii) where no previous Reference Rate(t) has met the Lock-In Criterion with respect to the Lock-In(t), a Multiplier(t) is applied to the Spread(t).

The Rate of Interest calculated in accordance with the above will be capped at the Cap(t).

If the Reference Rate(t) meets the Lock-In Criterion with respect to the Lock-In(t), then the Rate of Interest payable in respect of such Interest Payment Date(t) and all subsequent Interest Payment Dates, regardless of the Underlying Rate1(t) and Underlying Rate2(t) on such subsequent Interest Payment Dates, will be the Rate of Interest(Lock-In)(t), as set out in the applicable Final Terms.

Range Accrual (Rates) Interest Notes:

The Issuer may issue Range Accrual(Rates) Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed Rate of Interest during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Rate(t) meets the Range Accrual Floor Criterion with respect to the Range Accrual

Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier1(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin1(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Range Accrual Rate".

The total number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Rate(t) does not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) or does not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms) is then divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier2(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin2(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Inverse Range Accrual Rate".

The Rate of Interest applicable to any Variable Rate Interest Period will be the sum of the Range Accrual Rate and the Inverse Range Accrual Rate.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Range Accrual (Spread) Interest Notes:

The Issuer may issue Range Accrual(Spread) Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed Rate of Interest during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Spread(t) meets the Range Accrual Floor Criterion with respect to the Range Accrual

Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier1(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin1(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Range Accrual Rate".

The Range Accrual Reference Spread(t) is calculated as the difference when the Range Accrual Reference Rate2(t) is subtracted from Range Accrual Reference Rate1(t).

The total number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Spread(t) does not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) or does not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms) is then divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier2(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin2(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Inverse Range Accrual Rate".

The Rate of Interest applicable to any Variable Rate Interest Period will be the sum of the Range Accrual Rate and the Inverse Range Accrual Rate.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Inverse Range Accrual Interest Notes:

The Issuer may issue Inverse Range Accrual Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed Rate of Interest during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period is linked to the number of Range Accrual

Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Rate(t) does not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) or does not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier1(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin1(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Inverse Range Accrual Rate".

The total number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Rate(t) meets the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms) is then divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier2(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin2(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Range Accrual Rate".

The Rate of Interest applicable to any Variable Rate Interest Period will be the sum of the Inverse Range Accrual Rate and the Range Accrual Rate.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

KO Range Accrual Interest Notes:

The Issuer may issue KO Range Accrual Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period depends on whether the Range Accrual

Reference Rate(t) met the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and met the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms) on every Range Accrual Observation Date during the Range Accrual Observation Period.

Where on all the Range Accrual Observation Dates in the Range Accrual Observation Period the Range Accrual Reference Rate(t) met the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and met the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms), the Rate of Interest applicable to the Notes during the relevant Variable Rate Interest Period will be the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier1(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin1(t), as specified in the applicable Final Terms.

If the Range Accrual Reference Rate(t) does not fall within the designated range on all days in the relevant Range Accrual Observation Period, the Range Accrual Rate for the relevant Interest Period will be zero.

If the Range Accrual Reference Rate(t) does not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) or does not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms), on every Range Accrual Observation Date during the Range Accrual Observation Period, the Rate of Interest applicable to the Notes during the relevant Variable Rate Interest Period will be the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier2(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin2(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Inverse Range Accrual Rate".

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Dual Range Accrual Interest Notes:

The Issuer may issue Dual Range Accrual Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final

Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period on which (i) the Range Accrual Reference Factor1(t) meets the Range Accrual Floor Criterion1 with respect to the Range Accrual Floor1(t) (if "Range Accrual Floor1(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion1 with respect to the Range Accrual Cap1(t) (if "Range Accrual Cap1(t)" is specified as applicable in the applicable Final Terms) and (ii) Range Accrual Reference Factor2(t) meets the Range Accrual Floor Criterion2 with respect to the Range Accrual Floor2(t) (if "Range Accrual Floor2(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion2 with respect to the Range Accrual Cap2(t) (if "Range Accrual Cap2(t)" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum of (i) the Underlying Rate(t) (multiplied by a Multiplier1(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin1(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Range Accrual Rate".

The total number of Range Accrual Observation Dates in the Range Accrual Observation Period on which (i) the Range Accrual Reference Factor1(t) does not meet the Range Accrual Floor Criterion1 with respect to the Range Accrual Floor1(t) (if "Range Accrual Floor1(t)" is specified as applicable in the applicable Final Terms) and does not meet the Range Accrual Cap Criterion1 with respect to the Range Accrual Cap1(t) (if "Range Accrual Cap1(t)" is specified as applicable in the applicable Final Terms) or (ii) Range Accrual Reference Factor2(t) does not meet the Range Accrual Floor Criterion2 with respect to the Range Accrual Floor2(t) (if "Range Accrual Floor2(t)" is specified as applicable in the applicable Final Terms) and does not meet the Range Accrual Cap Criterion2 with respect to the Range Accrual Cap2(t) (if "Range Accrual Cap2(t)" is specified as applicable in the applicable Final Terms) is then divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period and the resultant figure is multiplied by a rate calculated as the sum

of (i) the Underlying Rate(t) (multiplied by a Multiplier2(t), as specified in the applicable Final Terms), and (ii) an Underlying Margin2(t), as specified in the applicable Final Terms. The resultant rate is referred to here as the "Inverse Range Accrual Rate".

The Rate of Interest applicable to any Variable Rate Interest Period will be the sum of the Range Accrual Rate and the Inverse Range Accrual Rate.

The Range Accrual Reference Factor1(t) will be the Range Accrual Reference Rate1(t) or the Range Accrual Reference Spread1(t) (as specified in the applicable Final Terms), where the Range Accrual Reference Spread1(t) is calculated as the difference when the Range Accrual Reference RateB(t) is subtracted from the Range Accrual Reference RateA(t). The Range Accrual Reference Factor2(t) will be either the Range Accrual Reference Rate2(t) or the Range Accrual Reference Spread2(t) (as specified in the applicable Final Terms), where the Range Accrual Reference Spread2(t) is calculated as the difference when the Range Accrual Reference RateD(t) is subtracted from the Range Accrual Reference RateC(t).

Where the Rate of Interest is determined by reference to a spread, such Rate of Interest may not reflect increases in market interest rates.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Snowball Interest Notes:

The Issuer may issue Snowball Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, or if there is no Fixed Rate Period, in the case of the first Interest Period such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)).

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, equal to the sum of (i) the Rate of Interest in respect of the previous Interest Payment Date(t) (multiplied by a Multiplier1(t) specified in the applicable Final Terms) and (ii) the difference when the Underlying Rate(t) (multiplied by a Multiplier2(t) specified in the applicable Final Terms) is subtracted from the Fix(t) (as specified in the applicable Final Terms) (other than if such Variable Rate Interest Period is the first Interest Period, for which the Notes will bear interest at a fixed Rate of Interest(Fixed)(t)). The Underlying Rate(t) will be subject to market fluctuations.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

SnowRanger Interest Notes:

The Issuer may issue SnowRanger Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed Rate of Interest(Fixed)(t) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Rate of Interest applicable to the Notes during any Variable Rate Interest Period is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period on which the Range Accrual Reference Rate(t) meets the Range Accrual Floor Criterion with respect to the Range Accrual Floor(t) (if "Range Accrual Floor(t)" is specified as applicable in the applicable Final Terms) and meets the Range Accrual Cap Criterion with respect to the Range Accrual Cap(t) (if "Range Accrual Cap(t)" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates ("n") is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period ("N") and the resultant figure is multiplied (i) if such Variable Rate Interest Period is the first Interest Period, by a rate based upon the Underlying Rate(t) (multiplied by a Multiplier1(t)) and an Underlying Margin(t), each as set out in the applicable Final Terms or (ii) if such Variable Rate Interest Period is an Interest Period(t) other than the first Interest Period, a rate based on the Rate of Interest in respect of the previous Interest Payment Date (multiplied by the Multiplier2(t) specified in the applicable Final Terms) and an Underlying Margin(t) (multiplied by a Multiplier1(t)), each as set out in the applicable Final Terms.

The Rate of Interest in respect of any Variable Rate Interest Period will be capped at the Cap(t), which is specified in the applicable Final Terms.

Barrier(Rates) Interest Notes:

The Issuer may issue Barrier(Rates) Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

If the Underlying Rate(t) (i) meets the Upper Barrier Criterion with respect to the Upper Barrier(t) and (ii) meets the Lower Barrier Criterion with respect to the Lower Barrier(t), such margin will be the Underlying Margin2(t), as specified in the applicable Final Terms. Finally, if the Underlying Rate(t) does not meet the Lower Barrier Criterion with respect to the Lower

Barrier(t), such margin will be the Underlying Margin3(t), as specified in the applicable Final Terms.

In calculating the Rate of Interest in respect of any Variable Rate Interest Period, a multiplier is applied to the Underlying Rate(t). The applicable multiplier will depend on the Underlying Rate(t). If the Underlying Rate(t) does not meet the Upper Barrier Criterion with respect to the Upper Barrier(t), such multiplier will be the Multiplier(Upper Barrier)(t), as specified in the applicable Final Terms. If the Underlying Rate(t) (i) meets the Upper Barrier Criterion with respect to the Upper Barrier(t) and (ii) meets the Lower Barrier Criterion with respect to the Lower Barrier(t), such multiplier will be the Multiplier(Barrier)(t), as specified in the applicable Final Terms. Finally, if the Underlying Rate(t) does not meet the Lower Barrier Criterion with respect to the Lower Barrier(t), such multiplier will be the Multiplier(Lower Barrier)(t), as specified in the applicable Final Terms.

Inverse Floating Rate Interest Notes:

The Issuer may issue Inverse Floating Rate Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based upon an Underlying Rate(t), which will be subject to market fluctuations, and a Rate of Interest(Fixed)(t).

In calculating the Rate of Interest in respect of any Variable Rate Interest Period, a Multiplier(t) is applied to the difference between the Rate of Interest(Fixed)(t) and the Underlying Rate(t). The Multiplier(t) will be specified in the applicable Final Terms.

Reference Item(Inflation) Performance Linked Interest Notes:

The Issuer may issue Reference Item(Inflation) Performance Linked Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period. During such Fixed Rate Interest Period.

The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based on the sum of (i) the product of (1) the percentage change in the level of the Index between the level of the Index in respect of Reference Month (t-1) (or if the Interest Period(t) is the first Interest Period, the Initial Reference Month) and the level of the Index in respect of

	the Reference Month(t) and (2) the Participation(t), (ii) the Underlying Margin1(t) and (iii) the Underlying Margin2(t), each as specified in the applicable Final Terms. The Rate of Interest will be capped at the Cap(t) plus the Underlying Margin2(t), which is specified in the applicable Final Terms.
Reference Item(Inflation) Indexed Interest Notes:	The Issuer may issue Reference Item(Inflation) Indexed Interest Notes. If "Fixed Rate Period" is specified to apply in the applicable Final Terms, such Notes will bear interest at a fixed rate of interest (being Rate of Interest(Fixed)(t)) during any Interest Period(t) falling within the Fixed Rate Interest Period. The Notes will bear interest at a variable Rate of Interest during any Variable Rate Interest Period, based on a fixed Rate of Interest(Fixed)(t) which is adjusted to take into account changes in the level of the Index between the level of the Index in respect of the Initial Reference Month and the level of the Index in respect of the Reference Month(t), each as specified in the applicable Final Terms. The Rate of Interest will be capped at the Cap(t), which is specified in the applicable Final Terms.
Step-up Barrier Interest Notes:	The Issuer may issue Step-up Barrier Interest Notes. If the Final Terms specify that the "Step-Up Barrier Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event has occurred and (ii) the Step-Up. If in respect of an Interest Payment Date(t) a Coupon Barrier Event A occurs with respect to Coupon Barrier(t), then the Rate of Interest in respect of such Interest Payment Date(t) will be equal to the product of (1) the Step-Up and (2) the number of Interest Payment Date(t)s from and including the date of issue to and including such Interest Payment Date(t) (unless such Interest Payment Date(t) is the first Interest Payment Date, in which case the Rate of Interest will be the Rate of Interest(1)). If, however, in respect of an Interest Payment Date(t) no Coupon Barrier Event A occurs with respect to Coupon Barrier(t), no interest will be payable on the Notes on such Interest Payment Date(t). A Coupon Barrier Event A will occur in respect of an Interest Payment Date if the relevant Observation Reference Asset Value(t) (in the case of Single Reference Asset Linked Notes), the Observation Reference Asset Value(k,t) in respect of each and every Reference Asset(k) (in the case of Basket Linked Notes for which "Basket Value Determination" does not apply),

or the Basket Value(t) (in the case of Basket Linked Notes for which "Basket Value Determination" applies) meets the Coupon Barrier Criterion.

Memory Interest Notes:

The Issuer may issue Memory Interest Notes. If the Final Terms specify that the "Memory Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event A has occurred, (ii) the Rate of Interest in respect of each previous Interest Payment Date (or, if such Interest Payment Date is the first Interest Payment Date, the Rate of Interest(1)) and (iii) the Memory.

If in respect of an Interest Payment Date no Coupon Barrier Event A occurs with respect to Coupon Barrier(t), no interest will be payable on the Notes on such Interest Payment Date.

If in respect of an Interest Payment Date(t) no Coupon Barrier Event A occurs with respect to Coupon Barrier(t), the investor will receive no interest on the Notes.

A Coupon Barrier Event A will occur in respect of an Interest Payment Date if the relevant Observation Reference Asset Value(t) (in the case of Single Reference Asset Linked Notes), the Observation Reference Asset Value(k,t) in respect of each and every Reference Asset(k) (in the case of Basket Linked Notes for which "Basket Value Determination" does not apply), or the Basket Value(t) (in the case of Basket Linked Notes for which "Basket Value Determination" applies) meets the Coupon Barrier Criterion.

One Touch Memory Interest Notes:

The Issuer may issue One Touch Memory Interest Notes. If the Final Terms specify that the "One Touch Memory Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event has occurred during the relevant Coupon Barrier Observation Period, (ii) the Rate of Interest in respect of each previous Interest Payment Date (or, if such Interest Payment Date is the first Interest Payment Date, the Rate of Interest(1)) and (iii) the Memory.

If in respect of an Interest Payment Date(t) no Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, no interest will be payable on the Notes on such Interest Payment Date(t).

If in respect of an Interest Payment Date(t) a Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, then the Rate of Interest in respect of such Interest Payment Date(t) will be equal to the product of (1) the Memory

and (2) the number of Interest Payment Date(t)s from and including the date of issue to and including such Interest Payment Date; less the sum of the Rates of Interest in respect of each previous Interest Payment Date (unless such Interest Payment Date(t) is the first Interest Payment Date, in which case the Rate of Interest will be the Rate of Interest(1)).

Furthermore, if in respect of every Interest Payment Date(t) no Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, the investor will receive no interest on the Notes.

Range Accrual(Reference Asset) Interest Notes:

The Issuer may issue Range Accrual(Reference Asset) Interest Notes as either Single Reference Asset Linked Notes or Basket Linked Notes.

Single Reference Asset Linked Notes

If the Final Terms specify that the "Range Accrual(Reference Asset) Interest Note Provisions" apply and the Notes are Single Reference Asset Linked Notes, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) the Coupon Valuation Value over a series of Range Accrual Observation Dates and (ii) the Rate of Interest(Range Accrual).

The Rate of Interest applicable to the Notes on an Interest Payment Date is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period that the Coupon Valuation Value met the Range Accrual Floor Criterion with respect to the Range Accrual Floor (if "Range Accrual Floor" is specified as applicable in the applicable Final Terms) and met the Range Accrual Cap Criterion with respect to the Range Accrual Cap (if "Range Accrual Cap" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates (n) is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period (N) and the resultant figure is multiplied by the Rate of Interest(Range Accrual) to give the Rate of Interest.

If the Coupon Valuation Value did not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor (if "Range Accrual Floor" is specified as applicable in the applicable Final Terms) or did not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap (if "Range Accrual Cap" is specified as applicable in the applicable Final Terms) on each Range Accrual Observation Date during the Range Accrual Observation Period, n will be zero.

Consequently, the Interest Amount for that Interest Payment Date will be zero.

Basket Linked Notes

If the Final Terms specify that the "Range Accrual(Reference Asset) Interest Note Provisions" apply and the Notes are Basket Linked Notes, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) if "Basket Value Determination" does not apply, the Coupon Valuation Value(k) of each Basket Component over a series of Range Accrual Observation Dates, (ii) if "Basket Value Determination" applies, the Basket Value(t) over a series of Range Accrual Observation Dates and (iii) the Rate of Interest(Range Accrual).

The Rate of Interest applicable to the Notes on an Interest Payment Date is linked to the number of Range Accrual Observation Dates in the Range Accrual Observation Period that the Coupon Valuation Value(k) in respect of each Basket Component (if "Basket Value Determination" does not apply) or Basket Value(t) (if "Basket Value Determination" applies) met the Range Accrual Floor Criterion with respect to the Range Accrual Floor (if "Range Accrual Floor" is specified as applicable in the applicable Final Terms) and met the Range Accrual Cap Criterion with respect to the Range Accrual Cap (if "Range Accrual Cap" is specified as applicable in the applicable Final Terms). Such number of Range Accrual Observation Dates (n) is divided by the total number of Range Accrual Observation Dates in the Range Accrual Observation Period (N) and the resultant figure is multiplied by the Rate of Interest(Range Accrual) to give the Rate of Interest.

If the Coupon Valuation Value(k) of one or more Basket Component (if "Basket Value Determination" does not apply) or Basket Value(t) (if "Basket Value Determination" applies) does not meet the Range Accrual Floor Criterion with respect to the Range Accrual Floor (if "Range Accrual Floor" is specified as applicable in the applicable Final Terms) and does not meet the Range Accrual Cap Criterion with respect to the Range Accrual Cap (if "Range Accrual Cap" is specified as applicable in the applicable Final Terms) on each Range Accrual Observation Date during the Range Accrual Observation Period, n will be zero. Consequently, the Interest Amount for that Interest Payment Date will be zero.

Barrier(Reference Asset) Interest Notes: The Issuer may issue Barrier(Reference Asset) Interest Notes. If the Final Terms specify that the "Barrier(Reference Asset) Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i)

whether a Coupon Barrier Event A occurs with respect to Coupon Barrier(t) and (ii) the Rate of Interest(1).

If in respect of an Interest Payment Date(t) a Coupon Barrier Event A occurs with respect to Coupon Barrier(t) then the Rate of Interest in respect of such Interest Payment Date(t) will be the Rate of Interest(1).

If in respect of an Interest Payment Date(t) no Coupon Barrier Event A occurs with respect to Coupon Barrier(t) no interest will be payable on the Notes on such Interest Payment Date(t).

A Coupon Barrier Event A will occur in respect of an Interest Payment Date if the relevant Observation Reference Asset Value(t) (in the case of Single Reference Asset Linked Notes), the Observation Reference Asset Value(k,t) in respect of each and every Reference Asset(k) (in the case of Basket Linked Notes for which "Basket Value Determination" does not apply), or the Basket Value(t) (in the case of Basket Linked Notes for which "Basket Value Determination" applies) meets the Coupon Barrier Criterion.

One Touch Barrier(Reference Asset) Interest Notes:

If the Final Terms specify that the "One Touch Barrier(Reference Asset) Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event has occurred during the relevant Coupon Barrier Observation Period and (ii) the Rate of Interest(1).

If in respect of an Interest Payment Date(t) a Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, then the Rate of Interest will be the Rate of Interest(1)).

If in respect of an Interest Payment Date(t) no Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, no interest will be payable on the Notes on such Interest Payment Date(t).

Furthermore, even if a Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, any investors holding the Notes will be subject to the risk that subsequent changes in market interest rates may adversely affect the value of the One Touch Barrier(Reference Asset) Interest Notes.

Best Of Interest Notes:

The Issuer may issue Best Of Interest Notes. If the Final Terms specify that the "Best Of Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) if "Basket Value Determination" does not apply, whether the relevant Observation Reference Asset Value(k,t) of each and every Basket Component meets the Best Of Coupon Barrier Criterion, (ii) if "Basket Value

Determination" applies, whether the Basket Value(t) on the relevant Coupon Observation Date(t) meets the Best Of Coupon Barrier Criterion, (iii) the Rate of Interest(1)(t) and (iv) the Basket Performance.

If in respect of an Interest Payment Date(t) the Observation Reference Asset Value(k,t) of each and every Basket Component (if "Basket Value Determination" does not apply) or the Basket Value(t) on the relevant Coupon Observation Date(t) (if "Basket Value Determination" applies) meets the Best Of Coupon Barrier Criterion, then the Rate of Interest in respect of such Interest Payment Date(t) will be equal to the higher of (a) the Rate of Interest(1)(t) and (b) the Basket Performance(t).

If in respect of an Interest Payment Date(t) the Observation Reference Asset Value(k,t) of one or more Basket Component (if "Basket Value Determination" does not apply) or the Basket Value(t) on the relevant Coupon Observation Date(t) (if "Basket Value Determination" applies) does not meet the Best Of Coupon Barrier Criterion, no interest will be payable on the Notes on such Interest Payment Date(t).

One Touch Lock-In(Reference Asset) Interest Notes:

The Issuer may issue One Touch Lock-In(Reference Asset) Interest Notes. If the Final Terms specify that the "One Touch Barrier(Reference Asset) Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event has occurred during the relevant Coupon Barrier Observation Period, (ii) the Lock-In(t) and (iii) the Performance(t).

If in respect of an Interest Payment Date(t) a Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, then the Rate of Interest will be the higher of the Lock-In(t) and the Performance(t).

If in respect of an Interest Payment Date(t) no Coupon Barrier Event occurs during the relevant Coupon Barrier Observation Period, then the Rate of Interest will be the higher of zero% and the Performance(t).

Performance(t) will depend on the performance of the Reference Asset (for Single Reference Asset Linked Notes) or the performance of the Basket (for Basket Linked Notes) over the period from the Strike Date (or, (i) if "Asian-in" applies, the Asian-in Averaging Dates or (ii) if "Lookback-in" applies, the Lookback-in Observation Date on which the Reference Asset Value of each Reference Asset is the lowest (with the Initial Reference Asset Value of each Reference Asset in respect of such Lookback-in Observation Date floored at the Lookback-in

Floor)) to the Coupon Observation Date(t), capped at the Coupon Cap and floored at the Coupon Floor. Consequently, if the performance of the Reference Asset (or Basket, as the case may be) is greater than the Coupon Cap, investors will not benefit from the full extent of any positive performance of the Reference Asset (or Basket, as the case may be).

Restriker Interest Notes:

The Issuer may issue Restriker Interest Notes. If the Final Terms specify that the "Restriker Interest Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) the Observation Reference Asset Value(t) of the Reference Asset in respect of an Interest Payment Date(t), (ii) the Observation Reference Asset Value (t-1) in respect of the immediately preceding Interest Payment Date(t-1) (or, if none, the Strike Date) and (ii) the Coupon Cap.

If in respect of an Interest Payment Date(t) the Observation Reference Asset Value(t) is (a) greater than, (b) equal to or greater than, (c) less than, or (d) equal to or less than (as specified in the relevant Final Terms) the Observation Reference Asset Value (t-1), then the Rate of Interest will be the lower of (i) the Coupon Cap and (ii) (I) the value of the Observation Reference Asset Value(t) less the Observation Reference Asset(t-1), divided by (II) the Observation Reference Asset Value(t).

If the Observation Reference Asset Value(t) is (a) equal to or less than, (b) less than, (c) greater than, or (d) equal to or greater than the Observation Reference Asset(t-1), no interest is payable on the Notes on such Interest Payment Date(t).

Digital Interest Notes:

The Issuer may issue Digital Interest Notes. If the Final Terms specify that the "Digital Interest Note Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on (i) whether a Coupon Barrier Event A occurs with respect to Coupon Barrier(t), (ii) the Rate of Interest(1) and (iii) the Rate of Interest(2).

If in respect of an Interest Payment Date(t) a Coupon Barrier Event A occurs with respect to Coupon Barrier(t) then the Rate of Interest in respect of such Interest Payment Date(t) will be the Rate of Interest(1).

If in respect of an Interest Payment Date(t) no Coupon Barrier Event A occurs with respect to Coupon Barrier(t) then the Rate of Interest in respect of such Interest Payment Date(t) will be the Rate of Interest(2).

	A Coupon Barrier Event A will occur in respect of an Interest Payment Date if the relevant Observation Reference Asset Value(t) meets the Coupon Barrier Criterion.
Annualised Performance Interest Notes:	The Issuer may issue Annualised Performance Interest Notes. If the Final Terms specify that the "Annualised Performance Interest Provisions" apply, the Rate of Interest in respect of the Notes on any Interest Payment Date will depend on the higher of (i) the Coupon Floor; and (ii) the lower of (a) the Coupon Cap and (b) the product of (x) the Coupon Participation and (y) the Annualised Performance(t). The Rate of Interest payable during the term of the Notes will therefor depend on the performance of the Reference Asset(s), Noteholders will receive a lower Rate of Interest if the value of the Reference Asset(s) falls.
Inflation Indexed Redemption Notes:	If the Final Terms specify that the "Inflation Indexed Redemption Note Provisions" apply, the Final Redemption Amount of the Notes will depend on the percentage change in the level of the Index between the level of the Index in respect of the Initial Reference Month and the level of the Index in respect of the Final Reference Month, each as specified in the applicable Final Terms.
Inflation Indexed with Floor Redemption Notes:	If the Final Terms specify that the "Inflation Indexed with Floor Redemption Note Provisions" apply, the Final Redemption Amount of the Notes will depend on the (i) the percentage change in the level of the Index between the level of the Index in respect of the Initial Reference Month and the level of the Index in respect of the Final Reference Month, (ii) the Inflation Cap, (iii) the Inflation Floor, (iv) the Redemption Margin1 and (v) the Redemption Margin2, each as specified in the applicable Final Terms. The Final Redemption Amount of the Notes will be subject to a cap equal to the denomination of the Notes multiplied by the sum of (i) 100%, (ii) the Inflation Cap and (iii) the Redemption Margin2.

The Knock-Out Barrier(1) is determined by multiplying the Initial Reference Asset Value of the Reference Asset by the Knock-Out Barrier(1) Percentage specified in the applicable Final Terms. The Knock-Out Barrier(2) is determined by multiplying the Initial Reference Asset Value of the Reference Asset by the Knock-Out Barrier(2) Percentage specified in the applicable Final Terms.

If the Reference Asset Value of the Reference Asset at the Specified Time on any Knock-Out Barrier Observation Date is (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock-Out Barrier(1) or (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock-Out Barrier(2), investors will receive a return on their Notes equal to the specified denomination of the Notes multiplied by the Fixed Redemption Percentage specified in the applicable Final Terms. If the Fixed Redemption Percentage is less than 100%, then in these circumstances, investors may lose some of their investment.

If the Reference Asset Value of the Reference Asset at the Specified Time on each and every Knock-Out Barrier

Observation Date is (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock Out Barrier(1) and (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(2), the Final Redemption Amount payable per Note will depend on whether or not the Final Reference Asset Value is greater than or equal to the Initial Reference Asset Value. If the Final Reference Asset Value is greater than or equal to the Initial Reference Asset Value, investors will receive a Final Redemption Amount equal to the specified denomination multiplied by the Performance of the Reference Asset. If the Final Reference Asset Value is less than the Initial Reference Asset Value, investors will receive a Final Redemption Amount equal to the absolute value of the negative Performance of the Reference Asset.

Absolute Performance with Rebate Early Redemption Notes:

The Issuer may issue Absolute Performance with Rebate Early Redemption Notes.

Single Reference Asset Linked Notes

If the Final Terms specify that the "Absolute Performance with Rebate Early Redemption Provisions" apply, the Final Redemption Amount per Note shall be dependent upon (1) whether or not the Reference Asset Value of the Reference Asset is (a) (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(1) or (b) (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock-Out Barrier(2) at the Specified Time on any Knock-Out Barrier Observation Date; and (2) if the Reference Asset Value of the Reference Asset is (a) (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock Out Barrier(1) and (b) (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(2)on each and every Knock-Out Barrier Observation Date.

The Knock-Out Barrier(1) is determined by multiplying the Initial Reference Asset Value of the Reference Asset by the Knock-Out Barrier(1) Percentage specified in the applicable Final Terms. The Knock-Out Barrier(2) is determined by multiplying the Initial Reference Asset Value of the Reference Asset by the Knock-Out Barrier(2) Percentage specified in the applicable Final Terms.

If the Reference Asset Value of the Reference Asset at the Specified Time on any Knock-Out Barrier Observation Date is

(i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock-Out Barrier(1) or (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock-Out Barrier(2), the Notes will redeem in full and investors will receive a Final Redemption Amount equal to the specified denomination of the Notes multiplied by the Fixed Redemption Percentage specified in the applicable Final Terms on the Autocall Early Redemption Date which corresponds to the relevant Knock-Out Barrier Observation Date. If the Fixed Redemption Percentage is less than 100%, then in these circumstances, investors may lose some of their investment. No payments will be due to the investors thereafter.

If the Reference Asset Value of the Reference Asset at the Specified Time on each and every Knock-Out Barrier Observation Date is (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock Out Barrier(1) and (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(2), the Final Redemption Amount payable per Note will depend on whether or not the Final Reference Asset Value is greater than or equal to the Initial Reference Asset Value. If the Final Reference Asset Value is greater than or equal to the Initial Reference Asset Value, investors will receive a Final Redemption Amount equal to the specified denomination multiplied by the Performance of the Reference Asset. If the Final Reference Asset Value is less than the Initial Reference Asset Value, investors will receive a Final Redemption Amount equal to the absolute value of the negative Performance of the Reference Asset.

Basket Linked Notes

If the Final Terms specify that the "Absolute Performance with Rebate Early Redemption Provisions" apply, the Final Redemption Amount per Note shall be dependent upon (1) whether or not (if Basket Value Determination is specified as "Not Applicable" in the applicable Final Terms) the Reference Asset Value of each and every Reference Asset, or (if Basket Value Determination is specified as "Applicable" in the applicable Final Terms) the Basket Value is (a) (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(1) or (b) (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant

Final Terms) the Knock-Out Barrier(2) at the Specified Time on any Knock-Out Barrier Observation Date; and (2) whether or not (if Basket Value Determination is specified as "Not Applicable" in the applicable Final Terms) the Reference Asset Value of each and every Reference Asset, or (if Basket Value Determination is specified as "Applicable" in the applicable Final Terms) the Basket Value is (a) (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock Out Barrier(1) and (b) (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock Out Barrier(2) on each and every Knock-Out Barrier Observation Date.

The Knock-Out Barrier(1) is determined by multiplying the Initial Reference Asset Value of the Reference Asset or Basket Initial Value by the Knock-Out Barrier(1) Percentage specified in the applicable Final Terms. The Knock-Out Barrier(2) is determined by multiplying the Initial Reference Asset Value of the Reference Asset or Basket Initial Value by the Knock-Out Barrier(2) Percentage specified in the applicable Final Terms.

If the Reference Asset Value of any Reference Asset (or, if Basket Value Determination is specified as "Applicable" in the applicable Final Terms, the Basket Value) at the Specified Time on any Knock-Out Barrier Observation Date is (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as specified in the relevant Final Terms) the Knock-Out Barrier(1) or (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock-Out Barrier(2), the Notes will redeem in full and investors will receive a Final Redemption Amount equal to the specified denomination of the Notes multiplied by the Fixed Redemption Percentage specified in the applicable Final Terms on the Autocall Early Redemption Date which corresponds to the relevant Knock-Out Barrier Observation Date. If the Fixed Redemption Percentage is less than 100%, then in these circumstances, investors may lose some of their investment. No payments will be due to the investors thereafter.

If the Reference Asset Value of every Reference Asset (or, if Basket Value Determination is specified as "Applicable" in the applicable Final Terms, the Basket Value) at the Specified Time on each and every Knock-Out Barrier Observation Date is (i) greater than, (ii) equal to or greater than, (iii) less than, or (iv) equal to or less than (as specified in the relevant Final Terms) the Knock Out Barrier(1) and (i) less than, (ii) equal to or less than, (iii) equal to or greater than, or (iv) greater than (as

specified in the relevant Final Terms) the Knock Out Barrier(2), the Final Redemption Amount payable per Note will depend on whether or not the Basket Final Value is greater than or equal to the Basket Initial Value. If the Basket Final Value is greater than or equal to the Basket Initial Value, investors will receive a Final Redemption Amount equal to the specified denomination multiplied by the Performance of the Basket. If the Basket Final Value is less than the Basket Initial Value, investors will receive a Final Redemption Amount equal to the absolute value of the negative Performance of the Basket.

Continu Garant Notes:

The Issuer may issue Continu Garant Notes.

Continu Garant Notes are open-ended Notes without a fixed maturity date. The Continu Garant Notes can be either called by the Issuer or exercised by the Noteholder.

Early Redemption

The Issuer may, at its sole discretion, redeem all of the Notes then outstanding by giving notice (in accordance with Condition 8 (*Notices*) of the General Conditions) to the Noteholders at least five Business Days prior to the relevant Optional Redemption $Date_i$. In the event of such early redemption, the Notes will be redeemed on Optional Redemption $Date_i$ at an amount equal to $Redemption_i$.

Investor Put Option

Upon the holder of any Notes giving to the Issuer a notice, in accordance with Condition 8 (*Notices*) of the General Conditions, not less than 15 nor more than 30 days prior to the relevant Cap Determination $Date_i$, the Issuer will redeem, in whole (but not in part), such Notes on the Optional Put Redemption $Date_i$ and at an amount equal to $Redemption_i$.

"**$Redemption_i$**" means a pro rata amount per Calculation Amount the total value of the roll strategy on Cap Determination $Date_i$ calculated in accordance with the following formula:

$$Redemption_{i-1} \times (1 + Return_i)$$

Fund Unit Delivery:

If the Final Terms specify that "Fund Unit Delivery" applies, instead of the Final Redemption Amount or (in the case of Continu Garant Notes) an amount equal to $Redemption_i$ being delivered under the Notes, the Issuer shall, on the Fund Unit Delivery Date, deliver or procure the delivery of the Fund Unit Amount in respect of each Note with respect to settlement. If at any time the Calculation Agent determines that an applicable Substitution Event has occurred or is continuing with respect to a Fund Unit, the Calculation Agent may (i) waive such

Substitution Event, (ii) as soon as is practicable after such determination, replace such Fund Unit for the purposes of the Notes with an appropriate alternative fund unit, as determined by the Calculation Agent and following any such replacement, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such replacement or (iii) determine that the Notes shall pay the Fund Unit Disruption Cash Settlement Price on the Fund Unit Delivery Date instead of the delivery of the Fund Unit Amount.

PART 4: Overview of the Warrants

Warrants issued under the Programme

Under the terms of this Securities Note, the Issuer may from time to time issue Warrants which are linked to units, shares, partnership interests or other interests (the "**Fund Interests**") in the fund specified in the Final Terms (the "**Fund**"). Any Fund Interest will be admitted to trading on a regulated market within the EEA or an equivalent market outside the EEA at the time of issuance of the Warrants. Each issue of Warrants will be issued on the terms which are relevant to such Warrants under the Warrant Conditions, as completed in the applicable Final Terms.

The Final Terms will specify with respect to the issue of Warrants to which it relates, *inter alia*, the aggregate number of the Warrants, the date of issue of the Warrants, the issue price, the exercise price, the style of Warrant, the Fund to which the Warrants relate, the exercise period, the potential exercise dates (in the case of Bermudian style Warrants only), and certain other terms relating to the issue and sale of the Warrants. The Final Terms relating to an issue of Warrants will be attached to, or endorsed upon, the Global Warrant (as defined below) representing such Warrants.

Each issue of Warrants will entitle the holder thereof (upon due exercise) to receive physical delivery of a certain quantity of Fund Interests against payment of a specified sum, all as set forth herein and in the applicable Final Terms.

Prospective purchasers of Warrants should ensure that they understand the nature of the relevant Warrants and the extent of their exposure to risks and that they consider the suitability of the relevant Warrants as an investment in the light of their own circumstances and financial condition. Warrants involve a high degree of risk, including the risk of their expiring worthless. Potential investors should be prepared to sustain a total loss of the purchase price of their Warrants.

Each issue of Warrants will be represented by a global warrant (each a "**Global Warrant**") which will be issued and deposited with a common depositary on behalf of Euroclear and Clearstream, Luxembourg or such other clearing system as may be specified in the Final Terms for an issue.

The Warrants constitute direct, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

Settlement and exercise

The difference in the value of the Entitlement and the Exercise Price (the "**Physical Settlement Value**") at any time prior to expiration is typically expected to be less than the trading price of such Warrants at that time. The difference between the trading price and the Physical Settlement Value will reflect, among other things, the "time

value" of the Warrants. The "time value" of the Warrants will depend partly upon the length of the period remaining to expiration and expectations concerning certain market parameters relating to the Fund Interests.

The main market parameters are the following:

(i) the market expected forward of the Fund Interest;

(ii) the volatility; and

(iii) the interest rates.

The market expected forward value of a Fund Interest is the future value expected by the market of a Fund Interest at a determined date (in the case at hand, at the maturity date of the Warrant). This value depends on all the costs and benefits deriving from the detention of the underlying or the Fund Interest, amongst which:

(i) the spot value of the Fund Interest;

(ii) the interest rates;

(iii) the revenues/costs of lending the underlying or its components; and

(iv) the value of the anticipated dividends and applicable tax rates.

Warrants offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the Warrants varies with the value of the Fund Interests, as well as a result of a number of other interrelated factors, including those specified herein.

ING EB Warrants

If the Final Terms specify that the "ING EB Warrant Provisions" apply, the Entitlement and the Exercise Price will depend on the offer and the strike prices (respectively) of the Call Option on the Option Hedging Date.

The Entitlement and the Exercise Price will not be known until on or after the Option Hedging Date (which may occur after an investor has decided to purchase the Warrants).

RISK FACTORS

Prospective holders of the Notes or Warrants, which are the subject of the Prospectus and the relevant Final Terms, should consider the following risk factors, which are specific to the Notes and Warrants and which are material for making an informed investment decision and should make such decision only on the basis of the Prospectus as a whole (comprising this Securities Note and the Registration Document), including the relevant Final Terms.

Prospective investors should also read the detailed information set out elsewhere in the Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

The Prospectus is not, and does not purport to be, investment advice or an investment recommendation to purchase the Notes or Warrants. The Issuer, including its branches and any group company, is acting solely in the capacity of an arm's length contractual counterparty and not as a purchaser's financial adviser or fiduciary in any transaction, unless the Issuer has agreed to do so in writing. If a prospective investor does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, the investor should consult with its financial adviser prior to deciding to make an investment on the suitability of the Notes or Warrants. Investors risk losing their entire investment or part of it.

Each prospective investor of Notes or Warrants must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes or Warrants (i) is fully consistent with its (or, if it is acquiring the Notes or Warrants in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with any investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes or Warrants as principal or in a fiduciary capacity) and (iii) is a fit, proper and suitable investment for it (or, if it is acquiring the Notes or Warrants in a fiduciary capacity, for the beneficiary). In particular, investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should therefore consult its legal advisers to determine whether and to what extent (i) the Notes or Warrants are legal investments for it, (ii) the Notes or Warrants can be used as underlying securities for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes or Warrants.

Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes or Warrants under any applicable risk-based capital or similar rules.

Although the most material risk factors have been presented first within each category, the order in which the remaining risk factors are presented is not necessarily an indication of the likelihood of the risks actually materialising, of the potential significance of the risks or of the scope of any potential negative impact to the Issuer's business, results, financial condition and prospects. The Issuer may face a number of these risks described below simultaneously and some risks described below may be interdependent. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section. Where a risk factor could belong in more than one category, such risk factor is included in the category that is most appropriate for it.

Each prospective investor in Notes or Warrants should refer to the section headed "Risk Factors" in the Registration Document for a description of those factors which could affect the financial performance of the Issuer and thereby affect the Issuer's ability to fulfil its obligations in respect of Notes and Warrants issued under the Prospectus.

RISK FACTORS RELATING TO THE NOTES AND WARRANTS

1. **Risks related to the nature of a particular issue of Notes or Warrants**

The Notes and Warrants may be subject to mandatory write-down or conversion to equity, or other actions or measures, which may adversely affect the value of the relevant Notes and/or Warrants or result in investors in the relevant Notes and/or Warrants losing all or some of their investment

As more fully described in the sections entitled "*Risk Factors – Risks related to the regulation and supervision of the Group – The Issuer is subject to the EU recovery and resolution regime and several other bank recovery and resolution regimes that include statutory write-down and conversion as well as other powers, which remains subject to significant uncertainties as to scope and impact on it.*" and "*Description of ING Bank N.V. – Regulation and Supervision – Bank Recovery and Resolution Directive*" in the Registration Document, Notes and Warrants issued under the Programme may become subject to actions that can be taken or measures that can be applied by resolution authorities if ING Bank experiences serious financial problems or if the stability of the financial system is in serious and immediate danger as a result of the situation of ING Bank.

In certain circumstances, competent authorities have the power to (whether at the point of non-viability when the resolution authority determines that ING Bank will no longer be viable, or as taken together with a resolution action), *inter alia*, (i) convert relevant capital instruments or eligible liabilities or bail-inable liabilities into claims which may give right to shares or other instruments of ownership and/or (ii) reduce or write down the principal amount relevant capital instruments or eligible liabilities, including accrued but unpaid interest in respect thereof, (which could include certain securities that have been or will be issued by ING Bank, such as the Notes and Warrants), whether in whole or in part and whether on a permanent basis or subject to write-up by the resolution authority. In case of a reduction or write down on a permanent basis, any such reduced or written-down amount shall be irrevocably lost and investors will have no further claims in respect of any such reduced or written down principal amount and/or accrued but unpaid interest. In addition, in certain circumstances, competent authorities also have the power to transfer liabilities of an entity to third parties, a bridge bank or an asset management vehicle, and to expropriate securities issued by ING Bank. If ING Bank were to become subject to resolution, holders of Notes or Warrants could also be affected by issuer substitution or replacement, transfer of debt, expropriation, modification of terms and/or suspension or termination of listings. Other powers of the competent authorities may be to amend the maturity date and/or any interest payment date of debt instruments or other bail-inable liabilities of ING Bank, such as the Notes or Warrants, including by suspending payment for a temporary period, or to amend the interest amount payable under such instruments. Noteholders may have only very limited rights to challenge and/or seek a suspension of any decision of the relevant resolution authority to exercise its (pre-)resolution powers or to have that decision reviewed by a judicial or administrative process or otherwise. None of these actions would be expected to constitute an Event of Default under those instruments or other eligible or bail-inable liabilities entitling holders of such instruments (including holders of Notes or Warrants) to seek repayment. The application of actions, measures or powers as meant in this section may adversely affect the value of the relevant Notes or Warrants or result in an investor in the relevant Notes or Warrants losing all or some of his investment. Each prospective investor in Notes and Warrants should refer to the sections entitled "*Risk Factors – Risks related to the regulation and supervision of the Group – The Issuer is subject to the EU recovery and resolution regime and several other bank recovery and resolution regimes that include statutory write-down and conversion as well as other powers, which remains subject to significant uncertainties as to scope and impact on it.*" and "*Description of ING Bank N.V. – Regulation and Supervision – Bank Recovery and Resolution Directive*" in the Registration Document.

Notes subject to optional redemption by the Issuer are likely to have a lower trading price than Notes which are not subject to optional redemption by the Issuer

The Final Terms of any issue of Notes may specify that such Notes are subject to redemption at the option of the Issuer. An optional redemption feature of Notes is likely to limit their trading price. During any period when

the Issuer may elect to redeem Notes, the trading price of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. If the Notes are redeemed at the option of the Issuer, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The trading price of Notes issued at a substantial discount or premium from their principal amount, such as Zero Coupon Notes, tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Time Lag after Exercise of Warrants and Possible Delay in Delivery may result in the value of the Entitlement decreasing or being zero and the Issuer shall not be obliged to compensate holders of Warrants therefor

In the case of any exercise of Warrants, there may be a time lag between the time a Warrantholder gives instructions to exercise and the time the Entitlement relating to such exercise is delivered to the Warrantholder. Such delay could be significantly longer than expected, particularly in the case of a delay in exercise of Warrants arising from any daily maximum exercise limitation or the occurrence of a settlement disruption event. Such a delay could arise for other reasons, beyond the Issuer's control, such as a disruption on the relevant clearing systems. The value of the Entitlement may change significantly during any such period, and such movement or movements could decrease the value of the Entitlement of the Warrants being exercised and may result in the value of the Entitlement being zero. The Issuer shall not be obliged to compensate holders of Warrants therefor.

Investments in a Warrant linked to a Fund involve significant additional risk compared to conventional debt securities in that the performance of a Fund is affected by intrinsic and extrinsic factors, such as strategies utilised by such Fund in meeting the investment objectives of the Fund, which may adversely affect the value and performance of such Warrant

Third parties, not related to the Issuer, may subscribe for and redeem the Fund Interests. These investments may affect the performance and volatility of such Fund's net asset value. In turn, this could affect the return on the Warrants.

Any performance of the Fund necessary for the Warrants to yield a specific return is not assured. The performance of the Fund may strongly affect the value of the Warrants and the Issuer has no control over the Fund or the performance of such Fund.

The Fund may follow a wide range of investment strategies and invest in assets in a number of different countries and denominated in a number of different currencies. The returns to the Warrantholders may, therefore, be materially affected by, among other things, market trends and political and economic developments in the relevant countries. This may lead to substantial volatility in the net asset value of the Fund and in turn have an adverse effect on the value of the Warrants.

The Fund may have investment strategies and guidelines that are very broad. They may also be free to engage in additional or alternative strategies without reference to any other person. The returns to the Warrantholders may, therefore, be materially affected by a wide range of possible investment decisions in respect of the Fund.

The Fund may often rely on a few individuals to determine their investment strategies and to make investment decisions. The loss of such individuals could jeopardise the performance of the Fund and by implication the value and performance of the Warrants.

Finally, the Fund may be a wholly unregulated investment vehicle and may trade in futures, options, forward exchange contracts and other derivative instruments, which may represent significant investment risks. In addition, the Fund may acquire leveraged trading positions, including through the use of borrowing, and may engage in short selling. As a result of leverage, relatively small adverse price movements may result in substantial losses.

Notes issued as Green Bonds may not be a suitable investment for all investors seeking exposure to green assets. Any failure to use the net proceeds of any Series of Green Bonds in connection with green loans, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green Bonds may affect the value and/or trading price of the Green Bonds, and/or may have consequences for certain investors with portfolio mandates to invest in green assets

No assurance is given that Green Bonds will satisfy any investor requirements or expectations

The Issuer may issue Notes under the Programme where an amount equivalent to the net proceeds is specified in the applicable Final Terms to be used for the financing and/or refinancing, in whole or in part, of a portfolio of green loans of the Issuer or any of its subsidiaries, in accordance with the relevant eligibility criteria as described in the "*Use of Proceeds*" section below (the "**Eligibility Criteria**") and as in such case shall be set out in item 4(i) of Part B (*Reasons for the offer*) of the applicable Final Terms (any Notes which have such a specified use of proceeds are referred to as "**Green Bonds**").

The Issuer will, as further described in the "*Use of Proceeds*" section below, allocate an amount equal to the net proceeds from any issue of Green Bonds to a portfolio of loans provided to the Issuer's customers on a targeted basis for the purposes of the financing and/or refinancing by such customers of assets, projects and expenditures with a positive green impact and which meet the relevant Eligibility Criteria (together, "**Eligible Green Loans**", and the portfolio of Eligible Green Loans, the "**Eligible Green Loan Portfolio**"), in line with any green financing framework(s) that the Issuer may publish from time to time, and/or which the Issuer expects will substantially adhere to the Green Bond Principles as published by the International Capital Markets Association from time to time (the "**Principles**"). However, as the Principles may change over time, there is a possibility that the Eligible Green Loans and any green financing framework(s) that the Issuer may publish from time to time may no longer (fully) align with the Principles in the future.

While the Principles do provide a high level framework, there is currently no market consensus on what precise attributes are required for a particular project or building to be defined as "green" (including, without limitation, the attributes defining a "green building"), and therefore no assurance can be given by the Issuer, the Arranger or any Dealer that the use of such amounts advanced by the Issuer to customers for the purposes of financing or refinancing any projects which the Issuer has identified as Eligible Green Loans forming part of the Eligible Green Loan Portfolio will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, green or sustainability impact of any projects or uses, the subject of or related to, any Eligible Green Loans.

No formal or consensus definition of a 'green' (or similar) security

There is currently no clearly defined legal, regulatory or other definition of a "green bond" or market consensus as to what attributes are required for a particular asset or project to be classified as 'green', 'environmental', 'sustainable' or any similar label, nor can any assurance be given that such a clear definition or consensus will develop

over time. A basis for the determination of such a definition has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 (the "**EU Taxonomy Regulation**") on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy**"). The EU Taxonomy is subject to further development by way of the implementation by the European Commission through delegated regulations of technical screening criteria for the environmental objectives set out in the EU Taxonomy Regulation. Furthermore, as from 21 December 2024, there is a voluntary standard for bonds carrying the European Green Bond designation ("**EuGB**") pursuant to Regulation (EU) 2023/2631 (the "**European Green Bond Regulation**"). Issuance of such EuGBs could reduce demand and liquidity for "green bonds" which do not comply with the European Green Bond Regulation and their price, including any Green Bonds. The Green Bonds do not constitute EuGBs and will not become eligible to carry the designation of EuGB. Accordingly, no assurance is or can be given by the Issuer, the Arranger or any Dealer that the Eligibility Criteria for Eligible Green Loans forming part of the Eligible Green Loan Portfolio will satisfy any requisite criteria determined under the European Green Bond Regulation, the EU Taxonomy Regulation or within the EU Taxonomy at any time, or that any regime implemented in the UK (if any) for issuing 'green', 'environmental', 'sustainable' or other equivalently-labelled securities will align with the European (or any other) framework for such securities.

No assurance is given that Eligible Green Loans will be (fully) drawn or meet their objectives

Furthermore, there can be no assurance that any Eligible Green Loans forming part of the Eligible Green Loan Portfolio will be (fully) drawn within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer when making its assessment whether or not to apply any proceeds of Green Bonds (or amounts equal thereto) to such Eligible Green Loan.

Accordingly, no assurance is or can be given by the Issuer, the Arranger or any Dealer to investors in Green Bonds that any projects or uses the subject of, or related to, any Eligible Green Loans forming part of the Eligible Green Loan Portfolio will meet any or all investor expectations regarding such 'green', 'environmental', 'sustainable' or other equivalently-labelled performance objectives or that any adverse environmental, green and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Green Loans.

No obligation on the Arranger or any Dealer to verify Eligible Green Loans or monitor the use of proceeds of Green Bonds

Furthermore, neither the Arranger nor any Dealer is responsible for (i) any assessment of any eligibility criteria relating to Green Bonds, (ii) any verification of whether the relevant advance of loans by the Issuer or the Eligible Green Loans forming part of the Eligible Green Loan Portfolio will satisfy the relevant eligibility criteria, (iii) the monitoring of the use of proceeds (or amounts equal thereto) in connection with the issue of any Green Bonds or (iv) the allocation of the proceeds by the Issuer to particular Eligible Green Loans. Accordingly, investors cannot obtain comfort from any external party with regard to the Eligible Green Loan Portfolio which may affect the value and/or trading price of the Green Bonds, and/or may have adverse consequences for certain investors with portfolio mandates to invest in green or sustainable assets.

No assurance of suitability or reliability of any second party opinion

In addition, no assurance or representation is given by the Issuer, the Arranger or any Dealer as to the suitability or reliability for any purpose whatsoever of any opinion, certification or report of any third party, (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Green Bonds and/or any green financing framework established by the Issuer, and in particular with any Eligible Green Loans forming part of the Eligible Green Loan Portfolio to fulfil any environmental, green, sustainability and/or other criteria. For the avoidance of doubt, any such opinion or certification will not be, and shall not be deemed to be, incorporated in and/or form part of the Prospectus. Any such opinion or certification is not, and should not be deemed to be, a

recommendation by the Issuer or any other person to buy, sell or hold any Green Bonds. Any such opinion or certification will only be current as of the date on which that opinion is initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in any Green Bonds. As at the date of this Securities Note, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. However, pursuant to the European Green Bond Regulation, providers of such opinions would be required to be registered and supervised by ESMA in the future. Noteholders will have no recourse against the provider of any second party opinion(s).

No assurance that Green Bonds will be admitted to trading on any dedicated green, sustainable (or similar) segment of any stock exchange or market, or that any admission obtained will be maintained

If any Green Bonds are listed or admitted to trading or otherwise displayed on any dedicated 'green', 'environmental', 'sustainable' or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Arranger or any Dealer that such listing or admission or display satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria. Any such event or failure by the Issuer to apply an amount equal to the net proceeds of any issue of Green Bonds to advance loans to customers to finance and/or refinance any Eligible Green Loans forming part of the Eligible Green Loan Portfolio, and/or any failure by any such customer to apply those funds in accordance with such Eligible Green Loans as aforesaid, and/or withdrawal of any opinion or certification or any such opinion or certification attesting that the Issuer or any of the Issuer's customers is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any Green Bonds no longer being listed or admitted to trading or displayed on any stock exchange or securities market as aforesaid, will not (i) give rise to any claim of a Noteholder against the Issuer (or the Arranger or any Dealer), (ii) constitute an Event of Default under any Green Bonds or a breach or violation of any term thereof, or constitute a default by the Issuer for any other purpose, (iii) lead to a right or obligation of the Issuer to redeem any Green Bonds or give any Noteholder the right to require redemption of its Notes or (iv) result in any step-up or increased payments of interest, principal or any other amounts in respect of any Green Bonds or otherwise affect the General Conditions.

Material adverse impact on trading and/or market price

If any of the risks outlined in this risk factor materialise, this may have a material adverse effect on the value of such Green Bonds and also potentially the value of any other Notes which are intended to finance the Issuer's lending for Eligible Green Loans forming part of the Eligible Green Loan Portfolio and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose (including, without limitation, if such investors are required to dispose of their Green Bonds as a result of such Notes not meeting any investment criteria or objectives set by or for such investor, which could lead to increased volatility and/or material decreases in the market price of Green Bonds).

Potential investors should be aware that Green Bonds may also be subject to the resolution tools granted to the competent authority under the BRRD in circumstances where the Issuer fails or is likely to fail. Please also refer to the risk factor entitled "*The Notes and Warrants may be subject to mandatory write-down or conversion to equity, or other actions or measures, which may adversely affect the value of the relevant Notes and/or Warrants or result in investors in the relevant Notes and/or Warrants losing all or some of their investment*" above for further information in connection with actions that can be taken or measures that can be applied by resolution authorities in respect of the Issuer and which may result in investors losing all or some of their investment in the Notes (including Green Bonds).

No assurance that a Green Bond linked to a Reference Asset will be consistent with any investor requirements or expectations

Where Green Bonds are Reference Asset Linked Notes, no assurance is or can be given by the Issuer, the Arranger or any Dealer to investors in such Green Bonds that any Reference Asset for such Notes would be classified as 'green', 'environmental', 'sustainable' or any similar label. In particular, while the net proceeds from the issuance of Green Bonds may be allocated to fund Eligible Green Loans, amounts payable and/or deliverable with respect to the Green Bonds may be linked to the performance of one or more Reference Assets which do not align with and/or take into consideration any 'green', 'environmental', 'sustainable' or equivalently-labelled certification, criteria, standard, guideline, taxonomy, label, voluntary guideline and/or other independent expectation. In addition, any constituent represented in the Reference Asset may experience or cause adverse environmental or other impacts, and any such constituent represented in the Reference Asset may become controversial or criticised by activist groups or other stakeholders, which could adversely affect the return on, value of and market for the Green Bonds. Even if the Reference Asset or constituents of the Reference Asset currently operate in a manner that is consistent with your expectations and investment criteria, no assurance be given that they will continue to do so. No assurance is or can be given by the Issuer, the Arranger or any Dealer to investors in Green Bonds that any constituent represented in the Reference Asset or such Reference Asset or the Green Bonds will meet any or all investor expectations regarding any 'green', 'environmental', 'sustainable' or equivalently-labelled certification, criteria, standard, guideline, taxonomy, label, voluntary guideline and/or other independent expectation. Any failure to satisfy an investor's objectives, expectations or requirements with regard to sustainable investments may result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. For example, an investor may be obliged to divest such Notes (if possible) potentially at a loss and/or not be able to count such Notes towards its relevant portfolio, which could also result in a loss.

2. **Risks relating to particular assets linked to Reference Asset Linked Notes**

Risks relating to the Reference Asset Linked Notes

Principal and/or interest on the Notes will be determined by reference to the value of a particular Reference Asset (in the case of Single Reference Asset Linked Notes) or the values of multiple Reference Assets in a Basket (in the case of Basket Linked Notes). Potential investors should be aware of the following risks:

The market price of the Notes is likely to be affected primarily by changes in the level of the Reference Asset(s) as a result of which the market price of the Notes may be very volatile

The market price of the Notes may be very volatile. The market price of the Notes at any time is likely to be affected primarily by changes in the level of the Reference Asset(s) to which the Notes are linked. It is impossible to predict how the level of a Reference Asset(s) will vary over time and there is a risk that a serious deterioration in the level of a Reference Asset(s) may result in an investor losing all or a substantial portion of their principal.

Interest rate risks with respect to the Reference Asset and/or the Notes may have an adverse impact on the value of the Notes

Investments in the Notes may involve interest rate risk (with the expectation that changes in interest rates will generally result in changes in the market value of the Reference Asset and/or the Notes). A variety of factors influence interest rates such as macroeconomic, governmental, speculative and market sentiment factors. Such fluctuations may have an adverse impact on the value of the Notes and there is the risk of Noteholders receiving no interest.

Currency and time of payments of principal or interest may be different than expected

Payment of principal or interest on the Notes may occur at times or in currencies different from those initially expected. Such variations may arise due to the applicable business day convention, bank holidays, or time zone differences. Additionally, administrative, technical, or operational delays, including those related to grace periods for missed payments resulting in discussions with intermediaries regarding interest calculations, may cause payment delays. Furthermore, certain bond features, such as foreign exchange components, early redemption options, callable or extendable features, credit-linked structures, and forced foreign exchange conversions or restructuring/bail-in events, may alter the anticipated payment schedule or result in payments in different currencies. These factors could adversely affect the value of and return on the Notes.

Notes linked to a Reference Asset connected to emerging markets may be subject to significant fluctuations

A Reference Asset may be connected to emerging markets and may therefore be subject to significant fluctuations attributable to, among other things, nationalisation, expropriation or taxation, currency devaluation, foreign exchange control, political, social or diplomatic instability or governmental restrictions. The capital markets in emerging market countries have substantially less volume, and are generally less liquid and more volatile, than those in more developed markets. As a result, an investor in Notes with a Reference Asset connected to emerging markets should be prepared to hold such Notes for an indefinite period and to experience potentially sharp changes in the value of such Notes throughout that period. Disclosure and regulatory requirements could be less stringent than in other markets, with a low level of monitoring and limited and uneven enforcement of existing regulations. An investor in Notes with a Reference Asset connected to emerging markets may therefore experience a decrease in the value of such Notes as a result of market or other developments that are less likely in more stringently regulated markets.

Multipliers and leverage factors result in the effect of changes in the value of a Reference Asset on principal or interest likely being magnified

If the value of a Reference Asset is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the value of a Reference Asset on principal or interest payable likely will be magnified which would adversely affect the value of the Notes.

The timing of changes in the value of a Reference Asset may affect the actual yield to investors in the Notes

The timing of changes in the value of a Reference Asset may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the value of a Reference Asset, the greater the effect on yield. This may adversely affect the value of the Notes.

Non-correlation between the price of a Reference Asset and interest rates, currencies or other securities, indices or funds

The price of a Reference Asset may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other securities, indices or funds, resulting in principal or interest payable that also may not correlate with such changes. This may adversely affect the value of the Notes.

Factors affecting the performance of a Reference Asset may adversely affect the value of the Notes

The performance of a Reference Asset is dependent upon macroeconomic factors relating to a Reference Asset (or, if such Reference Asset is an Index, the shares or other components that comprise such Index), such as interest and price levels on the capital markets, currency developments, political factors (such as decisions regarding taxes and new and amended laws and regulations which are applicable in respect of the Reference Asset) and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, ability to innovate, ability to retain key personnel, shareholder structure and dividend distribution policy. Such factors could have an adverse effect on the Reference Asset and, consequently, the Notes.

The return on the Notes generally involves many of the same market risks as those associated with the Reference Asset(s)

There are market risks associated with an actual investment in the Reference Asset(s) (or its constituents) and though the Notes do not create an actual interest in such Reference Asset (or constituents), the return on the Notes generally involves many of the same associated risks as an actual investment in such Reference Asset (or constituents) which could have an adverse effect on the return or interest payments on the Notes.

Investments in Reference Asset Linked Notes linked to one or more Shares involve significant additional risks compared to conventional debt securities in that the performance of the Shares are affected by extrinsic and intrinsic factors and the occurrence of Potential Adjustment Events, which in each may adversely affect the value of the Notes in a manner which is not always foreseeable or determinable by an investor

Principal and/or interest on the Notes will be determined by reference to the price of a particular share (in the case of Single Share Linked Notes) or the prices of shares in a basket of shares (in the case of Basket Share Linked Notes) (each such share and component of a basket of shares being a "**Reference Asset**"). Potential investors should be aware of the following risks:

Investors risk losing all or a substantial portion of their principal

Investors may lose all or a substantial portion of their principal. If the Notes are redeemable either by payment of the principal amount or by delivery of the underlying Shares in lieu thereof, there is no assurance that the value of the shares (underlying shares) received will be more than the principal amount of the Notes.

Actions by the issuer of a Reference Asset may adversely affect the trading price of the Notes

The issuer of a Reference Asset will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. The issuer of a Reference Asset may take any actions in respect of such Reference Asset, for example the issuance of (additional) shares or a share split in the case of Share Linked Notes, without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the trading price of the Notes.

Determinations made by the Issuer in respect of Potential Adjustment Events may have an adverse effect on the value of the Notes

Upon determining that a Potential Adjustment Event (which includes: (I) a delisting of the Reference Asset on an exchange, (II) an insolvency or bankruptcy of the issuer of the Reference Asset, (III) a merger event entailing the consolidation of the Reference Asset with those of another entity, (IV) a nationalisation of the issuer of the Reference Asset or transfer of the Reference Asset to a governmental entity, or (V) a tender offer or takeover offer that results in transfer of the Reference Asset to another entity) has occurred in relation to a Reference Asset or the issuer of such Reference Asset, the Calculation Agent or the Issuer may have discretion to make certain determinations to account for such event including to make adjustments to the terms of the Notes, which determinations may have an adverse effect on the value of the Notes, which would result in an investor receiving a return of less than what that investor may have expected to receive if that investor had held the Notes until their stated Maturity Date.

Investments in Reference Asset Linked Notes linked to one or more Indices involve significant additional risks compared to conventional debt securities in that the performance of the Index are affected by extrinsic and intrinsic factors and the decisions of the sponsor of that Index, which in each may adversely affect the value of the Notes in a manner which is not always foreseeable or determinable by an investor

Factors affecting the performance of Indices and actions by the sponsor of an Index may adversely affect the value of the Notes

Investments in Notes linked to Indices involve significant additional risks compared to conventional debt securities. Where Notes are linked to Indices, such Notes are dependent on the performance of such Indices and the investors in such Notes are exposed to the performance of such Indices. Any investment in such Notes, however, is not the same as a direct investment in futures or option contracts on a Reference Asset nor any or all of the constituents included in a Reference Asset (as the case may be) and in particular, investors may not benefit directly from any positive movements in a Reference Asset nor will they benefit from any profits made as a direct result of an investment in a Reference Asset or the components of Reference Asset (as the case may be). In addition, the sponsor of an Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The changing of the components of an Index may affect the level of such Index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may adversely affect the value of the Notes. The sponsor of an Index may also alter, discontinue or suspend calculation or dissemination of such Index. The sponsor of an Index will have no involvement in the offer and sale of the Notes and will have no obligation to any investor in such Notes. The sponsor of an Index may take any actions in respect of such Index without regard to the interests of the investor in the Notes which could have an adverse effect on the return or interest payments on the Notes.

Noteholders of Notes linked to certain Indices may lose the benefit of any dividends paid by the components of the Index and would underperform a position where they invested directly in such components

The rules of an Index might stipulate that dividends distributed on its components do not lead to a rise in the index level, for example, if it is a "price" index. As a result, Noteholders of Notes linked to such Index would lose the benefit of any dividends paid by the components of the Index and would underperform a position where they invested directly in such components or where they invested in a "total return" version of such Index. Even if the rules of the relevant underlying Index provide that distributed dividends or other distributions of the components are reinvested in the Index and therefore result in raising its level, in some circumstances the dividends or other distributions may not be fully reinvested in such Index (for example, where the relevant Index is calculated based on the maximum withholding tax rates applicable to dividends received by institutional investors who are not resident in the same country as the remitting company and who do not benefit from double taxation treaties).

The occurrence of Index adjustment events may have an adverse effect on the value of the Notes

Upon the Calculation Agent determining that one or more adjustment events has occurred in relation to an Index, the Issuer has the discretion to make certain determinations and adjustments to account for such event including to (a) make adjustments to the terms of the Notes, which determinations may have an adverse effect on the value of the Notes, and/or (b) cause an early termination of the Notes, which would result in an investor receiving a return of less than what that investor may have expected to receive if that investor had held the Notes until their stated Maturity Date.

Investments in Reference Asset Linked Notes linked to one or more shares, ETFs or exchange traded commodities ("ETCs") involve significant additional risks compared to conventional debt securities in that the performance of the share(s), ETFs or ETCs are affected by extrinsic and intrinsic factors, the decisions of the management company of the ETF or ETC, which in each may adversely affect the value of the Notes in a manner which is not always foreseeable or determinable by an investor

Factors affecting the performance of shares, ETFs or ETCs and decisions, action or inaction of the management company, fund administrator or sponsor of an exchange traded fund or ETC may adversely affect the Notes

Investments in Notes linked to one or more shares, ETFs or ETCs involve significant additional risks compared to conventional debt securities. Where Notes are linked to one or more shares, ETFs or ETCs, such Notes are dependent on the performance of such share(s), ETF or ETC and the investors in such Notes are exposed to the performance of such share(s), ETF or ETC. Any investment in such Notes, however, is not the same as a direct investment in futures or option contracts on a Reference Asset nor any or all of the constituents included in a Reference Asset (as the case may be) and in particular, investors may not benefit directly from any positive movements in a Reference Asset nor will they benefit from any profits made as a direct result of an investment in a Reference Asset or the components of Reference Asset (as the case may be).

The management company, fund administrator or sponsor of an ETF or ETC may take wide-ranging actions in respect of such ETF or ETC (such as material change in the formula for or the method of calculating the net asset value of the Share Issuer and the composition of such ETF or ETC) without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the trading price of the Notes.

In its day-to-day operations and its investment strategy, an ETF or ETC will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF or ETC to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETF or ETC to financial loss. Failure of procedures or systems, as well as human error or external events associated with an ETF's or ETC's management and/or administration may cause losses to an ETF or ETC and affect the trading price of the Notes.

Exposure to risk of non-recognition of purchaser's beneficial ownership in certain jurisdictions and the possibility of losing rights in respect of the underlying shares represented by the global depository receipt

The legal owner of shares underlying the global depositary receipts is the custodian bank which at the same time is the issuing agent of the global depositary receipts. Depending on the jurisdiction under which the global depositary receipts have been issued and the jurisdiction to which the custodian agreement is subject, it cannot be ruled out that the relevant jurisdiction does not recognise the purchaser of the global depositary receipts as the actual beneficial owner of the underlying shares. Particularly in the event that the custodian becomes insolvent or that enforcement measures are taken against the custodian, it is possible that an order restricting free transfer is issued with respect to the shares underlying the global depositary receipts or that these shares are realised within the framework of an enforcement measure against the custodian. If this is the case, a holder of such global depositary receipt loses any rights under the underlying shares represented by the global depositary receipt, and this would in turn have an adverse effect on Notes with such global depositary receipt as a Reference Asset.

Exchange traded funds may engage in securities lending which involves risk that an ETF may suffer substantial losses if the loaned securities are not returned in part or in full

ETFs to which Notes may be linked, may engage in securities lending. Securities lending involves the risk that the ETF may lose money because the borrower of the ETFs loaned securities fails to return the securities in a timely manner or at all. Such loss incurred by an ETF may, in turn, adversely affect the Notes as the value of the Underlying to which those Notes relate have declined.

Exchange traded funds (including ETCs) are subject to market trading risks which can result in the ETF or ETC trading at a premium or discount to its net asset value

An ETF or ETC faces numerous market trading risks, including but not limited to the potential lack of an active market for its shares, losses from trading in secondary markets, periods of high volatility, limited liquidity and disruption in the creation or redemption process of such ETF or ETC. If any of these risks materialises, this may lead to the ETF or ETC shares trading at a premium or discount to the net asset value, which, in turn, may adversely affect the Notes as the value of the Underlying to which those Notes relate have declined.

Investments in Reference Asset Linked Notes linked to one or more Funds involve significant additional risks compared to conventional debt securities in that the performance of the Funds are affected by extrinsic and intrinsic factors, the strategies utilised by the Fund, the skill of the Fund Manager in meeting the investment objectives of the Fund and the occurrence of Substitution Events, which in each may adversely affect the value of the Notes in a manner which is not always foreseeable or determinable by an investor

Investments in Notes linked to one or more Funds involve significant additional risks compared to conventional debt securities. Where Notes are linked to one or more Funds, such Notes are dependent on the performance of such Funds and the investors in such Notes are exposed to the performance of such Funds. Any investment in such Notes, however, is not the same as a direct investment in futures or option contracts on a Reference Asset nor any or all of the constituents included in a Reference Asset (as the case may be) and in particular, investors may not benefit directly from any positive movements in a Reference Asset nor will they benefit from any profits made as a direct result of an investment in a Reference Asset or the components of Reference Asset (as the case may be).

Performance of a Fund may be highly volatile, which may in turn adversely affect the value of the Notes

A Fund's performances (especially hedge funds) may be highly volatile. Movements in the net asset value of the fund tracked by the fund units may vary from month to month. Trades made by fund managers may be based upon their expectation of price movements as the relevant investments approach and reach maturity several months following initiation of the trades. In the meantime, the trading price of positions may not increase, and may in fact decrease, and this will be reflected in the net asset value per share. Investments made by fund(s) can involve substantial risks. The nature of these investments means that the value of the fund units may fluctuate significantly during a day or over longer periods. Consequently, the performance of the fund units over a given period will not necessarily be indicative of future performance.

Market volatility may produce significant losses with respect to a Reference Asset and, consequently, adversely affect the value of the Notes.

The investment strategies followed by a Reference Asset may be very broad and the returns to Noteholders may therefore be materially affected by a wide range of possible investment decisions in respect of such Reference Asset

A Reference Asset may follow a wide range of investment strategies, and invest in assets in a number of different countries and denominated in a number of different currencies. The returns to the Noteholders may, therefore, be materially affected by, among other things, market trends, exchange rate fluctuations and political and economic developments in the relevant countries. This may lead to substantial volatility in the net asset value of a Reference Asset.

A Reference Asset may have investment strategies and guidelines that are very broad. It may also be free to engage in additional or alternative strategies without reference to any other person. The returns to the Noteholders may, therefore, be materially affected by a wide range of possible investment decisions in respect of such Reference Asset.

A Reference Asset may often rely on a few individuals to determine its investment strategies and to make investment decisions. The loss of such individuals could jeopardise the performance of such Reference Asset.

Any of these factors, or a combination thereof, may adversely affect the value of the Notes.

Funds linked to a hedge fund are generally speculative and involve a high degree of risk and Notes linked to a Fund which is a hedge fund will be subject to some of the risks of an investment in a hedge fund

Fund units, and investments in hedge funds generally, are speculative and involve a high degree of risk. The Issuer cannot give any assurance as to the performance of fund units.

To the extent that a Reference Asset is a hedge fund, the Notes will be subject to some of the risks of an investment in a hedge fund. The lack of oversight and regulation associated with funds that are hedge funds may increase the likelihood of fraud and negligence by the fund's managers and/or the investment advisors, their brokerage firms or banks.

Hedge funds generally do not make information about their operations and holdings public. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the Issuer to value a Reference Asset or to accurately determine the value of a Reference Asset and, consequently, the Final Redemption Amount and/or any Interest Amount of the relevant Notes which references the value of a Reference Asset, as the case may be.

The use of leverage may increase the risk of loss in the value of the fund units

Fund(s) may have recourse to leverage i.e. borrow amounts that represent more than 100% of the value of their assets to invest further in assets that involve additional risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss for the fund, which may in turn adversely affect the value of the Notes.

Determinations made by the Issuer in respect of Substitution Events in relation to a Reference Asset may have an adverse effect on the value of the Notes

Upon determining that a Substitution Event has occurred in relation to a Reference Asset, the Calculation Agent or the Issuer may have discretion to make certain determinations to account for such event including to (1) make adjustments to the terms of the Notes, which determinations may have an adverse effect on the value of the Notes and/or (2) cause an early termination of the Notes, any of which determinations may have an adverse effect on the value of the Notes. which would result in an investor receiving a return of less than what that investor may have expected to receive if that investor had held the Notes until their stated Maturity Date.

Rebalancing in respect of a Reference Asset may adversely affect the return on the Notes

Where principal and/or interest on the Notes will be determined by reference to the value of a basket of Reference Assets, and the Final Terms specify that "Active Weight Rebalancing" applies, a third party specified in the Final Terms as the Active Weight Rebalancing Entity may adjust the weighting of each Reference Asset in the basket (provided that the composition of the basket following such Active Weight Rebalancing complies with such investment restrictions as will be specified in the Final Terms). Such adjustment to the weighting could adversely affect the return on the Notes.

The trading price of Notes is likely to depend substantially on the net asset value of a Reference Asset and any fluctuations in the net asset value of a Reference Asset may adversely affect the value of the Notes

The trading price of the Notes is likely to depend substantially on the then-current net asset value of a Reference Asset. If an investor chooses to sell its Notes, such investor may receive substantially less than the amount that would be payable at any relevant payment date based on that net asset value because of, for example, possible

market expectations that the net asset value of a Reference Asset will continue to fluctuate between such time and the time when the final net asset value of a Reference Asset is determined. Political, economic and other developments that affect the investments underlying a Reference Asset may also affect the net asset value of a Reference Asset and, thus the value of the Notes.

The illiquidity of a Reference Asset's investments may cause the payment of the Final Redemption Amount or Early Redemption Amount to be reduced or delayed

The final redemption amount or early redemption amount due to investors in Notes may be based on the net price of a Reference Asset in respect of a redemption request given by the Issuer (or an affiliate thereof) or a hedge counterparty as of the relevant valuation date. To meet a redemption request, a Reference Asset would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- infrequent redemption opportunities allowed by such Reference Asset (for example, many hedge funds only allow monthly or quarterly liquidity);
- "gating," lock-ups, side pockets or discretionary redemption delays or suspensions imposed by such Reference Asset (for example, many hedge funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit); and
- such Reference Asset's own investments may be illiquid;

If the redemption proceeds have not been paid by a Reference Asset on the maturity date of the Notes, the payment of the final redemption amount or early redemption amount may be postponed after the maturity date up to a maximum period of two years (or such other date as is specified in the applicable Final Terms). If at the expiry of this two-year period (or such other date as is specified in the applicable Final Terms), a Reference Asset has not paid in full the redemption proceeds, the Notes shall be redeemed at such amount as the Issuer determines in its discretion. The amount received by the investors in the Notes may be as low as zero.

If certain events occur affecting a Reference Asset, including, without limitation, breach of the Reference Asset's investment strategy, the Calculation Agent may decide, among other things, to terminate the exposure of the Notes to such Reference Asset, to redeem the Notes early or to make an adjustment to the terms and conditions of the Notes.

Given recent experience in the hedge fund industry, it is likely that such delay would have an adverse impact on the amount payable to Noteholders.

If a Reference Asset invest(s) through a master-feeder structure, the latter may have an adverse effect on a Reference Asset and, therefore, the Notes

A Reference Asset may invest through a "master-feeder" structure. As such, a Reference Asset will contribute substantially part or all of its assets to the master fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. A Reference Asset may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a

decrease in the net asset value of the master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments; leaving remaining investors (including the underlying(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, adversely affect the Notes. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may adversely affect the liquidity of the master fund and, therefore, a Reference Asset and the Notes.

Investments in Reference Asset Linked Notes linked to commodities, including where the Reference Asset is an ETC, involve significant additional risks due to the volatile nature of this asset class

Volatility of commodity prices may affect the value of the Notes

Trading in commodities can be extremely volatile. Commodity prices are affected by many unpredictable factors and commodity markets are subject to uncontrollable factors such as regulatory intervention and disruptions and distortions. This makes commodities more volatile than other types of Reference Assets and the commodity price fluctuations may affect the value of the Notes, including through fluctuations in the price of any ETC to which the Notes are linked. In addition to this, market disruptions could affect calculations of amounts payable under the Notes and this may lead to early redemption of the Notes.

Liquidity of commodities

Commodity contracts may be traded on regulated specialised futures exchanges or in less regulated "over-the-counter" trading facilities. There is additional risk in relation to the liquidity and price histories of "over-the-counter" contracts due to lack of transparency, limited liquidity, and potential for greater price volatility, which can hinder efficient trading and affect the commodity contracts' value.

Risk linked to commodity future contracts and lower returns

Notes linked to commodity futures contracts or ETCs linked to commodity futures contracts may provide a different rate of return than if the Notes or the ETC were linked to the relevant physical commodity, given that the futures contracts are on a premium or discount to the underlying commodity's spot price and that commodity prices can be volatile. There are also liquidity risks such as the imposition of daily limits on traded futures contract prices. In addition to this, the "rolling" of commodity futures contracts could have an indirect adverse impact on the value of the Reference Assets the Notes are linked to.

3. **Risks related to Interest Payments**

Changes in the method by which EURIBOR or other Benchmarks are determined, or the discontinuance of any Benchmark, may adversely affect the Rate of Interest on or value of Floating Rate Notes which reference a Benchmark

In accordance with General Condition 3 (*Interest*), the Rate of Interest on the Notes (including Floating Rate Notes and Fixed/Floating Rate Notes) may be calculated on the basis of the BBSW Rate, EURIBOR, SOFR, SONIA, TONA or any other reference rate specified in the applicable Final Terms (any such reference rate, a "**Benchmark**"), or by reference to a swap rate that is itself based on a Benchmark (collectively, the "**Benchmark Notes**"). Accordingly, changes in the method by which any Benchmark is calculated or the discontinuation of any Benchmark may impact the Rate of Interest applicable to Benchmark Notes bearing interest on the basis of such Benchmark, and thus their trading price. Please also refer to the risk factor entitled "*Benchmark Unavailability and Discontinuation may adversely affect the Rate of Interest on or value of Floating Rate Notes which reference a Benchmark*" and the interdependent risk factor entitled "*The market continues to develop in relation to risk free rates (including overnight rates) as reference rates for Benchmark Notes*" and the risk factor entitled "*The administrator of SOFR, SONIA or*

TONA may make changes that could change the value of SOFR, SONIA or TONA or may discontinue SOFR, SONIA or TONA" below specifying further circumstances in which Benchmark Notes could be adversely affected.

Benchmarks Regulation

The Benchmarks Regulation or the Benchmarks Regulation as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**UK Benchmarks Regulation**"), which apply to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU and the UK respectively, could have a material impact on any Notes linked to or referencing a Benchmark, in particular, if the methodology or other terms of the relevant Benchmark are changed in order to comply with the requirements of the Benchmarks Regulation and the UK Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant Benchmark which could have a material adverse effect on the trading price of and return on Notes referencing such Benchmark (including potential rates of interest thereon).

Benchmark Unavailability and Discontinuation may adversely affect the Rate of Interest on or value of Floating Rate Notes which reference a Benchmark

There are certain risks to the unavailability and discontinuation of Benchmarks:

(i) *Temporary unavailability of the Relevant Screen Page*

The General Conditions provide for certain fallback arrangements if a published Benchmark, including the BBSW Rate, EURIBOR, SOFR, SONIA, TONA or other relevant reference rate(s) becomes temporarily unavailable. Where the Rate of Interest (as defined in the General Conditions) is to be determined by reference to the Relevant Screen Page and the Relevant Screen Page is not available or the relevant rate does not appear on the Relevant Screen Page, the General Conditions provide for the Rate of Interest to be determined by the Calculation Agent by reference to quotations from banks communicated to the Calculation Agent.

Where such quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of such Original Reference Rate (as defined in the General Conditions)), the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page or, as the case may be, the application of the initial Rate of Interest applicable to such Notes on the Interest Commencement Date (as defined in the General Conditions). Such effective fixed rate for Floating Rate Notes may adversely affect the value of, and return on, the Notes.

(ii) Benchmark Events

If a Benchmark Event (or a Benchmark Transition Event (both as defined in General Condition 3*(c)*(i))) (as applicable) (which, amongst other events, includes the permanent discontinuation of an Original Reference Rate or an announcement that an Original Reference Rate will be permanently discontinued in the future) occurs, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser (as defined in the General Conditions) as soon as reasonably practicable, to advise the Issuer in determining a Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) (as defined in General Conditions) to be used in place of the Original Reference Rate.

If a Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) is determined by the Issuer (in consultation with an Independent Adviser if the Issuer has been able to appoint one), the General Conditions also provide that an Adjustment Spread or SOFR Benchmark Replacement Adjustment (as applicable) (as defined in the General Conditions) may be determined by the Issuer (in consultation with an Independent Adviser if the Issuer

has been able to appoint one) and applied to such Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable).

If the Issuer is unable to appoint an Independent Advisor, the Issuer, acting in good faith, may make such determination in its own discretion acting in good faith and any such determinations by the Issuer may lead to a conflict of interests of the Issuer and the Noteholders including with respect to certain determinations and judgments that the Issuer may make that may influence the amount receivable under the Notes. As a result, investors of the Notes may receive less than expected.

The Issuer may vary the General Conditions, as necessary to ensure the proper operation of such Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) and/or (in each case) the applicable Adjustment Spread or SOFR Benchmark Replacement Adjustment (as applicable), without any requirement for consent or approval of the Noteholders.

Any Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) will not be the economic equivalent of the Original Reference Rate and the use of any Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) (including with the application of an Adjustment Spread or SOFR Benchmark Replacement Adjustment (as applicable)) may result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

Furthermore, the composition and characteristics of the Successor Rate, Alternative Rate or SOFR Benchmark Replacement (as applicable) may not be the same as those of the Original Reference Rate. Each of the foregoing means that a Benchmark Event or a Benchmark Transition Event (as applicable) may adversely affect the value of the Notes, the return on the Notes and the price at which investors can sell such Notes.

(iii) *Potential for a fixed rate of return*

The Issuer may (in consultation with an Independent Adviser if the Issuer has been able to appoint one) not be able to determine a Successor Rate or Alternative Rate in accordance with the General Conditions, which may ultimately result in the Rate of Interest for the last preceding Interest Period being used. This will result in the Floating Rate Notes, in effect, becoming fixed rate Notes, which in turn may adversely affect the value of and return on the Notes.

The market continues to develop in relation to risk free rates (including overnight rates) as reference rates for Benchmark Notes

Investors should be aware that the market continues to develop in relation to risk free rates, such as SOFR, SONIA and TONA, as reference rates in the capital markets for U.S. dollar or Sterling bonds, as applicable, and their adoption as alternatives to the relevant interbank offered rates, such as LIBOR. The market or a significant part thereof may adopt risk free rates that differ significantly from those set out in the General Conditions and used in relation to Benchmark Notes that reference a risk free rate issued under the Securities Note or may apply such risk free rates in a manner significantly different than set out in the General Conditions and used in relation to the Benchmark Notes (and the same could apply in respect of any Successor Rates, Alternative Rates or SOFR Benchmark Replacements (if and as applicable)), either of which may adversely affect the trading price of these Notes.

Interest on Notes which reference a risk free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for Noteholders to estimate reliably the amount of interest which will be payable on the Notes, which could adversely impact the liquidity of the Notes.

Further, if the Notes become due and payable under General Condition 11 (*Events of Default relating to Notes*), the Rate of Interest payable shall be determined on the date the Notes became due and payable and shall not

be reset thereafter. Investors should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

Uncertainty relating to the regulation of benchmarks may adversely affect the value of the Notes

SOFR and other interest rates or other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory discussions and proposals for reform. Some of these reforms are already effective, while others are still to be implemented. Following the implementation of any such reforms, the manner of administration of benchmarks, including SOFR, may change, with the result that they may perform differently than in the past, or the benchmark could be eliminated entirely, or there could be other consequences that cannot be predicted. Any of the foregoing may have an adverse effect on the value of the Notes.

Historical levels of SOFR and SONIA are not an indication of their respective future levels

The level of SOFR and SONIA during the term of the Notes may bear little or no relation to the historical level of SOFR or SONIA. Prior observed patterns, if any, in the behaviour of market variables and their relation to SOFR and SONIA such as correlations, may change in the future. Investors should therefore not rely on any historical changes or trends in SOFR or SONIA as an indicator of the future performance of SOFR or SONIA. Since the initial publication of SOFR and SONIA, as applicable, daily changes in the rate have, on occasion, been more volatile than daily changes in other benchmark or market rates. As a result, the return on and value of SOFR- or SONIA-based Notes may fluctuate more than floating rate debt securities that are linked to less volatile rates and SOFR may be more volatile than other benchmarks or market rates.

Interest based on SOFR or SONIA will only be capable of being determined near the end of the relevant Interest Period

The applicable Final Terms of any Floating Rate Notes that reference SOFR or SONIA may specify that the calculation methodology will be weighted average or compounded daily using a formula or using SOFR or SONIA index values.

The amount of interest payable with respect to any such Floating Rate Notes for a given Interest Period will be determined on the relevant Interest Determination Date for such Interest Period. Because each such date will be near the end of such Interest Period, Noteholders will not know the amount of interest payable on such Floating Rate Notes with respect to a given Interest Period until shortly prior to the related Interest Payment Date. In addition, it may be difficult for Noteholders to estimate reliably the amount of interest that will be payable on each such Interest Payment Date. As a result, some investors may be unable or unwilling to trade such Floating Rate Notes without changes to their information technology systems, which could adversely impact the liquidity and trading price of any such Floating Rate Notes. Further, if Floating Rate Notes referencing SOFR Benchmark or SONIA Benchmark become due and payable as a result of an Event of Default, or are otherwise redeemed early on a date other than an Interest Payment Date, the Rate of Interest payable for the final Interest Period in respect of such Floating Rate Notes will only be determined immediately or shortly prior to the date on which the Floating Rate Notes become due and payable and shall not be reset thereafter.

To permit a reasonable amount of time to make payment arrangements after the amount of interest is determined, the applicable Final Terms of any Floating Rate Notes that reference SOFR or SONIA may specify observation methods such as lookback, shift or payment delay. Conventions regarding observation methods for SOFR rates and SONIA rates used for debt securities continue to evolve and may differ materially from observation method conventions used for other financial products, such as interest rate swaps or syndicated loans. Investors should carefully consider how any mismatches in observation method conventions in the bond, loan and derivatives markets

may impact any hedging or other financial arrangements which you may put in place in connection with any acquisition, holding or disposal of any Floating Rate Notes that reference SOFR or SONIA.

The administrator of SOFR, SONIA or TONA may make changes that could change the value of SOFR, SONIA or TONA or may discontinue SOFR, SONIA or TONA

The Federal Reserve Bank of New York, the Bank of England or the Bank of Japan (or a successor), as administrators of SOFR, SONIA or TONA, respectively, may make methodological or other changes that could change the value of SOFR, SONIA or TONA, including changes related to the method by which SOFR, SONIA or TONA is calculated, eligibility criteria applicable to the transactions used to calculate SOFR, SONIA or TONA, or timing related to the publication of SOFR, SONIA or TONA. In addition, the relevant administrator may alter, discontinue or suspend calculation or dissemination of SOFR, SONIA or TONA, in which case a fallback method of determining the Rate of Interest on the Notes will apply. Please also refer to the risk factor entitled "*Floating Rate Notes – Benchmark Unavailability and Discontinuation*" for a description of the fallback arrangement and the risks relating thereto. The administrator have no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing SOFR, SONIA or TONA. Such changes, alterations, discontinuation or suspension could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant Benchmark which could have a material adverse effect on the trading price of and return on Notes referencing such Benchmark (including potential rates of interest thereon).

There is a risk that the Issuer may be considered an 'administrator' under the Benchmarks Regulation which may ultimately result in the effective application of a fixed rate to Floating Rate Notes

The Issuer may be considered an 'administrator' under the Benchmarks Regulation. This is the case if it is considered to be in control over the provision of the Successor Rate or the Alternative Rate and/or the determined Rate of Interest on the basis of the Successor Rates and/or Alternative Rates and any adjustments made thereto by the Issuer and/or otherwise in determining the applicable Rate of Interest in the context of a fallback scenario.

The Benchmarks Regulation stipulates that each administrator of a benchmark regulated thereunder or the benchmark itself must be registered, authorised, recognised or endorsed, as applicable, in accordance with the Benchmarks Regulation. There is a risk that administrators (which may include the Issuer in the circumstances as described above) of certain benchmarks will fail to obtain such registration, authorisation, recognition or endorsement, preventing them from continuing to provide such benchmarks, or may otherwise choose to discontinue or no longer provide such benchmark. The Issuer cannot guarantee that it will and will be able to timely obtain registration or authorisation to administer a benchmark, in case the Issuer will be considered an administrator under the Benchmarks Regulation. This will also affect the possibility for the Issuer to apply the fallback provisions and to apply a Successor Rate or Alternative Rate (as applicable), meaning the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of a Benchmark Event will continue to apply until maturity, which may ultimately result in the effective application of a fixed rate to what was previously a Floating Rate Note.

The application of the fallback provisions contained in General Condition 20(b) may lead to a conflict of interests

The application of the fallback provisions contained in General Condition 20*(b)* (*FX and Benchmark Notes – Benchmark Notes*) provide that the Issuer or any other Calculation Agent has a certain degree of discretion in the determination of a Benchmark Market Disruption Event and the Issuer or any other Calculation Agent can determine the Relevant Benchmark Amount in its discretion. Such determinations may lead to a conflict of interests of the Issuer and holders of Notes that may influence the amount receivable under the Notes. The Issuer and/or any of its affiliates may have existing or future business relationships and business interests and may make a determination of a Benchmark Market Disruption Event or determine the Relevant Benchmark Amount that they or it deems necessary

or appropriate to protect its and/or their interests arising therefrom without taking into account the consequences for a Noteholder.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the trading price of the Notes concerned

The Issuer may issue Fixed/Floating Rate Notes. Such Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such conversion will affect the secondary market trading and the trading price generally of the Notes as the change of interest basis may result in a lower interest return for the Noteholders. If the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing market rates on its Notes and could affect the interest payments and, consequently, the trading price of an investment in the Notes concerned.

Zero Coupon Notes may be issued at a substantial discount or premium and may experience price volatility in response to changes in market interest rates

The trading prices of Zero Coupon Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing Notes. Generally, the longer the remaining term of such Zero Coupon Notes, the greater the price volatility as compared to conventional interest-bearing Notes with comparable maturities. Therefore, the trading price of such Notes may be lower than the trading price of such interest-bearing Notes with comparable maturities.

Changes in market interest rates may have a stronger impact on the prices of Zero Coupon Notes than on the prices of conventional interest-bearing Notes because the discounted issue prices may be substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and same credit rating.

4. **Risks related to the liquidity and value of the securities**

An active secondary market in respect of the Notes and Warrants may never be established or may be illiquid and such illiquidity would adversely affect the value at which an investor could sell its Notes and Warrants

Application may be made for the Notes and Warrants to be listed on a stock exchange. Even if application is made to list Notes or Warrants on a stock exchange, there can be no assurance that a secondary market for any of the Notes or Warrants will develop, or, if a secondary market does develop, that it will provide the holders of the Notes or Warrants with liquidity or that it will continue for the life of the Notes or Warrants. A decrease in the liquidity of an issue of Notes or Warrants may cause, in turn, an increase in the volatility associated with the price of such issue of Notes or Warrants. Any investor in the Notes or Warrants must be prepared to hold such Notes or Warrants for an indefinite period of time or until redemption of the Notes or Warrants. If any person begins making a market for the Notes, it is under no obligation to continue to do so and may stop making a market at any time. Illiquidity may have a severely adverse effect on the trading price of Notes or Warrants.

Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes or the Warrants

The Issuer has a senior debt rating from S&P, Moody's, Fitch and Scope, details of which are contained in the Registration Document.

Tranches of Notes issued under the Programme may be rated or unrated. Warrants issued under the Programme will not be rated. In addition, one or more independent credit rating agencies may assign additional credit

ratings to the Notes or the Issuer. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the ratings assigned to the Issuer, the Programme or any Notes already issued.

The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in this Securities Note and other factors that may affect the value of the Notes and the ability of the Issuer to make payments under the Notes (including, but not limited to, market conditions and funding-related and operational risks inherent to the business of the Issuer). There is no assurance that a rating in respect of the Notes or the Issuer will remain for any given period of time or that such rating will not be suspended, lowered or withdrawn by the relevant rating agency if, in its judgement, circumstances in the future so warrant.

In the event that a rating assigned to the Notes or the Issuer is subsequently suspended, lowered or withdrawn for any reason, no person or entity is obliged to provide any additional support or credit enhancement with respect to the Notes or the Warrants, the trading price of the Notes and the Warrants is likely to be adversely affected and the ability of the Issuer to make payments under the Notes or Warrants may be adversely affected.

In addition, the Issuer's assets are risk weighted. Downgrades of these assets could result in a higher risk weighting which may result in higher capital requirements and thus a need to deleverage or issue more capital. This may impact net earnings and the return on capital, and may have an adverse impact on the Issuer's financial position and ability to make payments under the Notes and the Warrants.

Changes in law after the date of this Securities Note may adversely affect the interests of the holders of Notes and Warrants

The General Conditions are based on Dutch law in effect as at the date of this Securities Note. No assurance can be given as to the impact of any possible judicial decision or change to Dutch, European or any other applicable laws, regulations or administrative practices after the date of this Securities Note.

Changes in law after the date hereof may affect the rights of the holders of Notes and Warrants as well as the market value of the Notes and Warrants. Such changes in law may include, but are not limited to, changes in statutory, tax and regulatory regimes, administrative practices and judicial decisions during the life of the Notes and Warrants, which may have an adverse effect on an investment in such Notes and Warrants. For example, on 18 April 2023, the European Commission adopted a proposal to adjust and further strengthen the EU's existing bank crisis management and deposit insurance ("**CMDI**") framework, with a focus on medium-sized and smaller banks. The package implies the review of the BRRD and SRMR frameworks as well as a separate legislative proposal to amend the Deposit Guarantee Schemes Directive ("**DGSD**"), all of which aim at further preserving financial stability, protecting taxpayers and depositors, and supporting the real economy and its competitiveness. The proposals include, but are not limited to, the introduction of a general depositor preference within the EU and changes to further enable the use of Deposit Guarantee Schemes ("**DGS**") funds and where needed resolution funds in measures other than the pay-out of covered deposits in case of insolvency or resolution of a failing bank. The changes to the creditor hierarchy could potentially negatively impact the relative ranking of Notes and Warrants issued by the Issuer and the credit ratings assigned thereto. Moreover, an expanded use of DGS and resolution funds could potentially result in an increase of contribution requirements for banks (please also refer to the risk factor entitled "*The Issuer may incur losses due to failures of banks falling under the scope of state compensation schemes*" in the Registration Document). Whereas a political agreement on the CMDI proposal was reached on 25 June 2025, the final text of the proposed adjustments to the CMDI framework and when they will be finally implemented in the EU are still uncertain. Therefore, the exact impact of these adjustments and the potential effects on the Issuer cannot yet be assessed.

Next to the fact that changes in law after the date of this Securities Note may adversely affect the interest of the holders of Notes and Warrants, any legislative and regulatory uncertainty could also affect an investor's ability to accurately value the Notes and Warrants and, therefore, affect the trading price of the Notes and Warrants given the

extent and impact on the Notes and Warrants that one or more regulatory or legislative changes, including those described above, could have on the Notes and Warrants.

If any investor holds Notes which are not denominated in the investor's home currency, he will be exposed to movements in exchange rates adversely affecting the value of his holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes in a Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent trading price of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and/or restrict the convertibility or transferability of currencies within and/or outside of a particular jurisdiction which in turn could adversely affect the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or receive it later than expected or not at all.

5. **Risks related to tax and legal matters**

The value of the Notes could be adversely affected by a change in the Groenregeling

Certain Notes issued under this Securities Note may currently provide Noteholders resident in the Netherlands with certain potential tax advantages as a result of the *Regeling Groenprojecten* and *Fiscale Groenregeling* (the "**Groenregeling**"), as further described in the "*GENERAL INFORMATION – Description of the Groenregeling*" section below. Any change to the Groenregeling (including the announced abolishment thereof as further described in the "*GENERAL INFORMATION – Description of the Groenregeling*" section below) after the date of issue of any particular Series of Notes may adversely impact the potential tax advantages available to Noteholders resident in the Netherlands and/or the value of any Notes held by such Noteholders.

The General Conditions contain provisions which may permit their modification without the consent of all investors which may be contrary to Noteholders' interests

The General Conditions contain provisions for calling meetings of holders of the Notes to consider and vote upon matters affecting their interests generally or to pass resolutions in writing, including modifying the date of maturity of the Notes or any date for payment of interest thereof, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes or coupon, and to obtain resolutions in writing on matters relating to the Notes from the holders of Notes without calling a meeting. These provisions permit defined majorities to bind all holders of Notes, including holders of Notes who did not attend and vote at the relevant meeting and holders of Notes who voted in a manner contrary to the majority or, as the case may be, who did not sign a resolution in writing. Any such modification may be contrary to the interest of one or more holders of Notes and as a result the Notes may no longer meet the requirements or investment objectives of a Noteholder.

The issuance of additional Notes that are not fungible with original Notes for U.S. federal income tax purposes could impact the trading price of the original Notes

The Issuer may, without the consent of the holders of outstanding Notes, issue additional Notes with identical terms. These additional Notes, even if they are treated for non-tax purposes as part of the same series as the original Notes, in some cases may be treated as a separate issue for U.S. federal income tax purposes. In such a case, the additional Notes may be considered to have been issued with original issue discount ("**OID**") even if the original Notes had no OID, or the additional Notes may have a different amount of OID than the remaining OID on the original Notes. These differences may affect the trading price of the original Notes if the additional Notes are not otherwise distinguishable from the original Notes.

Noteholders may be exposed to risks relating to Singapore taxation

Certain Notes and Warrants to be issued from time to time under this Programme, during the period from the date of this Securities Note to 31 December 2028, may be intended to be "qualifying debt securities" pursuant to the Income Tax Act 1947 of Singapore (the "**Income Tax Act**") and the MAS Circular FDD Cir 08/2023 entitled "Qualifying Debt Securities and Primary Dealer Schemes – Extension and Refinements" issued by the Monetary Authority of Singapore ("**MAS**") on 31 May 2023, subject to the fulfilment of certain conditions more particularly described under the heading "*Taxation - Singapore Taxation*".

However, there is no assurance that the conditions for "qualifying debt securities" will be met or that such Tranche of Notes or Warrants will continue to enjoy the tax concessions in connection therewith should the relevant tax laws or MAS circulars be amended or revoked at any time or should the required conditions cease to be fulfilled, or if such Tranche of Instruments is issued after the qualifying debt securities scheme ceases to apply in which case, subject to certain conditions being met (as further described under the heading "*Taxation – Singapore Taxation*") certain Noteholders could be required to pay taxes under the Income Tax Act.

In addition, the tax concessions and exemptions for qualifying debt securities may not be available for any particular Tranche if the Inland Revenue Authority of Singapore ("**IRAS**") does not regard such Tranche of Notes or Warrants as debt securities for Singapore income tax purposes.

Risk that difference in insolvency law could impact recovery by holders of Notes and Warrants

In the event that the Issuer becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of the Issuer's place of incorporation, which is the Netherlands. The insolvency laws of the Issuer's place of incorporation may be different from the insolvency laws of an investor's home jurisdiction and the treatment and ranking of holders of Notes and Warrants issued by the Issuer and the Issuer's other creditors and shareholders if the Issuer was subject to the insolvency laws of the investor's home jurisdiction. As a result, payments to holders of Notes and Warrants, when the Issuer has entered into Dutch insolvency proceedings, could be subject to more of a delay and less of a recovery by holders in respect of the Notes and Warrants to what that investor may expect in its home jurisdiction.

6. **Risks relating to the pricing of and market in the Notes and Warrants**

More Notes and Warrants may be issued than those which are to be subscribed or purchased by third party investors as a result of which the issue size of any Series may not be indicative of the depth or liquidity of the market for such Series

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Notes and Warrants than those which are to be subscribed or purchased by third party investors. The Issuer (or any of its affiliates) may hold such Notes and Warrants for the purpose of meeting any investor interest in the future. The issue size of any Series is therefore not indicative of the depth or liquidity of the market for such Series, or of the demand for such

Series. If the depth or liquidity of the market for a Series of Notes or Warrants is different than expected due to the fact that more Notes or Warrants were issued than are subscribed or purchased by third party investors, this may adversely affect the trading price of the Notes or Warrants in a secondary market.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of bearer Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. Any such holding of Notes that is less than the minimum Specified Denomination may be illiquid and difficult to trade. In such a case, a Noteholder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive bearer Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a minimum Specified Denomination. Therefore, if definitive Notes are issued, Noteholders should be aware that definitive Notes that have a denomination which is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The Continu Garant Notes are open-ended investments without a fixed maturity date

The Continu Garant Notes will have no Maturity Date. In such a case, unless redeemed early, the Continu Garant Notes are open-ended investments without a fixed maturity date. The redemption of the Continu Garant Notes on an Optional Redemption Date is at the sole and absolute discretion of the Issuer. There is no guarantee that the Issuer will redeem the Continu Garant Notes. The Noteholder has the right to exercise a put option in respect of its Continu Garant Notes on each Optional Put Redemption Date$_i$

If a Noteholder wishes to realise their investment at other points in time, they will do so at their own risk by selling the relevant Continu Garant Notes in the secondary market, provided that a secondary market exists. The Noteholder may receive a negative return on their investment.

Notes may be issued in unitised form ("**Units**") and references in this Securities Note to Notes shall also include Units. Units shall have an individual issue price instead of a (specified) denomination and where reference in this Securities Note is made to a minimum (specified) denomination for Notes, such term shall be deemed to include references to a minimum issue price for Units.

Notes may be denominated in any currency determined by the Issuer and the relevant Dealer (if any). References herein to "**Notes**" are to the Reference Asset Linked Notes which may be issued by the Issuer under this Securities Note. References herein to "**Noteholders**" and "**Holders of Notes**" are to holders of Notes. References herein to "**Warrantholders**" and "**Holders of Warrants**" are to holders of Warrants.

Subject as set out herein, the Notes will be subject to such minimum or maximum maturity as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency (as defined herein). The maximum aggregate nominal amount of all Notes and obligations from time to time outstanding under the Programme (including, but not limited to, Notes issued under this Securities Note) will not exceed €25,000,000,000 (or its equivalent in other currencies calculated as described herein). There is no limit on the number of Warrants which may be issued.

In relation to each separate issue of Notes or Warrants, the issue price and the amount of such Notes or Warrants will be determined, based on then prevailing market conditions at the time of the issue of the Notes or Warrants, and will be set out in the applicable Final Terms (as defined below). The Final Terms will be provided to investors and filed with the relevant competent authority for the purposes of the Prospectus Regulation (i) when any Public Offer (as defined below) of Notes or Warrants is made in the EEA as soon as practicable and in advance of the

beginning of the offer and (ii) when admission to trading of Notes or Warrants on a regulated market in the EEA is sought as soon as practicable and if possible in advance of the admission to trading.

Neither the Notes nor the Warrants will contain any provision that would oblige the Issuer to gross up any amounts payable thereunder in the event of any withholding or deduction for or on account of taxes levied in any jurisdiction.

The Notes will be issued on a continuing basis by the Issuer to the purchasers thereof, which may include any Dealers appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis and which may include ING Bank N.V. acting in its capacity as a Dealer and separate from that as Issuer (each a "**Dealer**" and together the "**Dealers**"). The Dealer or Dealers with whom the Issuer agrees or proposes to agree on the issue of any Notes or Warrants is or are referred to as the "**relevant Dealer**" in respect of those Notes or Warrants.

The Issuer may decide to issue Notes in a form not contemplated by the various terms and conditions of the Notes, as the case may be, herein. In any such case a supplement to this Securities Note, if appropriate, will be made available which will describe the form of such Notes.

The Warrants create options exercisable by the relevant holder. There is no obligation upon any holder to exercise his Warrant nor, in the absence of such exercise, any obligation on the Issuer to pay any amount or deliver any asset to any holder of a Warrant. The Warrants will be exercisable in the manner set forth in this Securities Note as completed in the applicable Final Terms. Upon exercise, the holder of a Warrant will be required to certify (in accordance with the provisions outlined in "*Subscription and Sale*") that it is not a U.S. person and that it is not exercising such Warrant on behalf of a U.S. person.

Notice of:

(i) in the case of Notes, the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche of Notes; or

(ii) in the case of Warrants, the number of Warrants, the issue price of Warrants and any other terms and conditions contained herein which are applicable to each Tranche of Warrants,

will be set forth in the applicable Final Terms.

Notes may be issued in bearer form and registered form (see "*Form of the Notes*" in the Level 1 Securities Note).

The Issuer has a senior debt rating from S&P Global Ratings Europe Limited ("**S&P**"), Moody's France SAS ("**Moody's**"), Fitch Ratings Ireland Limited ("**Fitch**") and Scope Ratings GmbH ("**Scope**"), details of which are contained in the Registration Document. S&P, Moody's, Fitch and Scope are established in the European Union and are registered under the CRA Regulation.

Tranches (as defined herein) of Notes issued under this Securities Note may be rated or unrated. Where a Tranche of Notes is to be rated, such rating will not necessarily be the same as any ratings assigned to the Issuer, the Programme or any Notes already issued. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

To the fullest extent permitted by law, none of the Dealers (for the avoidance of doubt, excluding ING Bank N.V. acting in its capacity as Issuer) accepts any responsibility for the contents of the Prospectus or for any other statement made or purported to be made by a Dealer or on its behalf in connection with the Issuer or the issue and offering of any Notes or Warrants. Each Dealer (for the avoidance of doubt, excluding ING Bank N.V. acting in its

capacity as Issuer) accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of the Prospectus or any such statement.

No person has been authorised to give any information or to make any representation not contained in or incorporated by reference into the Prospectus or any other information supplied in connection with the Programme and neither the Issuer nor the Arranger or any Dealer appointed by the Issuer takes any responsibility for, and none of them can provide assurance as to the reliability of, information that any other person may give.

Neither the delivery of the Prospectus nor the offering, sale or delivery of any Notes or Warrants shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers do not undertake to review the financial condition or affairs of the Issuer during the life of this Securities Note. Investors should carefully review and evaluate, *inter alia*, the most recent financial statements of the Issuer when deciding whether or not to purchase any Notes or Warrants.

Neither the Prospectus nor any other information supplied in connection with the Programme should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of the Prospectus or any other information supplied in connection with the Programme should purchase any Notes or Warrants. Each investor contemplating purchasing any Notes or Warrants should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither the Prospectus nor the information contained in it or any other information supplied in connection with the Programme or the issue of any Notes or Warrants constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any Notes or Warrants.

Neither the Arranger nor any of the Dealers makes any representation as to the suitability of any Green Bonds (as defined herein), including the listing or admission to trading thereof on any dedicated 'green', 'environmental', 'sustainable' or other equivalently-labelled segment of any stock exchange or securities market, to fulfil any green environmental or sustainability criteria required by any prospective investors. The Arranger and the Dealers have not undertaken, nor are they responsible for, any assessment of the eligibility criteria for Eligible Green Loans (as defined herein), any verification of whether the Eligible Green Loans meet such criteria or the monitoring of the use of proceeds of any Green Bonds (or amounts equal thereto). Investors should refer to any green financing framework which the Issuer may publish from time to time, any second party opinion delivered in respect thereof, and any public reporting by or on behalf of the Issuer in respect of the application of the proceeds of any issue of Green Bonds for further information. Any such green financing framework and/or second party opinion and/or public reporting will not be incorporated by reference in this Securities Note and neither the Arranger nor any of the Dealers makes any representation as to the suitability or contents thereof.

If the use of such proceeds is a factor in a prospective investor's decision to invest in Green Bonds, prospective investors should consult with their legal and other advisers before making an investment in any such Green Bonds and must determine for themselves the relevance of such information for the purpose of any investment in such Green Bonds, together with any other investigation such investor deems necessary.

NOTES AND WARRANTS MAY NOT BE A SUITABLE INVESTMENT FOR ALL INVESTORS – Each potential investor in any Notes and Warrants must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes and/or Warrants, the merits and risks of investing in the relevant Notes and/or Warrants and the information

contained or incorporated by reference in the Prospectus, any applicable supplement or applicable Final Terms;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and/or Warrants and the impact such investment will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, and/or Warrants, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency, or Warrants where the currency in which the Entitlement is denominated is different from the potential investor's currency;

(iv) understand thoroughly the terms of the relevant Notes and/or Warrants and be familiar with the behaviour of any relevant benchmarks and the financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate, and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes and Warrants could be perceived as complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes and/or Warrants which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes and/or Warrants will perform under changing conditions, the resulting effects on the value of such Notes and/or Warrants and the impact this investment will have on the potential investor's overall investment portfolio.

The Notes and Warrants issued under the Prospectus are sophisticated instruments and can involve a high degree of risk and are intended for sale only to those investors capable of understanding the risk entailed in such instruments. Prospective purchasers of the Notes or Warrants should ensure that they understand the nature of the Notes or Warrants and the extent of their exposure to risk and that they understand the nature of the Notes or Warrants as an investment in the light of their own circumstances and financial condition. Prospective purchasers of the Notes or Warrants should conduct their own investigations and, in deciding whether or not to purchase Notes or Warrants, should form their own views of the merits of an investment related to the Notes and Warrants based upon such investigations and not in reliance upon any information given in the Prospectus and the applicable Final Terms. In particular, each investor contemplating purchasing any Notes or Warrants should make its own appraisal of any Reference Asset to which such Note may be linked (including the creditworthiness of the issuer of any share or debt or other security comprised in such Reference Asset) or any Fund Interests. If in doubt, potential investors are strongly recommended to consult with their independent financial advisers before making any investment decision.

The Prospectus is not, and does not purport to be, investment advice or an investment recommendation to purchase the Notes or Warrants. The Issuer, including its branches and any group company, is acting solely in the capacity of an arm's length contractual counterparty and not as a purchaser's financial adviser or fiduciary in any transaction, unless the Issuer has agreed to do so in writing. If a prospective investor does not have experience in financial, business and investment matters sufficient to permit it to make such a determination, the investor should consult with its financial adviser prior to deciding to make an investment on the suitability of the Notes or Warrants. Investors risk losing their entire investment or part of it.

Each prospective investor of Notes or Warrants must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes or Warrants (i) is fully consistent with its (or, if it is acquiring the Notes or Warrants in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, (ii) complies and is fully consistent with any investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes or Warrants as principal or in a fiduciary capacity) and

(iii) is a fit, proper and suitable investment for it (or, if it is acquiring the Notes or Warrants in a fiduciary capacity, for the beneficiary). In particular, investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should therefore consult its legal advisers to determine whether and to what extent (i) the Notes or Warrants are legal investments for it, (ii) the Notes or Warrants can be used as underlying securities for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes or Warrants.

Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes and Warrants under any applicable risk-based capital or similar rules.

Any performance of a Reference Asset necessary for the Notes to yield a specific return is not assured. The performance of a Reference Asset may, depending on the terms of the Notes, strongly affect the value of payments on the Notes and the Issuer has no control over any Reference Asset or the performance of such Reference Asset. The Reference Asset can be influenced by various unpredictable factors. Such factors could have an adverse effect on the Reference Asset and, consequently, the Notes. Please also refer to the risk factor entitled "*Risks relating to the Reference Asset Linked Notes*" above.

The Notes are of limited maturity and, unlike direct investments in a Reference Asset (or the securities comprised in such Reference Asset), investors are not able to hold them beyond the Maturity Date in the expectation of a recovery in the value of the Reference Asset. This limitation may adversely affect the value of the Notes.

HOW THE VALUE OF AN INVESTMENT IS AFFECTED BY THE VALUE OF A REFERENCE ASSET, BASKET OF REFERENCE ASSETS, LEVEL OF A SPECIFIED INDEX OR FUND INTERESTS

The return on, and value of, the Notes may be linked to the value of a specified Reference Asset or basket of Reference Assets, or the level of a specified inflation index. In addition, interest or distribution payments (if any) may be linked to a Reference Asset, basket of Reference Assets, market interest rate(s) or an inflation index. See further "*Overview of the Programme – Part 3: Types of Reference Asset Linked Notes*" above.

The value of the Warrants will depend upon the value of the units, shares, partnership interest or other direct interests ("**Fund Interests**") in the Fund. If the value of the Fund Interests rises, then it is expected that the value of the Warrants will also rise. However, if the value of the Fund Interests falls, then it is expected that the value of the Warrants will also fall. See further "*Overview of the Programme – Part 4: Overview of the Warrants*" above.

OFFER RESTRICTIONS

Other than in Belgium, France, Germany, Italy, Luxembourg, the Netherlands, Poland and Romania, the Issuer, the Arranger and any Dealer do not represent that the Prospectus may be lawfully distributed, or that Notes and/or Warrants may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Arranger or any Dealer under the Programme which would permit a public offering of the Notes and/or Warrants or distribution of the Prospectus in any jurisdiction where action for that purpose is required, other than (if so indicated in the applicable Final Terms) in certain Member States of the EEA, the UK and Switzerland. Accordingly, the Notes and Warrants may not be offered or sold, directly or indirectly, and neither the Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction where such offer, sale, distribution and/or publication would be prohibited and each Dealer will be required to represent that all offers and sales by it of Notes and Warrants will be made on these terms. The Issuer may seek to have an expected issue of Notes and/or Warrants admitted to trading on Euronext Amsterdam, Euronext Paris, the regulated market of the Luxembourg Stock Exchange or the Warsaw Stock Exchange on an "as-if-and-when-issued" basis, generally starting three business days preceding the Issue Date until the Issue Date (both the first day of the as-if-and-when-issued-trading and the Issue Date will be specified in the applicable

Final Terms). As-if-and-when-issued-trading makes it possible to trade in the Notes listed on Euronext Amsterdam, Euronext Paris or the Warsaw Stock Exchange before they have been issued. However, prospective investors in Notes should not rely on trading on this basis as a commitment by the Issuer to accept an application to subscribe for Notes to refrain from withdrawing, cancelling or otherwise modifying an offer of Notes.

The distribution of the Prospectus and the offer or sale of Notes and Warrants may be restricted by law in certain jurisdictions. Persons into whose possession the Prospectus or any Notes or Warrants come must inform themselves about, and observe, any such restrictions. See "*Subscription and Sale*".

Unless the Final Terms in respect of any Notes or Warrants specifies Belgium as Public Offer Jurisdiction (as defined below), the Notes or Warrants are not intended to be offered, sold or otherwise made available to and will not be offered, sold or otherwise made available to "consumers" (*consumenten/consommateurs*) within the meaning of the Belgian Code of Economic law (*Wetboek economisch recht/Code de droit économique*), as amended.

MiFID II product governance / target market – The Final Terms in respect of any Notes or Warrants will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes or Warrants and which channels for distribution of the Notes or Warrants are appropriate. Any person subsequently offering, selling or recommending the Notes or Warrants (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes or Warrants (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes or Warrants is a manufacturer in respect of such Notes or Warrants, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes or Warrants include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes or Warrants are not intended to be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014, as amended (the "**PRIIPs Regulation**") for offering or selling the Notes and Warrants or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling

the Notes and Warrants or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who neither: (i) a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**") ("**UK MiFIR**"); nor (ii) a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024 (the "**POATR**"). Consequently, no key information document required by the PRIIPs Regulation as it forms part of UK domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The Notes and Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States. Accordingly, the Notes and Warrants may not be offered, sold, pledged or otherwise transferred within the United States or to or for the account or benefit of U.S. persons, except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act and any applicable state securities laws. Registered Notes issued by the Issuer may be offered and sold in the United States exclusively to persons reasonably believed by the Issuer or the Dealers (if any), to be QIBs (as defined herein), or placed privately with accredited investors as defined in Rule 501(a) of Regulation D ("**Accredited Investors**") under the Securities Act. Each U.S. purchaser of Registered Notes issued by the Issuer is hereby notified that the offer and sale of any Registered Notes to it may be made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A. To permit compliance with Rule 144A under the Securities Act in connection with the resales of Registered Notes issued by the Issuer, the Issuer is required to furnish, upon request of a holder of a Registered Note issued by the Issuer or a prospective purchaser designated by such holder, the information required to be delivered under Rule 144A(d)(4) under the Securities Act. Registered Notes issued by the Issuer are not transferable to other holders within the United States, except upon satisfaction of certain conditions as described under "*Subscription and Sale*". Certain U.S. tax law requirements may also apply to U.S. holders of the Notes.

The Notes and Warrants have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or Warrants or the accuracy or the adequacy of this Securities Note. Any representation to the contrary is a criminal offence in the United States.

Singapore Securities and Futures Act Product Classification – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore (as modified or amended from time to time, the "**SFA**"), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA), that the Notes and Warrants are 'prescribed capital markets products' (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "**CMP Regulations 2018**")).

IMPORTANT NOTICE TO PROSPECTIVE INVESTORS PURSUANT TO PARAGRAPH 21 OF THE HONG KONG SFC CODE OF CONDUCT – Prospective investors should be aware that certain intermediaries in the context of certain offerings of Notes and Warrants pursuant to this Programme (each such offering, a "**CMI Offering**"), including certain Dealers, may be "capital market intermediaries" (the "**CMIs**") subject to Paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures

Commission (the "**SFC Code**"). This notice to prospective investors is a summary of certain obligations the SFC Code imposes on such CMIs, which require the attention and cooperation of prospective investors. Certain CMIs may also be acting as "overall coordinators" (the "**OCs**") for a CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of the Issuer, a CMI or its group companies would be considered under the SFC Code as having an association ("**Association**") with the Issuer, the CMI or the relevant group company. Prospective investors associated with the Issuer or any CMI (including its group companies) should specifically disclose this when placing an order for the relevant Notes and Warrants and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to the relevant CMI Offering. Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to the relevant CMI Offering, such order is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are *bona fide*, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). A rebate may be offered by the Issuer to all private banks for orders they place (other than in relation to Notes and Warrants subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of the relevant CMI Offering based on the principal amount of the Notes and Warrants distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMIs otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate. Details of any such rebate will be set out in the applicable Final Terms or otherwise notified to prospective investors. If a prospective investor is an asset management arm affiliated with any relevant Dealer, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the relevant Dealer or its group company has more than 50 per cent. interest, in which case it will be classified as a "proprietary order" and subject to appropriate handling by CMIs in accordance with the SFC Code and should disclose, at the same time, if such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". If a prospective investor is otherwise affiliated with any relevant Dealer, such that its order may be considered to be a "proprietary order" (pursuant to the SFC Code), such prospective investor should indicate to the relevant Dealer when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". Where prospective investors disclose such information but do not disclose that such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering, such "proprietary order" is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should be aware that certain information may be disclosed by CMIs (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order, prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the relevant Dealers and/or any other third parties as may be required by the SFC Code, including to the Issuer, any OCs, relevant regulators and/or any other third parties as may be required by the SFC Code, it being understood and agreed that such information shall only be used for the purpose of complying with the SFC Code, during the bookbuilding process for the relevant CMI Offering. Failure to provide such information may result in that order being rejected.

STABILISATION

In connection with the issue of any Tranche of Notes or Warrants, the Issuer or one or more Dealers (in such capacity, the "Stabilisation Manager(s)" (or person(s) acting on behalf of any Stabilisation Manager(s)) may over-allot Notes or Warrants or effect transactions with a view to supporting the market price of the Notes or Warrants at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the final terms (in the case of Notes or Warrants convertible or exchangeable into shares or into other securities equivalent to shares) or terms (in all other cases) of the offer of the relevant Tranche of Notes or Warrants is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes or Warrants and 60 days after the date of the allotment of the relevant Tranche of Notes or Warrants. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or any person acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

GENERAL

Amounts payable under the Notes and Warrants may be calculated by reference to the BBSW Rate which is provided by ASX Benchmarks Pty Limited as administrator, EURIBOR which is provided by EMMI as administrator, SOFR which is provided by the Federal Reserve Bank of New York as administrator, SONIA which is provided by the Bank of England as administrator, TONA which is provide by the Bank of Japan as administrator, or any other benchmark, in each case as specified in the applicable Final Terms. As at the date of this Securities Note, ASX Benchmarks Pty Limited (equivalence under Article 30 of the Benchmarks Regulation) and EMMI appears on the ESMA Benchmark Register pursuant to Article 36 of the Benchmarks Regulation.

If a benchmark (other than the BBSW Rate and EURIBOR) is specified in the applicable Final Terms, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the ESMA Benchmarks Register.

As at the date of this Securities Note, the Federal Reserve Bank of New York, the Bank of England and the Bank of Japan do not appear in ESMA's register of administrators under the Benchmarks Regulation. As far as the Issuer is aware, neither SOFR, SONIA nor TONA fall within the scope of the Benchmarks Regulation by virtue of Article 2 of the Benchmarks Regulation, and neither the Federal Reserve Bank of New York as administrator of SOFR, the Bank of England as administrator of SONIA nor the Bank of Japan as administrator of TONA are required to be registered by virtue of Article 2 of the Benchmarks Regulation.

All statements other than statements of historical fact included or incorporated by reference in this Securities Note, including, without limitation, those regarding the Issuer's financial position, business strategy, plans and objectives of management for future operations, are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Issuer, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. PUBLIC OFFERS OF NON-EXEMPT PR NOTES AND NON-EXEMPT PR WARRANTS IN THE EEA

Non-Exempt PR Notes and Non-Exempt PR Warrants may, subject as provided below, be offered in a Member State of the EEA (each a "**Member State**") in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to in this Securities Note as a "**Public Offer**".

The Prospectus has been prepared on a basis that permits Public Offers in Belgium, France, Germany, Italy, Luxembourg, the Netherlands, Poland and Romania (together the "**Public Offer Jurisdictions**"). Any person making or intending to make a Public Offer of Non-Exempt PR Notes or Non-Exempt PR Warrants in a Public Offer

Jurisdiction on the basis of the Prospectus must do so only with the Issuer's consent (see "*Consent given in accordance with Article 5.1 of the Prospectus Regulation*" below). Save as provided above, neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any Public Offer of Notes or Warrants in circumstances in which an obligation arises for either the Issuer or any Dealer to publish or supplement the Prospectus for such offer.

If the Issuer intends to make or authorise any Public Offer of Non-Exempt PR Notes to be made in one or more Member States other than a Public Offer Jurisdiction, it will prepare a supplement to the Prospectus specifying such Member State(s) and any additional information required by the Prospectus Regulation in respect thereof. Such supplement will also set out provisions relating to the Issuer's consent to use the Prospectus in connection with any such Public Offer.

Consent given in accordance with Article 5.1 of the Prospectus Regulation

In the context of any Public Offer of Notes and/or Warrants, the Issuer accepts responsibility, in each of the Public Offer Jurisdictions relating to Notes and/or Warrants, for the content of the Prospectus in relation to any person (an "**Investor**") who purchases any Notes and/or Warrants in a Public Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period (as specified in the applicable Final Terms).

Except in the circumstances described below, the Issuer has not authorised the making of any offer by any offeror and the Issuer has not consented to the use of the Prospectus by any other person in connection with any offer of the Notes and/or Warrants in any jurisdiction. Any offer made without the consent of the Issuer is unauthorised and neither the Issuer nor, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer. If, in the context of a Public Offer, an Investor is offered Notes and/or Warrants by a person which is not an Authorised Offeror, the Investor should check with such person whether anyone is responsible for the Prospectus for the purpose of the relevant Public Offer and, if so, who that person is. If an Investor is in any doubt about whether it can rely on the Prospectus and/or who is responsible for its contents, the Investor should take legal advice.

Consent

The Issuer consents and (in connection with paragraph (D) below) offers to grant its consent to the use of the Prospectus (as supplemented at the relevant time, if applicable) in connection with any Public Offer of a Tranche of Notes or Warrants in the Public Offer Jurisdictions in relation to Notes or Warrants specified in the applicable Final Terms during the Offer Period specified in the applicable Final Terms by:

In consideration of the Issuer offering to grant its consent to our use of the Prospectus (as defined in the Final Terms) in connection with the offer of the [Notes][Warrants] in [Belgium, France, Germany, Italy, Luxembourg, the Netherlands, Poland and Romania] during the Offer Period in accordance with the Authorised Offeror Terms (as specified in the Prospectus), we accept the offer by the Issuer. We confirm that we are authorised under MiFID II to make, and are using the Prospectus in connection with, the Public Offer accordingly. Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Prospectus."*

The "**Authorised Offeror Terms**", being the terms to which the relevant financial intermediary agrees in connection with using the Prospectus, are that the relevant financial intermediary:

(g) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer in order to enable the Issuer and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to the Issuer and/or the relevant Dealer;

(h) not, directly or indirectly, cause the Issuer or the relevant Dealer to breach any Rule or subject the Issuer or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;

(k) ensure that no holder of Non-Exempt PR Notes and/or Non-Exempt PR Warrants or potential Investor in Non-Exempt PR Notes and/or Non-Exempt PR Warrants shall become an indirect or direct client of the Issuer or the relevant Dealer for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;

(l) co-operate with the Issuer and the relevant Dealer in providing such information (including, without limitation, documents and records maintained pursuant to paragraph (f) above) upon written request from the Issuer or the relevant Dealer as is available to such financial intermediary or which is within its power and control from time to time, together with such further assistance as is reasonably requested by the Issuer or the relevant Dealer:

(i) in connection with any request or investigation by the AFM and/or any relevant regulator of competent jurisdiction in relation to the Non-Exempt PR Notes and/or Non-Exempt PR Warrants, the Issuer or the relevant Dealer;

The conditions to the Issuer's consent are (in addition to the conditions described in paragraph (D) above if Part B of the applicable Final Terms specifies "General Consent" as "Applicable") that such consent:

(a) is only valid in respect of the relevant Tranche of Non-Exempt PR Notes and/or Non-Exempt PR Warrants;

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NON-EXEMPT PR NOTES AND/OR NON-EXEMPT PR WARRANTS IN A PUBLIC OFFER FROM AN AUTHORISED OFFEROR OTHER THAN THE ISSUER WILL DO SO, AND OFFERS AND SALES OF SUCH NON-EXEMPT PR NOTES AND/OR NON-EXEMPT PR WARRANTS TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR, INCLUDING AS TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT ARRANGEMENTS. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE PUBLIC OFFER OR SALE OF THE NON-EXEMPT PR NOTES AND/OR NON-EXEMPT PR WARRANTS CONCERNED AND, ACCORDINGLY, THE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE INVESTOR MUST LOOK TO THE RELEVANT AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER FOR THE PROVISION OF SUCH INFORMATION AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NEITHER THE ISSUER NOR ANY DEALER (EXCEPT WHERE SUCH DEALER IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

Public Offers: Issue Price and Offer Price

Non-Exempt PR Notes and/or Non-Exempt PR Warrants to be offered pursuant to a Public Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer at the time of the relevant Public Offer and will depend, amongst other things, on the interest rate applicable to the Non-Exempt PR Notes and/or Non-Exempt PR Warrants and prevailing market conditions at that time. The offer price of such Non-Exempt PR Notes and/or Non-Exempt PR Warrants will be the Issue Price or such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Non-Exempt PR Notes and/or Non-Exempt PR Warrants to such Investor. The Issuer will not be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Non-Exempt PR Notes and/or Non-Exempt PR Warrants to such Investor.

If "Fund Unit Delivery" is not specified as being applicable in the Final Terms, then this Additional Condition 3 shall not apply in respect of the Notes.

(a) ***Delivery of Fund Unit Amounts***

Instead of payment of any Final Redemption Amount calculated under Additional Condition 2 (*Redemption*) or any amount equal to Redemption_i calculated under Additional Condition 4 (*Continu Garant with Cap*) or 5 (*Continu Garant with Participation*) (as applicable), the Issuer shall, on the Fund Unit Delivery Date, deliver or procure the delivery of the Fund Unit Amount in respect of each Note to such account in such clearing system as may be specified by the relevant

Noteholder, at the risk and expense of the relevant Noteholder. If a Noteholder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer to effect any required delivery of Fund Units, the due date for such delivery shall be postponed accordingly. The Issuer shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, "delivery" in relation to any Fund Unit Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Fund Unit Amount and "deliver" shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Fund Unit Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition of the Fund Units comprising the Fund Unit Amount or any interest therein by any Noteholder or any other person.

In respect of each Fund Unit comprising the Fund Unit Amount, the Issuer shall not be under any obligation to register or procure the registration of the Noteholder or any other person as the registered holder in any register of members or holders of the relevant Fund.

Noteholders should note that the actual date on which they become holders of the Fund Units comprising their Fund Unit Amount will depend, among other factors, on the procedures of the relevant clearing systems and any fund registrar and the effect of any Fund Unit Settlement Disruption Events.

Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Fund Units, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Fund Units or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Fund Units in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of the Fund Units.

(b) ***Fund Unit Settlement Disruption***

If the Issuer determines that delivery of any Fund Unit Amount (or part thereof) in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Fund Unit Settlement Disruption Event subsisting, then the Fund Unit Delivery Date in respect of such Fund Unit Amount (or part thereof) shall be postponed to the first following Delivery Day in respect of which no such Fund Unit Settlement Disruption Event is subsisting and notice thereof shall be given in accordance with Condition 8 (*Notices*) of the General Conditions, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering or procuring the delivery of such Fund Unit Amount (or part thereof) using such other commercially reasonable manner as it may select and in such event the Fund Unit Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Fund Unit Amount (or part thereof) in such other commercially reasonable manner. No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Fund Unit Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Fund Unit Settlement Disruption Event affects some but not all of the Fund Units comprising the Fund Unit Amount, the Fund Unit Delivery Date for the Fund Units comprising such

Fund Unit Amount which are not affected by the Fund Unit Settlement Disruption Event will be the originally designated Fund Unit Delivery Date.

For so long as delivery of the Fund Unit Amount (or part thereof) in respect of any Note is not practicable or permitted by reason of a Fund Unit Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Fund Unit Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions. Payment of the Fund Unit Disruption Cash Settlement Price will be made in such manner as shall be notified to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions if a Fund Unit Settlement Disruption Event has occurred.

(c) ***Aggregate Fund Unit Amount***

The Aggregate Fund Unit Amount to which a Noteholder may be entitled will be determined on the basis of the separate (for the avoidance of doubt, not aggregate) number of Notes held by the relevant Noteholder. The Issuer shall not be obliged to deliver fractions of a Fund Units but shall be obliged to account for the Fund Unit Fractional Cash Amount of any such fractions to the relevant Noteholder on the Fund Unit Delivery Date and each such Fund Unit Amount to be delivered shall be rounded down to the next integral number of Fund Units.

(d) ***Fund Unit Substitution Event***

If at any time the Calculation Agent determines that an applicable Substitution Event has occurred or is continuing with respect to a Fund Unit, the Calculation Agent may:

(i) waive such Substitution Event; or

(ii) as soon as is practicable after such determination, replace such Fund Unit for the purposes of the Notes with an appropriate alternative fund unit (a "**Replacement Fund Unit**"), as determined by the Calculation Agent and following any such replacement, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such replacement; or

(iii) determine that the Notes shall pay the Fund Unit Disruption Cash Settlement Price on the Fund Unit Delivery Date instead of the delivery of the Fund Unit Amount.

(a) Where the Notes are Single Index Linked Notes, if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the earlier of (i) the first Scheduled Trading Day following the Scheduled Reference Date that is not a Disrupted Day and (ii) the Reference Cut-Off Date.

(b) Where the Notes are Basket Index Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" shall be "Not Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and

(II) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an "**Affected Basket Component**") shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (B) the Reference Cut-Off Date for such Affected Basket Component.

(c) Where the Notes are Basket Index Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and

(II) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each, an "**Affected Basket Component**") shall be the earlier of (A) the first succeeding Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (B) the Reference Cut-Off Date for such Affected Basket Component (notwithstanding that such day may not be a Common Scheduled Trading Day).

(e) If, in respect of the Index or a Basket Component, a Reference Date falls on the relevant Reference Cut-Off Date pursuant to General Conditions 7*(l)*(i)(a) to (d) above:

(I) if such Reference Cut-Off Date is not a Disrupted Day for the Index or Basket Component, the Calculation Agent shall determine the Index Level of the Index or Basket Component, as the case may be, at the Valuation Time on such Reference Cut-Off Date; and/or

(II) if such Reference Cut-Off Date is a Disrupted Day for the Index or Basket Component, the Calculation Agent shall determine the Index Level of the Index, or Affected Basket Component, as the case may be, at the Valuation Time on the Reference Cut-Off Date in accordance with the formula for the method of calculating the Index Level of such Index, or Affected Basket Component, as the case may be, last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted values as the Valuation Time on the Reference Cut-Off Date of each security comprised in such Index, or Affected Basket Component, as the case may be (or if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Reference Cut-Off Date, its good faith estimate of the value of the relevant security as of the Valuation Time on the Reference Cut-Off Date); and/or

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket Component in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component;

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component. Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(b)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(II) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component, irrespective of whether the Averaging Reference Cut-Off Date falls on a day that is already deemed to be an Averaging Reference Date.

(c) Where the Notes are Basket Index Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket Component in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day

following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day immediately following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(c)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component, irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(d) Where the Notes are Basket Index Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket

Component in respect of such Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Date in respect of such Reference Date, then the sole Averaging Reference Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of any Basket Component and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(d)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date for each Basket Component shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Reference Date and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(e) If, in respect of any Index or Basket Component, an Averaging Reference Date falls on the relevant Averaging Reference Cut-Off Date pursuant to General Condition 7*(l)*(ii)(a) to (d) above:

(I) if such Averaging Reference Cut-Off Date is not a Disrupted Day for the Index or Basket Component, the Calculation Agent shall determine the Index Level of the Index or Basket Component, as the case may be, at the Valuation Time on such Averaging Reference Cut-Off Date; and/or

(II) if such Averaging Reference Cut-Off Date is a Disrupted Day for the Index or Basket Component, the Calculation Agent shall determine the Index Level of the Index or the Affected Basket Component, as the case may be, at the Valuation Time on the Averaging Reference Cut-Off Date in accordance with the formula for the method of calculating the Index Level of such Index, or Affected Basket Component, as the case may be, last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted value as of the Valuation Time on the Averaging Reference Cut-Off Date of each security comprised in such Index, or Affected Basket Component, as the case may be (or if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Averaging Reference Cut-Off

Date, its good faith estimate of the value of the relevant security as of the Valuation Time on the Averaging Reference Cut-Off Date); and/or

(III) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Early Redemption Amount, the Initial Reference Asset Value, the Final Reference Asset Value, the Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(f) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Averaging Reference Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

(g) If the Final Terms specify both "Asian-in Averaging Dates" and "Asian-out Averaging Dates", then the provisions of this General Condition 7*(l)*(ii) (*Consequences of Disrupted Days: Averaging Reference Dates*) shall apply separately to the Asian-in Averaging Dates and the Asian-out Averaging Dates (so that references to "Averaging Reference Dates" shall be read and construed as references to "Asian-in Averaging Dates" or "Asian-out Averaging Dates", as the case may be)."

2. **Date Extensions**

2.1 **Maturity Date Extension**

If "Maturity Date Extension" is specified in the applicable Final Terms as being "Applicable", the Maturity Date shall be the later of (i) the date specified as the Maturity Date in the applicable Final Terms (the "**Scheduled Maturity Date**") and (ii) the day falling the Number of Extension Business Days after (a) in the case of Single Index Linked Notes, the final Reference Date or final Averaging Reference Date, as the case may be, or (b) in the case of Basket Index Linked Notes, the final Basket Reference Date or final Basket Averaging Reference Date, as the case may be, in respect of which the Final Redemption Amount is determined. If any amount is payable on the redemption of a Note to which Maturity Date Extension applies, and the relevant Maturity Date is postponed pursuant to a Maturity Date Extension, such amount will be due on the relevant date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

2.2 **Interest Payment Date Extension**

If "Interest Payment Date Extension" is specified in the applicable Final Terms as being "Applicable", each Interest Payment Date shall be the later of (i) the date specified as such Interest Payment Date in the applicable Final Terms (the "**Scheduled Interest Payment Date**") and (ii) the day falling the Number of Extension Business Days after (a) in the case of Single Index Linked Notes, the relevant Reference Date or Averaging Reference Date, as the case may be, or (b) in the case of Basket Index Linked Notes, the Basket Reference Date or Basket Averaging Reference Date, as the case may be, in respect of which the Rate of Interest is determined for such Interest Payment Date. If any amount is payable on an Interest Payment Date in respect of a Note to which Interest Payment Date Extension applies, and such Interest Payment Date is postponed pursuant to an Interest Payment Date Extension, such amount will be due on the Interest Payment Date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

3. **Adjustments**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(m)* as follows:

"(m) Adjustments, Consequences of Certain Events and Currency

(i) Adjustments and Early Redemption

If the Calculation Agent determines that, in respect of the Index (in the case of Single Index Linked Notes) or any Basket Component (in the case of Basket Index Linked Notes), an Additional Disruption Event, an Index Modification, Index Cancellation or Index Disruption or any other event or events occur which the Calculation Agent determines necessitate(s) an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including, the amount of interest payable, if any) (each such other event, a "**Relevant Event**"), the Issuer, at its discretion, may:

(a) if the applicable Final Terms provide for the "Monetisation Option" to apply:

(I) make any adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any), as determined by the Calculation Agent in good faith and in accordance with reasonable market practice with an aim of neutralising the distorting effects of such events without charging any costs (such as settlement costs) to the Noteholders to adjust the Terms and Conditions; and/or

(II) redeem each Note in accordance with Condition 7*(e)*(i) of the General Conditions,

(b) if the applicable Final Terms do not provide for the "Monetisation Option" to apply:

(I) make any adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary; and/or

(II) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the occurrence of such Additional Disruption Event, Index Modification, Index Cancellation, Index Disruption or Relevant Event, as

applicable, less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer (or any of its Affiliates) of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer (or any of its Affiliates) in respect of any such Hedging Arrangement.

(c) Notice of any determination pursuant to this General Condition 7*(m)*(i) (*Adjustments and Early Redemption*), any such adjustment and/or any redemption of the Notes hereunder shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(ii) Change of Exchange

If the Exchange is changed, the Issuer may make such consequential modifications to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(iii) Index correction

In the event that any price or level published on any relevant Exchange or by any relevant Index Sponsor in respect of an Index or Basket Component and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange or the relevant Index Sponsor within three Business Days (or such other Level Correction Period specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(iv) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 8 (*Notices*) of the General Conditions.

(v) Performance XRate Market Disruption Event

If "Flexo" is specified as "Applicable" in the applicable Final Terms and the Issuer determines that a Performance XRate Market Disruption Event has occurred or is continuing on a Currency A Fixing (VD) Date, Currency B Fixing (VD) Date, Currency A Fixing (SD) Date and/or Currency B Fixing (SD) Date, the Calculation Agent shall determine the Currency A Fixing (VD), Currency B Fixing (VD), Currency A Fixing (SD) and/or Currency B Fixing (SD), as the case may be, as soon as reasonably practicable in its discretion."

4. **Automatic Early Redemption**

For the purposes of the Notes, if "Automatic Early Redemption" is specified as being applicable in the Final Terms, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(n)* as follows:

"(n) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date(t) or during any Automatic Early Redemption Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date(t) or (in the case of the occurrence of an Automatic Early Redemption Event during an Automatic Early Redemption Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount(t)."

5. **Index Disclaimer**

The Notes are not sponsored, endorsed, sold or promoted by any of the Indices or any of the Index Sponsors and none of the Index Sponsors has made any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the relevant Index or Basket Component and/or the levels at which any such Index or Basket Component stands at any particular time on any particular date or otherwise. 6. **Prescription**

For the avoidance of doubt, Condition 10 (*Prescription*) of the General Conditions shall apply to the Notes.

Reference Asset Annex: Share Linked Notes

This Reference Asset Annex shall apply if either "Single Share Linked Notes" or "Basket Share Linked Notes" is specified as "Applicable" in the applicable Final Terms.

1. **Disrupted Days**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(l)* as follows:

"(l) Disrupted Days

(i) Consequences of Disrupted Days: Reference Dates

(a) Where the Notes are Single Share Linked Notes, if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day, then the Reference Date shall be the earlier of (i) the first Scheduled Trading Day following the Scheduled Reference Date that is not a Disrupted Day and (ii) the Reference Cut-Off Date.

(b) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" shall be "Not Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and

(II) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each an "**Affected Basket Component**") shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (B) the Reference Cut-Off Date for such Affected Basket Component.

(c) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Basket Component; and

(II) the Reference Date for each Basket Component in respect of which the Scheduled Reference Date is a Disrupted Day (each, an "**Affected Basket Component**") shall be the earlier of (A) the first succeeding Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (B) the Reference Cut-Off Date for such Affected Basket Component (notwithstanding that such day may not be a Common Scheduled Trading Day).

(d) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall both be "Applicable", if

the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Basket Component, then the Reference Date for each Basket Component shall be the earlier of (i) the first Common Scheduled Trading Day following the Scheduled Reference Date that is not a Disrupted Day for any Basket Component and (ii) the Reference Cut-Off Date (notwithstanding that such day may not be a Common Scheduled Trading Day).

(e) If, in respect of the Share or a Basket Component, a Reference Date falls on the relevant Reference Cut-Off Date pursuant to General Conditions 7*(l)*(i)(a) to (d) above:

(I) if such Reference Cut-Off Date is not a Disrupted Day for the Share or Basket Component, the Calculation Agent shall determine the Price of the Share or Basket Component, as the case may be, at the Valuation Time on such Reference Cut-Off Date; and/or

(II) if such Reference Cut-Off Date is a Disrupted Day for the Share or Basket Component, the Calculation Agent shall determine the Price of the Share, or Affected Basket Component, as the case may be, at the Valuation Time on the Reference Cut-Off Date as its good faith estimate of the price of the Share or the Affected Basket Component, as the case may be, that would have prevailed at the Valuation Time on the Reference Cut-Off Date; and/or

(III) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Early Redemption Amount, the Initial Reference Asset Value, the Final Reference Asset Value, the Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(f) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Reference Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

(ii) Consequences of Disrupted Days: Averaging Reference Dates

(a) Where the Notes are Single Share Linked Notes, if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then the sole Averaging Reference Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day and (B) the Averaging Reference Cut-Off Date;

(II) if "**Postponement**" is specified in the applicable Final Terms, the Averaging Reference Date shall be the earlier of (A) the first Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day and (B) the Averaging Reference Cut-Off Date. Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(a)(II) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, the Averaging Reference Date shall be the earlier of (A) the first Valid Date following the Scheduled Averaging Reference Date and (B) the Averaging Reference Cut-Off Date, irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(b) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" shall be "Not Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket Component in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component;

(II) if "**Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component, an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component. Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(b)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component, irrespective of whether the Averaging Reference Cut-Off Date falls on a day that is already deemed to be an Averaging Reference Date.

(c) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket Component in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Basket Component in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Scheduled Trading Day immediately following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component (notwithstanding the fact that such day may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(c)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Basket Component in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Basket Component an "**Affected Basket Component**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Basket Component and (II) the Averaging Reference Cut-Off Date for such Affected Basket Component, irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(d) Where the Notes are Basket Share Linked Notes and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Basket Component, then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Basket Component in respect of such Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Date in respect of such Reference Date, then the sole Averaging Reference Date for each Basket Component shall be the earlier of (A) the first Common Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day for any Basket Component and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of any Basket Component and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(d)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date for each Basket Component shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Reference Date and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(e) If, in respect of any Share or Basket Component, an Averaging Reference Date falls on the relevant Averaging Reference Cut-Off Date pursuant to General Condition 7*(l)*(ii)(a) to (d) above:

(I) if such Averaging Reference Cut-Off Date is not a Disrupted Day for the Share or Basket Component, the Calculation Agent shall determine the Price of the Share or Basket Component, as the case may be, at the Valuation Time on such Averaging Reference Cut-Off Date; and/or

(II) if such Averaging Reference Cut-Off Date is a Disrupted Day for the Share or Basket Component, the Calculation Agent shall determine the Price of the Share or the Affected Basket Component, as the case may be, at the Valuation Time on the Averaging Reference Cut-Off Date as its good faith estimate of the price of the Share or Affected Basket Component, that would have prevailed at the Valuation Time on the Averaging Reference Cut-Off Date; and/or

(III) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Early Redemption Amount, the Initial Reference Asset Value, the Final Reference Asset Value, the Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(f) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Averaging Reference Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

If the Final Terms specify both "Asian-in Averaging Dates" and "Asian-out Averaging Dates", then the provisions of this General Condition 7*(l)*(ii) (*Consequences of Disrupted Days: Averaging Reference Dates*) shall apply separately to the Asian-in Averaging Dates and the Asian-out Averaging Dates (so that references to "Averaging Reference Dates" shall be read and construed as references to "Asian-in Averaging Dates" or "Asian-out Averaging Dates", as the case may be)."

2. **Date Extensions**

2.1 **Maturity Date Extension**

If "Maturity Date Extension" is specified in the applicable Final Terms as being "Applicable", the Maturity Date shall be the later of (i) the date specified as the Maturity Date in the applicable Final Terms (the "**Scheduled Maturity Date**") and (ii) the day falling the Number of Extension Business Days after (a) in the case of Single Share Linked Notes, the final Reference Date or final Averaging Reference Date, as the case may be, or (b) in the case of Basket Share Linked Notes, the final Basket Reference Date or final Basket Averaging Reference Date, as the case may be, in respect of which the Final Redemption Amount is determined (including, for the avoidance of doubt, the day on which any Share Amount is determined if the Notes are to be redeemed by delivery of a Share Amount). If any amount is payable on the redemption of a Note to which Maturity Date Extension applies, and the relevant Maturity Date is postponed pursuant to a Maturity Date Extension, such amount will be due on the relevant date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

2.2 **Interest Payment Date Extension**

If "Interest Payment Date Extension" is specified in the applicable Final Terms as being "Applicable", each Interest Payment Date shall be the later of (i) the date specified as such Interest Payment Date in the applicable Final Terms (the "**Scheduled Interest Payment Date**") and (ii) the day falling the Number of Extension Business Days after (a) in the case of Single Share Linked Notes, the relevant Reference Date or Averaging Reference Date, as the case may be, or (b) in the case of Basket Share Linked Notes, the Basket Reference Date or Basket Averaging Reference Date, as the case may be, in respect of which the Rate of Interest is determined for such Interest Payment Date. If any amount is payable on an Interest Payment Date in respect of a Note to which Interest Payment Date Extension applies, and such Interest Payment Date is postponed pursuant to an Interest Payment Date Extension, such amount will be due on the Interest Payment Date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

3. **Adjustments**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(m)* as follows:

"(m) Adjustments, Consequences of Certain Events and Currency

(i) Adjustments

If the Calculation Agent determines that a Potential Adjustment Event has occurred or that there has been an adjustment to the settlement terms of listed contracts on the Share (in the case of Single Share Linked Notes) or any Basket Component (in the case of Basket Share Linked Notes) traded on a Related Exchange, the Calculation Agent will determine whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of the Share or the relevant Basket Component, as the case may be, and, if so, will:

(a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Reference Asset Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any of the terms and conditions of the Notes (including the amount of interest payable, if any) as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity); and

(b) determine the effective date(s) of the adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the Share or the relevant Basket Component, as the case may be, traded on that options exchange.

(ii) Consequences of a Merger Event

If the Calculation Agent determines that a Merger Event has occurred, the Issuer may:

(a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Merger Date less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions; and/or

(b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Merger Event (provided that no adjustments will be made to solely account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Share or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event by an options exchange to options on the Share or the relevant Basket Component, as the case may be, traded on such options exchange and determine the effective date of that adjustment; and/or

(c) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the "**Shares**", the relevant "**Basket Component**" and the "**Share Issuer**", respectively.

The Issuer shall give notice of such redemption, adjustment or deemed change to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(iii) Consequences of a Tender Offer

If the Calculation Agent determines that a Tender Offer has occurred, then on or after the relevant Tender Offer Date, the Issuer may:

(a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Tender Offer Date less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions; and/or

(b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Share or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the Share or the relevant Basket Component, as the case may be, traded on such options exchange and determine the effective date of that adjustment.

The Issuer shall give notice of such redemption or adjustment to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(iv) Nationalisation, Insolvency or De-listing

If in respect of the Share (in the case of Single Share Linked Notes) or any Basket Component (in the case of Basket Share Linked Notes) or the Share Issuer the Calculation Agent determines that there has been a

Nationalisation, an Insolvency or a De-listing, the Issuer may redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Nationalisation, Insolvency or De-listing less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement.

Notice of any redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(v) Change of Exchange

If the Exchange is changed, the Issuer may make such consequential modifications to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(vi) Price correction

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange within three Business Days (or such other Price Correction Period specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(vii) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency or the currency in which the Share (in the case of Single Share Linked Notes) or any Basket Component (in the case of Basket Share Linked Notes) are quoted, listed and/or dealt in on the Exchange (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Reference Asset Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Reference Asset Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to

the holders of the Notes of any such adjustment in accordance with Condition 8 (*Notices*) of the General Conditions.

(viii) Additional Disruption Events

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may:

(a) if the applicable Final Terms provide for the "Monetisation Option" to apply:

(I) make any adjustment or adjustments to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate (including, without limitation, to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Reference Asset Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and the amount of interest payable, if any), acting in good faith and in accordance with reasonable market practice with an aim of neutralising the distorting effects of such events; and/or without charging any costs (such as settlement costs) to the Noteholders to adjust the Terms and Conditions; and/or

(II) redeem each Note in accordance with Condition 7*(e)*(i) of the General Conditions;

(b) if the applicable Final Terms do not provide for the "Monetisation Option" to apply:

(I) make any adjustment or adjustments to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate (including, without limitation, to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value, the Final Reference Asset Value, the Average Reference Asset Value, the Max Reference Asset Value, the Strike Value, the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Reference Asset Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and the amount of interest payable, if any), as it deems necessary; and/or

(II) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the occurrence of such Additional Disruption Event, less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer (or any of its Affiliates) of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer (or any of its Affiliates) in respect of any such Hedging Arrangement.

Notice of any determination made pursuant to this paragraph and of any adjustment and/or redemption of the Notes shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(ix) Change in currency

If, at any time after the Issue Date, there is any change in the currency in which the Share (in the case of Single Share Linked Notes) or any Basket Component (in the case of Basket Share Linked Notes) are quoted,

listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Notes. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Notes.

(x) Performance Xrate Market Disruption Event

If "Flexo" is specified as "Applicable" in the applicable Final Terms and the Issuer determines that a Performance Xrate Market Disruption Event has occurred or is continuing on a Currency A Fixing (VD) Date, Currency B Fixing (VD) Date, Currency A Fixing (SD) Date and/or Currency B Fixing (SD) Date, the Calculation Agent shall determine the Currency A Fixing (VD), Currency B Fixing (VD), Currency A Fixing (SD) and/or Currency B Fixing (SD), as the case may be, as soon as reasonably practicable in its discretion."

4. **Automatic Early Redemption**

For the purposes of the Notes, if "Automatic Early Redemption" is specified as being applicable in the Final Terms, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(n)* as follows:

"(n) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date(t) or during any Automatic Early Redemption Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date(t) or (in the case of the occurrence of an Automatic Early Redemption Event during an Automatic Early Redemption Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount(t)."

5. **Delivery of Share Amount**

For the purposes of the Notes, if "Share Delivery" is specified as being applicable in the Final Terms, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(o)* as follows:

"(o) Delivery of Share Amounts:

(i) Delivery of Share Amounts

If the Notes are to be redeemed by the delivery of the Share Amounts, the Issuer shall, on the Share Delivery Date, deliver or procure the delivery of the Share Amount in respect of each Note to such account in such clearing system as may be specified by the relevant Noteholder, at the risk and expense of the relevant Noteholder. If a Noteholder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer to effect any required delivery of Shares, the due date for such delivery shall be postponed accordingly. The Issuer shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, "delivery" in relation to any Share Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Share Amount and "deliver" shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Share Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for

the lawfulness of the acquisition of the Shares comprising the Share Amount or any interest therein by any Noteholder or any other person.

In respect of each Share comprising the Share Amount, the Issuer shall not be under any obligation to register or procure the registration of the Noteholder or any other person as the registered shareholder in any register of members of the relevant Share Issuer.

Noteholders should note that the actual date on which they become holders of the Shares comprising their Share Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

The Issuer shall not at any time be obliged to account to a Noteholder for any amount or entitlement that it receives by way of a dividend or other distribution in respect of any of the Shares. Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may, however, result in an adjustment being made pursuant to Condition 7*(m)* (*Adjustments, Consequences of Certain Events and Currency*) of the General Conditions.

Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Shares, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Shares or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Shares in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of the Shares.

(ii) Settlement Disruption

If the Issuer determines that delivery of any Share Amount (or part thereof) in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Share Delivery Date in respect of such Share Amount (or part thereof) shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption Event is subsisting and notice thereof shall be given in accordance with Condition 8 (*Notices*) of the General Conditions, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering or procuring the delivery of such Share Amount (or part thereof) using such other commercially reasonable manner as it may select and in such event the Share Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Share Amount (or part thereof) in such other commercially reasonable manner. No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount which are not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date.

For so long as delivery of the Share Amount (or part thereof) in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions. Payment of the Disruption Cash Settlement Price will be

made in such manner as shall be notified to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions if a Settlement Disruption Event has occurred.

(iii) Aggregate Share Amount

The aggregate Share Amount to which a Noteholder may be entitled will be determined on the basis of the separate (for the avoidance of doubt, not aggregate) number of Notes held by the relevant Noteholder. The Issuer shall not be obliged to deliver fractions of a Share but shall be obliged to account for the Fractional Cash Amount of any such fractions to the relevant Noteholder on the Share Delivery Date and each such Share Amount to be delivered shall be rounded down to the next integral number of Shares."

6. **Prescription**

For the avoidance of doubt, Condition 10 (*Prescription*) of the General Conditions shall apply to the Notes and claims for delivery of any Share Amount in respect of the Notes shall become void upon the expiry of five years from the Share Delivery Date.

Reference Asset Annex: Share and Index Basket Linked Notes

This Reference Asset Annex shall apply if "Share and Index Basket Linked Notes" is specified as "Applicable" in the applicable Final Terms.

1. **Disrupted Days**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(l)* as follows:

"(l) Disrupted Days

(i) Consequences of Disrupted Days: Reference Dates

(a) Where the applicable Final Terms provide that "Common Scheduled Trading Days" shall be "Not Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Reference Asset(k), then:

(I) the Reference Date for each Reference Asset(k) in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Reference Asset(k); and

(II) the Reference Date for each Reference Asset(k) in respect of which the Scheduled Reference Date is a Disrupted Day (each an "**Affected Reference Asset(k)**") shall be the earlier of (A) the first Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (B) the Reference Cut-Off Date for such Affected Reference Asset(k).

(b) Where the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Reference Asset(k), then:

(I) the Reference Date for each Reference Asset(k) in respect of which the Scheduled Reference Date is not a Disrupted Day shall be the Scheduled Reference Date for such Reference Asset(k); and

(II) the Reference Date for each Reference Asset(k) in respect of which the Scheduled Reference Date is a Disrupted Day (each, an "**Affected Reference Asset(k)**") shall be the earlier of (A) the first succeeding Scheduled Trading Day following the relevant Scheduled Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (B) the Reference Cut-Off Date for such Affected Reference Asset(k) (notwithstanding that such day may not be a Common Scheduled Trading Day).

(c) Where the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Reference Date is a Disrupted Day in respect of any Reference Asset(k), then the Reference Date for each Reference Asset(k) shall be the earlier of (i) the first Common Scheduled Trading Day following the Scheduled Reference Date that is not a Disrupted Day for any Reference Asset(k) and (ii) the Reference Cut-Off Date (notwithstanding that such day may not be a Common Scheduled Trading Day).

(d) If, in respect of a Reference Asset(k), a Reference Date falls on the relevant Reference Cut-Off Date pursuant to General Conditions 7*(l)*(i)(a) to (c) above:

(I) if such Reference Cut-Off Date is not a Disrupted Day for the Reference Asset(k), the Calculation Agent shall determine the Level of the Reference Asset(k), at the Valuation Time on such Reference Cut-Off Date; and/or

(II) if such Reference Cut-Off Date is a Disrupted Day for any Reference Asset(k) that is a Share, the Calculation Agent shall determine the Price of such Share, at the Valuation Time on the Reference Cut-Off Date as its good faith estimate of the price of such Share that would have prevailed at the Valuation Time on the Reference Cut-Off Date; and/or

(III) if such Reference Cut-Off Date is a Disrupted Day for any Reference Asset(k) that is an Index, the Calculation Agent shall determine the Level of such Index, as the case may be, at the Valuation Time on the Reference Cut-Off Date in accordance with the formula for the method of calculating the Index Level of such Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the Reference Cut-Off Date of each security comprised in such Index (or if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Reference Cut-Off Date, its good faith estimate of the level value of the relevant security as of the Valuation Time on the Reference Cut-Off Date); and/or

(IV) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Early Redemption Amount, the Initial Reference Asset Value, the Final Reference Asset Value, the Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(d) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Reference Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

(ii) Consequences of Disrupted Days: Averaging Reference Dates

(a) Where the applicable Final Terms provide that "Common Scheduled Trading Days" shall be "Not Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Reference Asset(k), then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Reference Asset(k) in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Reference Asset(k) in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Reference Asset(k) in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each

such Reference Asset(k) an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k);

(II) if "**Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Reference Asset(k), an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(a)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Reference Asset(k) an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k), irrespective of whether the Averaging Reference Cut-Off Date falls on a day that is already deemed to be an Averaging Reference Date.

(b) Where the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Reference Asset(k), then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Reference Asset(k) in respect of such Reference Date, provided that, if through the operation of this provision there would not be any Averaging Reference Date in respect of such Reference Date, then:

(A) the sole Averaging Reference Date for each Reference Asset(k) in respect of which the final Scheduled Averaging Reference Date is not a Disrupted Day shall be the final Scheduled Averaging Reference Date; and

(B) the sole Averaging Reference Date for each Reference Asset(k) in respect of which the final Scheduled Averaging Reference Date is a Disrupted Day (each such Reference Asset(k) an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k) (notwithstanding the fact that such day may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Reference Asset(k) an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Scheduled Trading Day immediately following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k) (notwithstanding the fact that such day may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(b)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then:

(A) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is not a Disrupted Day shall be the Scheduled Averaging Reference Date; and

(B) the Averaging Reference Date for each Reference Asset(k) in respect of which the Scheduled Averaging Reference Date is a Disrupted Day (each such Reference Asset(k) an "**Affected Reference Asset(k)**") shall be the earlier of (I) the first Valid Date following the Scheduled Averaging Reference Date in respect of such Affected Reference Asset(k) and (II) the Averaging Reference Cut-Off Date for such Affected Reference Asset(k), irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(c) Where the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall both be "Applicable", if the Calculation Agent determines that any Scheduled Averaging Reference Date in respect of a Reference Date is a Disrupted Day in respect of any Reference Asset(k), then:

(I) if "**Omission**" is specified in the applicable Final Terms, such date shall be deemed not to be an Averaging Reference Date in respect of any Reference Asset(k) in respect of such Reference Date, provided that, if through the operation of this provision there would be no Averaging Reference Date in respect of such Reference Date, then the sole Averaging Reference Date for each Reference Asset(k) shall be the earlier of (A) the first Common Scheduled Trading Day following the final Scheduled Averaging Reference Date that is not a Disrupted Day for any Reference Asset(k) and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day);

(II) if "**Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date shall be the earlier of (A) the first Common Scheduled Trading Day following the Scheduled Averaging Reference Date that is not a Disrupted Day in respect of any Reference Asset(k) and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day). Any day (including, for the avoidance of doubt, the Averaging Reference Cut-Off Date) determined to be an Averaging Reference Date as a result of the operation of this General Condition 7*(l)*(ii)(c)(II)(B) shall be an Averaging Reference Date, irrespective of whether it falls on a day that already is or is deemed to be an Averaging Reference Date; or

(III) if "**Modified Postponement**" is specified in the applicable Final Terms, then the Averaging Reference Date for each Reference Asset(k) shall be the earlier of (A) the first Common Valid Date following the Scheduled Averaging Reference Date and (B) the Averaging Reference Cut-Off Date (notwithstanding the fact that such Averaging Reference Cut-Off Date may not be a Common Scheduled Trading Day), irrespective of whether the Averaging Reference Cut-Off Date falls on a day that already is or is deemed to be an Averaging Reference Date.

(d) If, in respect of any Reference Asset(k), an Averaging Reference Date falls on the relevant Averaging Reference Cut-Off Date pursuant to General Condition 7*(l)*(ii)(a) to (c) above:

(I) if such Averaging Reference Cut-Off Date is not a Disrupted Day for a Reference Asset(k), the Calculation Agent shall determine the Level of such Reference Asset(k), as the case may be, at the Valuation Time on such Averaging Reference Cut-Off Date; and/or

(II) if such Averaging Reference Cut-Off Date is a Disrupted Day for any Reference Asset(k) that is a Share, the Calculation Agent shall determine the Price of such Share, at the Valuation Time on the Averaging Reference Cut-Off Date as its good faith estimate of the price of such Share, that would have prevailed at the Valuation Time on the Averaging Reference Cut-Off Date; and/or

(III) if such Averaging Reference Cut-Off Date is a Disrupted Day for any Reference Asset(k) that is an Index, the Calculation Agent shall determine the Level of such Index, at the Valuation Time on the Averaging Reference Cut-Off Date in accordance with the formula for the method of calculating the Level of such Index, last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the Averaging Reference Cut-Off Date of each security comprised in such Index (or if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Averaging Reference Cut-Off Date, its

good faith estimate of the value of the relevant security as of the Valuation Time on the Averaging Reference Cut-Off Date); and/or

(IV) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Early Redemption Amount, the Initial Reference Asset Value, the Final Reference Asset Value, the Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(e) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Averaging Reference Date. Without limiting the obligation of the Calculation Agent to give notice to the Noteholders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Noteholders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day.

If the Final Terms specify both "Asian-in Averaging Dates" and "Asian-out Averaging Dates", then the provisions of this General Condition 7(l)*(ii)* (*Consequences of Disrupted Days: Averaging Reference Dates*) shall apply separately to the Asian-in Averaging Dates and the Asian-out Averaging Dates (so that references to "Averaging Reference Dates" shall be read and construed as references to "Asian-in Averaging Dates" or "Asian-out Averaging Dates", as the case may be)."

2. **Date Extensions**

2.1 **Maturity Date Extension**

If "Maturity Date Extension" is specified in the applicable Final Terms as being "Applicable", the Maturity Date shall be the later of (i) the date specified as the Maturity Date in the applicable Final Terms (the "**Scheduled Maturity Date**") and (ii) the day falling the Number of Extension Business Days after the final Basket Reference Date or final Basket Averaging Reference Date, as the case may be, in respect of which the Final Redemption Amount is determined. If any amount is payable on the redemption of a Note to which Maturity Date Extension applies, and the relevant Maturity Date is postponed pursuant to a Maturity Date Extension, such amount will be due on the relevant date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

2.2 **Interest Payment Date Extension**

If "Interest Payment Date Extension" is specified in the applicable Final Terms as being "Applicable", each Interest Payment Date shall be the later of (i) the date specified as such Interest Payment Date in the applicable Final Terms (the "**Scheduled Interest Payment Date**") and (ii) the day falling the Number of Extension Business Days after the Basket Reference Date or Basket Averaging Reference Date in respect of which the Rate of Interest is determined for such Interest Payment Date. If any amount is payable on an Interest Payment Date in respect of a Note to which Interest Payment Date Extension applies, and such Interest Payment Date is postponed pursuant to an Interest Payment Date Extension, such amount will be due on the Interest Payment Date as so postponed without any interest or other sum payable in respect of the postponement of the payment of such amount.

3. **Adjustments**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(m)* as follows:

"(m) Adjustments, Consequences of Certain Events and Currency

(i) Adjustments in respect of any Reference Asset(k) that is a Share

If the Calculation Agent determines that a Potential Adjustment Event has occurred in respect of an Reference Asset(k) that is a Share or that there has been an adjustment to the settlement terms of listed contracts on an Reference Asset(k) that is a Share traded on a Related Exchange, the Calculation Agent will determine whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of such Share, and, if so, will:

(a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any of the terms and conditions of the Notes (including the amount of interest payable, if any) as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity); and

(b) determine the effective date(s) of the adjustment(s).

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on a Share traded on that options exchange.

(ii) Adjustments in respect of any Reference Asset(k) that is an Index

If the Calculation Agent determines that, in respect of an Reference Asset(k) that is an Index, an Additional Disruption Event, an Index Modification, Index Cancellation or Index Disruption or any other event or events occur which the Calculation Agent determines necessitate(s) an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable), the Strike Value, any Index Level and/or any other relevant term of the Notes (including the amount of interest payable, if any) (each such other event, a "**Relevant Event**", the Issuer, at its discretion, may:

(a) make any adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary; and/or

(b) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the occurrence of such Additional Disruption Event, Index Modification, Index Cancellation, Index Disruption or Relevant Event, as applicable, less, unless specified otherwise in the Final Terms, the cost to the Issuer (or any of its Affiliates) of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer (or any of its Affiliates) in respect of any such Hedging Arrangement.

Notice of any determination pursuant to this General Condition 7*(m)*(ii) (*Adjustments in respect of any Reference Asset(k) that is an Index*), any such adjustment and/or any redemption of the Notes hereunder shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(iii) Consequences of a Merger Event in respect of any Reference Asset(k) that is a Share

If the Calculation Agent determines that a Merger Event has occurred in respect of any Reference Asset(k) that is a Share, the Issuer may:

(a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Merger Date less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions; and/or

(b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Merger Event (provided that no adjustments will be made to solely account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Share or to the Notes); and/or

(c) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the "**Shares**", the relevant "**Reference Asset(k)**" and the "**Share Issuer**", respectively.

The Issuer shall give notice of such redemption, adjustment or deemed change to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(iv) Consequences of a Tender Offer in respect of any Reference Asset(k) that is a Share

If the Calculation Agent determines that a Tender Offer has occurred in respect of any Reference Asset(k) that is a Share, then on or after the relevant Tender Offer Date, the Issuer may:

(a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Tender Offer Date less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions; and/or

(b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Share or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the relevant Share, as the case may be, traded on such options exchange and determine the effective date of that adjustment.

The Issuer shall give notice of such redemption or adjustment to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(v) Nationalisation, Insolvency or De-listing in respect of any Reference Asset(k) that is a Share

If in respect of any Reference Asset(k) that is a Share, the Calculation Agent determines that there has been a Nationalisation, an Insolvency or a De-listing in respect of the Share or the Share Issuer, the Issuer may

redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Nationalisation, Insolvency or De-listing less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement.

Notice of any redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(vi) Change of Exchange

If the Exchange is changed in respect of any Reference Asset(k), the Issuer may make such consequential modifications to Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(vii) Level correction

In the event that any price or level published on any relevant Exchange or by any relevant Index Sponsor in respect of any Reference Asset(k) that is an Index and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange or the relevant Index Sponsor within three Business Days (or such other Level Correction Period specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(viii) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency or, in respect of any Reference Asset(k) that is a Share, the currency in which such Share is quoted, listed and/or dealt in on the Exchange (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 8 (*Notices*) of the General Conditions.

(ix) Additional Disruption Events in respect of any Reference Asset(k) that is a Share

If the Calculation Agent determines that an Additional Disruption Event has occurred in respect of any Reference Asset(k) that is a Share, the Issuer may:

(a) make any adjustment or adjustments to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate (including, without limitation, to the Final Redemption Amount, the Automatic Early Redemption Amount(t), the Initial Reference Asset Value(k), the Final Reference Asset Value(k), the Average Reference Asset Value(k), the Max Reference Asset Value(k), the Strike Value(k), the Basket Initial Value, the Basket Final Value, the Average Basket Performance, the Max Basket Performance, the Basket Strike Value and the amount of interest payable, if any); and/or

(b) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Additional Disruption Event less, unless "Unwind Costs" are specified as being "Not Applicable" in the applicable Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement.

Notice of any determination made pursuant to this paragraph and of any adjustment and/or redemption of the Notes shall be given to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions.

(x) Change in currency in respect of any Reference Asset(k) that is a Share

If, at any time after the Issue Date, there is any change in the currency in which any Reference Asset(k) that is a Share is quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Notes. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Notes.

(xi) Performance XRate Market Disruption Event

If "Flexo" is specified as "Applicable" in the applicable Final Terms and the Issuer determines that a Performance XRate Market Disruption Event has occurred or is continuing on a Currency A Fixing (VD) Date, Currency B Fixing (VD) Date, Currency A Fixing (SD) Date and/or Currency B Fixing (SD) Date, the Calculation Agent shall determine the Currency A Fixing (VD), Currency B Fixing (VD), Currency A Fixing (SD) and/or Currency B Fixing (SD), as the case may be, as soon as reasonably practicable in its discretion."

4. **Automatic Early Redemption**

For the purposes of the Notes, if "Automatic Early Redemption" is specified as being applicable in the Final Terms, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(n)* as follows:

"(n) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date(t) or during any Automatic Early Redemption Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date(t) or (in the case of the occurrence of an Automatic Early Redemption Event during an Automatic Early Redemption Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any

such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount(t)."

5. **Index Disclaimer**

The Notes are not sponsored, endorsed, sold or promoted by any of the Indices or any of the Index Sponsors and none of the Index Sponsors has made any representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the relevant Index and/or the levels at which any such Index stands at any particular time on any particular date or otherwise. 6. **Prescription**

For the avoidance of doubt, Condition 10 (*Prescription*) of the General Conditions shall apply to the Notes.

Reference Asset Annex: Fund Linked Notes

This Reference Asset Annex shall apply if "Fund Linked Notes" is specified as "Applicable" in the applicable Final Terms.

1. **Interest – Annualised Performance Interest**

(a) ***Rate of Interest***

If the Final Terms specify that 'Annualised Performance Interest Note Provisions' are applicable, then the Rate of Interest in respect of each Interest Period(t) ending on, but excluding, an Interest Payment Date ("**Interest Payment Date(t)**") shall be the relevant Rate of Interest (the "**Rate of Interest(t)**"), calculated in accordance with the following formula:

Max (Coupon Floor; Min (Coupon Reference Asset Cap, Coupon Participation * Annualised Performance(t)))

(b) ***Definitions***

The following definitions shall apply for the purpose of these Interest – Annualised Performance Interest provisions only. In the case of any inconsistency between the following definitions and the Definitions, the following definitions will prevail for the purpose of these Interest – Annualised Performance Interest provisions only.

"**Annualised Performance(t)**" means:

(i) if the Notes reference a single Fund:

$$\frac{1}{t} * \left[\frac{\text{Observation Fund Price(t)-Strike Price}}{\text{Initial Reference Asset Value}}\right] \times 100\%$$

(ii) if the Notes reference a Basket Portfolio:

$$\frac{1}{t} * \left[\frac{\text{Basket Observation Price(t)-Basket Strike Price}}{\text{Basket Initial Value}}\right] \text{x}100\%$$

"**Basket Observation Price(t)**" means the Basket Value on the relevant Coupon Observation Date(t) divided by the Number of Basket Portfolio Interests;

"**Basket Strike Price**" means, in respect of a Basket Portfolio, the Basket Portfolio Interest Price on the Strike Date as determined by the Calculation Agent;

"**Coupon Reference Asset Cap**" means the value specified as such in the applicable Final Terms;

"**Coupon Reference Asset Floor**" means the value specified as such in the applicable Final Terms;

"**Coupon Observation Date**" means each date specified as a Coupon Observation Date(t) in the applicable Final Terms, subject to any adjustment pursuant to Condition 7*(l)* (*Disrupted Days*) or, as the case may be, Condition 7*(p)* (*Basket Portfolio Disruption*) of the General Conditions, and provided that:

(i) in the case where the Notes either (a) reference a single Fund or (b) reference a Basket Portfolio and the applicable Final Terms provide that "Common Fund Business Days" shall be "Not Applicable", if any such date is not a Fund Business Day, the Coupon Observation Date shall be the immediately following Fund Business Day for such Basket Component; or

(ii) in the case where the applicable Final Terms provide that "Common Fund Business Days" shall be "Applicable", if any such date is not a Common Fund Business Day, the Coupon Observation Date shall be the immediately following Common Fund Business Day;

"**Coupon Observation Date(t)**" means, in respect of any Interest Payment Date(t) specified under the **heading** "Coupon Observation Date Schedule" in the table in the applicable Final Terms, the date specified under the heading "Coupon Observation Date(t)" in such table adjacent to the relevant Interest Payment Date(t);

"**Coupon Participation**" means the value specified as such in the applicable Final Terms;

"**Observation Fund Price(t)**" means, in respect of the Fund and an Interest Payment Date(t), the Fund **Interest** Price of the Fund on the relevant Coupon Observation Date(t);

"**t**" is an **ascending** series of unique positive integers starting from and including 1 (one) up to and including T, each denoting one Interest Payment Date in chronological order; and

"**T**" is the total number of Interest Payment Dates.

2. **Early Redemption**

Notwithstanding Conditions 7*(e)* (*Early Redemption Amounts*), 7*(i)* (*Redemption by Instalments*) and 11 (*Events of Default relating to Notes*) of the General Conditions, if (a) the Calculation Agent determines that an Early Redemption Event has occurred or is continuing, the Calculation Agent shall forthwith give notice as soon as reasonably practicable to the Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions, and each Note shall fall due for redemption on the Early Redemption Date at its Early Redemption Amount, or (b) for the purposes of Condition 11 (*Events of Default relating to Notes*) of the General Conditions, an Event of Default occurs and is continuing and a Note held by a Noteholder is declared to be due and payable, the same shall become due and payable on the Early Redemption Date at its Early Redemption Amount.

In the case of Notes that reference a single Fund, if the Calculation Agent determines that the Early Redemption Receipt Date falls on or after the Latest Permissible Receipt Date, then the Issuer may postpone the payment of the Early Redemption Amount to the date that is that number of Business Days equal to the Settlement Period following the earlier of the Early Redemption Receipt Date and the Long Stop Date (the "**Final Early Redemption Date**"). For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment from the Early Redemption Date to the Final Early Redemption Date. If the Calculation Agent determines that the Early Redemption Receipt Date falls on or after the Long Stop Date, the Notes shall be redeemed at zero or such other amount as the Issuer determines in its discretion.

In the case of Notes that reference a Basket Portfolio, if the Early Redemption Receipt Date of one or more of the Funds comprising the Basket Portfolio falls on or after the Latest Permissible Receipt Date (each such Fund being a "**Delayed Early Redemption Fund**"), then the Issuer may postpone payment of the Early Redemption Amount to the date that is that number of Business Days equal to the Settlement Period following the earlier of the Early Redemption Receipt Date in respect of the final Delayed Early Redemption Fund and the Long Stop Date (the "**Final Early Redemption Basket Payment Date**"). For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment from the Early Redemption Date to the Final Early Redemption Basket Payment Date. If the Calculation Agent determines that the Final Early Redemption Basket Payment Date would fall on or after the Long Stop Date, the Notes shall be redeemed at such amount as the Issuer determines in its discretion.

Any notice to Noteholders in respect of such a payment shall specify the expected date of that payment, which date shall be confirmed by the Issuer in a later separate notice to Noteholders.

3. **Disrupted Days**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(l)* as follows:

"(l) Disrupted Days

If the Calculation Agent determines that, subject as provided below, any Calculation Date on which a Fund Interest Price is to be determined is a Disrupted Day, then such Calculation Date shall be the first succeeding Fund Business Day that is not a Disrupted Day, unless each of the Fund Business Days falling in the Disrupted Period is a Disrupted Day. In that case:

(a) that final Fund Business Day of the Disrupted Period shall be deemed to be such Calculation Date in respect of the related Fund Interests, notwithstanding the fact that such day is a Disrupted Day; and

(b) the Calculation Agent shall determine the Fund Interest Price as its good faith estimate of the Fund Interest Price that would have prevailed, but for the occurrence of a Disrupted Day, on that final Fund Business Day of the Disrupted Period.

If the Calculation Agent determines that any Averaging Reference Date is a Disrupted Day, then if in the Final Terms under Averaging Reference Date Disruption the consequence specified is:

(i) "Omission", then such Averaging Reference Date shall be deemed not to be an Averaging Reference Date. If through the operation of this provision no Averaging Reference Date would occur, then the provisions above will apply for the purposes of determining the relevant Fund Interest Price for the final Averaging Reference Date as if such final Averaging Reference Date were a Disrupted Day;

(ii) "Postponement", then the provisions above will apply for the purposes of determining the relevant Fund Interest Price for that Averaging Reference Date as if such Averaging Reference Date were a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Reference Date would fall on a date that already is or is deemed to be an Averaging Reference Date; or

(iii) "Modified Postponement", then the relevant Averaging Reference Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the final Fund Business Day of the Cut-off Period for that original date that, but for the occurrence of another Averaging Reference Date or Disrupted Day, would have been the final Averaging Reference Date then (A) that final Fund Business Day of the Cut-off Period shall be deemed to be the relevant Averaging Reference Date (irrespective of whether such day is already an Averaging Reference Date), and (B) the Calculation Agent shall determine the relevant Fund Interest Price for that Averaging Reference Date with its good faith estimate of the Fund Interest Price that would have prevailed, but for the occurrence of a Disrupted Day, on that deemed Averaging Reference Date.

Notwithstanding the provisions of the General Conditions, as amended, if the Calculation Agent determines that the Calculation Determination Date for any payment falls after the Latest Permissible Determination Date, such payment shall be postponed to the date that is the number of Business Days equal to the Settlement Period, following the Calculation Determination Date. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment.

The Issuer shall give notice to the holders of the Notes, in accordance with Condition 8 (*Notices*) of the General Conditions, of any delay that results in the postponement of any payment in respect of the Notes."

4. **Adjustments**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(m)* as follows:

"(m) Adjustments, Consequences of Certain Events and Currency

If the Calculation Agent determines that, in respect of a Fund, a Corporate Event has occurred or is continuing, the Calculation Agent will (a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount, the Early Redemption Amount (if any), the Rate of Interest and/or any of the terms and conditions of the Notes as the Calculation Agent determines appropriate to account for the dilutive or concentrative effect on the value of Fund Interests and (b) determine the effective date(s) of the adjustment(s). The Issuer shall give notice of such adjustment to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions. For the avoidance of doubt, if Corporate Event is also specified as a Substitution Event in the applicable Final Terms, the provisions of Condition 5 (*Inclusion Conditions and Substitution Events*) of the Reference Asset Annex: Fund Linked Notes shall prevail."

5. **Inclusion Conditions and Substitution Events**

If at any time the Calculation Agent determines that an applicable Substitution Event has occurred or is continuing with respect to a Fund, the Calculation Agent may:

(i) waive such Substitution Event; or

(ii) as soon as is practicable after such determination, replace such Fund for the purposes of the Notes with an appropriate alternative fund (a "**Replacement Fund**"), as determined by the Calculation Agent and following any such replacement, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such replacement; or

(iii) determine that the Notes shall become due for redemption in accordance with Condition 2 (*Early Redemption*) of this Reference Asset Annex: Fund Linked Notes; or

(iv) determine that the effect of the Substitution Event can be compensated by an adjustment to the terms and conditions of the Notes and following any such determination, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such compensation.

6. **Basket Portfolio**

If Basket Portfolio is specified as applicable in the applicable Final Terms, the Issuer will establish and maintain a notional basket portfolio (the "**Basket Portfolio**") in respect of the Notes that shall comprise a notional investment in a basket of funds. The Basket Portfolio will be notionally subdivided into interests (each a "**Basket Portfolio Interest**"). The value from time to time of a Basket Portfolio Interest (the "**Basket Portfolio Interest Price**") will be equal to the Basket Value divided by the Number of Basket Portfolio Interests. The value of the Basket Portfolio (the "**Basket Value**") shall initially equal the Initial Basket Value and subsequently shall equal the sum of the Fund Values. The Initial Number of Basket Portfolio Interests equals the Aggregate Nominal Amount of the Notes divided by the Specified Denomination or the number specified as such in the applicable Final Terms. On each occasion on which there is a notional redemption or subscription of Basket Portfolio Interests, the Number of Basket Portfolio Interests will be increased (in the case of a subscription) or decreased (in the case of a redemption) by the amount of such subscription or

redemption divided by the Basket Portfolio Interest Price. Basket Portfolio Interests may only be notionally redeemed or subscribed on a Basket Business Day.

The Funds included in the Basket Portfolio and the Weighting(k) of each Fund as of the Strike Date (the "**Initial Weighting(k)**") will be set out in the applicable Final Terms. The "Initial Number of Fund Interests" for each Fund will be determined in accordance with the following formula:

Initial Basket Value x Initial Weighting(k) / Fund Interest Price at which the relevant Fund Interest is notionally purchased on the Strike Date.

The Number of Fund Interests will change over time (i) on the notional redemption or subscription of Basket Portfolio Interests or (ii) on a Weight Rebalancing, including following a Substitution Event, as set out below. If any notional redemption or subscription of Basket Portfolio Interests does not fall on a Weight Rebalancing Date, the Issuer shall notionally redeem or subscribe, as the case may be, a *pro rata* number of each Fund's Fund Interests in the Basket Portfolio equal to the proportion of Basket Portfolio Interests redeemed or subscribed. Otherwise, the redemption or subscription of Fund Interests shall be effected in accordance with the Weight Rebalancing provisions in Condition 6 (*Basket Portfolio*) of this Reference Asset Annex: Fund Linked Notes set out below such that the number of Fund Interests redeemed or subscribed in each Fund shall be such number that will result in the Fund having the Weighting(k) required by the Weight Rebalancing provisions in Condition 6 (*Basket Portfolio*) of this Reference Asset Annex: Fund Linked Notes.

6.1 **Weight Rebalancing**

The Weighting(k) of each Fund in a Basket Portfolio may be adjusted on each Weight Rebalancing Date in accordance with the following provisions (such adjustment, a "**Weight Rebalancing**"), provided that the sum of the Weighting(k) of all the Funds in the Basket Portfolio shall always be 100% and each rebalancing shall involve a notional subscription of Fund Interests (where the weight of a Fund is to increase) or redemption of Fund Interests (where the weight of a Fund is to decrease) in each Fund the Weighting(k) of which is to be rebalanced such that the Basket Value is not affected by the rebalancing (although it may be affected by changes in individual Fund Interest Prices that occur during the rebalancing).

(i) **No Weight Rebalancing**: If "No Weight Rebalancing" is specified as applicable in the relevant Final Terms, Weight Rebalancing will not be applicable.

(ii) **Standard Weight Rebalancing**: If "Standard Weight Rebalancing" is specified as applicable in the relevant Final Terms, the Weighting(k) of each Fund within the Basket Portfolio on a Weight Rebalancing Date shall be adjusted so that it equals the Weighting(k) of such Fund on the Weight Rebalancing Date immediately prior to the Weight Rebalancing Date after the application of the relevant Weight Rebalancing provisions as of such prior Weight Rebalancing Date. Where no Weight Rebalancing Date has occurred prior to the Weight Rebalancing Date or if Standard Weight Rebalancing is the only applicable Weight Rebalancing provision during the term of the Notes, the Weighting(k) of each Fund within the Basket Portfolio on the Weight Rebalancing Date shall be adjusted so that it equals its Initial Weighting(k).

(iii) **Active Weight Rebalancing**: If "Active Weight Rebalancing" is specified as applicable in the relevant Final Terms, a third party, which, for the avoidance of doubt, shall not be acting as an agent for the Issuer, the Calculation Agent or any of their affiliates and will not hold itself out as an agent for the Issuer, the Calculation Agent or any of their affiliates, as designated in the relevant Final Terms ("**Active Weight Rebalancing Entity**") may, on providing the Calculation Agent with such number of clear Business Days written notice prior to the Weight Rebalancing Date as is specified in the Final Terms ("**Active Weight Rebalancing Written Notice**"), adjust the Weighting(k)

applying to each Fund in the Basket Portfolio on a Weight Rebalancing Date, provided that immediately following such Active Weight Rebalancing the composition of the Basket Portfolio complies with the Investment Restrictions. If no Active Weight Rebalancing Written Notice has been received by the Calculation Agent prior to a Weight Rebalancing Date or if an Active Weight Rebalancing Written Notice does not comply with the Investment Restrictions, No Weight Rebalancing will apply.

(iv) **Standard Weight Rebalancing subject to Thresholds**: If "Standard Weight Rebalancing subject to Thresholds" is specified as applicable in the relevant Final Terms and the difference between the Weighting(k) of any Fund on a Weight Rebalancing Date and the Weighting(k) of such Fund on the previous Weight Rebalancing Date on which there was a rebalancing is more than the Threshold specified in the applicable Final Terms, the Weighting(k) of each Fund within the Basket Portfolio on that Weight Rebalancing Date shall be adjusted so that it equals the Weighting(k) of such Fund on the most recent Weight Rebalancing Date prior to the Weight Rebalancing Date on which there was a rebalancing after the application of the relevant Weight Rebalancing provisions as of such prior Weight Rebalancing Date. Where no Weight Rebalancing Date has occurred prior to the Weight Rebalancing Date or if Standard Weight Rebalancing is the only applicable Weight Rebalancing provision during the term of the Notes, the Weighting(k) of each Fund within the Basket Portfolio on the Weight Rebalancing Date shall be adjusted (subject to the threshold) so that it equals its Initial Weighting(k).

6.2 **Basket Portfolio Substitution Events**

If the Calculation Agent determines that a Substitution Event has occurred in relation to a Fund in the Basket Portfolio at such time (the "**Original Fund**") then the Calculation Agent may:

(i) waive such Substitution Event; or

(ii) remove such Fund from the Basket Portfolio with effect as soon as reasonably practicable and, as soon as reasonably practicable following the removal of such Fund, either:

(a) substitute such Fund with an alternative fund specified in the relevant Final Terms (a "**Basket Replacement Fund**") having the same weight as the Original Fund or more than one Basket Replacement Fund having individual weights selected by the Calculation Agent and an aggregate weight equal to the Original Fund; or

(b) if no Basket Replacement Fund is specified in the relevant Final Terms or otherwise available or if a Substitution Event has occurred in relation to each of the Basket Replacement Funds, adjust the Weighting(k) of the remaining Funds in the Basket Portfolio;

and following any such replacement or weight adjustment, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such replacement or weight adjustment; or

(iii) determine that the Notes shall become due for redemption in accordance with Condition 2 (*Early Redemption*) of this Reference Asset Annex: Fund Linked Notes.; or

(iv) determine that the effect of the Substitution Event can be compensated by an adjustment to the terms and conditions of the Notes and following any such determination, the Calculation Agent may make any adjustments to the terms and conditions of the Notes as it deems appropriate to reflect such compensation.

As of such date of replacement of the Original Fund with one or more Basket Replacement Funds, the Basket Replacement Fund (or where more than one Basket Replacement Fund is used, the Basket Replacement Funds together) will be deemed to be the Original Fund for the purposes of this Condition 6.2 (*Basket Portfolio Substitution Events*) of this Reference Asset Annex: Fund Linked Notes.

For the avoidance of doubt, the Issuer or the Calculation Agent are under no obligation to monitor whether or not a Substitution Event has occurred in respect of any Fund. Neither the Issuer nor the Calculation Agent shall be liable to any Noteholder for losses resulting from (i) any determination that the Substitution Event has occurred or has not occurred in relation to a Fund, (ii) the timing relating to the determination that a Substitution Event has occurred in relation to a Fund or (iii) any actions taken or not taken by the Issuer as a result of such determination that a Substitution Event has occurred.

6.3 **Basket Portfolio Adjustments**

For the purposes of the Notes, Condition 7 (*Redemption and* Purchase) of the General Conditions shall be amended by the addition of a new General Condition 7*(q)* as follows:

"*(q) Basket Portfolio Adjustments*

If the Calculation Agent determines that, in respect of a Fund in the Basket Portfolio, a Corporate Event has occurred or is continuing, the Calculation Agent will (a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount, the Early Redemption Amount (if any), the Rate of Interest and/or any other provision as the Calculation Agent determines appropriate to account for the dilutive or concentrative effect on the value of the relevant Fund Interests and (b) determine the effective date(s) of the adjustment(s). The Issuer shall give notice of such adjustment to Noteholders in accordance with Condition 8 (*Notices*) of the General Conditions. For the avoidance of doubt, if Corporate Event is also specified as a Substitution Event in the Final Terms, the provisions of Condition 6.2 (*Basket Portfolio Substitution Events*) of this Reference Asset Annex: Fund Linked Notes shall prevail."

6.4 **Basket Portfolio Disrupted Days**

For the purposes of the Notes, Condition 7 (*Redemption and Purchase*) of the General Conditions shall be amended by the addition of a new General Condition 7*(p)* as follows:

"*(p) Basket Portfolio Disruption*

If the Calculation Agent determines that, subject as provided below, any Calculation Date in respect of any Fund Interest in the Basket Portfolio is a Disrupted Day (each an "**Affected Fund Interest**"), then:

(i) if "Affected Fund Disruption" is specified in the relevant Final Terms, the relevant Calculation Date in respect of the Affected Fund Interest only shall be the first succeeding relevant Fund Business Day that is not a Disrupted Day, unless each of the relevant Fund Business Days falling in the Disrupted Period is a Disrupted Day. In that case (a) the final Fund Business Day of the Disrupted Period shall be deemed to be the relevant Calculation Date in respect of the Affected Fund Interest, notwithstanding the fact that such day is a Disrupted Day and (b) the Calculation Agent shall determine the Fund Interest Price of the Affected Fund Interest as its good faith estimate of the Fund Interest Price of the Affected Fund Interest that would have prevailed, but for the occurrence of a Disrupted Day, on that final Fund Business Day of the Disrupted Period (the "**Affected Fund Calculation Date**"). The related Basket Value shall be determined on the Affected Fund Calculation Date and the Fund Values for all Fund Interests that are not Affected Fund Interests shall be determined on the relevant scheduled Calculation Date.

If the Calculation Agent determines that any Averaging Reference Date is a Disrupted Day and Affected Fund Disruption is specified, then if in the Final Terms under Basket Averaging Reference Date Disruption the consequence specified is:

(A) "Affected Fund Omission", then such Averaging Reference Date shall be deemed not to be an Averaging Reference Date, in relation to the Affected Fund only. If through the operation of this provision no Averaging Reference Date would occur in relation to such Affected Fund, then the provisions above will apply for the purposes of determining the relevant Fund Interest Price for the final Averaging Reference Date as if such final Averaging Reference Date were a Disrupted Day;

(B) "Affected Fund Postponement", then the provisions above will apply for the purposes of determining the relevant Fund Interest Price of the relevant Affected Fund Interest only for that Averaging Reference Date, as if such Averaging Reference Date were a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Reference Date would fall on a date that already is or is deemed to be an Averaging Reference Date; or

(C) "Affected Fund Modified Postponement", then the relevant Averaging Reference Date for the relevant Affected Fund Interest only shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the final Fund Business Day of the Cut-off Period for that original date that, but for the occurrence of another Averaging Reference Date or Disrupted Day, would have been the final Averaging Reference Date then (A) that final Fund Business Day of the Cut-off Period shall be deemed to be the relevant Averaging Reference Date (irrespective of whether such day is already an Averaging Reference Date), and (B) the Calculation Agent shall determine the relevant Fund Interest Price of the relevant Affected Fund for that Averaging Reference Date with its good faith estimate of the Fund Interest Price that would have prevailed.

(ii) if "Basket Disruption" is specified in the relevant Final Terms, the relevant Calculation Date for all Fund Interests in the Basket Portfolio shall be the first succeeding Basket Business Day that is not a Disrupted Day, unless each of the Basket Business Days falling in the Disrupted Period is a Disrupted Day. In that case (a) that final Basket Business Day of the Disrupted Period shall be deemed to be the relevant Calculation Date in respect of all Fund Interests in the Basket Portfolio and (b) the Calculation Agent shall determine the Fund Interest Price of each Affected Fund Interest as its good faith estimate of the relevant Fund Interest Price of each Affected Fund Interest that would have prevailed, but for the occurrence of a Disrupted Day, on that final Basket Business Day of the Disrupted Period.

If the Calculation Agent determines that any Averaging Reference Date is a Disrupted Day and Basket Disruption is specified, then if in the Final Terms under Basket Averaging Reference Date Disruption the consequence specified is:

(A) "Basket Omission", then such Averaging Reference Date shall be deemed not to be an Averaging Reference Date, in relation to the Basket Portfolio, for the purposes of determining the Basket Portfolio Interest Price. If through the operation of this provision no Averaging Reference Date would occur in relation to the Basket Portfolio, then the provisions above will apply for the purposes of determining each Fund Interest Price for the final Averaging Reference Date as if such final Averaging Reference Date were a Disrupted Day;

(B) "Basket Postponement", then the provisions above will apply for the purposes of determining the Fund Interest Price of each Fund in the Basket Portfolio for that Averaging Reference Date as if such Averaging Reference Date were a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Reference Date would fall on a date that already is or is deemed to be an Averaging Reference Date; or

(C) "Basket Modified Postponement", then the relevant Averaging Reference Date for each Fund Interest in the Basket Portfolio shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the final Basket Business Day of the Cut-off Period for that original date that, but for the occurrence of another Averaging Reference Date or Disrupted Day, would have been the final Averaging Reference Date then (A) that final Basket Business Day of the Cut-off Period shall be deemed to be the relevant Averaging Reference Date (irrespective of whether such day is already an Averaging Reference Date), and (B) the Calculation Agent shall determine the relevant Fund Interest Price of each Fund in the Basket Portfolio for that Averaging Reference Date with its good faith estimate of each Fund Interest Price that would have prevailed.

For the purposes of this paragraph (ii) only, all references in the definitions of Cut-off Period, Disruption Period and Valid Date to Fund Business Day shall be construed to be references to Basket Business Day.

(iii) If "Affected Fund Estimate" is specified in the relevant Final Terms, the Calculation Agent shall determine the price of one relevant Affected Fund Interest as its good faith estimate of the price of one relevant Affected Fund Interest that would have prevailed, but for the occurrence of a Disrupted Day, on the relevant scheduled Calculation Date.

4. **Exercise Rights**

(A) *Exercise Period*

American Style Warrants are exercisable on any Business Day during the Exercise Period. Bermudian Style Warrants are only exercisable on Potential Exercise Dates during the Exercise Period.

Any Warrant with respect to which no Exercise Notice (as defined below) has been delivered in the manner set out in Condition 5, at or prior to 10.00 a.m., Luxembourg or Brussels time, as the case may be, on the Expiration Date, shall become void.

The Business Day or Potential Exercise Date, as the case may be, during the Exercise Period on which an Exercise Notice is delivered prior to 10.00 a.m. CET (or such other time as may be specified in the Final Terms) to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the Final Terms, as the case may be, a copy of which is received by the Warrant Agent, is referred to herein as the "Actual Exercise Date". If

any Exercise Notice is received by Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the Final Terms, as the case may be, or if the copy thereof is received by the Warrant Agent, in each case, after 10.00 a.m. CET (or such other time as may be specified in the Final Terms) on any Business Day or Potential Exercise Date, as the case may be, during the Exercise Period, such Exercise Notice will (i) in the case of American Style Warrants, be deemed to have been delivered on the next Business Day, which Business Day shall be deemed to be the Actual Exercise Date, or (ii) in the case of Bermudian Style Warrants, be deemed to be void.

(B) *Delivery of Entitlement*

(i) Exercise Rights

Each Warrant entitles its holder, upon due exercise and subject to certification as to non-U.S. beneficial ownership, to receive from the Issuer on the Settlement Date the Entitlement by the Method of Delivery, subject to payment of the relevant Exercise Price and any Exercise Expenses or other sums payable.

Warrants exercised at the same time by the same Warrantholder will be aggregated for the purpose of determining the aggregate Entitlement in respect of such Warrants, provided that the aggregate Entitlement in respect of the same Warrantholder will be rounded down to the nearest transferable amount of the Fund Interests, in such manner as the Calculation Agent shall determine. Therefore, fractions of each of the Fund Interests, will not be delivered and no cash adjustment will be made in respect thereof.

(ii) Settlement Disruption

If, following the exercise of the Warrants, in the opinion of the Calculation Agent, delivery of the Entitlement using the Method of Delivery is not practicable by reason of a Settlement Disruption Event having occurred and continuing on any Settlement Date, then such Settlement Date for such Warrants shall be postponed to the first following Settlement Business Day, provided that the Issuer may elect in its discretion to satisfy its obligations in respect of the relevant Warrant by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Fund Interests comprising the Entitlement, the Settlement Date for the Fund Interests not affected by the Settlement Disruption Event (the "**Unaffected Fund Interests**") will be the originally designated Settlement Date. In the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of only Unaffected Fund Interests, the Calculation Agent shall determine the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Warrantholder in respect of that partial settlement. For so long as delivery of all or some only of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its discretion to satisfy its obligations in respect of the relevant Warrant by payment to the relevant Warrantholder of the Disruption Cash Settlement Price on the fifth Business Day following the date that notice of such election is given to the Warrantholders in accordance with Condition 10. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10. The Calculation Agent shall give notice as soon as practicable to the Warrantholders in accordance with Condition 10 that a Settlement Disruption Event has occurred. No Warrantholder shall be entitled to any payment in respect of the relevant Warrant in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

(C) *General*

The Calculation Agent shall give notice to the holders of the Warrants, in accordance with Condition 10, of the occurrence of a Disrupted Day if it results in the postponement of any delivery in respect of the Warrants.

The purchase of Warrants does not confer on any holder of such Warrants any rights (whether in respect of voting, distributions or otherwise) attaching to any of the Fund Interests.

All references in this Condition 4 to "CET" shall, where Warrants are cleared through an additional or alternative clearing system, be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

5. **Exercise Procedure**

(A) *Exercise Notice*

Warrants may only be exercised by the delivery, or the sending by tested telex (confirmed in writing), of an Exercise Notice (copies of which form may be obtained from Clearstream, Luxembourg, Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms and the Warrant Agents during normal office hours) to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, with a copy to the Principal Warrant Agent in accordance with the provisions set out in Condition 4 and this Condition 5.

The Exercise Notice shall:

(i) specify the series number of the Warrants and the number of Warrants being exercised;

(ii) in the case of Bermudian Style Warrants, specify the Potential Exercise Date in respect of which the Exercise Notice is given;

(iii) specify the number of the Warrantholder's account at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to be debited with the Warrants being exercised;

(iv) irrevocably instruct Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to debit on or before the Settlement Date the Warrantholder's account with the Warrants being exercised;

(v) irrevocably instruct Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to debit on the Actual Exercise Date a specified account of the Warrantholder with Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, with the aggregate Exercise Price in respect of such Warrants (together with any other amounts payable);

(vi) include an undertaking to pay all Exercise Expenses and an authority to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms to debit a specified account of the Warrantholder at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in respect thereof and to pay such Exercise Expenses;

(vii) include such details as are required for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and the number of the Warrantholder's account with Euroclear or Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to be credited with any cash payable by the Issuer, either in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event and the Issuer electing to pay the Disruption Cash Settlement Price;

(viii) certify, *inter alia*, that the beneficial owner of each Warrant being exercised is not a U.S. person or exercising such Warrant on behalf of a U.S. person (as defined in the Exercise Notice); and

(ix) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Warrant Agreement.

(B) *Verification of the Warrantholder*

Upon receipt of an Exercise Notice, Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, shall verify that the person exercising the Warrants is the holder thereof according to the books of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be. Subject thereto, Clearstream, Luxembourg or Euroclear, as the case may be, will confirm to the Principal Warrant Agent the series number and number of Warrants being exercised and the details for the delivery of the Entitlement of each Warrant being exercised. Upon receipt of such confirmation, the Principal Warrant Agent will inform the Issuer thereof. Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, will on or before the Settlement Date debit the account of the relevant Warrantholder with the Warrants being exercised. Upon exercise of less than all the Warrants constituted by the Global Warrant, a depositary or common depositary for the relevant clearing system(s) will, on the instructions of, and on behalf of, the Principal Warrant Agent, note such exercise on the Schedule to the Global Warrant and the number of Warrants so constituted shall be reduced by the cancellation *pro tanto* of the Warrants so exercised.

(C) *Settlement*

Subject to payment of the aggregate Exercise Price and payment of any Exercise Expenses with regard to the relevant Warrants, the Issuer shall on the Settlement Date deliver, or procure the delivery of, the Entitlement for each duly exercised Warrant pursuant to the details specified in the Exercise Notice. Subject as provided in Condition 4(B)(ii), the Entitlement shall be delivered by the Method of Delivery.

(D) *Determinations*

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in consultation with the Principal Warrant Agent, and shall be conclusive and binding on the Issuer, the Warrant Agents and the relevant Warrantholder.

Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Warrant Agent immediately after being delivered or sent to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, as provided in paragraph (A) above, shall be null and void.

If such Exercise Notice is subsequently corrected to the satisfaction of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in consultation with the Principal Warrant Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction was delivered to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, and the Principal Warrant Agent.

Any Warrant with respect to which the Exercise Notice has not been duly completed and delivered in the manner set out above by the cut-off time specified in Condition 4(A) shall become void.

Neither the Issuer nor the Warrant Agents shall be liable to any person with respect to any action taken or omitted to be taken by them in connection with any determination as to whether an Exercise Notice is complete or in proper form or the notification of such determination to a Warrantholder.

(E) *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Warrantholder to exercise the Warrants specified. After the delivery of such Exercise Notice, such exercising Warrantholder may not transfer such Warrants.

(F) *Exercise Risk*

Exercise of the Warrants is subject to all applicable laws, regulations and practices in force on the relevant exercise date and none of the Issuer or any Warrant Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer or the Warrant Agents shall under any circumstances be liable for any acts or defaults of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms in relation to the performance of its duties in relation to the Warrants.

6. **Minimum and Maximum Number of Warrants Exercisable**

The number of Warrants exercisable by any Warrantholder on any Actual Exercise Date, as determined by the Issuer, must not be less than the Minimum Exercise Number specified in the applicable Final Terms (if any) and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (if any) (a number equal to the Maximum Exercise Number being the "**Quota**"), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants is exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be at the discretion of the Issuer.

7. **Illegality**

If the Issuer determines that the performance of its obligations under the Warrants has become illegal or otherwise prohibited in whole or in part for any reason, the Issuer may cancel the Warrants by giving notice to Warrantholders in accordance with Condition 10.

Should any one or more of the provisions contained in these Warrant Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the Warrants then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warrantholder in respect of each Warrant held by such holder, which amount shall be the fair market value of a Warrant notwithstanding such illegality or prohibition less, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid by or on behalf of the Warrantholder, the Exercise Price, all as determined by the

Calculation Agent. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10.

8. **Purchases**

The Issuer may, but is not obliged to, purchase the Warrants at any price in the open market, by tender or private treaty. Any Warrants so purchased will be surrendered for cancellation and may not be resold again.

9. **Agents, Determinations and Modifications**

(A) *Warrant Agents*

The specified offices of the Warrant Agents are as set out at the end of these Warrant Conditions.

The Issuer reserves the right at any time to vary or terminate the appointment of any Warrant Agent and to appoint further or additional Warrant Agents, provided that no termination of appointment of the Principal Warrant Agent shall become effective until a replacement Principal Warrant Agent shall have been appointed and provided that, so long as any of the Warrants are listed or admitted to trading on a stock exchange, there shall be a Warrant Agent having a specified office in each location (if any) required by the rules and regulations of the relevant stock exchange. Notice of any termination of appointment and of any changes in the specified office of any Warrant Agent will be given to Warrantholders in accordance with Condition 10. In acting under the Warrant Agreement, each Warrant Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders and any determinations and calculations made in respect of the Warrants by any Warrant Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Warrantholders.

(B) *Calculation Agent/Issuer*

In relation to each issue of Warrants, the Calculation Agent (whether it be the Issuer or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders. For the purposes of the Warrants, any determinations, calculations or other decisions made by the Calculation Agent and/or the Issuer under or pursuant to the terms of the Warrants shall be made in its/their discretion acting in good faith and a commercially reasonable manner. All such determinations, calculations or other decisions of the Calculation Agent and/or the Issuer shall (save in the case of manifest error) be final, conclusive and binding on all parties, and neither the Calculation Agent nor the Issuer shall have any liability to any person therefor.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

(C) *Modifications*

The Issuer may modify these Warrant Conditions and/or the Warrant Agreement without the consent of the Warrantholders in any manner which the Issuer may deem necessary or desirable provided that such modification is not materially prejudicial to the interests of the Warrantholders or such modification is of a formal, minor or technical nature or to correct a manifest error or to cure, correct or supplement any defective provision contained herein and/or therein. Notice of any such modification will be given to the Warrantholders in accordance with Condition 10 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

10. **Notices**

All notices to Warrantholders shall be valid if delivered to Euroclear and Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms for communication by them to the holders of the Warrants and, in addition, for so long as any Warrants are listed or admitted to trading on a stock exchange and

the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or other relevant authority). Notice shall be deemed to have been given to the holders of the Warrants on the first day after the day on which the said notice was given to Euroclear and Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms.

11. **Expenses and Taxation**

(A) A holder of Warrants must pay all Exercise Expenses relating to such Warrants as provided above.

(B) The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Warrant and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required (including by any agreement of the Issuer) to be made, paid, withheld or deducted.

(C) Notwithstanding any other provision in these Warrant Conditions, the Issuer shall be permitted to withhold or deduct any amounts imposed or required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code, as amended (the "**Code**"), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code (or any law implementing such an intergovernmental agreement) (a "**FATCA Withholding**"). Neither the Issuer nor any other person will be required to pay additional amounts to the Warrantholders in respect of FATCA Withholding.

12. **Further Issues**

The Issuer shall be at liberty from time to time without the consent of Warrantholders to create and issue further Warrants so as to be consolidated with and form a single series with the outstanding Warrants.

13. **Governing Law and Submission to Jurisdiction**

The Warrants, the Global Warrant and the Warrant Agreement, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, the laws of the Netherlands.

The Issuer submits for the exclusive benefit of the holders of the Warrants, to the jurisdiction of the courts of Amsterdam, the Netherlands judging in first instance, and its appellate courts. Without prejudice to the foregoing, the Issuer further irrevocably agrees that any suit, action or proceedings arising out of or in connection with the Warrants, the Global Warrant and the Warrant Agreement may be brought in any other court of competent jurisdiction of Member States in accordance with the Brussels Ia Regulation or of States that are parties to the Lugano II Convention.

In this Warrant Condition 13:

"**Brussels Ia Regulation**" means Regulation (EU) No 1215/2012 of the European Parliament and of the Council of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters, as amended; and

"**Lugano II Convention**" means the Convention on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters, signed on 30 October 2007.

14. **Fund Provisions**

(A) *Disrupted Days*

If the Calculation Agent determines that, subject as provided below, any Strike Date on which a Fund Interest Price is to be determined is a Disrupted Day, then the Strike Date shall be the first succeeding Fund Business Day that is not a Disrupted Day, unless each of the Fund Business Days falling in the Disrupted Period is a Disrupted Day. In that case:

(i) that final Fund Business Day of the Disrupted Period shall be deemed to be such Strike Date in respect of the related Fund Interests, notwithstanding the fact that such day is a Disrupted Day; and

(ii) the Calculation Agent shall determine the Fund Interest Price as its good faith estimate of the Fund Interest Price that would have prevailed, but for the occurrence of a Disrupted Day, on that final Fund Business Day of the Disrupted Period.

If the Calculation Agent determines that any Actual Exercise Date is a Disrupted Day, or any day between the Actual Exercise Date and the scheduled Settlement Date is a Disrupted Day, then the Issuer may postpone the Settlement Date to that date that is the number of Settlement Business Days equal to the Settlement Period following the first Fund Business Day on which no Market Disruption Event has occurred or is continuing. For the avoidance of doubt, no additional amounts shall be payable in respect of any such postponement of the Settlement Date.

The Issuer shall give notice to Warrantholders, in accordance with Condition 10, of any delay that results in the postponement of any payment in respect of the Warrants.

(B) *Adjustments*

If the Calculation Agent determines that, in respect of the Fund, a Corporate Event has occurred or is continuing, the Calculation Agent will (a) make any adjustment(s) to the Entitlement and/or any of the Warrant Conditions as the Calculation Agent determines appropriate to account for the dilutive or concentrative effect on the value of the Fund Interests and (b) determine the effective date(s) of any such adjustment(s). The Issuer shall give notice of such adjustment(s) to Warrantholders in accordance with Condition 10. For the avoidance of doubt, if "Corporate Event" is also specified as a Substitution Event in the Final Terms, the provisions of Condition 14(C) shall prevail.

(C) *Substitution Events*

If at any time the Calculation Agent determines that an applicable Substitution Event has occurred or is continuing with respect to the Fund, the Calculation Agent may:

(i) waive such Substitution Event; or

(ii) as soon as is practicable after such determination, replace such Fund for the purposes of the Warrants with a Replacement Fund and following any such replacement, the Calculation Agent may make any adjustments to the Warrant Conditions as it deems appropriate to reflect such replacement; or

(iii) determine that the effect of the Substitution Event can be compensated by an adjustment to the Warrant Conditions and following any such determination, the Calculation Agent may make any adjustments to the Warrant Conditions as it deems appropriate to reflect such compensation; or

(iv) determine that the Warrants be cancelled by the Issuer.

The Issuer shall give notice to Warrantholders in accordance with Condition 10 of any cancellation of the Warrants pursuant to this Condition 14(C), and shall, if and to the extent permitted by applicable law, pay an amount to each Warrantholder in respect of each Warrant held by such holder, which amount shall be the fair market value of

a Warrant less the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid by or on behalf of the Warrantholder, the Exercise Price, all as determined by the Calculation Agent. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10.

15. **Additional provisions for ING EB Warrants**

If ING EB is specified as "Applicable" in the applicable Final Terms, notwithstanding any other provision of the Warrant Conditions the following ING EB Warrant Provisions shall apply to the Warrants.

[●]][54]

[54]Annex to be inserted only in the case of a Tranche of Non-Exempt PR Warrants.

USE OF PROCEEDS

The net proceeds from each issue of Notes and the Warrants will be applied by the Issuer for its general corporate purposes.

Green Bonds

Notes may be issued as Green Bonds and the applicable Final Terms will indicate if the Notes are intended to constitute Green Bonds.

An amount equal to the net proceeds from any issue of Green Bonds will be used to finance and/or refinance, in part or in whole, a portfolio of green loans (the "**Eligible Green Loan Portfolio**") in accordance with the relevant eligibility criteria (the "**Eligibility Criteria**") as set out below or amended from time to time under the Issuer's Global Green Funding Framework, as amended from time to time (the "**ING Global Green Funding Framework**").

Pending the full allocation of an amount equal to the net proceeds of the Notes to the Eligible Green Loan Portfolio, the Issuer will hold and/or invest the balance of net proceeds not yet allocated to the Eligible Green Loan Portfolio within a separate account of its treasury department, at its own discretion, in cash and/or other liquid instruments in its liquidity portfolio.

With the ING Global Green Funding Framework, the Issuer intends to support the growth in green residential and commercial buildings and renewable energy categories.

The Issuer's Global Green Funding Framework describes the process for evaluation and selection of loans, the management of proceeds and information regarding reporting and external review and aligns with the 2021 edition (with June 2022 Appendix I) of the Principles. The Issuer's Global Green Funding Framework will be updated from time to time and is published on the Issuer's website: www.ing.com. This website URL is an inactive textual reference only and neither the Issuer's Global Green Funding Framework nor any part of the Issuer's website is incorporated by reference in and, therefore, does not and will not form part of this Securities Note or the relevant Final Terms and has not been scrutinised or approved by the AFM.

For a description of the Issuer's sustainability efforts, please see "*Double materiality assessment*" in "*Sustainability Statement*" in ING Group's 2025 annual report, which is incorporated by reference into the Registration Document.

As at the date of this Securities Note, the Eligibility Criteria are summarised below as:

1. Renewable Energy: financing or refinancing of production of renewable energy, including:
   - (a) Solar energy
   - (b) On- and offshore wind energy
2. Green Buildings: financing or refinancing new or existing buildings:
   - (a) Buildings built before 31 December 2020 with Energy Performance Certificate ("**EPC label**") ≥ 'A'
   - (b) Buildings built before 31 December 2020 belonging to the top 15% of the national building stock based on primary energy demand ("**PED**")
   - (c) Buildings built after 31 December 2020 with energy performance at least 10% better than the threshold for Nearly Zero-Energy Buildings in the local market

Details of such green loans meeting the Eligibility Criteria and of any third party agency appointed to monitor compliance with such arrangements (if any) will be detailed in the applicable Final Terms.

Contribution to the EU Taxonomy Regulation

The Issuer intends that the Eligibility Criteria will enable the Eligible Green Loan Portfolio funded under the Issuer's Global Green Funding Framework to make a substantial contribution to the achievement of the EU "environmental objectives" set out in the EU Taxonomy Regulation.

The Eligibility Criteria take into account the EU Taxonomy Regulation and Commission Delegated Regulation (EU) 2021/2139 "substantial contribution" criteria ("**EU Taxonomy Criteria**"). The current Eligibility Criteria aim to enable the Eligible Green Loan Portfolio to make a substantial contribution to the objective "Climate Change Migration" set out in the EU Taxonomy Regulation.

The Issuer's internal eligibility criteria are applied for activities where the EU Taxonomy Criteria are not fully available or not practical based on current market practices and available data or pre-existed the EU Taxonomy Regulation. The internal eligibility criteria are supported by a sustainable asset and liability classification scheme, which is developed in light of regulations, such as the EU Taxonomy Regulation and market standards such as the Principles, Climate Bond Standards and LMA / LSTA / APLWA's Green Loan Principles.

No assurance is provided that the Eligibility Criteria or use of proceeds of the Notes is or will be aligned with the EU Taxonomy Regulation, EU Taxonomy Criteria, associated legislation or any other sustainability taxonomy or criteria, any of which may also be subject to change and amendment.

*Contribution to the UN Sustainable Development Goals ("**UN SDG**")*

In alignment with the Issuer's sustainability ambitions and support of the wider UN SDG 2030 agenda, the Eligible Green Loans under the Issuer's Global Green Funding Framework aim to contribute to the achievement of the following UN SDGs and related sub-targets:

- SDG 7 – Affordable and Clean Energy
- SDG 9 – Industry, Innovation and Infrastructure
- SDG 11 – Sustainable Cities and Communities
- SDG 13 – Climate Action.

Process for project evaluation and selection

Projects financed and/or refinanced through proceeds from any issue of Green Bonds are evaluated and selected based on compliance with the Eligibility Criteria. When identifying loans to be included in the Eligible Green Loan Portfolio, the Issuer may rely on external consultants and their data sources.

Environmental and social risk management policy

Loans included in the Eligible Green Loan Portfolio are expected to comply with official national and international environmental and social standards and local laws and regulations on a best effort basis. It is part of the Issuer's environmental and social risk management approval process to assess the compliance of all loans included in the Eligible Green Loan Portfolio against internal environmental and social standards, as well as external frameworks such as the equator principles, including those financed with the proceeds of the Green Bonds. These eligibility criteria and minimum requirements and ESG related matters are continuously developed and renewed in its external and internal policy frameworks. The implementation of these minimum ESG requirements helps to mitigate the environmental and social risks associated with the Eligible Green Loan Portfolio.

Management of proceeds

The proceeds from any issue of Green Bonds will be managed by the Issuer in a portfolio approach. The Issuer intends to allocate an amount equivalent to any proceeds from the Green Bonds to the Eligible Green Loan Portfolio, in accordance with the Issuer's Global Green Funding Framework.

The Issuer strives, over time, to achieve a level of allocation for the Eligible Green Loan Portfolio that matches or exceeds the balance of net proceeds from its outstanding Green Bonds. According to available allocation reports (please see "*Reporting*" below), this was the case in previous years. Unallocated net proceeds from Green Bonds will be held in the Issuer's treasury liquidity portfolio, in cash or other short term and liquid instruments, at the Issuer's own discretion.

Reporting

The Issuer will publish an annual allocation report on the Issuer's website detailing both the allocation and environmental benefits of the net proceeds allocated to each eligible project category and on an aggregated basis for all of the Issuer's Green Bonds outstanding. Where feasible, and on a best-effort basis, the Issuer intends to report on the environmental impact of the Eligible Green Loan Portfolio financed by Green Bonds. The allocation report will be made available on the Issuer's website: www.ing.com.

External review

Second party opinion

The Issuer's Global Green Funding Framework has been reviewed by ISS Corporate Solutions who has issued a second party opinion (such second party opinion together with any other second party opinions provided from time to time, the "**Second Party Opinion**"). Any Second Party Opinion as well as the Issuer's Global Green Funding Framework will be made available on the Issuer's website www.ing.com.

Verification

The Issuer may request on an annual basis a limited assurance report of the allocation of the bond proceeds to eligible assets, provided by an auditor at such time.

Notice to prospective investors of Green Bonds

Neither the Issuer nor any Dealer makes any representation as to the suitability for any purpose of any Second Party Opinion or whether any Green Bonds fulfil the relevant environmental criteria or standards. Prospective investors should have regard to the Eligibility Criteria and/or Eligible Green Loan Portfolio described in the applicable Final Terms. Each potential purchaser of Green Bonds should determine for itself the relevance of the information contained in this Securities Note and in the applicable Final Terms regarding the use of proceeds and its purchase of any Green Bonds should be based upon such investigation as it deems necessary. No Dealer will verify or monitor the proposed use of proceeds of Notes issued under the Programme. Furthermore, potential investors should be aware that any Second Party Opinion will not be incorporated by reference into, and will not form part of, this Securities Note or the relevant Final Terms. Any such Second Party Opinion may not reflect the potential impact of all risks related to the structure of the relevant Green Bonds, their marketability, trading price or liquidity or any other factors that may affect the price or value of the Green Bonds. Any such Second Party Opinion is not a recommendation to buy, sell or hold securities and is only current as of its date of issue.

See "*Risk Factors – Risks related to the nature of a particular issue of Notes and Warrants – Notes issued as Green Bonds may not be a suitable investment for all investors seeking exposure to green assets. Any failure to use the net proceeds of any Series of Green Bonds in connection with green loans, and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally focused investors with respect to such Green*

Bonds may affect the value and/or trading price of the Green Bonds, and/or may have consequences for certain investors with portfolio mandates to invest in green assets" for further detail.

TAXATION

The disclosure in the sections "Dutch Taxation", "Belgian Taxation", "French Taxation", "German Taxation", "Luxembourg Taxation", "Polish Taxation" and "Romanian Taxation" applies to Notes and Warrants issued by the Issuer. The disclosure in the sections "Singapore Taxation", "United Kingdom Taxation" and "United States Taxation" applies only to Notes issued by the Issuer. The information in this section does not address the tax consequences in connection with the purchase of the Notes or Warrants in any other jurisdiction than the jurisdictions mentioned below. Any prospective purchaser of Notes or Warrants should consult his or her own tax adviser regarding the tax consequences of acquiring, holding, redeeming and/or disposing of Notes or Warrants. In particular, any purchaser of Note or Warrants should be aware that the tax legislation of any jurisdiction where purchaser of Notes or Warrants is resident or otherwise subject to taxation (as well as the jurisdictions discussed below) may have an impact on the tax consequences of an investment in the Notes including in respect of any income received from the Notes or Warrants.

Tax Warning

Potential investors and sellers of Notes and Warrants should be aware that they may be required to pay stamp taxes or other documentary taxes or fiscal duties or charges in accordance with the laws and practices of the country where the Notes and Warrants are transferred or other jurisdictions. In addition, payments of interest on the Notes and Warrants, or income derived from the Notes and Warrants, may be subject to taxation, including withholding taxes, in the jurisdiction of the Issuer, in the jurisdiction of the holder of Notes or Warrants, or in other jurisdictions in which the holder of Notes or Warrants is required to pay taxes. Any such tax consequences may have an impact on the net income received from the Notes and Warrants.

Prospective investors should carefully consider the tax consequences of investing in the Notes and Warrants and consult their own tax adviser about their own tax situation. Finally, potential investors should be aware that tax regulations and their application by the relevant taxation authorities change from time to time, with or without retroactive effect. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

DUTCH TAXATION

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Securities Note and is subject to any changes in law and the interpretation and application thereof, which changes could have retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of Notes or Warrants and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

For the purpose of the paragraph "Taxes on Income and Capital Gains" below, it is assumed that a holder of Notes or Warrants, being an individual or a non-resident entity, neither has nor will have a substantial interest (aanmerkelijk belang) or, in the case of the holder being an entity, a deemed substantial interest in the Issuer and that a connected person (verbonden persoon) to the holder neither has nor will have a substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) the individual, either alone or together with the individual's partner, directly or indirectly has or is deemed to have, or (b) certain relatives of the individual or the individual's partner directly or indirectly have or are deemed to have, (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of the company or the issued and outstanding capital of any class of shares of the company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of the company.

Generally speaking, a non-resident entity has a substantial interest in a company if the entity directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5% or more of either the total issued and outstanding capital of the company or the issued and outstanding capital of any class of shares of the company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5% or more of either the annual profit or the liquidation proceeds of the company. Generally, a non-resident entity has a deemed substantial interest in a company if the entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

Where this summary refers to a holder of Notes or Warrants, an individual holding Notes or Warrants or an entity holding Notes or Warrants, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Notes or Warrants or otherwise being regarded as owning Notes or Warrants for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Where the summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers as to the tax consequences of acquiring, holding and disposing of Notes or Warrants.

1. **Withholding Tax**

All payments by the Issuer under the Notes or Warrants can be made without withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein, save that Dutch withholding tax may apply on certain (deemed) payments of interest made to an affiliated (*gelieerde*) entity of the Issuer if such entity (i) is considered to be resident (*gevestigd*) in a jurisdiction that is listed in the annually updated Dutch Regulation on low-taxing states and non-cooperative jurisdictions for tax purposes (*Regeling laagbelastende staten en niet-coöperatieve rechtsgebieden voor belastingdoeleinden*), or (ii) has a permanent establishment located in such jurisdiction to which the interest is attributable, or (iii) is entitled to the interest payable for the main purpose or one of the main purposes to avoid taxation for another person, or (iv) is not considered to be the recipient of the interest in its jurisdiction of residence because such jurisdiction treats another (lower-tier) entity as the recipient of the interest (a hybrid mismatch), or (v) is not treated as resident anywhere (also a hybrid mismatch), or (vi) is a reverse hybrid whereby the jurisdiction of residence of a participant that has a qualifying interest (*kwalificerend belang*) in the reverse hybrid treats the reverse hybrid as tax transparent and that participant would have been taxable based on one (or more) of the items in (i)-(v) above had the interest been due to the participant directly, all within the meaning of the Withholding Tax Act 2021 (*Wet bronbelasting 2021*) and provided that the Notes or Warrants do not qualify as debt effectively functioning as equity within the meaning of article 10, paragraph 1, sub d, of the Corporate Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*).

2. **Taxes on Income and Capital Gains**

Residents

Resident entities

An entity holding Notes or Warrants which is or is deemed to be resident in the Netherlands for Dutch corporate tax purposes and which is not tax exempt, will generally be subject to Dutch corporate tax in respect of income or a capital gain derived from the Notes or Warrants at the prevailing statutory rates (up to 25.8% in 2026).

Resident individuals

An individual holding Notes or Warrants who is or is deemed to be resident in the Netherlands for Dutch income tax purposes will generally be subject to Dutch income tax in respect of income or a capital gain derived from the Notes or Warrants at the prevailing statutory rates (up to 49.5% in 2026) if:

(i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or

(ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, the individual will in principle be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes or Warrants. For 2026, separate deemed return percentages for savings, debts and investments apply, 6% for the category investments (including the Notes or Warrants), as at the beginning of the relevant calendar year. The applicable percentages should be updated annually on the basis of historic market yields.

However, if the individual demonstrates that the actual return – calculated in accordance with Counterevidence Act (*Wet tegenbewijsregeling box 3*) – is lower than the applicable deemed return, the taxable basis should be that lower amount.

The individual's taxable income from savings and investments (including the Notes or Warrants) will be taxed at the prevailing statutory rate (36% in 2026).

Non-residents

A holder of Notes or Warrants which is not and is not deemed to be resident in the Netherlands for the relevant tax purposes will not be subject to Dutch taxation on income or a capital gain derived from the Notes or Warrants, unless:

(i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in he Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) taxable in the Netherlands and the holder derives profits from such enterprise (other than by way of the holding of securities); or

(ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in the Netherlands as defined in the Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

3. **Gift and Inheritance Taxes**

Dutch gift or inheritance tax will not be levied on the occasion of the transfer of Notes or Warrants by way of gift by, or on the death of, a holder of Notes or Warrants, unless:

(i) the holder is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions; or

(ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

4. **Value Added Tax**

There is no Dutch value added tax payable by a holder of Notes or Warrants in respect of payments in consideration for the issue or acquisition of Notes or Warrants, payments of principal and interest under the Notes or Warrants, or payments in consideration for a disposal of Notes or Warrants.

5. **Other Taxes and Duties**

There is no Dutch registration tax, stamp duty or other similar tax or duty payable in the Netherlands by a holder of Notes or Warrants in respect of or in connection with the acquisition, holding or disposal of Notes or Warrants, the execution, delivery and/or enforcement by legal proceedings (including any foreign judgment in the courts of the Netherlands) of the Notes or Warrants or the performance of the Issuer's obligations under the Notes or Warrants.

6. **Residence**

A holder of Notes or Warrants will not be and will not be deemed to be resident in the Netherlands for Dutch tax purposes and, subject to the exceptions set out above, will not otherwise become subject to Dutch taxation by reason only of acquiring, holding or disposing of Notes or Warrants or the execution, performance, delivery and/or enforcement of the Notes or Warrants.

BELGIAN TAXATION

General

The following summary describes the principal Belgian tax considerations with respect to the holding of the Notes and Warrants.

This information is of a general nature and does not purport to be a comprehensive description of all Belgian tax considerations that may be relevant to a decision to acquire, to hold or to dispose of the Notes or Warrants. In some cases, different rules can be applicable. Furthermore, the tax rules can be amended in the future, possibly implemented with retroactive effect, and the interpretation of the tax rules may change.

This summary is based on Belgian tax legislation, treaties, rules, and administrative interpretations with respect to Belgian income taxes and some indirect taxes, as well as similar documentation, in force as of the date of this Securities Note, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

Each prospective holder of Notes or Warrants should consult a professional adviser with respect to the tax consequences of an investment in the Notes or Warrants, taking into account the influence of each regional, local or national law.

Belgian residence rules

For the purpose of the following general description, a Belgian resident is: (a) an individual subject to Belgian personal income tax ("*Personenbelasting*"/"*Impôt des personnes physiques*") (i.e., an individual who has its domicile in Belgium or has its seat of wealth in Belgium, or a person assimilated to a Belgian resident), (b) a legal entity subject to Belgian corporate income tax ("*Vennootschapsbelasting*"/"*Impôt des sociétés*") (i.e., a company that has its principal establishment or place of effective management in Belgium and which is not excluded by law of the Belgian corporate income tax), (c) an Organisation for Financing Pensions subject to Belgian corporate income tax (i.e., a Belgian pension fund incorporated under the form of an Organisation for Financing Pensions) or (d) a legal entity subject to Belgian legal entities tax ("*Rechtspersonenbelasting*"/"*Impôt des personnes morales*") (i.e., an entity other than a legal entity subject to corporate income tax having its principal establishment or its place of effective management in Belgium). A Belgian non-resident is any person or entity that is not a Belgian resident.

Taxes on income and capital gains

A. Belgian tax regime regarding Notes

Resident individual private investors

Individuals who are Belgian residents for tax purposes, i.e. individuals subject to the Belgian individual income tax ("*Personenbelasting"*/"*Impôt des personnes physiques*"), and who hold the Notes as a private investment are subject to the following income tax treatment in Belgium with respect to the Notes. Other tax rules apply to Belgian resident individuals holding the Notes not as a private investment but in the framework of their professional activity or when the transactions with respect to the Notes fall outside the scope of the normal management of their own private estate or are speculative in nature.

Under Belgian tax law, ''interest'' income includes: (i) periodic interest income, (ii) any amount paid by the Issuer in excess of the issue price (whether or not on the maturity date), and (iii) if the Notes qualify as "fixed income securities'' (in the meaning of article 2, §1, 8° Belgian Income Tax Code 1992), in the case of a realisation of the Notes prior to repurchase or redemption by the Issuer, the income equal to the *pro rata* of accrued interest corresponding to the detention period. "Fixed income securities" are defined as bonds, specific debt certificates issued by banks ("*kasbon*"/"*bon de caisse*") and other similar securities, including securities where income is capitalised or securities which do not generate a periodic payment of income but are issued with a discount corresponding to the capitalised interest up to the maturity date of the security. Furthermore, on 25 January 2013, the Belgian tax authorities issued a circular letter on the tax treatment of income from structured products the (uncertain) return of which is linked to an underlying value (share basket, index, etc.). According to the circular letter, such structured products qualify as fixed income securities if their terms and conditions include one or more of the following features: (a) a (conditional) minimum return; (b) capital protection; (c) a periodic coupon payment; or (d) determination of income during the lifetime of the securities using a "*ratchet*" system.

Payments of interest on the Notes made through a paying agent in Belgium will in principle be subject to a 30% withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). The Belgian withholding tax constitutes the final income tax for Belgian resident individuals. This means that they do not have to declare the interest obtained on the Notes in their personal income tax return, provided Belgian withholding tax was levied on these interest payments. They may nevertheless elect to declare interest in respect of the Notes in their personal income tax return.

If the interest is paid outside Belgium without the intervention of a Belgian paying agent, the interest received (after deduction of any non-Belgian withholding tax) must be declared in the personal income tax return.

Interest income which is declared in the annual personal income tax return will in principle be taxed at a flat rate of 30% (or at the progressive personal tax rate taking into account the taxpayer's other declared income, whichever is more beneficial). No local surcharges will be due. If the interest payment is declared, any Belgian withholding tax retained may be credited against the income tax liability and any excess amount will in principle be refundable, all in accordance with the applicable legal provisions.

Capital gains realised upon the sale of the Notes, are in principle tax exempt, except if the capital gains are realised outside the scope of the management of one's private estate or are speculative in nature (in which case the capital gain will be taxed at 33% *plus* local surcharges) or except to the extent that the capital gains qualify as interest (as defined above). Capital losses realised upon the disposal of the Notes held as non-professional investment are in principle not tax deductible. The new Belgian government announced, however, the introduction as of income year 2026 of a new capital gains tax of 10% on realised capital gains on financial assets (such as the Notes) accrued as from the date of entry into force of the contribution, subject to an exemption for the first €10,000 of capital gains. As at the date of this Securities Note, a draft bill has been submitted to the Belgian federal parliament with respect to this new capital gains tax but has not been adopted yet. Capital losses would in principle be deductible from gains on similar financial assets realised in the same year.

Other tax rules apply to Belgian resident individuals who do not hold the Notes as a private investment.

Tax treatment of Belgian resident corporations

Corporations that are Belgian residents for tax purposes, i.e. corporations subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting"*/"*Impôt des sociétés*") are subject to the following income tax treatment in Belgium with respect to the Notes.

Interest derived by Belgian resident corporations on the Notes and capital gains realised on the Notes will be subject to Belgian corporate income tax at the ordinary rate of currently 25%. Furthermore, small and medium-sized companies (as defined by Article 1:24, §1 to §6 of the Belgian Companies and Associations Code, as amended from time to time) are taxable, subject to conditions, at the reduced corporate income tax rate of currently 20% for the first tranche of €100,000 of their taxable base. Capital losses on the Notes are in principle tax deductible.

Payments of interest (as defined in the section "*Resident individual private investors*" above) on the Notes made through a paying agent in Belgium will in principle be subject to a 30% withholding tax in Belgium (calculated on the interest received after deduction of any non-Belgian withholding taxes). However, the interest on the Notes (except Zero Coupon Notes and other Notes which provide for the capitalisation of interest) can under certain circumstances be exempt from Belgian withholding tax, provided a special certificate is delivered. The Belgian withholding tax that has been levied is, subject to certain conditions, creditable and refundable in accordance with the applicable legal provisions.

Other tax rules apply to investment companies within the meaning of article 185bis of the Belgian Income Tax Code 1992.

Tax treatment of Organisations for Financing Pensions

Belgian pension fund entities that have the form of an Organisation for Financing Pensions within the meaning of the Law of 27 October 2006 on the activities and supervision for occupational retirement provision ("*Wet van 27 oktober 2006 betreffende het toezicht op de instellingen voor bedrijfspensioenvoorzieningen*"/"*Loi du 27 octobre 2006 relative au contrôle des institutions de retraite professionnelle*") ("**OFP**") are subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting"*/"*Impôt des sociétés*"). OFPs are subject to the following tax treatment in Belgium with respect to the Notes.

Interest derived on the Notes and capital gains realised on the Notes will not be subject to Belgian Corporate Income Tax in the hands of OFPs. Capital losses on the Notes are not tax deductible. Subject to certain conditions, any Belgian withholding tax that has been levied on interest payments on the Notes is creditable and refundable in accordance with the applicable legal provisions.

Other resident legal entities

Legal entities that are Belgian residents for tax purposes, i.e. that are subject to Belgian tax on legal entities ("*Rechtspersonenbelasting*"/"*Impôt des personnes morales*"), are subject to the following income tax treatment in Belgium with respect to the Notes.

Payments of interest (as defined above in the section "*Resident individual private investors*" above) on the Notes made through a paying agent in Belgium will in principle be subject to a 30% withholding tax in Belgium and no further tax on legal entities will be due on the interest. However, if the interest is paid outside Belgium, i.e. without the intervention of a Belgian paying agent and without deduction of the Belgian withholding tax, the legal entity itself is required to declare and pay the Belgian 30% withholding tax to the Belgian treasury.

Capital gains realised on the sale of the Notes are in principle tax exempt, unless and to the extent that they qualify as interest (as defined above). Capital losses on the Notes are in principle not tax deductible. The new Belgian

government announced, however, the introduction as of income year 2026 of a new capital gains tax of 10% on realised capital gains on financial assets (such as the Notes) accrued as from the date of entry into force of the contribution, subject to an exemption for the first €10,000 of capital gains. As at the date of this Securities Note, a draft bill has been submitted to the Belgian federal parliament with respect to this new capital gains tax but has not been adopted yet.

Tax treatment of Belgian non-residents

The interest income on the Notes paid to a Belgian non-resident outside of Belgium, i.e. without the intervention of a professional intermediary in Belgium, is not subject to Belgian withholding tax.

Interest income on the Notes paid through a Belgian professional intermediary is subject to a 30% Belgian withholding tax, unless the holder of Notes is resident in a country with which Belgium has concluded a double taxation agreement and delivers the required attestation.

Non-resident holders that have not allocated the Notes to business activities in Belgium can also obtain an exemption of Belgian withholding tax on interest if the interest is paid through a Belgian credit institution, a Belgian stock market company or a Belgian clearing or settlement institution and provided that the non-resident (i) is the legal owner of usufructuary of the Notes, (ii) has not allocated the Notes to business activities in Belgium and (iii) delivers an attestation confirming his non-resident status and the fulfilment of conditions (i) and (ii).

If the holder of a Note is a Belgian branch of a foreign company to which the Notes are attributable, the rules applicable to Belgian corporations (see above) will apply. Non-resident holders of Notes who do not allocate the Notes to a professional activity in Belgium are not subject to Belgian income tax, save, as the case may be, in the form of withholding tax.

B. Belgian tax regime regarding Warrants

Investors are in principle subject to the following tax treatment with respect to the Warrants. This overview does not address the tax consequences after the moment of exercise or settlement of the Warrants.

Resident individual private investors

Individuals who are Belgian residents for tax purposes, i.e. individuals subject to the Belgian individual income tax ("*Personenbelasting*"/"*Impôt des personnes physiques*"), and who hold the Warrants as a private investment, are in principle subject to the following income tax treatment in Belgium with respect to Warrants. Other tax rules may be applicable with respect to Warrants that are held by Belgian resident individuals for professional purposes and transactions with Warrants falling outside the scope of the normal management of their own private estate or which are speculative in nature.

Private individual investors are in principle not liable to individual income tax on gains realised on the disposal or settlement of Warrants held as a private investment, unless and to the extent that the gain qualifies as interest income. Capital losses are not tax deductible. The benefit realised upon exercise of the Warrants is not taxable. However, as indicated above, the new Belgian government announced the introduction as of income year 2026 of a new capital gain tax of 10% on realised capital gains on financial assets (such as the Warrants) accrued as from the date of entry into force of the contribution, subject to an exemption for the first €10,000 of capital gains. As at the date of this Securities Note, a draft bill has been submitted to the Belgian federal parliament with respect to this new capital gains tax but has not been adopted yet. Capital losses would in principle be deductible from gains on similar financial assets realised in the same year.

Other tax rules apply to Belgian resident individuals who do not hold the Warrants as a private investment.

Tax treatment of Belgian resident corporations

Corporations that are Belgian residents for tax purposes, i.e., corporations subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting*"/"*Impôt des sociétés*"), are subject to the following income tax treatment in Belgium with respect to Warrants.

Belgian corporations will be subject to the ordinary Belgian corporate income tax of 25% (or 20% on the first €100,000 of profits for small and medium-sized companies as defined by Article 1:24, §1 to §6 of the Belgian Companies and Associations Code, as amended from time to time) on the gains realised on the disposal or cash settlement of the Warrants. Capital losses are in principle tax deductible.

However, in the event of a physical settlement of assets (Fund Interests) upon the exercise of Warrants, Belgian corporations in principle have to record the assets received upon exercise at a value equal to the Issue Price paid for the Warrants increased with the Exercise Price of the Warrants.

Tax treatment of Organisations for Financing Pensions

Belgian pension fund entities that have the form of an OFP are subject to Belgian Corporate Income Tax ("*Vennootschapsbelasting*"/"*Impôt des sociétés*"). OFPs are subject to the following income tax treatment in Belgium with respect to Warrants.

Belgian OFPs are not liable for Belgian Corporate Income Tax on gains realised on the disposal or settlement of the Warrants. Capital losses are not tax deductible.

Other resident legal entities

Legal entities that are Belgian residents for tax purposes, i.e. that are subject to the Belgian tax on legal entities ("*Rechtspersonenbelasting*"/"*Impôt des personnes morales*"), are subject to the following income tax treatment in Belgium with respect to Warrants.

Belgian legal entities are in principle not liable to income tax on capital gains realised on the disposal or settlement of the Warrants, unless and to the extent that the gain qualifies as interest. Capital losses are not tax deductible. The new Belgian government announced, however, the introduction as of income year 2026 of a new capital gains tax of 10% on realised capital gains on financial assets (such as the Warrants) accrued as from the date of entry into force of the contribution, subject to an exemption for the first €10,000 of capital gains. As at the date of this Securities Note, a draft bill has been submitted to the Belgian federal parliament with respect to this new capital gains tax but has not been adopted yet.

Tax treatment of Belgian non-residents

Non-resident holders of Warrants who do not allocate the Warrants to a professional or business activity in Belgium are in principle not subject to Belgian income tax on capital gains realised on the disposal or settlement of the Warrants.

Non-residents who hold the Warrants in exercise of a professional or business activity in Belgium through a Belgian branch or other permanent establishment are subject to the same tax rules as Belgian residents.

Tax on the stock exchange transactions

A tax on the stock exchange transactions ("*Taks op beursverrichtingen*"/"*Taxe sur les operations de bourse*") will be levied on the purchase and sale in Belgium of the Notes or Warrants on the secondary market through a professional intermediary. The rate applicable for sales and purchases of Notes on the secondary market in Belgium through a professional intermediary is 0.12%, with a maximum amount of €1,300 per transaction and per party. The rate for sales and purchases of Warrants on the secondary market amounts to 0.35%, with a maximum amount of

€1,600 per transaction and per party. A separate tax is due from each of the seller and the purchaser, both collected by the professional intermediary.

The tax on the stock exchange transactions also applies to secondary market transactions of which the order is directly or indirectly made to a professional intermediary established outside of Belgium by (i) a private individual with habitual residence in Belgium or (ii) a legal entity for the account of its seat or establishment in Belgium (both referred to as a "**Belgian Investor**"). In such case, the tax on the stock exchange transactions is, according to the Belgian tax administration, due by the Belgian Investor unless the Belgian Investor can demonstrate that the tax on the stock exchange transactions has already been paid by the professional intermediary established outside Belgium. In the latter case, the foreign professional intermediary also has to provide each client (which gives such intermediary an order) with a qualifying order statement ("*borderel*"/"*bordereau*"), at the latest on the business day after the day on which the relevant transaction was realised. The qualifying order statements must be numbered in series and duplicates must be retained by the financial intermediary. A duplicate can be replaced by a qualifying agent day-to-day listing, numbered in series. Alternatively, professional intermediaries established outside Belgium can appoint a stock exchange tax representative in Belgium, subject to certain conditions and formalities (a "**Stock Exchange Tax Representative**"). Such Stock Exchange Tax Representative will then be liable towards the Belgian Treasury for tax on stock exchange transactions and to comply with the reporting obligations and the obligations relating to the order statement ("*borderel*"/"*bordereau*") in that respect. If such a Stock Exchange Tax Representative has paid the tax on stock exchange transactions due, the relevant Belgian Investor will, as per the above, no longer be the debtor of the tax on stock exchange transactions.

However, the tax referred to above will not be payable by exempt persons acting for their own account, including investors who are not Belgian residents, provided they deliver an attestation to the financial intermediary in Belgium confirming their non-resident status, and certain Belgian institutional investors as defined in article 126.1,2° of the Code of miscellaneous duties and taxes ("*Wetboek diverse rechten en taksen*"/"*Code des droits et taxes divers"*).

Annual Tax on Securities Accounts

Pursuant to the Belgian Law of 17 February 2021 on the introduction of an annual tax on securities accounts, an annual tax is levied on securities accounts with an average value, over a period of twelve consecutive months starting on 1 October and ending on 30 September of the subsequent year, higher than €1 million.

The tax is equal to 0.15% of the average value of the securities accounts during a reference period. The reference period normally runs from 1 October to 30 September of the subsequent year. The taxable base is determined based on four reference dates: 31 December, 31 March, 30 June and 30 September. The amount of the tax is limited to 10% of the difference between the taxable base and the threshold of €1 million.

The tax targets securities accounts held by resident individuals, companies and legal entities, irrespective as to whether these accounts are held with a financial intermediary which is established or located in Belgium or abroad. The tax also applies to securities accounts held by non-resident individuals, companies and legal entities with a financial intermediary established or located in Belgium. Belgian establishments of Belgian non-residents are however treated as Belgian residents for purposes of the annual tax on securities accounts so that both Belgian and foreign securities accounts fall within the scope of this tax. Note that pursuant to certain double tax treaties, Belgium has no right to tax capital. Hence, to the extent the tax on securities accounts is viewed as a tax on capital within the meaning of these double tax treaties, treaty protection may, subject to certain conditions, be claimed.

Each securities account is assessed separately. When multiple holders hold a securities account, each holder is jointly and severally liable for the payment of the tax and each holder may fulfil the declaration requirements for all holders.

There are various exemptions, such as securities accounts held by specific types of regulated entities for their own account.

A financial intermediary is defined as (i) the National Bank of Belgium, the European Central Bank and foreign central banks performing similar functions, (ii) a central securities depository included in Article 198/1, §6, 12° of the Belgian Income Tax Code, (iii) a credit institution or a stockbroking firm as previously defined by Article 1, §3 of the Law of 25 April 2014 on the status and supervision of credit institutions and investment companies (currently defined by, respectively, Article 1, §3 of the law of 25 April 2014 on the status and supervision of credit institutions and Article 2 of the law of 20 July 2022 on the status and supervision of stockbroking firms and containing various provisions) and (iv) the investment companies as defined by Article 3, §1 of the Law of 25 October 2016 on access to the activity of investment services and on the legal status and supervision of portfolio management and investment advice companies, which are, pursuant to national law, admitted to hold financial instruments for the account of customers.

The annual tax on securities accounts is in principle due by the financial intermediary established or located in Belgium. Otherwise, the annual tax on securities accounts needs to be declared and is due by the holder of the securities accounts itself, unless the holder provides evidence that the annual tax on securities accounts has already been withheld, declared and paid by an intermediary which is not established or located in Belgium. In that respect, intermediaries located or established outside of Belgium could appoint an annual tax on securities accounts representative in Belgium. Such a representative is then liable towards the Belgian Treasury ("*Thesaurie*"/ "*Trésor*") for the annual tax on securities accounts due and for complying with certain reporting obligations in that respect. If the holder of the securities accounts itself is liable for reporting obligations (e.g. when a Belgian resident holds a securities account abroad with an average value higher than €1 million), the deadline for filing the tax return for the annual tax on securities accounts is 15 July of the year following the end of the relevant reference period. In the latter case, the annual tax on securities accounts must be paid by the taxpayer on 31 August of the same year, at the latest.

A rebuttable general anti-abuse provision applies.

Investors should note that the Belgian federal parliament has also adopted a bill providing for two rebuttable presumptions of abuse in case of (i) conversion of dematerialised financial instruments into registered instruments (provided that, prior to the conversion, the value of the securities account exceeded EUR 1,000,000), or (ii) transfer of (part of) financial instruments to another securities account held (alone or jointly) by the same person (provided that, prior to the transfer, the value of the securities account exceeded EUR 1,000,000). The taxpayer can however rebut these presumptions by demonstrating that such conversion or transfer was principally justified by motives other than tax avoidance.

Prospective investors are strongly advised to seek their own professional advice in relation to the annual tax on securities accounts.

FRENCH TAXATION

This summary is based on tax laws and taxation practice, as in effect and applied as at the date of this Securities Note and is intended to provide general information only. This section does not address all French tax considerations that may be relevant to an investor. In some cases, different rules and specific exemptions can be applicable, depending, in particular, on the characterisation of the Notes and Warrants for French tax purposes or on the specific tax situation of the investor. Tax laws, taxation practices and their interpretation are constantly under change, which changes may sometimes have a retroactive effect and may change, wholly or partly, the conclusions set out in this summary. In particular, this summary may be affected by the Finance Bill for 2026 (Loi de finances pour 2026), a draft of which is currently being discussed before the French Parliament, and any subsequent legislative

or regulatory measures. Investors should seek professional advice with respect to the tax consequences of an investment in the Notes or Warrants, taking into account the particular aspects of their situation.

This summary assumes that Notes and Warrants will be treated as debt securities under French tax law and that the income and gains from the Notes and Warrants does not have a French source. It does not discuss the taxation of derivatives, or instruments deemed to be derivatives, neither does it determine the conditions under which an instrument could be treated as equity rather than debt. It also assumes that the Issuer is not a tax resident for French tax purposes and do not act through a permanent establishment in France in relation to the Notes and Warrants. Finally, it is based on the assumption that there will be no substitution of the Issuer and does not address the consequences of any such substitution (notwithstanding that such substitution may be permitted by the terms and conditions of the Notes and Warrants).

Withholding tax

Income paid or accrued on Notes and Warrants by the Issuer, to the extent such Notes and Warrants are not issued through a French permanent establishment of the Issuer, is not subject to withholding tax in France.

Individual resident Noteholders and Warrantholders

Taxation of income

The income deriving from the Notes and Warrants, including redemption premiums are generally treated as interest from a French personal income tax perspective.

Interest and other income received by French resident holders of Notes and Warrants, who do not hold their Notes and Warrants in connection with a business they carry on, are liable in the hands of the investor to income tax and social contributions following a two-step process.

Interest and other similar revenues received by French tax resident individuals are first subject to a non-discharging withholding tax ("*prélèvement forfaitaire non libératoire*" or PFNL) withheld at a flat-rate of 12.8% as well as 17.2% of social contributions. The PFNL is considered to be an advance payment on the final tax liability. The PFNL must be withheld and reported by the Paying Agent if such agent is established in France. If the Paying Agent is established outside of France, the taxpayer is responsible for paying the PFNL to the French tax authorities no later than the 15th day of the month following the payment of interest and other similar revenues. If the Paying Agent is established in an EU or EEA member state, it can however be appointed by the taxpayer to withhold and report the PFNL.

Upon final taxation, the income paid to a French tax resident individual is then in principle taxed at a flat rate of 31.4% (12.8% of income tax and 18.6% of social contributions – together referred to as the "*prélèvement forfaire unique*" or PFU) or, upon election, under the ordinary progressive brackets of income tax (the election would apply on all investment income and capital gains) at a standard progressive rate of up to 45%. If the French tax resident individual elects for the application of the ordinary progressive brackets, a 6.8% portion of the aforementioned social contributions should be deductible from the taxable income of the following tax year.

Should the amount of the PFNL exceed the final tax liability, the difference would be refunded to the French resident individual.

If the French resident individual receives income subject to a withholding tax in the Issuer's jurisdiction, a French tax credit may be available under the applicable tax treaty (up to the amount of the relevant French tax liability).

Taxation of capital gains

Capital gains derived from the disposal of the Notes and Warrants should be in principle subject to the PFU, at a global rate of 31.4% (12.8% of personal income tax and 18.6% of social contributions). If the French tax resident

individual elects for the application of the ordinary progressive brackets, a 6.8% portion of the aforementioned social contributions should be deductible from the taxable income of the following tax year.

If French tax resident holders of Notes and Warrants dispose of the Notes or of the Warrants at a loss, capital losses can in principle be offset against capital gains recognised during the same year and having the same nature, the excess being carried forward for a maximum of 10 years. Conversely, capital losses will not be otherwise deductible for income tax purposes.

In case of settlement, redemption or other forms or repayment by way of physical delivery of shares, the taxation of the corresponding income may, in certain circumstances, be deferred until the disposal of the received shares. French resident individuals should consult their advisors regarding these aspects.

Exceptional contribution on high income ("Contribution exceptionnelle sur les hauts revenus")

An exceptional contribution on high income may be applicable to French tax resident holders of Notes and Warrants where their "reference tax income" exceeds €250,000 for a single person or €500,000 for a couple taxed on a joint basis.

The "reference tax income" for the relevant fiscal year would include income and gains realised in relation to the Notes and Warrants.

This contribution is equal to 3% of the fraction of the "reference tax income" above €250,000 for a single person (or €500,000 for a couple) and, 4% on the "reference tax income" over €500,000 for a single person (or €1 million for a couple).

Gift and inheritance taxes

Subject to the provisions of the relevant bilateral tax treaty, French gift or inheritance taxes would be levied on the transfer of the Notes and Warrants by way of gift by, or on the death of, French tax resident Noteholders and Warrantholders, if:

(a) the holder of Notes and Warrants is a resident in France; or

(b) the beneficiary is resident in France and has been so resident for at least six years over the ten preceding years; or

(c) if both the holder of Notes and Warrants and the beneficiary are non-French residents, the transferred assets are located in France.

Assets considered as located in France would include receivables and other forms of debt instruments over a debtor which is established in France.

The amount of tax depends, in particular, on the kinship between the individuals concerned, together with any available tax exceptions.

Corporate resident Noteholders and Warrantholders

Corporate income tax and additional contribution – general aspects

As a general rule, income or capital gains in relation to the Notes and Warrants are subject to corporate income tax at the standard rate of 25% (or to specific rates applicable depending on a corporate taxpayer's turnover and the level of its taxable profits) on an accruals basis. A so-called social contribution may also apply to the corporate income tax at a 3.3% rate, assessed on the corporate income tax liability exceeding €763,000 per financial year, subject to certain exemptions.

Capital losses are generally treated as ordinary losses which may be set off against operational profits. The remaining losses may be carried forward indefinitely but their use is limited, for a given year, to €1 million plus 50% of the taxable profit of the relevant financial year exceeding this amount. Besides, an option can be made by the holders of Notes and Warrants in order to carry back the losses against their prior taxable result up to the limit of €1 million.

If the French corporate resident holder of Notes and Warrants receives income subject to a withholding tax in the Issuer's jurisdiction, a French tax credit may be available under the applicable tax treaty (up to the amount of the relevant French tax liability).

Taxation of interest and redemption premiums

In principle, interest payments are taxed at the above-mentioned standard corporate income tax rate (or the reduced rate applicable to small companies where the relevant conditions are met) on the basis of accrued interest.

Any redemption premium would be taxed at the above-mentioned standard corporate income tax rate (or to specific rates applicable to small and medium companies meeting certain requirements). However, if the estimated value of the redemption premium exceeds the purchase value of the Notes and Warrants by 10% or more and the average issue price of the Notes and Warrants is less than 90% of the estimated redemption value, such premium is spread according to the actuarial method so as to be taxed until the maturity on an annual basis (special rules being applicable in case of so called indexed instruments).

If the French corporate resident holder of Notes and Warrants receives income subject to a withholding tax in the Issuer's jurisdiction, a French tax credit may be available under the applicable tax treaty (up to the amount of the relevant French tax liability).

Taxation of Capital gains

Capital gains derived from the disposal of the Notes and Warrants, by corporate resident holders should be taxable at standard rate. The taxable gains should be reduced by the amount of the fraction of interest and redemption premiums taxed under the actuarial method.

In case of settlement, redemption or other forms or repayment by way of physical delivery of shares, the taxation of the corresponding income may, in certain circumstances, be deferred until the disposal of the received shares. French corporate resident holders of Notes and Warrants should consult their advisors regarding these aspects.

Non-resident holders of Notes and Warrants

Income and capital gains derived from the Notes and Warrants, received by individuals who are not residents for tax purposes in France and any corporate investors which have neither their corporate seat nor their effective place of management in France, are not taxable in France unless the Notes and Warrants form part of the business property of a permanent establishment in France.

Transfer Taxes

The subscription, purchase or subsequent sale of Notes and Warrants is not in principle subject to transfer tax in France. However, the following may be relevant in connection with Notes and Warrants which are settled or redeemed by way of physical delivery of French shares:

(a) The settlement, redemption or other forms or repayment by way of physical delivery of outstanding shares in French companies should generally give rise to French transfer taxes pursuant to administrative guidelines. The conversion or exchange of Notes and Warrants against shares issued by a public company whose

registered office is located in France for consideration is, in principle, subject to a 0.1% transfer tax[55] (the "**French Transfer Tax**"), provided, in the case of shares listed on a recognised stock exchange, that the transfer is evidenced by a written deed or agreement.

(b) A financial transactions tax (the "**French Financial Transactions Tax**") is imposed, subject to certain exceptions, on certain acquisitions of French shares (or certain assimilated securities) which are listed on a recognised stock exchange where the Issuer's stock market capitalisation exceeds €1 billion (on 1st December of the previous calendar year). The rate of the French Financial Transactions Tax is 0.4% of the acquisition price of the transaction. There are a number of exemptions from the French Financial Transactions Tax and investors shall revert to their counsel to identify whether they can benefit from them.

(c) If the French Financial Transactions Tax is effectively due in respect of a transaction that would normally trigger the payment of the French Transfer Tax, an exemption in respect of the French Transfer Tax is applicable.

GERMAN TAXATION

The following is an overview addressing only the German compulsory withholding tax treatment of income arising from the Notes and Warrants. This overview is based on the laws and regulations in full force and effect in Germany as of the date of this Securities Note, which may be subject to change in the future, potentially with retroactive effect. The summary does not deal with any other German tax implications of acquiring, holding or disposing of the Notes and Warrants. Investors should be aware that the comments below are of a general nature and do not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or sale of the Notes and Warrants.

Residents of Germany

On the date of this Securities Note, there is in the Federal Republic of Germany no statutory obligation for the Issuer to withhold or deduct any German withholding tax (*Kapitalertragsteuer*) from payments of interest and repayment of capital on the Notes and Warrants as well as gains from the disposal, redemption, repayment or assignment of the Notes and Warrants.

However, if the Notes or Warrants are kept or administered in a domestic securities deposit account by a German credit institution (*Kreditinstitut*), financial services institution (*Finanzdienstleistungsinstitut*) or securities institution (*Wertpapierinstitut*) (or with a German branch of a foreign credit institutions, financial services institution or securities institution) (altogether a "**German Disbursing Agent**") and such German Disbursing Agent credits or pays out the earnings, the German Disbursing Agent will withhold the tax in an amount of 25% *plus* a 5.5% solidarity surcharge thereon (resulting in a total withholding tax charge of 26.375%) on payments of interest. The same withholding applies to any gains from the disposal, redemption, repayment or assignment of Notes and Warrants except for any gains derived by German resident corporate holders and upon application by individual holders holding the Notes and Warrants as business assets. If the Notes or Warrants were disposed, redeemed, repaid or assigned after being transferred to another securities deposit account, the 25% withholding tax (*plus* a 5.5% solidarity surcharge thereon) would be levied on 30% of the proceeds from the disposal, redemption, repayment or assignment, as the case may be, unless the investor or the previous depository bank was able to prove evidence for the investor's actual acquisition costs to the new current German Disbursing Agent.

[55]Other rates and specific rules may apply in specific circumstances (e.g. a 3% rate if the shares have been issued by a French private company or a French partnership, or a 5% rate of the shares have been issued by a real estate company for French transfer tax purposes).

The applicable withholding tax rate is in excess of the aforementioned rate if church tax is collected for an individual investor by way of withholding which is provided for as a standard procedure unless the Securityholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) or if the savings income forms part of income from trade business, self-employment, agriculture and forestry, or letting and leasing. In such cases, the investor has to include the savings income in the tax return and will then be assessed to church tax.

Non-residents of Germany

In general, non-residents of Germany are not subject to German withholding tax, subject to meeting certain further requirements. However, withholding tax may nevertheless be applicable in certain exceptional cases, e.g. if the Notes or Warrants are presented for payment or credit at the offices of a German Disbursing Agent (over-the-counter transaction) or if the income from the Notes or Warrants qualifies for other reasons as taxable German source income.

ITALIAN TAXATION

The following is a summary of certain Italian tax consequences of the purchase, the ownership and the disposal of the Notes or Warrants. The statements herein are based on the laws and/or practices in force as of the date of this Securities Note, which are subject to any changes occurring after such date, even with retroactive effects. The Issuer will not update this summary to reflect changes in law and/or practice. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes or Warrants and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Prospective investors are advised to consult their own tax advisors concerning the overall tax consequences of their interest in the Notes or Warrants.

Tax Changes

Law No. 111 of 9 August 2023, published in the Official Gazette No. 189 of 14 August 2023 ("**Law 111**"), delegated the Italian Government to enact, within twenty-four months from its publication, one or more legislative decrees implementing the reform of the Italian tax system (the "**Tax Reform**"). Law No. 120 of 8 August 2025 has recently amended certain provisions of Law 111 and extended the deadline for the enactment of the legislative decrees implementing the tax reform to thirty-six months from the publication of Law 111 (i.e. until 29 August 2026), allowing additional time for the implementation of such reform. The Government will in any case retain delegation to adopt corrective and supplementary provisions to such legislative decrees implementing the tax reform until 29 August 2028.

According to Law 111, the Tax Reform is expected to significantly change the tax regimes of income deriving from financial instruments and to introduce various amendments in the Italian tax system at different levels.

The aim of the Tax Reform is, *inter alia*, to harmonise the tax treatment of financial instruments, by introducing a single category of financial income that includes both capital income and other income of a financial nature and allowing for the possibility of offsetting income and losses and carrying forward any excess losses to subsequent fiscal years.

The nature, extent, and impact of these changes cannot be foreseen and/or assessed with certainty at the date of this Securities Note. As a result, the information provided in this Securities Note may not comply with the future tax landscape.

Prospective purchases of the Notes and Warrants should be aware that the prospective changes to the tax regime of interest income and capital gains could lead to an increased tax cost for the prospective purchasers of the Notes and Warrants and, consequently, result in a lower return on their investment.

Prospective purchasers of the Notes and Warrants should consult their own tax advisors regarding the tax consequences described above.

Tax treatment of the Notes and Warrants

The Notes and Warrants may be subject to different tax regimes depending on whether:

(a) they represent derivative financial instruments or bundles of derivative financial instruments, through which the Noteholders or Warrantholders purchase indirectly underlying financial instruments; or

(b) they represent a debt instrument implying a "use of capital" (*impiego di capitale*), through which the Noteholders and Warrantholders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity.

Notes and Warrants representing derivative financial instruments or bundles of derivative financial instruments

Italian resident Noteholders and Warrantholders

Where the Italian resident Noteholder or Warrantholder is (i) an individual not engaged in an entrepreneurial activity to which the Notes or Warrants are connected, (ii) a partnership (other than a *società in nome collettivo or società in accomandita semplice* or similar commercial partnership) or a de facto partnership not carrying out commercial activities or professional associations, or (iii) a private or public entity other than company, trust not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial, payments in respect of Notes or Warrants qualifying as securitised derivative financial instruments as well as capital gains realised on any sale or transfer for consideration or exercise or redemption thereof are subject to a 26% substitute tax (*imposta sostitutiva*). Said recipients may opt for one of the following three taxation regimes:

(a) Under the "*regime della dichiarazione*" (the "**Tax Declaration Regime**"), which is the standard regime for taxation of capital gains, the 26% imposta sostitutiva on capital gains will be chargeable on a cumulative basis, on all payments in respect of Notes or Warrants and all capital gains, net of any incurred capital loss, realised pursuant to all disposals of the Notes or Warrants carried out during any given tax year. The overall capital gains realised in any tax year, net of any relevant incurred capital loss, must be reported in the annual tax return and the imposta sostitutiva must be paid on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

(b) As an alternative to the Tax Declaration Regime, Noteholders or Warrantholders as listed above may elect to pay under the "*risparmio amministrato*" regime provided for by Art. 6 of Legislative Decree 21 November 1997, No. 461 ("**Decree No. 461**") (the "**Administrative Savings Regime**") the *imposta sostitutiva* separately on payments received in respect of Notes or Warrants and capital gains realised on each sale or redemption of the Notes or Warrants. Such separate taxation of capital gains is allowed subject to (i) the Notes or Warrants being deposited with Italian banks, "*società di intermediazione mobiliare*" ("**SIMs**") or certain authorised financial intermediaries and (ii) an express election for the Administrative Savings Regime being timely made in writing by the relevant Noteholder or Warrantholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of the Notes or Warrants (as well as in respect of capital gains realised upon the revocation of its mandate), net of any

incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or Warrantholder or using funds provided by the Noteholder or Warrantholder for this purpose. Under the Administrative Savings Regime, where a sale or redemption of the Notes or Warrants results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the Administrative Savings Regime, the Noteholder or Warrantholder is not required to declare the capital gains in the annual tax return.

(c) Any payments received and any capital gains accrued by the Noteholder or Warrantholder as listed above who have entrusted the management of their financial assets, including the Notes or Warrants, to an authorised intermediary and have opted for the so-called "*risparmio gestito*" regime provided for by Art. 7 of Decree No. 461 (the "**Asset Management Regime**") will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26% imposta sostitutiva, to be paid by the managing authorised intermediary. Under the Asset Management Regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Regime, the Noteholder or Warrantholder is not required to declare the capital gains realised in the annual tax return.

Any gain realised from the sale or redemption of the Notes or Warrants would be treated as part of the taxable income subject to the general Italian corporate tax regime (corporate income tax, "**IRES**", is generally applicable at 24%, possibly increased to 27.5% in case the Noteholder or Warrantholder is a credit or a financial institution other than a management company of an undertaking for collective investment or a SIM) or to personal income taxation (as business income), as the case may be, according to the ordinary rules (personal income tax, "**IRPEF**", is generally applicable at progressive rates between 23% up to 43% plus regional and municipal surtaxes) and, in certain circumstances, depending on the tax "status" of the Noteholders or Warrantholders, also as part of the net value of production for purposes of regional tax on productive activities ("**IRAP**", generally applicable at 3.9% - 6.65% and 7.90% in case, respectively, of banks and other financial institutions and insurance companies - and possibly varied up to 0.92% by certain Italian regions) if realised by: (i) an Italian resident company or a similar commercial entity; (ii) an Italian resident commercial partnership or similar commercial entity; (iii) an Italian permanent establishment of a foreign entity to which the Notes or Warrants are effectively connected; or (iv) an Italian resident individual engaged in an entrepreneurial activity to which the Notes or Warrants are connected.

Subject to certain limitations and requirements (including a minimum holding period), capital gains in respect of Notes or Warrants realised upon sale, transfer or redemption by Italian resident individuals holding the Notes or Warrants not in connection with an entrepreneurial activity may be exempt from taxation, including the 26% *imposta sostitutiva*, if the Notes or Warrants are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant to Italian law, as subsequently amended and restated from time to time.

Under the current regime provided for by Law Decree 25 September 2001, No. 351, converted with amendments by Law 23 November 2001, No. 410, any capital gain realised by a Noteholder or Warrantholder which is an Italian resident real estate investment fund established pursuant to Article 37 of Legislative Decree 24 February 1998, No. 58, as amended and supplemented, and Article 14-bis of Law 25 January 1994, No. 86 or an Italian SICAF to which the provisions of Legislative Decree 4 March 2014, No. 44, applies (the "**Real Estate UCIs**") is subject neither to *imposta sostitutiva* nor to any other income tax in the hands of the Real Estate UCI. The income of the Real Estate UCI, depending on the status and percentage of participation by the unitholders/shareholders, is (i) directly subject to tax in their hands or (ii) subject to a withholding tax at the rate of 26% upon redemption or disposal of the units/shares.

Any capital gain realised by a Noteholder or Warrantholder which is an Italian resident open-ended or closed-ended collective investment fund, a SICAV and/or a SICAF not mainly investing in real estate assets and not governed by Legislative Decree 4 March 2014, No. 44 (the "**UCIs**") will neither be subject to *imposta sostitutiva* nor to any form of taxation in the hands of the UCIs. A withholding tax may apply in certain circumstances at the rate of 26% on distributions made by the UCI to certain categories of Noteholders or Warrantholders.

Any capital gain realised by a Noteholder or Warrantholder which is an Italian pension fund (subject to the regime provided for by Article 17 of the Legislative Decree 5 December 2005, No. 252, as subsequently amended, "**Decree No. 252**") will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20% annual substitute tax (the "**Pension Fund Tax**").

Non-Italian resident Noteholders and Warrantholders

Any capital gain realised by a non-Italian resident Noteholder or Warrantholder without a permanent establishment in Italy to which the Notes or Warrants are effectively connected from the sale or redemption of the Notes or Warrants is not subject to Italian taxation, provided that the Notes or Warrants (i) are transferred on regulated markets in Italy or abroad, or (ii) (a) are not transferred on regulated markets but are held outside of Italy and (b) are deposited with an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of capital gains on such Notes or Warrants, to the extent that, the Noteholder or Warrantholder timely files with the Italian bank or other intermediary a self-declaration stating that it is not resident in Italy for tax purposes.

Moreover, even if the Notes or Warrants are held in Italy, no Italian *imposta sostitutiva* applies on any capital gains realised upon sale for consideration or redemption of the Notes or Warrants if the non-Italian resident beneficial owner of the Notes or Warrants with no permanent establishment in Italy to which the Notes or Warrants are effectively connected is resident for tax purposes in a State or territory which allows an adequate exchange of information with the Italian tax authorities and is listed in the Italian Ministerial Decree dated 4 September, 1996 as amended and supplemented from time to time (last amendment being made by Italian Ministerial Decree dated 23 March 2017) (the "**White List**"). According to Article 11, par. 4, let. c) of Decree 239 the White List will be updated every six months period. The same exemption applies where the beneficial owners of the Notes or Warrants are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in countries included in the White List, even if they do not have the *status* of taxpayers in their own country of residence; or (iii) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State. Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Notes or Warrants are effectively connected elect for the Asset Management Regime or are subject to the Administrative Savings Regime, exemption from Italian capital gains tax will apply upon condition that they provide in time with the authorised financial intermediary an appropriate self-declaration (*autocertificazione*) stating that they meet the requirement indicated above. Additional statements may be required for non-Italian resident Noteholders or Warrantholders who are institutional investors.

A non-Italian resident individual or an entity without a permanent establishment in Italy to which the Notes or Warrants are connected that may benefit from a double taxation treaty with the Republic of Italy providing that capital gains realised upon the sale or redemption of Notes or Warrants and is taxed only in the country of tax residence of the recipient, will not be subject to the *imposta sostitutiva* in the Republic of Italy on any capital gain realised upon the sale or redemption of Notes or Warrants. In such a case, in order to benefit from this exemption from Italian taxation on capital gains, a non-Italian resident Noteholder or Warrantholder who holds the Notes or Warrants with an Italian authorised financial intermediary and elects to be subject to the Asset Management Regime or is subject to

the Administrative Savings Regime, may be required to produce in due time to the Italian authorised financial intermediary appropriate documents which include, *inter alia*, a statement from the competent tax authorities of the country of residence.

Please note that for a non-Italian resident Noteholder or Warrantholder, the Administrative Savings Regime shall automatically apply, unless it is expressly waived, where the Notes or Warrants are deposited in custody or administration with an Italian resident authorised financial intermediary or permanent establishment in the Republic of Italy of a foreign intermediary.

Notes and Warrants representing debt instruments implying a "use of capital" - Notes and Warrants having 100% capital protection guaranteed by the Issuer

Taxation of interest

Italian Resident Noteholders and Warrantholders

Legislative Decree 1 April 1996, No. 239 ("**Decree No. 239**"), as subsequently amended, regulates the tax treatment of interest, premiums and other income (including the difference between the redemption amount and the issue price) (hereinafter collectively referred to as "**Interest**") from Notes or Warrants issued, *inter alia*, by non-Italian resident entities. The provisions of Decree No. 239 only apply to those Notes or Warrants which qualify as *obbligazioni or titoli similari alle obbligazioni* (securities similar to bonds) pursuant to Article 44 of Presidential Decree 22 December 1986, No. 917 ("**Decree No. 917**"). In accordance with Article 44 of Decree No. 917, for securities to qualify as *obbligazioni or titoli similari alle obbligazioni*, they must (i) incorporate an unconditional obligation to pay at maturity an amount not less than that indicated therein, and (ii) attribute to the holders no direct or indirect right to control or participate to the management of the Issuer.

Where the Italian resident Noteholder or Warrantholder, who is the beneficial owner of the Notes or Warrants, is (i) an individual holding Notes or Warrants otherwise than in connection with entrepreneurial activity, or (ii) a partnership (other than a *società in nome collettivo or a società in accomandita semplice* or a similar partnership) or a de facto partnership not carrying out commercial activities or a professional association, or (iii) a private or public entity other than a company, or a trust not carrying out mainly or exclusively commercial activities, the Italian State and a public and territorial entity, or (iv) an investor exempt from Italian corporate income taxation, Interest payments relating to the Notes or Warrants are subject to a tax, referred to as *imposta sostitutiva*, levied at the rate of 26% (either when Interest is paid or when payment thereof is obtained by the holder on a sale of the Notes or Warrants). Such investors are qualified as "net recipients" (unless the Noteholders or Warrantholders referred to under (i), (ii) and (iii) above have entrusted the management of their financial assets, including the Notes or Warrants, to an authorised intermediary and have opted for the Asset Management Regime).

Where the resident holders of the Notes or Warrants described above under (i), (ii) and (iii) above are engaged in an entrepreneurial activity to which the Notes or Warrants are connected, the *imposta sostitutiva* applies as a provisional income tax. Interest will be included in the relevant beneficial owner's Italian income tax return and will be subject to Italian ordinary income taxation and the *imposta sostitutiva* may be recovered as a deduction from Italian income tax due.

Subject to certain conditions (including a minimum holding period), Interest in respect of Notes or Warrants issued by the Issuer that qualify as *obbligazioni or titoli similari alle obbligazioni*, received by Italian resident individuals holding the aforesaid Notes or Warrants not in connection with an entrepreneurial activity may be exempt from taxation, including the 26% imposta sostitutiva, if such Notes or Warrants are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) pursuant to Italian law, as subsequently amended and restated from time to time.

Where an Italian resident Noteholder or Warrantholder is an individual who has not been tax resident of Italy for at least 9 of the past 10 years, who transferred his/her tax residence in Italy and opted for the application of the substitute tax regime provided for by Article 24-bis of Decree No. 917, any foreign-sourced income, including Interest in respect of Notes or Warrants held out of Italy, would be globally subject to a substitute tax of €300,000.00 which is substitutive of any Italian income tax due on such foreign-sourced income.

Pursuant to Decree No. 239, the 26% *imposta sostitutiva* is applied by banks, SIMs, fiduciary companies, *società di gestione del risparmio* ("**SGRs**") stock brokers and other qualified entities identified by a decree of the Ministry of Finance ("**Intermediaries**" and each an "**Intermediary**") resident in Italy, or by permanent establishments in Italy of a non-Italian resident Intermediary, that intervene, in any way, in the collection of Interest or, also as transferees, in transfers or disposals of the Notes or Warrants. For the purpose of the application of the *imposta sostitutiva*, a transfer of securities includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant securities or in a change of the Intermediary with which the securities are deposited.

Where the Notes or Warrants are not deposited with an authorised Italian Intermediary (or with a permanent establishment in Italy of a foreign Intermediary), the *imposta sostitutiva* is applied and withheld by any Italian Intermediary paying Interest to the Noteholder or Warrantholder. If Interest on the Notes or Warrants are not collected through an Intermediary or any entity paying interest and as such no *imposta sostitutiva* is levied, the Italian resident beneficial owners qualified as "net recipients" will be required to include Interest in their yearly income tax return and subject them to a final substitute tax at a rate of 26%. The Italian resident Noteholder or Warrantholder may elect instead to pay IRPEF at the applicable progressive rates in respect of the Interest; if so, the Noteholder or Warrantholder should generally benefit from a tax credit for withholding taxes applied outside of Italy, if any.

Where an Italian resident Noteholder or Warrantholder is a company or similar commercial entity pursuant to Article 73 of Decree No. 917 or a permanent establishment in Italy of a foreign company to which the Notes or Warrants are effectively connected and the Notes or Warrants are deposited with an authorised Intermediary, Interest from the Notes or Warrants will not be subject to the *imposta sostitutiva*, but must be included in the relevant Noteholder's or Warrantholder's income tax return and are therefore subject to IRES, levied at the rate of 24% (27.5% in case the Noteholder or Warrantholder is a credit or a financial institution other than a management company of an undertaking for collective investment or a SIM) and, in certain circumstances, depending on the tax status of the Noteholders or Warrantholders, also to IRAP - generally levied at the rate of 3.9%, or at the increased of 6.65% and 7.90% for the categories of companies indicated, respectively, under Article 6 (banks and other financial institutions) and Article 7 (insurance companies) of Legislative Decree 15 December 1997, No. 446, even though Italian regions are entitled to vary the IRAP rates up to 0.92%).

Italian resident individuals, non-commercial partnerships or entities holding Notes or Warrants not in connection with entrepreneurial activity who have opted for the Asset Management Regime are subject to the 26% *imposta sostitutiva* on the increase in value of the managed assets accrued at the end of each tax year (which increase would include Interest accrued on the Notes or Warrants). The 26% imposta sostitutiva is applied on behalf of the taxpayer by the managing authorised Intermediary.

If a Noteholder or Warrantholder is an Italian resident Real Estate UCI and the Notes or Warrants are deposited with an authorised intermediary, Interest accrued during the holding period will not be subject to the *imposta sostitutiva* but must be included in the management result of the Real Estate UCI. The income of the Real Estate UCI, depending on the status and percentage of participation by the unitholders/shareholders, is (i) directly subject to tax in their hands or (ii) subject to a withholding tax at the rate of 26% upon redemption or disposal of the units/shares.

If a Noteholder or Warrantholder is an Italian resident UCI and the Notes or Warrants are deposited with an authorised Intermediary, Interest accrued during the holding period will not be subject to *imposta sostitutiva* but must

be included in the management result of the UCI. A withholding tax may apply in certain circumstances at the rate of 26% on distributions made by the UCI to certain categories of unitholders or shareholders.

Where an Italian resident Noteholder or Warrantholder is a pension fund pursuant to Decree No. 252 and the Notes or Warrants are deposited with an authorised Intermediary, Interest (including the difference between the redemption amount and the issue price) relating to the Notes or Warrants and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the Pension Fund Tax. Subject to certain conditions, Interest in respect to the Notes or Warrants may be excluded from the taxable base of the Pension Fund Tax pursuant to Article 1, paragraph 92, of Law No. 232 if Notes or Warrants that qualify as *obbligazioni or titoli similari alle obbligazioni* are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) pursuant to Italian law, as subsequently amended and restated from time to time.

Non-Italian resident Noteholders and Warrantholders

No Italian *imposta sostitutiva* or withholding tax is applied on payments of Interest relating to the Notes or Warrants issued by the Issuer that qualify as *obbligazioni or titoli similari alle obbligazioni* or "atypical securities" (*titoli atipici*) to a non-Italian resident Noteholder or Warrantholder not having a permanent establishment in Italy to which the Notes or Warrants are effectively connected.

If the Notes or Warrants issued by a non-Italian resident issuer and beneficially owned by non-Italian residents are deposited with an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or are sold through an Italian bank or other resident intermediary (or permanent establishment in Italy of foreign intermediary) or in any case an Italian resident intermediary (or permanent establishment in Italy of foreign intermediary) intervenes in the payment of Interest on such Notes or Warrants, to ensure payment of Interest without application of Italian taxation a non-Italian resident Noteholder or Warrantholder may be required to produce to the Italian bank or other intermediary a self-declaration stating that he/she is not resident in Italy for tax purposes.

Notes and Warrants not having 100% capital protection guaranteed by the Issuer – Taxation of Interest

Italian Resident Noteholders and Warrantholders

In case Notes or Warrants representing debt instruments implying a "use of capital" do not guarantee the total reimbursement of the principal, under Italian tax law they should qualify as "atypical securities" (*titoli atipici*) pursuant to Law Decree 30 September 1983, No. 512 ("**Decree No. 512**") and payments in respect of such Notes or Warrants received by Italian resident individual Noteholders or Warrantholders would be subject to the following regime:

(a) if the Notes or Warrants are placed (*collocati*) in Italy, payments made to individual investors holding the Notes or Warrants not in connection with an entrepreneurial activity will be subject to a 26% final withholding tax. This withholding tax is levied by the entrusted Italian resident bank or financial intermediary, if any, that is involved in the collection of payments on the Notes or Warrants, in the repurchase or in the transfer of the Notes or Warrants;

(b) if the Notes or Warrants are not placed (*collocati*) in Italy or in any case where payments on the Notes or Warrants are not received through an entrusted Italian resident bank or financial intermediary (that is involved in the collection of payments on the Notes or Warrants, in the repurchase or in the transfer thereof) and no withholding tax is levied, the individual beneficial owners will be required to declare the payments in their income tax return and subject them to a final substitute tax at a rate of 26%. The Italian individual Noteholder or Warrantholder may elect instead to pay ordinary IRPEF at the progressive rates applicable to them in respect of the payments; if so, the Italian individual Noteholder or Warrantholder should generally benefit from a tax credit for withholding taxes applied outside Italy, if any.

The 26% withholding tax does not apply to payments made to an Italian resident Noteholder or Warrantholder which is (i) an Italian resident commercial partnership, (ii) an Italian resident company or a similar Italian resident commercial entity (including the Italian permanent establishment of foreign entities to which the Notes or Warrants are effectively connected) and (iii) a commercial private or public institution. In particular, in such cases, payments must be included in the relevant Noteholder's or Warrantholder's annual income tax return to be therefore subject to ordinary Italian business income taxation (and, in certain circumstances, depending on the status of the Noteholder or Warrantholder, also to IRAP) and the beneficial owners should be generally entitled to a tax credit for any withholding tax applied outside Italy.

Subject to certain conditions, Italian resident individuals not acting in connection with an entrepreneurial activity may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Notes or Warrants not falling within the category of *obbligazioni or titoli similari alle obbligazioni* and qualifying as "atypical securities" pursuant to Article 5 of Decree No. 512 if the Notes or Warrants are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) pursuant to Italian law, as subsequently amended and restated from time to time.

Non-Italian Resident Noteholders and Warrantholders

Please refer to paragraph "*Notes representing debt instruments implying a "use of capital" - Notes having 100% capital protection guaranteed by the Issuer – Non-Italian resident Noteholders and Warrantholders"* for the applicable regime.

Notes and Warrants representing debt instruments implying a "use of capital" - Capital gains tax

Italian resident Noteholders and Warrantholders

The relevant capital gains regime applies under similar rules to those described above under the caption "*Notes and Warrants representing derivative financial instruments or bundles of derivative financial instruments – Italian resident Noteholders and Warrantholders*".

Subject to certain conditions, capital gains in respect of the Notes or Warrants issued by the Issuer that qualify as *obbligazioni or titoli similari alle obbligazioni* and "atypical securities" (*titoli atipici*) realised upon sale, transfer or redemption by Italian resident Noteholder or Warrantholder holding the Notes or Warrants not in connection with an entrepreneurial activity may be exempt from taxation, including the 26% imposta sostitutiva, if the Notes or Warrants are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) pursuant to Italian law, as subsequently amended and restated from time to time.

Non-Italian resident Noteholders and Warrantholders

The relevant capital gains regime applies under similar rules to those described above under the caption "*Notes and Warrants representing derivative financial instruments or bundles of derivative financial instruments – Non-Italian resident Noteholders and Warrantholders*".

Inheritance and gift tax

Pursuant to Law Decree 3 October 2006, No. 262, converted with amendments by Law 24 November 2006, No. 286, as subsequently amended, transfers of any valuable assets (including the Notes or Warrants) as a result of death (*mortis causa*) or *inter vivos* gift (or other transfers for no consideration) and the creation of liens on such assets for a specific purpose (*vincoli di destinazione*) are taxed as follows:

(a) 4% if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on that part of the value that exceeds €1,000,000 (per beneficiary);

(b) 6% if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on that part of the value that exceeds €100,000 (per beneficiary);

(c) 6% if the transfer is made to relatives up to the fourth degree (*parenti fino al quarto grado*), to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree (*affini in linea retta nonché affini in linea collaterale fino al terzo grado*); and

(d) 8% in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax applies on that part of the value that exceeds €1,500,000.

Moreover, an anti-avoidance rule is provided for by Article 16 of Law 18 October 2001, No. 383 in the case of a gift of assets, such as the Notes or Warrants, whose sale for consideration would give rise to capital gains to be subject to the *imposta sostitutiva* provided for by Decree No. 461, as subsequently amended. In particular, if the donee sells the Notes or Warrants for consideration within five years from their receipt as a gift, the latter is required to pay the relevant imposta sostitutiva as if the gift had never taken place.

The *mortis causa* transfer of financial instruments included in a long-term savings account (*piano individuale di risparmio a lungo termine*), that meets the requirements set forth by the Italian law, as subsequently amended and restated from time to time.

Stamp Duty

Pursuant to Article 13, paragraph 2-ter, of the Tariff Part I attached to Presidential Decree 26 October 1972, No. 642, as subsequently amended, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients and relating to securities and financial instruments. The stamp duty applies at a rate of 0.20%; this stamp duty is determined on the basis of the market value or – if no market value is available – the nominal value or redemption amount of the securities held. The stamp duty cannot exceed the amount of €14,000 if the recipient of the periodic reporting communications is an entity (i.e., not an individual).

The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable based on the period accounted.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

The stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the Notes or Warrants are held with an Italian-based financial Intermediary.

Wealth Tax

Pursuant to Law Decree 6 December 2011, No. 201 converted with amendments by Law 22 December 2011, No. 214, as subsequently amended, Italian resident individuals, non-commercial entities and partnerships and similar entities holding the Notes or Warrants abroad are required to pay in its own annual tax returns a wealth tax ("**IVAFE**") at a rate of 0.20% for each year. Pursuant to Article 19 (20-bis) of Decree No. 201 of 6 December 2011, starting from 2024, the IVAFE rate is increased to 0.40% in case of financial products held in states or territories listed as having a privileged tax regime under Ministerial Decree of 4 May 1999. This tax is calculated on an annual basis on the market value of the securities at the end of the relevant year or – if no market value is available – the nominal value or the

redemption value of such financial assets held abroad. Taxpayers are entitled to an Italian tax credit equivalent to the amount of any wealth tax paid in the State where the financial assets are held (up to an amount equal to the IVAFE due). The maximum wealth tax amount due is set at €14,000 per year for taxpayers other than individuals. The financial assets held abroad are excluded from the scope of the wealth tax, if such financial assets are administered by Italian financial intermediaries pursuant to an administration agreement.

Financial Transaction Tax ("FTT") depending on the features of the Notes and Warrants

Pursuant to Law 24 December 2012, No. 228, FTT applies to (a) transfer of ownership of shares and other participating securities issued by Italian resident companies or of financial instruments representing the aforementioned shares and/or participating securities (irrespective of whether issued by Italian resident issuers or not) (the "**Relevant Notes and Warrants**"), (b) transactions on financial derivatives (i) the main underlying assets of which are the Relevant Notes and Warrants, or (ii) whose value depends mainly on one or more Relevant Notes and Warrants, as well as to (c) any transaction on certain securities (i) which allow to mainly purchase or sell one or more Relevant Notes and Warrants or (ii) implying a cash payment determined with main reference to one or more Relevant Notes and Warrants.

Notes or Warrants could be included in the scope of application of the FTT if they meet the requirements set out above. On the other hand, Notes or Warrants falling within the category of *obbligazioni or titoli similari alle obbligazioni* are not included in the scope of the FTT.

The FTT on derivative instruments is levied at a fixed amount that varies depending on the nature of the relevant instrument and the notional value of the transaction, and ranges between €0.01875 and €200 per transaction. The amount of FTT payable is reduced to 1/5 of the standard rate in case the transaction is performed on regulated markets or multilateral trading facilities of certain EU and EEA Member States. The FTT on derivatives is due by each of the parties to the transactions. FTT exemptions and exclusions are provided for certain transactions and entities.

The FTT is levied and paid by the subject (generally a financial intermediary) that is involved, in any way, in the execution of the transaction. Intermediaries which are not resident in Italy but are liable to apply the FTT can appoint an Italian tax representative for the purposes of the FTT. If no intermediary is involved in the execution of the transaction, the FTT must be paid by the taxpayers.

Investors are advised to consult their own tax advisers also on the possible impact of the FTT in its particular circumstances.

Tax monitoring obligations

Pursuant to Italian Law Decree 28 June 1990, No. 167, converted with amendments by Law 4 August 1990, No. 227, as amended from time to time, Italian resident individuals, non-commercial entities, non-commercial partnerships and similar entities, who are the beneficial owners of investments abroad or of foreign financial assets (including the Notes or Warrants), are required to report in their yearly income tax return – for tax monitoring purposes – the amount of Notes or Warrants held abroad (or beneficially owned abroad under Italian anti-money laundering provisions). This also applies in the case that at the end of the tax year, Notes or Warrants are no longer held by the above Italian resident individuals and entities.

However, the above reporting obligation is not required with respect to Notes or Warrants deposited for management with qualified Italian financial intermediaries and with respect to contracts entered into through their intervention, provided that the same intermediaries apply a withholding tax or imposta sostitutiva on any income derived from the Notes or Warrants.

LUXEMBOURG TAXATION

Holders of Notes and Warrants who are either tax residents of the Grand-Duchy of Luxembourg or have a permanent establishment, a permanent representative or a fixed base of business in the Grand-Duchy of Luxembourg with which the holding of the Notes and Warrants would be connected will be hereafter referred to as the "Luxembourg holders of Notes or Warrants".

Holders of Notes and Warrants do not become tax residents of the Grand-Duchy of Luxembourg or create a taxable presence therein by merely subscribing, acquiring or holding Notes or Warrants unless their holding is connected with a permanent establishment or a fixed base of business they have in the Grand-Duchy of Luxembourg.

The statements herein regarding taxation in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg and are subject to any changes in law. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase, own or dispose of the Notes or Warrants. It does not discuss the taxation of derivatives, neither does it determine the conditions under which an instrument could be treated as equity rather than debt. The latter issue should specifically (but not exclusively) be analysed in the case of capital securities. The developments below will therefore limit themselves to the case where Notes or Warrants qualify as debt under Luxembourg tax legislation. Each prospective holder or beneficial owner of Notes or Warrants should consult its tax adviser as to the Luxembourg tax consequences of the ownership and disposition of the Notes or Warrants.

Withholding tax

Under Luxembourg tax law currently in effect and subject to the exceptions below, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest) or repayments of principal.

Luxembourg taxation on interest payments made to individual Luxembourg residents

In accordance with the Luxembourg law of 23 December 2005, as amended, interest payments made by Luxembourg paying agents, with respect to debt instruments listed and admitted to trading on a regulated market, to Luxembourg individual residents are subject to a 20% withholding tax ("**Relibi**"). Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

In case the individual does not hold the instrument as part of his private wealth, but as part of a commercial (or independent) undertaking, the interest is fully taxable. The current top income tax rate is at 45.78% (i.e., maximum 42% plus a solidarity surcharge of currently up to 9% on the 42%). The 20% Relibi withheld would in that case not be treated as final tax but can be credited against the Luxembourg personal income tax liability.

Taxation of the holders of Notes and Warrants

Taxation of the Luxembourg individual taxpayers

General

Luxembourg holders of Notes and Warrants will not be liable to any Luxembourg income tax upon repayment of principal of the Notes and Warrants, except if the repayments include accrued interest. Income relating to the disposal of a Note or Warrant may qualify as a capital gain for the part not relating to accrued interest.

Taxation of interest

If the Relibi is not withheld, the interest is in principle fully taxable and reportable in the income tax return.

However, for interest paid or credited by foreign paying agents located inside the EU or EEA (but outside Luxembourg) the Luxembourg resident taxpayer may opt for the 20% self-applied income tax via a specific tax form, the deadline being 31 December of the following year. This tax is final and the interest is not reported in the

individual's annual tax return. If the option is not exercised, the individual has to report the interest income in his annual tax return. In case the option is not exercised the interest is subject to the standard tax rates. The current top income tax rate is at 45.78% (i.e., maximum 42% plus a solidarity surcharge of currently up to 9% on the 42%).

Taxation of capital gains

Capital gains (i.e. not including accrued interest) realised by a Luxembourg resident individual in the context of his private wealth are not subject to taxation unless they qualify as speculation gains (as described below) or capital gains on a substantial shareholding (as described below).

In case the Notes or Warrants are held as part of the commercial (or independent) undertaking, the capital gains are in general fully taxable as these capital gains qualify as fully taxable professional income and not as gains from private wealth. Specific tax rates may apply if these instruments are sold when such commercial (independent) activity ceases or is sold.

(i) Speculation gains

Pursuant to article 99bis of the Luxembourg income tax law ("**LITL**"), a gain is treated as a "speculation gain" when the Note or Warrant is sold by a Luxembourg resident individual in the context of his private wealth before the acquisition of this instrument or within a 6 month-period after the acquisition of such Note or Warrant. Such "speculation gains" are subject to income tax at the normal progressive rate, with a current maximum rate at 45.78% (i.e., maximum 42% plus a solidarity surcharge of currently up to 9% on the 42%).

No taxation will arise if the total amount of capital gains (i.e. "speculation gains") realised by a Luxembourg resident individual in the context of his private wealth over the year is less than €500.

(ii) Substantial shareholding

In case the Notes or Warrants could be considered as equity tainted or converted into equity, specific provisions regarding substantial shareholding should be considered. These points are not further developed as only the scenario of a Note or Warrant qualifying as a debt is considered hereunder.

Net wealth tax

Luxembourg individual taxpayers are not subject to net wealth tax.

Taxation of Luxembourg resident companies

Corporations

In the case of a fully taxable corporation, the Relibi on interest income is not applicable because payments are made to a legal entity which is subject to corporate income tax, municipal income tax and net wealth tax. The combined rate for corporate income tax and municipal income tax is 23.87% in 2026 (for a company located in Luxembourg City).

The net wealth tax at a rate of 0.5% is applicable on the tranche up to €500,000,000 of the unitary value which corresponds to the net assets of the corporation with some potential adjustments to be made. The tranche exceeding €500,000,000 is subject to a rate of 0.05%. A minimum net wealth tax liability is levied on companies having their statutory seat or central administration in Luxembourg, which ranges from €535 to €4,815, depending on the total balance sheet of the Luxembourg company.

The difference between the sale price (including accrued but unpaid interest) and the lower of the cost or book value of the Notes or Warrants sold must be included in the Luxembourg companies' (*sociétés de capitaux*) corporate tax return.

Partnerships (non-incorporated form)

In case of non-incorporated partnerships having business activities, the partnership may be subject to Luxembourg municipal business tax. For income and net wealth tax, such partnerships are considered as tax transparent (subject to the application of anti-hybrid rules, as the case may be). Hence, the partners will be subject to income tax and net wealth tax (if any) on their individual profit share.

Taxation of gifts and inheritances

Inheritance tax

Inheritance from all "inhabitants" of Luxembourg is subject to inheritance duties. An "inhabitant" is defined as an individual who at the time of his/her death has established his/her domicile or the centre of management of her/her fortune in Luxembourg.

Inheritance duties are based upon the net worth of the estate, which includes all assets (including the Notes and Warrants) except real estate assets located outside Luxembourg. Direct line inheritance may be exempted from inheritance duties (if conditions are met).

Gift tax

Gift taxes may be levied depending on the nature of the gift, the parties concerned and/or the location where the gift is done and/or registered.

Value-added tax

No value-added tax will be due in Luxembourg in respect of payments made in consideration for the issue of the Notes or Warrants, whether in respect of payments of interest and principal or in respect of the transfer of a Note or Warrant.

Other taxes

There is no compulsory Luxembourg registration tax (as long as the Note or Warrant is considered not submitted for registration), stamp duty or any other similar tax or duty payable in Luxembourg by Luxembourg holders of Notes or Warrants as a consequence of the issuance of the Notes or Warrants, nor will any of these taxes be payable as a consequence of a subsequent transfer of the Notes or Warrants or redemption of the Notes or Warrants.

POLISH TAXATION

The following summary outlines certain principal Polish tax law consequences resulting from investing in the Notes or Warrants. It does not purport to be a comprehensive description of all potentially relevant Polish tax considerations. This summary is not tax advice; it is intended as general information only, and each prospective investor should consult a professional tax adviser with respect to the tax consequences of an investment in the Notes or Warrants.

This summary has been prepared on the basis of the tax legislation, published case law, treaties, regulations, and published official interpretations of Polish tax law in force as at the date of this Securities Note, and does not take into account any developments or amendments thereto after that date, whether or not such developments or amendments operate retroactively.

The nature of income tax in Poland is that it is imposed on income of all natural persons and corporate bodies. Polish tax system differentiates unlimited and limited tax liability that applies to Polish tax resident and Polish non-tax resident, respectively. Unlimited tax liability means that taxpayers are subject to taxation in Poland on their entire worldwide income (revenue). Limited tax liability applies to taxpayers without a place of residence for tax purposes in Poland and who shall be subject to tax liability only in respect of their income earned from Polish sources.

Please note that a reference to Polish income tax encompasses personal income tax (podatek dochodowy od osób fizycznych) and corporate income tax (podatek dochodowy od osób prawnych) generally. Natural persons are generally subject to personal income tax. Corporate income tax applies to legal persons, companies under organisation and some of the partnerships and some of the organisations with no legal personality.

Tax treatment of Polish tax resident individuals

This summary does not address the Polish tax consequences where it concerns Notes or Warrants that are redeemable by settlement in kind (physical delivery of the underlying assets).

Taxation of income gained outside the scope of business activity

The income from the sale of the Notes or Warrants by a Polish tax resident outside the scope of business activity is subject to Polish personal income tax at a flat rate of 19%. The taxable income is the positive difference between income obtained from the sale of the Notes or Warrants and the costs of obtaining that income as defined in the relevant provisions of the Personal Income Tax Act. The losses may be set off against the income from the sale of other financial instruments. The same rules apply to an exercise of the Notes or Warrants by cash settlement. Additional solidarity surcharge at the rate of 4% applies to annual income in excess of PLN 1m per year (this threshold covers income also from certain other sources, e.g. employment, business income, other capital gains).

Incomes from sale and exercise of financial instruments received by a taxpayer in Poland and abroad are as a rule aggregated and non-Polish tax is deducted from tax calculated on aggregated amount of income. Generally, deduction cannot exceed the part of tax calculated before the deduction and proportionally corresponding to the income earned abroad.

Taxation of income gained within the scope of business activity

The income from the sale of the Notes or Warrants by a Polish tax resident within the scope of his business activity is subject to Polish personal income tax either at a 19% flat rate or at progressive rates of 12% (up to PLN 120,000 p.a.; tax free quote of PLN 30,000 p.a.) and 32% on top, depending on the individual decision of the investor made by the 20th day of the month following the month in which the first income from such transactions is realised in the tax year, or by the end of the tax year if the first such income is realised in December of that year (hence typically, the deadline is 20 February of a given tax year). Attributable costs are tax-deductible. Additional solidarity surcharge at the rate of 4% applies to annual income in excess of PLN 1m per year (this threshold covers income also from certain other sources, e.g. employment, business income, other capital gains). The losses may be set off against the income resulting from the business activity. The same rules apply to an exercise of the Note or Warrant by cash settlement.

Foreign-sourced income is accumulated with the income earned within the territory of Poland unless such income is exempted from taxation in Poland on the basis of the provisions of the relevant double tax treaty. Non-Polish tax is deducted from tax calculated on aggregated amount of income. Generally, deduction cannot exceed the part of tax calculated before the deduction and proportionally corresponding to the income earned abroad.

Tax treatment of Polish tax resident legal persons

This summary does not address the Polish tax consequences where it concerns Notes or Warrants that are redeemable by settlement in kind (physical delivery of the underlying assets).

The income from the sale of the Notes or Warrants obtained by legal entities with their registered office or place of management in Poland is recognised as income generated from capital gains and is subject to corporate income tax levied at the rate of 19% (the lower tax rate of 9% provided for small or newly established taxpayers does not apply to capital gains). Attributable costs are tax deductible. The losses may be set off against other income generated from capital gains. The same rules apply to an exercise of the Notes or Warrants by cash settlement.

Foreign-sourced income is accumulated with the income earned within the territory of Poland unless such income is exempted from taxation in Poland on the basis of the provisions of the relevant double tax treaty. Non-Polish tax is deducted from tax calculated on aggregated amount of income. Generally, deduction cannot exceed the part of tax calculated before the deduction and proportionally corresponding to the income earned abroad.

Tax treatment of Polish non-tax residents

As a general rule, a holder of Notes or Warrants, who is either natural or legal person and is not treated as being a tax resident of Poland will not be subject to income tax on benefits derived from the Notes or Warrants, unless such non-Polish tax resident is entitled to a share in the profits of a tax transparent Polish partnership which directly holds the Notes or Warrants. The exception to the above rule is applicable when Notes or Warrants are admitted to public trading in Poland as part of the regulated stock exchange market. In such cases, the holder of Notes or Warrants will be subject to income tax on the disposal of these Notes or Warrants, or upon exercising the rights resulting from them. However, the above exception may be excluded by the provisions of the applicable treaty on avoidance of double taxation.

Withholding tax

Income paid or accrued on the Notes or Warrants is not subject to withholding tax in Poland, provided that interest paid under the Notes or Warrants do not constitute Polish source income.

Civil law transactions tax

A civil law transactions tax at the rate of 1 per cent applies to a sale or exchange of property rights, including Notes or Warrants as a type of financial instrument, provided that the right attached to the Notes or Warrants is exercisable in Poland, or that the right is exercisable outside of Poland but the civil law transaction was concluded in Poland and the purchaser has its registered office or place of residence in Poland. Civil law transactions tax may apply exclusively in the case of sale or exchange of Notes or Warrants. In the case of Notes or Warrants that are exercised by its holder or ones that exercise automatically following a certain date, civil law transactions tax does not apply as long as these Notes or Warrants are not subject to sale or exchange transaction.

If at least one party is subject to VAT or VAT-exempt in relation to the transaction, such transaction is outside the scope of civil law transactions tax.

If the transaction is generally subject to civil law transactions tax in the light of the above rules, it still may be exempted. Exempt from civil law transactions tax is, among other things, the sale of property rights that are financial instruments (e.g. securities or investment certificates):

1) to investment firms and foreign investment firms,

2) effected through investment firms and foreign investment firms,

3) effected as a part of organised trading,

4) effected outside organised trading by investment firms and foreign investment firms if such rights had been acquired by such firms as a part of organised trading, within the meaning of relevant regulations of the Polish Act on Trading in Financial Instruments.

Donation and inheritance tax

Gift and inheritance tax is charged in the case of a donation or inheritance of property rights exercisable in Poland if, at the time of the donation or the inheritance, either the donor/decedent or donator/heir being an individual was a Polish resident or had a permanent place of residence in Poland, and also in the case of property rights exercisable outside the territory of Poland where, at the time of the donation or inheritance, the acquirer was a Polish

resident or had a permanent place of residence in Poland. The amount of such tax depends on the relationship between donor and beneficiary, and on the value of the gift and value of the other gifts received from the same donor within the recent five years. Polish tax law on donations and inheritance also provides for certain exemptions from donation and inheritance tax, in particular for certain close family donations/inheritance as provided in the Polish Donation and Inheritance Tax Act.

ROMANIAN TAXATION

This *section on taxation contains a brief description of the Issuers' understanding with regard to certain important principles which may be of significance in connection with the purchase, holding or sale of the Notes or Warrants by Romanian tax residents. This general description does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. These comments are not intended to be, nor should they be construed to be, legal or tax advice. This description furthermore only refers to investors which are subject to unlimited corporate or income tax liability in Romania, and it is based on the tax legislation in force as at the date of this Securities Note.*

It is recommended that potential investors in the Notes or Warrants consult with their legal and tax advisers as to the tax consequences of the purchase, holding or sale of the Notes or Warrants. Tax risks resulting from the Notes or Warrants shall in any case be borne by the investors.

The summary below assumes that Notes and Warrants will be treated as debts under Romanian tax legislation and do not cover the situation in which Notes or Warrants are treated as derivatives, or instruments deemed to be derivatives, neither does it determine the conditions under which an instrument could be treated as equity rather than debt. The summary also assumes that the Issuer of the Notes and Warrants is not a tax resident of Romania and that they are not issued through a Romanian branch or permanent establishment of the Issuer and therefore the income and gains from the Notes or Warrants do not have Romanian source .

General remarks

Romanian tax legislation defines interest as any amount that must be paid or received for the use of money, whether payable or receivable under a debt, in connection with a deposit, or pursuant to a financial lease, instalment sale, or any deferred payment sale.

Additionally, for individuals, Romanian tax legislation specifically considers the following, without limitation, as interest income: a) interest earned from bonds; b) interest earned on current accounts, escrow accounts, demand deposits, collateral and term deposits, including certificates of deposit; c) amounts received as interest on loans granted; d) interest earned from alternative investment instruments such as structured products (structured deposits) where a derivative instrument is linked to a deposit; e) other income earned from holding debt securities.

Romanian withholding tax on interest payments

Romanian interest withholding tax applies to certain payments if they originated from a Romanian source. On the basis that the Issuer is not a tax resident of Romania and does not have a permanent establishment in Romania, the payments made by the Issuer in respect of interest, premiums, principal, and capital gains related to the Notes or Warrants will not be considered as having a Romanian source.

Taxation of Romanian tax resident individuals

A Romanian tax resident individual will be subject to personal income tax on the income or gains resulting from the holding, redemption, sale or any other transaction with the Notes or Warrants. Depending on the nature of the income (interest or gains derived from transfer of the Notes), the rate of taxation is different, more specifically:

- Interest is subject to 10% tax rate.
- Capital gain is subject to 16% tax rate.

A reduced income tax rates apply for transfer of Notes or Warrants should (i) they qualify as participation titles and financial instruments under the applicable legislation of the state in which they were issued and (ii) the transfer of Notes or Warrants are carried out through intermediaries, as defined by the relevant legislation, investment management companies, self-managed investment companies and alternative investment fund managers, whether Romanian tax residents or non-residents with a permanent establishment in Romania acting as an intermediary (hereinafter referred to as "Romanian intermediaries). The reduced rates are as follows:

(i) 1% on each gain from the transfer of Notes or Warrants that were acquired and disposed of in a period longer than 365 days, inclusive, from the date of acquisition;

(ii) 3% on each gain from the transfer of Notes or Warrants that were acquired and disposed of in a period less than 365 days from the date of acquisition;

For computation of personal income tax, the gains/losses from transfer of Notes or Warrants are determined as the positive/negative difference between selling/redemption price of Notes or Warrants and their fiscal value (i.e., acquisition price) which includes the costs related to the transactions (sustained by proper documentation).

As a general rule, the losses incurred from transactions with Notes or Warrants are carried forward chronologically, depending on the age of the loss, in the next 5 consecutive years within the limit of 70% of the annual net gains from the same income. However, the annual net losses coming from abroad are carried forward in the next 5 consecutive fiscal years and compensated by the taxpayer within the limit of 70% of the annual net gains of the same nature and from the same country. Note that the losses incurred from transactions with Notes or Warrants that are carried out through Romanian intermediaries cannot be carried forward.

Relief for withholding tax paid in another country than Romania in relation with Notes or Warrants may be available, if Romania has a double tax treaty in place with the country where the tax was withheld. The relief is granted under the form of tax credit from and within the limit of the personal income tax due in Romania on the same income.

The obligation to declare and pay tax in relation to any income and/or gains obtained from abroad by a Romanian tax resident individual stay with that individual. An exception is in the case of transactions with Notes or Warrants carried out through Romanian intermediaries, when the income tax is declared, withheld at source and paid by the Romanian intermediary.

The Romanian tax resident individual has the obligation to declare and pay contribution to the state health insurance fund, if the income and gains obtained by this individual from Notes or Warrants together with other income obtained by the individual (other than salaries and income from independent activities) exceed a fixed threshold of 6 gross monthly minimum salaries (i.e., the gross monthly salary in force at the date of submitting the relevant tax declaration) without exceeding however 24 gross monthly minimum salaries. In such case the value of the contribution due to the state health insurance fund is computed on the fixed threshold base multiplied with the contribution rate of 10%.

More specifically, for 2026, based on the current information, the minimum income threshold triggering the obligation to pay the social health insurance contribution is as follows:

(i) RON 24,300, for individuals obtaining income between 6 and 12 times the gross monthly minimum salary. In this case, the minimum health insurance contribution is RON 2,430;

(ii) RON 48,600, for individuals obtaining an income between 12 and 24 times the gross monthly minimum salary. In this case, the minimum contribution for social health insurance is RON 4,86

(iii) RON 97,200, for individuals obtaining an income higher than 24 times the gross monthly minimum salary. In this case, the minimum contribution for social health insurance is RON 9,720.

Taxation of legal entity tax resident in Romania

Legal entities tax resident in Romania will be subject to corporate income tax on any income resulting from the holding, redemption, sale or any other transaction with the Notes or Warrants. The applicable corporate income tax rate is 16%.

The taxable base for corporate income tax purpose is computed as the difference between revenues and expenses registered by entities as per the accounting rules, adjusted with tax items. Therefore, the corporate income tax implication deriving from holding, redemption, sale or any other transaction with the Notes or Warrants is dependent also on the accounting treatment applied to such Notes or Warrants, especially as regards the recognition of the related revenues and expenses.

The Romanian fiscal legislation, states that the losses incurred by a company from selling receivables are deductible within certain limits (i.e., 70% in case of credit institutions and 30% for other companies). However, these provisions do not apply in the case of assignments of government securities, bonds, and other debt instruments that grant the holder a contractual right to receive cash – in such cases the expenses recorded from such assignments are deductible when calculating the taxable basis for corporate income tax purposes.

Romanian resident legal entities meeting certain criteria (including total revenues exceeding EUR 50,000,000 or being part of a tax group meeting certain conditions) are subject to a minimum turnover tax of 0.5% of turnover (the turnover for the purpose of this tax include total revenues with certain adjustments, but no deduction is allowed for expenses). More specifically, such legal entities, who in the current year, determine a cumulative profit tax due from the beginning of the fiscal year to the end of the quarter/calculation year lower than the minimum turnover tax (including in case they are in a tax loss) are obliged to pay a profit tax at the level of the minimum turnover tax. The income resulting from the holding, redemption, sale or any other transaction with the Securities is included in the taxable basis .

In addition, credit institutions are subject to a supplementary tax on their turnover.

If Romanian legal entities qualify as microenterprise taxpayers (such as entities with an income lower than the RON equivalent of EUR 100,000, but additional conditions apply) they are subject to 1% tax on their income (no expenses are allowed for deduction). The income resulting from the holding, redemption, sale or any other transaction with the Securities is included in the taxable basis).

Relief for tax paid in a non-Romanian country in connection with the Notes or Warrants may be available if Romania has a double tax treaty in place with the country where the tax was paid. The relief is granted under the form of tax credit from and within the limit of the corporate income tax due in Romania on the same income or under the form of exemption of the respective income. The tax credit is subject to the availability of supporting documentation proving the tax paid in the non-Romanian country.

Taxation of legal entity investors that are not tax residents in Romania

Legal entities that are not tax residents of Romania will be subject to corporate income tax in Romania on income derived from holding, redeeming, selling, or otherwise transacting with the Notes or Warrants only if they have a permanent establishment in Romania and the transactions with the Notes or Warrants are attributable to that permanent establishment.

Taxation of Romanian tax transparent entities investors

Romanian tax-transparent entities (such as associations, joint ventures, associations based on joint operation agreements, economic interest groups, civil partnerships, or any other entity that is not a separate taxable person such as certain pension funds) obtaining income or gains from holding, redeeming, selling, or otherwise transacting with the Notes or Warrants will not themselves be subject to taxation. However, each associate/participant in such Romanian tax-transparent entities will be subject to taxation in Romania, provided they are Romanian tax resident individuals, Romanian tax resident legal entities, or non-Romanian legal entity investors that have a permanent establishment in Romania.

UNITED KINGDOM TAXATION

The comments below are of a general nature based on current United Kingdom law as applied in England and Wales and HM Revenue & Customs published practice (which may not be binding on HM Revenue & Customs), in each case as at the latest practicable date before the date of this Securities Note. They relate only to United Kingdom withholding tax and certain information requirements and are not intended to be exhaustive. They assume that interest on the Notes does not have a United Kingdom source, and in particular that the Issuer is not resident in the United Kingdom for tax purposes and do not act through a permanent establishment in the United Kingdom in relation to the Notes. They also assume that there will be no substitution of the Issuer and do not address the consequences of any such substitution (notwithstanding that such substitution may be permitted by the terms and conditions of the Notes). Any holders of the Notes who are in doubt as to their own tax position should consult their professional advisers.

References in this part to "interest" shall mean amounts that are treated as interest for the purposes of United Kingdom taxation.

Payments in Respect of the Notes

Payments of interest on the Notes by the Issuer may be made without withholding or deduction for or on account of United Kingdom tax.

SINGAPORE TAXATION

The statements below are general in nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the IRAS and the MAS in force as at the date of this Securities Note and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retroactive basis. These laws, guidelines and circulars are also subject to various interpretations and the relevant tax authorities or the courts could later disagree with the explanations or conclusions set out below. Neither these statements nor any other statements in this Securities Note are intended or are to be regarded as advice on the tax position of any holder of the Notes or Warrants or of any person acquiring, selling or otherwise dealing with the Notes or Warrants or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes or Warrants. The statements made herein do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes or Warrants and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s) or hold a specified licence) may be subject to special rules or tax rates. The statements should not be regarded as advice on the tax position of any person and should be treated with appropriate caution. Prospective holders of the Notes or Warrants are advised to consult their own professional tax advisers as to the Singapore or other tax consequences of the acquisition, ownership or disposal of the Notes or Warrants, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the Arranger, the Dealer and any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Notes.

In addition, the disclosure below is made on the assumption that IRAS regards each Tranche of the Notes or Warrants, which are intended to be "qualifying debt securities" for the purposes of the ITA, as "debt securities" for the purposes of the Income Tax Act and that distribution payments made under each Tranche of the Notes or Warrants will be regarded as interest payable on indebtedness and holders thereof may therefore enjoy the tax concessions and exemptions available for qualifying debt securities, provided that the conditions for the qualifying debt securities scheme are satisfied. If any tranche of the Notes or Warrants is not regarded as "debt securities" for the purposes of the Income Tax Act, or any distribution payment made under any Tranche of the Notes or Warrants is not regarded as interest payable on indebtedness or holders thereof are not eligible for the tax concessions under the qualifying debt securities scheme, the tax treatment to holders may differ. No assurance, warranty or guarantee is given on the tax treatment to holders of any Tranche of Notes or Warrants in respect of the distributions payable to them. Investors and holders of any Tranche of the Notes or Warrants should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding and disposal of any tranche of the Notes or Warrants.

Interest and Other Payments

Generally, interest and other payments derived by a holder of the Notes or Warrants who is not resident in Singapore and who does not have any permanent establishment in Singapore is not subject to tax, as such income is likely to be regarded as arising from a source outside Singapore, given that the Issuer is issuing the Notes or Warrants outside Singapore and not through a branch, permanent establishment, or otherwise in Singapore. However, even if such interest and payments are regarded as sourced in Singapore, such interest and other payments may also be exempt from tax, including withholding of tax, if the Notes or Warrants qualify as "qualifying debt securities" as discussed below.

Subject to the following paragraphs, under Section 12(6) of the Income Tax Act, the following payments are deemed to be derived from Singapore:

(a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or

(b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15% final withholding tax described below) to non-resident persons (other than non-resident individuals or a Hindu joint family) is currently 17%. The applicable rate for non-resident individuals or a Hindu joint family is currently 24%. However, if the payment is derived by a person not resident in Singapore from sources other than from its trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15%. The rate of 15% may be reduced by applicable tax treaties, subject to certain conditions being met.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including interest, discount income (not including discount income arising from secondary trading),

early redemption fee and redemption premium from debt securities, except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

In addition, where more than half of the Notes or Warrants issued under a tranche of the Programme are distributed by one of more of the following entities holding the relevant licenses (collectively, "**specified licensed entities**"):

(a) any bank or merchant bank licensed under the Banking Act 1970 of Singapore;

(b) any finance company licensed under the Finance Companies Act 1967 of Singapore;

(c) a person who holds a Capital Markets Services Licence under the Securities and Futures Act 2001 of Singapore to carry on a business in any of the following regulated activities:

(1) advising on corporate finance; or

(2) dealing in capital market products; or

(d) such other person as may be prescribed by rules made under section 7 of the Income Tax Act,

such tranche of Notes or Warrants (the "**Relevant Notes**") issued as debt securities under the Programme during the period from the date of this Securities Note to (and including) 31 December 2028 would be "qualifying debt securities" pursuant to the Income Tax Act and the MAS Circular FDD Cir 08/2023 entitled "Qualifying Debt Securities and Primary Dealer Schemes – Extension and Refinements" issued by the MAS on 31 May 2023 (the "**MAS Circular**"), to which the following treatments shall apply:

(i) subject to certain prescribed conditions having been fulfilled (including the submission to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, early redemption fee or redemption premium from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall not apply if the non-resident person acquires the Relevant Notes using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), early redemption fee and redemption premium (collectively, the "**Qualifying Income**") from the Relevant Notes, derived by a holder who is not resident in Singapore and who (aa) does not have any permanent establishment in Singapore or (bb) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;

(ii) subject to certain conditions having been fulfilled including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities for the Relevant Notes in the prescribed format within one month of the date of issue of the relevant debt securities or such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require to MAS and such other relevant authorities as may be prescribed, Qualifying Income from the Relevant Notes derived by any company or body of persons (as defined in the Income Tax Act) in Singapore is subject to income tax at a concessionary rate of 10% (except for holders of the relevant Financial Sector Incentive(s) or other special tax incentives who may be taxed at different rates) under section 43H(1) of the Income Tax Act; and

(iii) subject to:

(a) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the Income Tax Act; and

(b) the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Qualifying Income derived from the Relevant Notes are not subject to withholding of tax (if applicable) by the Issuer.

However, notwithstanding the foregoing:

(A) if during the primary launch of any tranche of the Relevant Notes, the Relevant Notes of such tranche are issued to less than four persons and 50% or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as "qualifying debt securities"; and

(B) even though a particular tranche of Relevant Notes are "qualifying debt securities", if, at any time during the tenure of such tranche of Relevant Notes, 50% or more of the issue of such Relevant Notes which are outstanding at any time during the life of the issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Notes held by:

(i) any related party of the Issuer; or

(ii) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or concessionary rate of tax as described above.

The term "**related party**", in relation to a person, means any other person who, directly or indirectly, controls that person, or is being controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

The terms "**early redemption fee**" and "**redemption premium**" are defined in the Income Tax Act as follows:

"**early redemption fee**", in relation to debt securities, qualifying debt securities or qualifying project debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities; and

"**redemption premium**", in relation to debt securities, qualifying debt securities or qualifying project debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity or on the early redemption of the securities.

References to "**early redemption fee**" and "**redemption premium**" in this Singapore tax disclosure have the same meaning as defined in the Income Tax Act.

All foreign-sourced income received in Singapore on or after 1 January 2004 by Singapore tax-resident individuals will be exempt from income tax, provided such foreign-sourced income is not received through a partnership in Singapore.

Where interest, discount income, early redemption fee and redemption premium (i.e. the Qualifying Income) is derived from any of the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for qualifying debt securities under the Income Tax Act (as mentioned above) shall not apply if such person acquires such Relevant Notes using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Notes is not exempt from tax (including for the reasons described above) shall include such income in a return of income made under the Income Tax Act.

Capital Gains

Subject to the disclosure in the next paragraph, any gains considered to be in the nature of capital made from the sale of the Notes or Warrants will generally not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes or Warrants which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

Under section 10L of the Income Tax Act, gains received in Singapore by an entity of a relevant group from the sale or disposal of any movable or immovable property outside Singapore will be treated as income chargeable to tax under section 10(1)(g) of the Income Tax Act under certain circumstances. Debt securities will be deemed to be located outside Singapore if the issuer thereof is incorporated outside Singapore or in the case of registered debt securities, the register or principal register (if there is more than one register) is located outside Singapore regardless where the issuer is incorporated. If the Instruments are deemed to be foreign assets, gains from their disposal will be subject to tax if an entity of a relevant group (other than an excluded entity) disposed of the Instruments on or after 1 January 2024. An entity is a member of a group of entities if its assets, liabilities, income, expenses and cash flows are (a) included in the consolidated financial statements of the parent entity of the group; or (b) excluded from the consolidated financial statements of the parent entity of the group solely on size or materiality grounds or on the grounds that the entity is held for sale. A group is a relevant group if (a) the entities of the group are not all incorporated, registered or established in Singapore; or (b) any entity of the group has a place of business outside Singapore. An excluded entity is defined in section 10L of the Income Tax Act to include a pure equity-holding company or any other entity with adequate economic substance in Singapore taking into account factors enumerated in section 10L of the Income Tax Act.

Holders of the Notes or Warrants are advised to consult their own tax advisors on the applicable tax treatment if they received gains in Singapore from the disposal of the Notes or Warrants.

Holders of the Notes or Warrants who apply or are required to apply Singapore Financial Reporting Standards 109 ("**FRS 109**") or Singapore Financial Reporting Standards (International) 9 ("**SFRS(I) 9**") may for Singapore income tax purposes be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Notes or Warrants, irrespective of disposal, in accordance with FRS 109 or SFRS(I) 9 (as the case may be) (as modified by the applicable provisions of Singapore income tax law). Please see the section below on "*Adoption of FRS 109 or SFRS(I) 9 Treatment for Singapore Income Tax Purposes*".

Adoption of FRS 109 or SFRS(I) 9 Treatment for Singapore Income Tax Purposes

FRS 109 or SFRS(I) 9 (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January 2018. Section 34AA of the Income Tax Act requires taxpayers who comply or who are required to comply with FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions. The IRAS has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Notes or Warrants who may be subject to the tax treatment under 34AA of the Income Tax Act should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes or Warrants.

Estate Duty

Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

UNITED STATES FEDERAL INCOME TAXATION

The following is a summary of certain U.S. federal income tax consequences of the acquisition, ownership and disposition of Notes by a U.S. Holder (as defined below). This summary does not address the material U.S. federal income tax consequences of every type of Note which may be issued under the Programme, and the applicable Final Terms and/or relevant pricing term sheet may contain additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to such type of Note as appropriate. This summary deals only with initial purchasers of Notes that acquire the Notes in an offering at their initial offering price that are U.S. Holders and that will hold the Notes as capital assets. The discussion does not cover all aspects of U.S. federal income taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, the acquisition, ownership or disposition of Notes by particular investors (including consequences under the alternative minimum tax or the net investment income tax), and does not address state, local, non-U.S. or other tax laws (such as estate or gift tax laws). This summary also does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. federal income tax laws (such as certain financial institutions, insurance companies, individual retirement accounts and other tax-deferred accounts, tax-exempt organisations, dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, investors that will hold the Notes as part of straddles, hedging transactions or conversion transactions for U.S. federal income tax purposes, investors that purchase or sell the Notes as part of a wash sale for U.S. federal income tax purposes, persons that have ceased to be U.S. citizens or lawful permanent residents of the United States, investors holding the Notes in connection with a trade or business conducted outside of the United States or investors whose functional currency is not the U.S. dollar). Moreover, the summary deals only with Notes with a term of 30 years or less. The U.S. federal income tax consequences of owning Notes with a longer term may be discussed in the applicable Final Terms and/or relevant pricing term sheet.

As used herein, the term "**U.S. Holder**" means a beneficial owner of Notes that is, for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation created or organised under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust, if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has validly elected to be treated as a domestic trust for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in an entity or arrangement treated as a partnership for U.S. federal income tax purposes that holds Notes will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are entities or arrangements treated as partnerships for U.S. federal income tax purposes should consult their tax adviser concerning the U.S. federal income tax consequences to them and their partners of the acquisition, ownership and disposition of Notes by the partnership.

This summary is based on the tax laws of the United States including the Code, its legislative history, existing and proposed regulations thereunder, published rulings and court decisions, all as of the date hereof and all subject to change at any time, possibly with retroactive effect.

Bearer Notes are not being offered to U.S. Holders. A U.S. Holder who owns a Bearer Note may be subject to limitations under United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Code. The remainder of this discussion does not address Bearer Notes.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. ALL PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING THE NOTES, INCLUDING THEIR ELIGIBILITY FOR ANY APPLICABLE TREATY, THE APPLICABILITY AND EFFECT OF U.S. FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND POSSIBLE CHANGES IN TAX LAW.

U.S. Federal Income Tax Characterisation of the Notes

The following discussion addresses Notes that will be treated as debt for U.S. federal income tax purposes. However, the matter is not always entirely clear. Depending on the restrictions that may apply to payments of interest on and principal of Notes in a particular Series and certain other terms (e.g. tenure, level of subordination), it is possible that those Notes may be treated as equity or as some other form of instrument. The tax treatment of Notes that have a significant likelihood of being characterised as other than debt may be discussed in the applicable Final Terms and/or relevant pricing term sheet. Even if Notes in a Series are treated as debt, features of the Notes, including restrictions on payments may cause the Notes to be treated as Contingent Notes, which are subject to special rules described below under "Contingent Payment Debt Instruments." No rulings will be sought from the U.S. Internal Revenue Service (the "**IRS**") regarding the characterisation of any of the Notes issued hereunder for U.S. federal income tax purposes. Each U.S. Holder should consult its own tax adviser about the proper characterisation of the Notes for U.S. federal income tax purposes, and the consequences to the holder of acquiring, owning or disposing of the Notes.

Payments of Interest

General

Interest on a Note, whether payable in U.S. dollars or a single non-U.S. dollar currency (a "**foreign currency**"), other than interest on a "Discount Note" that is not "qualified stated interest" (each as defined below under "*Original Issue Discount — General*"), will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, depending on the U.S. Holder's method of accounting for U.S. federal income tax purposes, reduced by the allocable amount of any amortizable bond premium, as further described below. Interest paid by the Issuer on the Notes and original issue discount ("**OID**"), if any, accrued with respect to the Notes (as described below under "*Original Issue Discount*") generally will constitute income from sources outside the United States and will generally be passive income for purposes of the rules regarding the foreign tax credit limitation applicable to a U.S. Holder. Prospective purchasers should consult their tax advisers concerning the applicability of the foreign tax credit, deductibility and source of income rules to income or any non-U.S. tax attributable to the Notes, including the impact of any applicable tax treaty.

Pre-Issuance Accrued Interest

If a portion of the price paid for a Note is attributable to an amount of interest accrued prior to the date the Note is issued (the "**pre-issuance accrued interest**"), the Issuer intends to treat a portion of the first interest payment on the Notes equal to the amount of the pre-issuance accrued interest as a non-taxable return of the pre-issuance accrued interest. This discussion assumes that the first interest payment on Notes with pre-issuance accrued interest will be so treated, and references to interest in the remainder of this discussion exclude pre-issuance accrued interest. This discussion assumes that in determining the issue price of a Note, there will be excluded an amount equal to the pre-issuance accrued interest. Pre-issuance accrued interest not included in income should not form part of any amortisable bond premium (as described below under "*Notes Purchased at a Premium*"). A U.S. Holder's tax basis

in a Note will be reduced by any non-taxable return of pre-issuance accrued interest. This discussion does not otherwise address the treatment of pre-issuance accrued interest, and U.S. Holders should consult their tax advisers concerning the U.S. federal income tax treatment of pre-issuance accrued interest.

Original Issue Discount

General

The following is a summary of the principal U.S. federal income tax consequences of the ownership of Notes issued with OID.

A Note, other than a Note with a term of one year or less (a "**Short-Term Note**"), will be treated as issued with OID (a "**Discount Note**") if the excess of the Note's "stated redemption price at maturity" over its issue price is equal to or more than a *de minimis* amount (generally 0.25% of the Note's stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an "**installment obligation**") will be treated as a Discount Note if the excess of the Note's stated redemption price at maturity over its issue price is equal to or greater than 0.25% of the Note's stated redemption price at maturity multiplied by the weighted average maturity of the Note. A Note's weighted average maturity is the sum of the following amounts determined for each payment on a Note (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Note's stated redemption price at maturity. Generally, the issue price of a Note will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a Note is the total of all payments provided by the Note that are not payments of "qualified stated interest". A qualified stated interest payment generally is any one of a series of stated interest payments on a Note that are unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or a variable rate (in the circumstances described below under "*Variable Interest Rate Notes*"), applied to the outstanding principal amount of the Note. Solely for the purposes of determining whether a Note has OID, the Issuer will be deemed to exercise any unconditional call option that has the effect of decreasing the yield on the Note, and the U.S. Holder will be deemed to exercise any unconditional put option that has the effect of increasing the yield on the Note. If it was deemed that any call or put option would be exercised but was not in fact exercised, the Note would be treated solely for the purpose of calculating OID as if it were redeemed, and a new Note were issued, on the presumed exercise date for an amount equal to the Note's adjusted issue price on that date.

If a Note has *de minimis* OID, a U.S. Holder must include the *de minimis* amount in income as stated principal payments are made on the Note, unless the U.S. Holder makes the election described below under "*Election to Treat All Interest as Original Issue Discount*". A U.S. Holder can determine the includible amount with respect to each such payment by multiplying (i) the total amount of the Note's *de minimis* OID by (ii) a fraction equal to the amount of the principal payment made divided by the stated principal amount of the Note.

U.S. Holders of Discount Notes must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Notes. The amount of OID includible in income by a U.S. Holder of a Discount Note is the sum of the daily portions of OID with respect to the Discount Note for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Note. The daily portion is determined by allocating to each day in any "accrual period" a *pro rata* portion of the OID allocable to that accrual period. Accrual periods with respect to a Note may be of any length selected by the U.S. Holder and may vary in length over the term of the Note as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or

principal on the Note occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Note's adjusted issue price at the beginning of the accrual period and the Discount Note's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the Note allocable to the accrual period. The "adjusted issue price" of a Discount Note at the beginning of any accrual period is the issue price of the Note increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the Note that were not qualified stated interest payments.

Acquisition Premium

A U.S. Holder that purchases a Discount Note for an amount less than or equal to the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being "acquisition premium") and that does not make the election described below under "*Election to Treat All Interest as Original Issue Discount*", is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder's adjusted basis in the Note immediately after its purchase over the Note's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the Note after the purchase date, other than payments of qualified stated interest, over the Note's adjusted issue price.

Short-Term Notes

In general, an individual or other cash basis U.S. Holder of a Short-Term Note is not required to accrue OID (as specially defined below for the purposes of this paragraph) for U.S. federal income tax purposes unless it elects to do so (but may be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue OID on Short-Term Notes on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Short-Term Note will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Notes will be required to defer deductions for interest on borrowings allocable to Short-Term Notes in an amount not exceeding the deferred income until the deferred income is realised.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Short-Term Note are included in the Short-Term Note's stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short-Term Note as if the Short-Term Note had been originally issued to the U.S. Holder at the U.S. Holder's purchase price for the Short-Term Note. This election will apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

Fungible Issue

The Issuer may, without the consent of the holders of outstanding Notes, issue additional Notes with identical terms. These additional Notes, even if they are treated for non-tax purposes as part of the same series as the original Notes, in some cases may be treated as a separate issue for U.S. federal income tax purposes. In such a case, the additional Notes may be considered to have been issued with OID even if the original Notes had no OID, or the additional Notes may have a different amount of OID than the remaining OID on the original Notes. These differences may affect the trading price of the original Notes if the additional Notes are not otherwise distinguishable from the original Notes.

Market Discount

A Note purchased after its original issuance or at original issuance for a price other than the issue price, other than a Short-Term Note, generally will be treated as purchased at a market discount (a "**Market Discount Note**") if the Note's stated redemption price at maturity or, in the case of a Discount Note, the Note's "revised issue price", exceeds the amount for which the U.S. Holder purchased the Note by at least 0.25% of the Note's stated redemption price at maturity multiplied by the number of complete years to the Note's maturity (or, in the case of a Note that is an installment obligation, the Note's weighted average maturity). If this excess is not sufficient to cause the Note to be a Market Discount Note, then the excess constitutes "*de minimis* market discount". For this purpose, the "revised issue price" of a Note generally equals its issue price, increased by the amount of any OID that has accrued on the Note and decreased by the amount of any payments previously made on the Note that were not qualified stated interest payments. Additionally, for this purpose the "stated redemption price at maturity" (as defined above) is decreased by the amount of any payments previously made on the Note that were not qualified stated interest.

Any gain recognised on the sale or retirement of a Market Discount Note (including any payment on a Note that is not qualified stated interest) generally will be treated as ordinary income to the extent of the accrued market discount on the Note. Alternatively, a U.S. Holder of a Market Discount Note may avoid such treatment by electing to include market discount in income currently over the life of the Note. This election applies to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year for which the election is made. This election may not be revoked without the consent of the IRS. A U.S. Holder of a Market Discount Note that does not elect to include market discount in income currently may be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Note. Such interest is deductible when paid or incurred to the extent of income from the Market Discount Note for the year. If the interest expense exceeds such income, such excess is currently deductible only to the extent that such excess exceeds the portion of the market discount allocable to the days during the taxable year on which such Market Discount Note was held by the U.S. Holder.

Market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount under a constant-yield method. This election applies only to the Market Discount Note with respect to which it is made and is irrevocable.

The application of the foreign tax credit rules to non-U.S. taxes imposed on any income attributable to market discount is not clear and U.S. Holders should consult their tax advisers regarding the application of the foreign tax credit rules to any non-U.S. taxes imposed on such income in their particular circumstances.

Variable Interest Rate Notes

Notes that provide for interest at variable rates ("**Variable Interest Rate Notes**") generally will bear interest at a "qualified floating rate" and thus will be treated as "variable rate debt instruments" under Treasury regulations governing accrual of OID. A Variable Interest Rate Note will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Interest Rate Note by more than a specified *de minimis* amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate, and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A "qualified floating rate" is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Note is denominated. The product of a fixed multiple and a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the

product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Note (e.g., two or more qualified floating rates with values within 0.25% of each other as determined on the Variable Interest Rate Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate.

Under U.S. Treasury regulations, Notes referencing an IBOR that are treated as having a qualified floating rate for purposes of the above will not fail to be so treated merely because the terms of the Notes provide for a replacement of the IBOR in the case of a Benchmark Event. In particular, under the regulations, the IBOR referencing rate and the replacement rate are treated as a single qualified rate.

An "objective rate" is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within the control of the Issuer (or a related party) or that is unique to the circumstances of the Issuer (or a related party), such as dividends, profits or the value of the Issuer's stock (although a rate does not fail to be an objective rate merely because it is based on the credit quality of the Issuer). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Note will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Note's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Note's term. A "qualified inverse floating rate" is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Note's issue date is intended to approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 0.25%), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a "current value" of that rate. A current value of a rate is the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than 1 year following that first day.

If a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a variable rate debt instrument, then any stated interest on the Note which is unconditionally payable in cash or property (other than debt instruments of the Issuer) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a variable rate debt instrument generally will not be treated as having been issued with OID unless the Variable Interest Rate Note is issued at a "true" discount (i.e., at a price below the Note's stated principal amount) equal to or in excess of a specified *de minimis* amount. OID on a Variable Interest Rate Note arising from "true" discount is allocated to an accrual period using the constant-yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate, or (ii) in the case of an

objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note.

In general, any other Variable Interest Rate Note that qualifies as a variable rate debt instrument will be converted into an "equivalent" fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Note by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Note's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Note. In the case of a Variable Interest Rate Note that qualifies as a variable rate debt instrument and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate Note provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Note as of the Variable Interest Rate Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Note is converted into an "equivalent" fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Note is converted into an equivalent fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Note will account for the OID and qualified stated interest as if the U.S. Holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Note during the accrual period.

If a Variable Interest Rate Note, such as a Note the payments on which are determined by reference to an index, does not qualify as a variable rate debt instrument, then the Variable Interest Rate Note will be treated as a contingent payment debt obligation. See **"***Contingent Payment Debt Instruments*" below for a discussion of the U.S. federal income tax treatment of such Notes.

Notes Purchased at a Premium

A U.S. Holder that purchases a Note for an amount in excess of its principal amount, or for a Discount Note, its stated redemption price at maturity, may elect to treat the excess as "amortisable bond premium", in which case the amount required to be included in the U.S. Holder's income each year with respect to interest on the Note will be reduced by the amount of amortisable bond premium allocable (based on the Note's yield to maturity) to that year. Special rules may limit the amount of bond premium that can be amortised during certain accrual periods in the case of Notes that are subject to optional early redemption. Any election to amortise bond premium will apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. See also "*Original Issue Discount — Election to Treat All Interest as Original Issue Discount*".

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in gross income all interest that accrues on a Note using the constant-yield method described above under "*Original Issue Discount – General*", with certain modifications. For purposes of this election, interest includes stated interest, OID, *de minimis* OID, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortisable bond premium (described above under "*Notes Purchased at a Premium*") or acquisition premium. This election generally will apply only to the Note with respect to which it is made and may not be revoked without the consent of the IRS. If the election to apply the constant-yield method to all interest on a Note is made with respect to a Market Discount Note, the electing U.S. Holder will be treated as having made the election discussed above under "*Market Discount*" to include market discount in income on a constant-yield basis currently over the life of all debt instruments with market discount that the U.S. Holder acquires on or after the first day of the first taxable year to which the election applies. If the Note has amortisable bond premium, the U.S. Holder would be deemed to have made an election to apply amortisable bond premium against interest for all debt instruments with amortisable bond premium, other than debt instruments the interest on which is excludible from gross income, that the U.S. Holder holds as at the beginning of the taxable year to which the election applies or thereafter. U.S. Holders should consult their tax advisers concerning the propriety and consequences of this election.

Contingent Payment Debt Instruments

Certain Series or Tranches of Notes may be treated as "contingent payment debt instruments" for U.S. federal income tax purposes ("**Contingent Notes**"). Under applicable U.S. Treasury regulations, interest on Contingent Notes will be treated as OID, and must be accrued on a constant-yield basis based on a yield to maturity that reflects the rate at which the Issuer would issue a comparable fixed-rate instrument (the "**comparable yield**"), in accordance with a projected payment schedule. This projected payment schedule must include each non-contingent payment on the Contingent Notes and an estimated amount for each contingent payment, and must produce the comparable yield.

If a Series is subject to the contingent payment debt instrument rules, the Issuer will provide information regarding the comparable yield and the projected payment schedule for the Series. The use of the comparable yield and the calculation of the projected payment schedule are based upon a number of assumptions and estimates and are not a prediction, representation or guarantee of the actual amounts of interest that may be paid to a U.S. Holder or the actual yield of the Notes. A U.S. Holder will generally be bound by the comparable yield and the projected payment schedule determined by the Issuer, unless the U.S. Holder determines its own comparable yield and projected payment schedule and explicitly discloses such schedule to the IRS, and explains to the IRS the reason for preparing its own schedule. The Issuer's determination, however, is not binding on the IRS, and it is possible that the IRS could conclude that some other comparable yield or projected payment schedule should be used instead.

A U.S. Holder of a Contingent Note generally will be required to include OID in income pursuant to the rules discussed in the final paragraph under "*Original Issue Discount – General*", above, applied to the projected payment schedule. The "adjusted issue price" of a Contingent Note at the beginning of any accrual period is the issue price of the Note increased by the amount of accrued OID for each prior accrual period, and decreased by the projected amount of any payments on the Note. No additional income will be recognised upon the receipt of payments of stated interest in amounts equal to the annual payments included in the projected payment schedule described above. Any differences between actual payments received by the U.S. Holder on the Notes in a taxable year and the projected amount of those payments will be accounted for as additional interest (in the case of a positive adjustment) or as an offset to interest income in respect of the Note (in the case of a negative adjustment), for the taxable year in which the actual payment is made. If the negative adjustment for any taxable year exceeds the amount of OID on the Contingent Note for that year, the excess will be treated as an ordinary loss, but only to the extent the U.S. Holder's total OID inclusions on the Contingent Note exceed the total amount of any ordinary loss in respect of the Contingent Note claimed by the U.S. Holder under this rule in prior taxable years. Any negative adjustment that is not allowed as an ordinary loss for

the taxable year is carried forward to the next taxable year, and is taken into account in determining whether the U.S. Holder has a net positive or negative adjustment for that year. However, any negative adjustment that is carried forward to a taxable year in which the Contingent Note is sold, exchanged or retired, to the extent not applied to OID accrued for such year, reduces the U.S. Holder's amount realised on the sale, exchange or retirement.

Substitution of Issuer

The terms of the Notes provide that, in certain circumstances, the obligations of the Issuer under the Notes may be assumed by another entity. Depending on the circumstances, any such assumption might be treated for U.S. federal income tax purposes as a taxable deemed or actual disposition of Notes by a U.S. Holder in exchange for new notes. As a result of this deemed or actual disposition, a U.S. Holder could be required to recognise capital gain or loss for U.S. federal income tax purposes equal to the difference, if any, between the issue price of the new notes (as determined for U.S. federal income tax purposes), and the U.S. Holder's tax basis in the Notes and could be subject to certain other adverse tax consequences. U.S. Holders should consult their tax advisers concerning the U.S. federal income tax consequences to them of any such assumption with respect to the Notes.

Purchase, Sale and Retirement of Notes

Notes other than Contingent Notes

A U.S. Holder generally will recognise gain or loss on the sale or retirement of a Note equal to the difference between the amount realised on the sale or retirement and the U.S. Holder's adjusted tax basis in the Note. A U.S. Holder's adjusted tax basis in a Note generally will be its cost, increased by the amount of any OID or market discount included in the U.S. Holder's income with respect to the Note, and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortisable bond premium applied to reduce interest on the Note.

The amount realised does not include the amount attributable to accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income. Except to the extent described above under "*Original Issue Discount – Market Discount*" or "*Original Issue Discount – Short Term Notes*" or attributable to changes in exchange rates (as discussed below), gain or loss recognised on the sale or retirement of a Note will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the Notes exceeds one year. Long-term capital gain of certain non-corporate U.S. Holders generally is taxable at reduced rates. The deductibility of capital losses is subject to limitations. Gain or loss realised by a U.S. Holder on the sale or retirement of a Note generally will be U.S source.

Contingent Notes

Income from the sale or retirement of a Contingent Note will be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total interest inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Income or ordinary loss realised by a U.S. Holder on the sale or retirement of a Contingent Note generally will be foreign source.

A U.S. Holder's tax basis in a Contingent Note generally will be equal to its cost, increased by the amount of interest previously accrued with respect to the Note (determined without regard to any positive or negative adjustments reflecting the difference between actual payments and projected payments), increased or decreased by the amount of any positive or negative adjustment that the Holder is required to make to account for the difference between the Holder's purchase price for the Note and the adjusted issue price of the Note at the time of the purchase, and decreased by the amount of any projected payments scheduled to be made on the Note to the U.S. Holder through such date (without regard to the actual amounts paid).

Effect of Foreign Taxes

Except with respect to disposition gains attributable to Contingent Notes or accrued market discount, gain or loss on the disposition of Notes will generally be U.S. source. Therefore, a U.S. Holder may have insufficient foreign source income to utilise foreign tax credits attributable to any non-U.S. taxes imposed on a sale or disposition. The application of these rules is very complex, and recent changes have imposed additional requirements and limitations which may further limit a U.S. Holder's ability to claim foreign tax credits. IRS guidance provides temporary relief from some of these recent additional requirements and limitations, subject to certain conditions being met, until further notice by the IRS. Prospective purchasers should consult their tax advisers regarding the U.S. federal income tax consequences if any non-U.S. taxes are imposed on disposition gains, including their ability to credit or deduct any non-U.S. tax against their U.S. federal income tax liability, the determination of the amount realised and the proper application of the foreign tax credit rules to income attributable to market discount as well as the potential impact of any applicable tax treaty.

Foreign Currency Notes

Interest

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognised by a cash-basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual-basis U.S. Holder may determine the amount of income recognised with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year).

Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual-basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a Note) denominated in, or determined by reference to, a foreign currency, the accrual-basis U.S. Holder may generally recognise U.S.-source exchange gain or loss (taxable as U.S.-source ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Note that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual-basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the Note or a sale or retirement of the Note), a U.S. Holder may generally recognise U.S.-source exchange gain or loss (taxable as U.S.-source ordinary income or loss) equal to the

difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Market Discount

Market discount on a Note that is denominated in, or determined by reference to, a foreign currency, will be accrued in the foreign currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount, the U.S. Holder may generally recognise U.S.-source exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include market discount in income currently will recognise, upon the sale or retirement of the Note, the U.S. dollar value of the amount accrued, calculated at the spot rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Bond Premium

Bond premium (including acquisition premium) on a Note that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency. U.S.-source exchange gain or loss is realised with respect to the bond premium described in the previous sentence by treating the portion of the premium taken into account currently as a return of principal. On the date bond premium offsets interest income, a U.S. Holder may generally recognise U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the amount offset multiplied by the difference between the spot rate in effect on the date of the offset, and the spot rate in effect on the date the Notes were acquired by the U.S. Holder. A U.S. Holder that does not elect to take bond premium (other than acquisition premium) into account currently will recognise a U.S.-source capital loss when the Note matures.

Foreign Currency Contingent Notes

Special rules apply to determine the accrual of OID, and the amount, timing, source and character of any gain or loss on a Contingent Note that is denominated in, or determined by reference to, one or more foreign currencies (a "**Foreign Currency Contingent Note**"). The discussion below is limited to a Foreign Currency Contingent Note that is denominated in a single foreign currency. Additional special rules will apply to a Foreign Currency Contingent Note that is denominated in more than one single foreign currency. The rules applicable to Foreign Currency Contingent Notes, including the additional rules applicable to Foreign Currency Contingent Notes denominated in multiple foreign currencies, are complex, and U.S. Holders of Foreign Currency Contingent Notes are urged to consult their tax advisers concerning the application of these rules.

Under these rules, a U.S. Holder of a Foreign Currency Contingent Note generally will be required to accrue OID in the foreign currency in which the Foreign Currency Contingent Note is denominated (i) at a yield at which the Issuer would issue a fixed rate debt instrument denominated in the same foreign currency with terms and conditions similar to those of the Foreign Currency Contingent Note, and (ii) in accordance with a projected payment schedule determined by the Issuer, under rules similar to those described above under "*Contingent Payment Debt Instruments*". The amount of OID on a Foreign Currency Contingent Note that accrues in any accrual period will be the product of the comparable yield of the Foreign Currency Contingent Note (adjusted to reflect the length of the accrual period) and the adjusted issue price of the Foreign Currency Contingent Note. The adjusted issue price of a Foreign Currency Contingent Note generally will be determined under the rules described above under "*Contingent Payment Debt Instruments*", and will be denominated in the foreign currency of the Foreign Currency Contingent Note.

OID on a Foreign Currency Contingent Note will be translated into U.S. dollars under translation rules similar to those described above under "*Foreign Currency Notes - Interest*". Any positive adjustment (i.e. the excess of actual

payments over projected payments) in respect of a Foreign Currency Contingent Note for a taxable year will be translated into U.S. dollars at the spot rate on the last day of the taxable year in which the adjustment is taken into account, or if earlier, the date on which the Foreign Currency Contingent Note is disposed of. The amount of any negative adjustment on a Foreign Currency Contingent Note (i.e. the excess of projected payments over actual payments) that is offset against accrued but unpaid OID will be translated into U.S. dollars at the same rate at which the OID was accrued. To the extent a net negative adjustment exceeds the amount of accrued but unpaid OID, the negative adjustment will be treated as offsetting OID that has accrued and been paid on the Foreign Currency Contingent Note, and will be translated into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Note was issued or, if later, acquired. Any net negative adjustment will be carried back to the extent of accruals in the relevant foreign currency in earlier years and, to the extent of any excess, will be carried forward to reduce interest accruals in subsequent years in the relevant foreign currency.

Sale or Retirement

Notes other than Foreign Currency Contingent Notes

As discussed above under "*Purchase, Sale and Retirement of Notes*", a U.S. Holder generally will recognise gain or loss on the sale or retirement of a Note equal to the difference between the amount realised on the sale or retirement and its tax basis in the Note. A U.S. Holder's tax basis in a Note that is denominated in a foreign currency will be determined by reference to the U.S. dollar cost of the Note. The U.S. dollar cost of a Note purchased with foreign currency generally will be the U.S. dollar value of the purchase price on the date of purchase, or the settlement date for the purchase, in the case of Notes traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash-basis U.S. Holder (or an accrual-basis U.S. Holder that so elects).

The amount realised on a sale or retirement for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement, or the settlement date for the sale in the case of Notes traded on an established securities market, as defined in the applicable Treasury Regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects). Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

A U.S. Holder will recognise U.S.-source exchange gain or loss (taxable as ordinary income or loss) on the sale or retirement of a Note equal to the difference, if any, between the U.S. dollar values of the U.S. Holder's purchase price for the Note (as adjusted for amortised bond premium, if any) (i) on the date of sale or retirement and (ii) the date on which the U.S. Holder acquired the Note. Any such exchange rate gain or loss will be realised only to the extent of total gain or loss (including any exchange gain or loss with respect to the receipt of accrued but unpaid interest (including OID)) realised on the sale or retirement. Any excess gain or loss recognised will be capital gain or loss.

Foreign Currency Contingent Notes

Upon a sale or retirement of a Foreign Currency Contingent Note, a U.S. Holder generally will recognise taxable gain or loss equal to the difference between the amount realised on the sale or retirement and the U.S. Holder's tax basis in the Foreign Currency Contingent Note, both translated into U.S. dollars as described below. A U.S. Holder's tax basis in a Foreign Currency Contingent Note will equal (i) the cost thereof (translated into U.S. dollars at the spot rate on the issue date, or, if later, the date in which the Foreign Currency Contingent Note was acquired by the U.S. Holder), (ii) increased by the amount of OID previously accrued on the Foreign Currency Contingent Note (disregarding any positive or negative adjustments and translated into U.S. dollars using the exchange rate applicable to such OID) and (iii) decreased by any non-contingent payments and the projected amount of all prior payments in respect of the Foreign Currency Contingent Note. The U.S. dollar amount of the projected payments described in clause (iii) of the preceding sentence is determined by (i) first allocating the payments to the most recently accrued

OID to which prior amounts have not already been allocated and translating those amounts into U.S. dollars at the rate at which the OID was accrued and (ii) then allocating any remaining amount to principal and translating such amount into U.S. dollars at the spot rate on the date the Foreign Currency Contingent Note was issued, or if later, acquired by the U.S. Holder. For this purpose, any accrued OID reduced by a negative adjustment carry-forward will be treated as principal and translated at the spot rate on the date the Foreign Currency Contingent Note was issued, or if later, acquired by the U.S. Holder.

The amount realised by a U.S. Holder upon the sale or retirement of a Foreign Currency Contingent Note will equal the amount of cash and the fair market value (determined in foreign currency) of any property received. If a U.S. Holder holds a Foreign Currency Contingent Note until its scheduled maturity, the U.S. dollar equivalent of the amount realised will be determined by separating such amount realised into principal and one or more OID components, based on the principal and OID composing the U.S. Holder's basis, with the amount realised allocated first to OID (and allocated to the most recently accrued amounts first) and any remaining amounts allocated to principal. The U.S. dollar equivalent of the amount realised upon a sale or unscheduled retirement of a Foreign Currency Contingent Note will be determined in a similar manner, but will first be allocated to principal and then any accrued OID (and will be allocated to the earliest accrued amounts first). Each component of the amount realised will be translated into U.S. dollars using the exchange rate used with respect to the corresponding principal or accrued OID. The amount of any gain realised upon a sale or unscheduled retirement of a Foreign Currency Contingent Note will be equal to the excess of the amount realised over the U.S. Holder's tax basis, both expressed in foreign currency, and will be translated into U.S. dollars using the spot rate on the payment date. Income from the sale or retirement of a Foreign Currency Contingent Note generally will be treated as interest income taxable at ordinary income (rather than capital gains) rates. Any loss will be ordinary loss to the extent that the U.S. Holder's total OID inclusions to the date of sale or retirement exceed the total net negative adjustments that the U.S. Holder took into account as ordinary loss, and any further loss will be capital loss. Gain or loss realised by a U.S. Holder on the sale or retirement of a Foreign Currency Contingent Note generally will be foreign-source.

A U.S. Holder will also recognise U.S.-source exchange rate gain or loss (taxable as ordinary income or loss) on the receipt of foreign currency in respect of a Foreign Currency Contingent Note if the exchange rate in effect on the date the payment is received differs from the rate applicable to the principal or accrued OID to which such payment relates.

Effect of Foreign Taxes

Except with respect to disposition gains attributable to Contingent Notes or accrued market discount, gain or loss on the disposition of Notes will generally be U.S. source. Therefore, a U.S. Holder may have insufficient foreign source income to utilise foreign tax credits attributable to any non-U.S. taxes imposed on a sale or disposition. The application of these rules is very complex, and recent changes have imposed additional requirements and limitations which may further limit a U.S. Holder's ability to claim foreign tax credits. IRS guidance provides temporary relief from some of these recent additional requirements and limitations, subject to certain conditions being met, until further notice by the IRS. Prospective purchasers should consult their tax advisers regarding the U.S. federal income tax consequences if any non-U.S. taxes are imposed on disposition gains, including their ability to credit or deduct any non-U.S. tax against their U.S. federal income tax liability, the determination of the amount realised and the proper application of the foreign tax credit rules to income attributable to market discount as well as the potential impact of any applicable tax treaty.

Disposition of Foreign Currency

Foreign currency received as interest on a Note or on the sale or retirement of a Note will have a tax basis equal to its U.S. dollar value at the time the foreign currency is received. Foreign currency that is purchased generally will have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss

recognised on a sale or other disposition of a foreign currency (including its use to purchase Notes or upon exchange for U.S. dollars) will be U.S.-source ordinary income or loss.

Backup Withholding and Information Reporting

In general, payments of interest and accruals of OID on, and the proceeds of a sale or retirement of, the Notes, payable to a U.S. Holder by a U.S. paying agent or other U.S. intermediary will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding will apply to these payments, including payments of accrued OID, if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or otherwise fails to comply with applicable certification requirements. Certain U.S. Holders (including, among others, corporations) are not subject to backup withholding or information reporting. The amount of any backup withholding from a payment to a U.S. Holder will be allowable as a credit against U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely provided to the IRS. U.S. Holders should consult their tax advisers about these Notes and any other reporting obligations that may apply to the ownership or disposition of Notes, including requirements related to the holding of certain specified foreign financial assets.

Reportable Transactions

A U.S. taxpayer that participates in a "reportable transaction" is required to disclose its participation to the IRS. Under the relevant rules, if the Notes are denominated in a foreign currency, a U.S. Holder may be required to treat a foreign currency exchange loss from the Notes as a reportable transaction if this loss exceeds the relevant threshold in the Treasury regulations (U.S.$50,000 in a single taxable year, if the U.S. Holder is an individual or trust, or higher amounts for other non-individual U.S. Holders, and to disclose its investment by filing IRS Form 8886 with the IRS). A penalty in the amount of up to a maximum of U.S.$10,000 in the case of a natural person and U.S.$50,000 in all other cases generally is imposed on any taxpayer that fails to timely file an information return with the IRS with respect to a transaction resulting in a loss that is treated as a reportable transaction. Prospective purchasers are urged to consult their tax advisers regarding the application of these rules.

FOREIGN ACCOUNT TAX COMPLIANCE WITHHOLDING

Certain non-U.S. financial institutions must comply with information reporting requirements or certification requirements in respect of their direct and indirect U.S. shareholders and/or U.S. accountholders to avoid becoming subject to withholding at a rate of 30% on certain payments. The Issuer and other non-U.S. financial institutions may accordingly be required to report information to the IRS regarding the holders of Notes and to withhold on a portion of payments under the Notes to certain holders that fail to comply with the relevant information reporting requirements (or hold Notes directly or indirectly through certain non-compliant intermediaries). However, under proposed US Treasury regulations, such withholding would generally not apply to payments made before the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. In the preamble to the proposed regulations, the US Treasury Department indicated that taxpayers may rely on these proposed regulations until the issuance of final regulations. Moreover, such withholding generally would only apply to Notes that are characterised as debt (or which are not otherwise characterised as equity) for U.S. federal income tax purposes and have a fixed term that are issued at least six months after the date on which final regulations implementing such rule are filed with the U.S. Federal Register, or to Notes issued on or before such grandfathered date that are materially modified after such date. Holders of Notes are urged to consult their own tax advisers and any banks or brokers through which they will hold Notes as to the consequences (if any) of these rules to them. In the event any withholding would be required pursuant to FATCA or an intergovernmental agreement between a non-US jurisdiction and the United States, with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

ERISA AND CERTAIN OTHER U.S. CONSIDERATIONS

Section 406 of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") (such section, "**Section 4975**") prohibit certain transactions involving the assets of a Benefit Plan Investor and persons (referred to as "parties in interest" or "disqualified persons") having certain relationships to such Benefit Plan Investors, unless a statutory or administrative exemption applies. Prohibited transactions under such provisions of ERISA or Section 4975 may arise if any Notes are acquired by a Benefit Plan Investor as to which the Issuer, the Arranger or the Dealers or the Calculation Agent, or any of their respective affiliates, are a party in interest or a disqualified person. However, certain exemptions from such prohibited transaction provisions may apply depending in part on the type of Plan fiduciary making the decision to acquire Notes and the circumstances under which such decision is made, such as Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code (relating to certain transactions between a plan and a non-fiduciary service provider), Prohibited Transaction Class Exemption ("**PTCE**") 95-60 (relating to investments by insurance company general accounts), PTCE 91-38 (relating to investments by bank collective investment funds), PTCE 84-14 (relating to transactions effected by a "qualified professional asset manager"), PTCE 90-1 (relating to investments by insurance company pooled separate accounts) and PTCE 96-23 (relating to transactions determined by an in-house asset manager). There can be no assurance that any exception or exemption from the prohibited transaction rules will be available with respect to any particular transaction involving the Notes, or that, if an exemption is available, it will cover all aspects of any particular transaction. Governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA), non-U.S. plans (as described in Section 4(b)(4) of ERISA) and other employee benefit plans that are not subject to the prohibited transaction provisions of ERISA or Section 4975, may nevertheless be subject to other federal, state, local or non-U.S. laws that are substantially similar to such provisions of ERISA and Section 4975 ("**Similar Law**").

Any person who makes a recommendation relating to the acquisition, holding or disposition of a Note (or any interest therein) by any Benefit Plan Investor could be alleged to have provided "investment advice" and thereby constitute a "fiduciary" (in each case as defined for purposes of Section 3(21) of ERISA) subject to the fiduciary responsibility requirements of ERISA and the prohibited transaction provisions of ERISA or Section 4975. For avoidance of doubt, none of the Issuer, the Arranger, the Dealers or the Calculation Agent, or any of their respective affiliates, has acted as a fiduciary on behalf of or provided or undertaken to provide any such investment advice, impartial or otherwise, to any Benefit Plan Investor or any agent or representative thereof as to the acquisition, holding or disposition of any Note (or interest therein), including by reason of any statement in the Prospectus or any supplement thereto, or has received any compensation for any such services.

Benefit Plan Investors and any plans subject to Similar Law should consult with their fiduciaries who are independent of the Issuer, the Arranger, the Dealers and the Calculation Agent, and their respective affiliates, and counsel before purchasing any Notes regarding the applicability of ERISA, Section 4975 or Similar Law.

Unless otherwise stated in the Final Terms, each purchaser and transferee of any Registered Notes issued pursuant to Rule 144A will be deemed to have represented and agreed either that (i) it is not and for so long as it holds a Note (or any interest therein) will not be a Benefit Plan Investor or a governmental, church, non-U.S. or other employee benefit plan which is subject to Similar Law, or (ii) its acquisition, holding and disposition of the Notes will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or a violation of Similar Law, to the extent applicable and, in the case of any Benefit Plan Investor, none of the Issuer, the Arranger, the Dealers or the Calculation Agent, or any of their respective affiliates, has acted as a "fiduciary" or has provided or undertaken to provide any investment advice within the meaning of Section 3(21) of ERISA as to the acquisition, holding or disposition of any Note (or any interest therein). Any purported purchase or transfer of any Note or interest therein that does not comply with these requirements shall be null and void *ab initio.*

Unless otherwise stated in the applicable Final Terms, each purchaser and transferee of Notes other than Registered Notes issued pursuant to Rule 144A will be deemed to have represented and agreed either that (i) it is not and for so long as it holds a Note (or any interest therein) will not be a Benefit Plan Investor or a governmental, church, non-U.S. or other employee benefit plan which is subject to Similar Law, or (ii) its acquisition, holding and disposition of the Notes will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or a violation of Similar Law, to the extent applicable, and, in the case of any Benefit Plan Investor, none of the Issuer, the Arranger, the Dealers or the Calculation Agent, or any of their respective affiliates, has acted as a "fiduciary" or has provided or undertaken to provide any investment advice within the meaning of Section 3(21) of ERISA, as to the acquisition, holding or disposition of any Note (or any interest therein). Any purported purchase or transfer of any Note (or any interest therein) that does not comply with these requirements shall be null and void *ab initio*.

Under the U.S. Department of Labor regulation at 29 C.F.R. § 2510.3-101, as modified by Section 3(42) of ERISA (the "**Plan Asset Regulation**"), when a Benefit Plan Investor's interest in an entity relates solely to separate property of the entity (such as the Reference Assets), such a separate property is treated as a separate hypothetical entity, and if Benefit Plan Investor participation in that separate entity is "significant," as determined under the Plan Asset Regulation by applying the ERISA 25% calculation that is described in the Plan Asset Regulation, the participating Benefit Plan Investors could each have an undivided interest in any assets of the entity.

It is possible that a Benefit Plan Investor's investment in the Level 2 Securities Notes could also be treated as an investment in any underlying Reference Assets. This is far from clear. However, even if a Benefit Plan Investor were treated as investing in the Reference Assets, and somehow if the ERISA 25% threshold were equalled or exceeded with respect to any Reference Assets, the terms of the Reference Assets are fixed and the Issuer is not exercising any fiduciary discretion with respect to such Reference Assets. Each Plan that purchases Level 2 Securities Notes will be deemed to acknowledge that: (i) it is directing the Issuer to use the proceeds to provide exposure to the Reference Assets as described in the Final Terms and (ii) it shall not claim the securities are equity interests in an entity under the Plan Asset Regulation.

The foregoing discussion is general in nature and not intended to be all-inclusive. Any fiduciary who proposes to cause a Benefit Plan Investor or plan subject to Similar Law to purchase any Notes should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 or provisions of Similar Law to such an investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA, Section 4975 or Similar Law.

The sale of Notes to a Benefit Plan Investor or other plan is in no respect a representation by the Issuer, the Arranger or the Dealers that such an investment meets all relevant requirements with respect to investments by, or is an appropriate investment for, Benefit Plan Investors or other plans generally or any particular Benefit Plan Investor or other plan.

SUBSCRIPTION AND SALE

On 13 September 2005, ING Bank N.V. and ING Financial Markets LLC signed a Programme Agreement (as amended, supplemented or restated from time to time, the "**Programme Agreement**"), and ING Financial Markets LLC was appointed as a Dealer in respect of Note issues by the Issuer under the Programme.

One or more other Dealers may be appointed under the Programme in respect of issues of Notes and Warrants by the Issuer in the future. The Issuer may also issue Notes and Warrants directly to purchasers thereof.

The Issuer has prepared the Programme Agreement to which any Dealer to be appointed in connection with issues of Notes by the Issuer under the Programme will be required to accede, and pursuant to which any such Dealer may from time to time agree to purchase Notes issued by the Issuer. In the Programme Agreement, the Issuer has agreed to reimburse the relevant Dealers for certain of their expenses in connection with the Programme and the issue of Notes by the Issuer under it.

United States

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings assigned to them by Regulation S under the Securities Act.

Each Dealer has represented and agreed that it will not offer, sell or, in the case of bearer Notes, deliver Notes of any Series (i) as part of its distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of an identifiable tranche of which Notes are a part, as determined by the relevant Dealer or, in the case of an identifiable tranche of Notes sold on a syndicated basis, the relevant lead manager, within the United States or to, or for the account or benefit of, U.S. persons, except in accordance with Rule 903 of Regulation S or Rule 144A under the Securities Act. Each Dealer has further agreed that it will have sent to each dealer to which it sells Notes during the distribution compliance period (other than resales pursuant to Rule 144A) a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Any offer or sale in the United States will be made by affiliates of the Dealers who are broker-dealers registered under the Exchange Act. Until 40 days after the completion of the offering of any identifiable tranche of Notes, an offer or sale of Notes within the United States by any dealer whether or not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A. Terms used in this paragraph have the meanings given to them by Regulation S of the Securities Act.

Notes in bearer form

Notes in bearer form having a maturity of more than one year (taking into account any unilateral right to extend or rollover the term) are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a U.S. person, except in certain transactions permitted by U.S. treasury regulations.

Notes in bearer form having a term of more than one year (taking into account any unilateral right to extend or rollover the term) will be issued in accordance with the provisions of United States Treasury regulation section 1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form as such rules for purposes of Section 4701 of the Internal Revenue Code of 1986, as amended (the "**Code**")) (the "**TEFRA D Rules**"), unless the relevant Final Terms specify that the Notes will be issued in accordance with the provisions of United States Treasury regulation section 1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form as such rules for purposes of Section 4701 of the Code) (the "**TEFRA C Rules**").

In respect of Notes in bearer form issued or to be issued in accordance with the TEFRA D Rules, each Dealer has represented and agreed (and each further Dealer appointed under the Program will be required to represent and agree) that:

(a) except to the extent permitted under the TEFRA D Rules, (i) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (ii) such Dealer has not delivered and will not deliver within the United States or its possessions definitive Notes that are sold during the restricted period;

(b) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the TEFRA D Rules;

(c) if such Dealer is a United States person, it represents that it is acquiring the Notes for purposes of resale in connection with their original issuance and, if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D)(*6*) or any successor provision for purposes of Section 4701 of the Code;

(d) with respect to each affiliate (if any) that acquires from such Dealer Notes for the purposes of offering or selling such Notes during the restricted period, such Dealer either (i) hereby represents and agrees on behalf of such affiliate (if any) to the effect set forth in sub-paragraphs (a), (b) and (c) of this paragraph or (ii) agrees that it will obtain from such affiliate (if any) for the benefit of the Issuer the representations and agreements contained in sub-paragraphs (a), (b) and (c) of this paragraph; and

(e) such Dealer will obtain for the benefit of the Issuer the representations and agreements contained in sub-paragraphs (a), (b), (c) and (d) of this paragraph from any person other than its affiliate with whom it enters into a written contract, as defined in U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D)(*4*) or any successor provision for purposes of Section 4701 of the Code, for the offer and sale of Notes during the restricted period.

Terms used in the above paragraph have the meanings given to them by Code and regulations thereunder, including the TEFRA D Rules.

Notes issued pursuant to the TEFRA D Rules and any receipts, coupons or talons appertaining thereto will bear the following legend:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

Where the TEFRA C Rules are specified in the relevant Final Terms as being applicable in relation to any issue of Notes in bearer form, such Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Accordingly, each Dealer has represented and agreed (and each additional Dealer appointed under the Program will be required to represent and agree) in respect of such Notes that it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, any such Notes within the United States or its possessions in connection with the original issuance. Further, each Dealer has represented and agreed (and each further Dealer appointed under the Program will be required to represent and agree) in connection with the original issuance of such Notes, that it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if such Dealer or such purchaser is within the United States or its possessions and will not otherwise involve the U.S. office of such Dealer in the offer and sale of Notes. Terms used in this paragraph have the meanings given to them by the Code and regulations thereunder, including the TEFRA C Rules.

Registered Notes

Offers, sales, resales and other transfers of Registered Notes in the United States (including offers, resales or other transfers made or approved by a Dealer in connection with secondary trading) shall be effected pursuant to an exemption from the registration requirements of the Securities Act.

Offers, sales, resales and other transfers of Registered Notes in the United States will be made only to Accredited Investors upon the delivery of an investment representation letter substantially in the form set out in Exhibit I to Appendix B of the Programme Agreement or, in the case of Registered Notes resold or otherwise transferred pursuant to Rule 144A, to institutional investors that are reasonably believed to qualify as QIBs.

Registered Notes will be offered in the United States only by approaching prospective purchasers on an individual basis. No general solicitation or general advertising (as such terms are used in Rule 502 under the Securities Act) will be used in connection with the offering of the Notes in the United States and no directed selling efforts (as defined in Regulation S) shall be used in connection therewith.

No sale of Registered Notes in the United States to any one purchaser will be for less than U.S.$150,000 principal amount or, in the case of sales to Accredited Investors, U.S.$250,000 principal amount and no Registered Note will be issued in connection with such a sale in a smaller principal amount. If the purchaser is a non-bank fiduciary acting on behalf of others, each person for whom it is acting must purchase at least U.S.$150,000 or, in the case of sales to Accredited Investors, U.S.$250,000 principal amount of Registered Notes.

Each Registered Global Note shall contain a legend stating that such Registered Global Note has not been, and will not be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States, that any resale or other transfer of such Registered Global Note or any interest therein may be made only:

(a) to a Dealer;

(b) to a qualified institutional buyer in a transaction which meets the requirements of Rule 144A;

(c) outside the United States pursuant to Regulation S under the Securities Act; or

(d) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available),

and, in the case of a sale pursuant to (c) above, upon receipt by the relevant Dealer or the Issuer, as the case may be, of certification as to compliance therewith by the parties to such transfer. Resale or secondary market transfer of Registered Notes in the United States may be made in the manner and to the parties specified above. The following legend will be included on each Registered Note:

"The Notes represented by this certificate have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**" or with any securities regulatory authority of any state or other jurisdiction of the United States), and may not be offered, sold, pledged or otherwise transferred in the United States or to, or for the account or benefit of, U.S. persons except pursuant to an effective registration statement under the Securities Act or an exemption from registration under the Securities Act. The transfer of this Note is subject to certain conditions, including those set forth in the form of transfer letters available upon request from the Registrar, The Bank of New York Mellon (the "**Registrar**"). The holder hereof, by purchasing this Note, agrees for the benefit of the Issuer and the Dealers that (A) this Note may be resold only (1) to a Dealer, (2) to a qualified institutional buyer (as defined in the said Rule 144A) in a transaction that meets the requirements of Rule 144A under the Securities Act, (3) outside the United States pursuant to Rule 903 or Rule 904 of Regulation S under the Securities Act in a transaction meeting the requirements set forth in the applicable certification available from the Registrar or (4) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available) and in each case

in accordance with any applicable securities laws of any State of the United States or any other jurisdiction and (B) the holder will, and each subsequent holder is required to, notify any purchaser of this Note from it of the transfer restrictions referred to in (A) above. No representation can be made as to availability of the exemption provided by Rule 144 under the Securities Act for resales of this Note. Any resale or other transfer, or attempted resale or other transfer, of Notes made other than in compliance with the foregoing restrictions shall not be recognised by the Issuer, the Registrar or any other agent of the Issuer."

Furthermore, any resale or other transfer, or attempted resale or other transfer, of Registered Notes made other than in compliance with the foregoing restrictions shall not be recognised by the Issuer or any agent of the Issuer and all Registered Notes will bear a legend to this effect.

By its purchase of any Registered Notes, each investor in the United States purchasing Notes pursuant to Rule 144A shall be deemed to have agreed to the above restrictions and each such purchaser shall be deemed to have represented to the Issuer, the seller and the Dealer, if applicable, that it is a qualified institutional buyer who is aware that the sale to it is being made in reliance on Rule 144A.

In connection with its purchase of Registered Notes, each Accredited Investor shall deliver to the relevant Dealer(s) or Issuer, as applicable, a letter stating, among other things, that:

(a) it is an Accredited Investor or, if the Notes are to be purchased for one or more institutional accounts ("investor accounts") for which it is acting as fiduciary or agent (except if it is a bank as defined in section 3(a)(2), or a savings and loan association or other institution as described in section 3(a)(5)(A), under the Securities Act whether acting in its individual or in a fiduciary capacity), each such account is an institutional investor and an accredited investor on a like basis;

(b) in the normal course of business, it invests in or purchases securities similar to the Notes, and it has such knowledge and experience in financial and business matters and that it is capable of evaluating the merits and risks of purchasing any of the Notes; and

(c) it is aware that it (or any investor account) may be required to bear the economic risk of an investment in each Note for an indefinite period of time, and it (or such account) is able to bear such risk for an indefinite period. The letter will also acknowledge that the Notes have not been registered under the Securities Act and are being sold in a transaction exempt therefrom.

Each prospective purchaser of Notes offered in reliance on Rule 144A or Section 4(a)(2) of the Securities Act ("**Restricted Notes**"), by accepting delivery of the Prospectus, will be deemed to have represented and agreed as follows:

(a) Such offeree acknowledges that the Prospectus is personal to such offeree and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire Notes other than pursuant to Rule 144A or Section 4(a)(2) of the Securities Act or in offshore transactions in accordance with Regulation S. Distribution of the Prospectus, or disclosure of any of its contents to any person other than such offeree and those persons, if any, retained to advise such offeree with respect thereto is unauthorised, and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited.

(b) Such offeree agrees to make no photocopies of the Prospectus or any documents referred to herein.

Each purchaser of an interest in a Restricted Note offered and sold in reliance on Rule 144A will be deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

(a) the purchaser (i) is a QIB, (ii) is aware and each beneficial owner of such Notes has been advised that the sale of such Notes to it is being made in reliance on Rule 144A and (iii) is acquiring Notes for its own account or for the account of a QIB;

(b) the purchaser understands that such Restricted Note is being offered only in a transaction not involving any public offering in the United States within the meaning of the Securities Act, such Restricted Note has not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered, sold, pledged or otherwise transferred in the United States or to, or for the account or benefit of, U.S. persons except pursuant to an effective registration statement under the Securities Act or an exemption from registration under the Securities Act; and that (i) if in the future the purchaser decides to offer, resell, pledge or otherwise transfer such Restricted Note, such Restricted Note may be offered, sold, pledged or otherwise transferred only (A) to a person who the seller reasonably believes is a QIB purchasing for its own account or for the account of a QIB in a transaction meeting the requirements of Rule 144A, (B) in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S or (C) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available) and in each of such cases in accordance with any applicable securities laws of any state of the United States or any other jurisdiction and that (ii) the purchaser will, and each subsequent holder of the Restricted Notes is required to, notify any purchaser of such Restricted Note from it of the resale restrictions referred to in (i) above and that (iii) no representation can be made as to the availability of the exemption provided by Rule 144 under the Securities Act for resale of Notes;

(c) the purchaser understands that the Issuer, the Registrar, the Dealers and their affiliates (if any), and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements. If the purchaser is acquiring any Notes for the account of one or more qualified institutional buyers it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account; and

(d) the purchaser understands that the Notes offered in reliance on Rule 144A will be represented by the Restricted Global Note. Before any interest in the Restricted Global Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in the Reg. S Global Note, it will be required to provide a written certification as to compliance with applicable securities laws.

Each purchaser of Notes outside the United States pursuant to Regulation S and each subsequent purchaser of such Notes in resales prior to the expiration of the distribution compliance period, by accepting delivery of the Prospectus and the Notes, will be deemed to have represented, agreed and acknowledged that:

(a) the purchaser is, or at the time Notes are purchased will be, the beneficial owner of such Notes and (a) it is not a U.S. person and it is located outside the United States (within the meaning of Regulation S) and (b) it is not an affiliate of the Issuer or a person acting on behalf of such an affiliate;

(b) the purchaser understands that such Notes have not been and will not be registered under the Securities Act and that, prior to the expiration of the distribution compliance period, it will not offer, sell, pledge or otherwise transfer such Notes except (a) in accordance with Rule 144A under the Securities Act to a person that it and any person acting on its behalf reasonably believe is a QIB purchasing for its own account or the

account of a QIB or (b) in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S, in each case in accordance with any applicable securities laws of any State of the United States;

(c) the purchaser understands that such Notes, unless otherwise determined by the Issuer in accordance with applicable law, will bear a legend as follows:

"The Notes represented by this certificate have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered, sold, pledged or otherwise transferred in the United States or to, or for the account or benefit of, U.S. persons except pursuant to an effective registration statement under the Securities Act or an exemption from registration under the Securities Act. This legend shall cease to apply upon the expiry of the period of 40 days after the completion of the distribution of all the Notes of the Tranche of which this Note forms part".

(d) the purchaser understands that the Issuer, the Registrar, the Dealers and their affiliates (if any), and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements; and

(e) the purchaser understands that the Notes offered in reliance on Regulation S will be represented by the Reg. S Global Note. Prior to the expiration of the distribution compliance period, before any interest in the Restricted Global Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in the Reg. S Global Note, it will be required to provide a written certification as to compliance with applicable securities laws.

The following section applies to Warrants issued by the Issuer:

The Warrants have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Each Dealer appointed under the Programme will be required to agree that, except as otherwise permitted, (a) it will not offer or sell Warrants (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of an identifiable tranche of which such Warrants are a part, as determined and certified to the Principal Warrant Agent or the Issuer by such Dealer (or, in the case of such Warrants sold to or through more than one Dealer, by each of such Dealers with respect to such Warrants purchased by or through it, in which case the Principal Warrant Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified), within the United States or to, or for the account or benefit of, U.S. persons, and (b) it will send to each dealer to which it sells Warrants during the periods referred to in (a)(i) and (ii) above a confirmation or other notice setting forth the restrictions on offers and sales of the Warrants within the United States or to, or for the account or benefit of, U.S. persons. Any offer or sale in the United Stated will be made by Dealers or affiliates of Dealers who are broker-dealers registered under the Exchange Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the completion of the offering of any identifiable tranche of Warrants, an offer or sale of such Warrants within the United States by any dealer (whether or not participating in the offering of such Warrants) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA Retail Investors

If Final Terms in respect of any Notes or Warrants include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme

will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes or Warrants which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

(a) the expression "**retail investor**" means a person who is one (or more) of the following:

(1) a retail client as defined in point (11) of Article 4(1) of MiFID II; or

(2) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

If the Final Terms in respect of any Notes or Warrants do not include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", in relation to each Member State of the EEA (each, a "**Member State**"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes or Warrants which are the subject of the offering contemplated by the Prospectus as completed by the final terms in relation thereto to the public in that Member State except that it may make an offer of such Notes or Warrants to the public in that Member State:

provided that no such offer of Notes or Warrants referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Notes or Warrants to the public**" in relation to any Notes or Warrants in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes or Warrants to be offered so as to enable an investor to decide to purchase or subscribe for the Notes or Warrants.

For the purposes of this provision:

(a) the expression "**retail investor**" means a person who is neither:

(i) a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; nor

(b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes or Warrants to be offered so as to enable an investor to decide to buy or subscribe for the Notes or Warrants.

Each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that, unless the applicable Final Terms (or a supplement to the Prospectus) otherwise provides, it:

(a) has not (directly or indirectly) offered or invited applications, and will not offer or invite applications, for issue, sale or purchase of Notes or Warrants in Australia (including an offer or invitation which is received by a person in Australia); and

(b) has not distributed or published, and will not distribute or publish, any base prospectus or other offering material or advertisement relating to any Notes or Warrants in Australia,

unless the offeree or invitee is a "wholesale client" (within the meaning of section 761G of the Australian Corporations Act) and (i) the aggregate consideration payable by each offeree is at least A$500,000 (or its equivalent in an alternate currency) (disregarding moneys lent by the offeror or its associates) or the offer otherwise does not require disclosure to investors under either Part 6D.2 or Chapter 7 of the Australian Corporations Act, (ii) such action complies with applicable laws and directives (including, without limitation, the financial services licensing requirements of Chapter 7 of the Australian Corporations Act) and (iii) such action does not require any document to be lodged with ASIC or the ASX.

Austria

Each Dealer has represented, warranted and agreed that it has not and will not offer, sell or otherwise make available any Notes or Warrants to the public in Austria, except that an offer, sale or otherwise effectuation of availability of the Notes or Warrants start to may be made to the part of the public not qualifying as EEA Retail Investors in Austria:

a. in the case of bearer Notes or Warrants:

   (i) after or simultaneously with the publication of the approved and, if applicable, modified Prospectus including any supplements and of any duly filed Final Terms, all in accordance with the Prospectus Regulation; and

b. in the case of bearer Notes or Warrants otherwise in compliance with the Prospectus Regulation and the CMA.

Each Dealer is aware that no key information document required by the PRIIPs Regulation for offering or selling the Notes or Warrants or otherwise making them available to Retail Investors in the EEA has been prepared and therefore offering or selling the Notes or Warrants or otherwise making them available to any Retail Investor in Austria is unlawful under the PRIIPs Regulation.

Further, each Dealer represents, warrants and agrees that it will always act in compliance with the legend "MiFID II Product Governance" included in the Final Terms in respect of any Notes or Warrants and any other MiFID II product governance and marketing rules applying to distributors of Notes or Warrants towards investors in Austria (without regard whether such distributors are qualifying in addition as manufacturers or not under such rules). Finally, each Dealer represents, warrants and agrees that it has not and will not offer any registered Notes or Warrants in Austria, neither by private placement nor to the public in Austria.

For the purposes of this provision, the expression "an offer of the Notes or Warrants to the public" means the communication to the public in any form and by any means of sufficient information on the terms of the offer and the Notes or Warrants to be offered so as to enable an investor to decide to purchase or subscribe for the Notes or Warrants issued by the Issuer. Unless the Final Terms in respect of any Notes or Warrants specifies "*Prohibition of Sales to Belgian Consumers*" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold or otherwise made available and that it will not offer or sell or otherwise make available the Notes or Warrants to consumers (*consumenten/consommateurs*) within the meaning of the Belgian Code of Economic Law (*Wetboek economisch recht/Code de droit économique*), as amended.

In Belgium, Notes and Warrants shall not be physically delivered, except to a clearing system, a depositary or another institution for the purpose of their immobilisation in accordance with article 4 of the Belgian law of 14 December 2005 abolishing bearer securities.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

(b) any resale of Notes or Warrants acquired by a Canadian Purchaser must be made in accordance with Canadian Securities Laws, which may vary depending on the relevant jurisdiction, may require resales to be made in accordance with Canadian prospectus requirements or exemptions therefrom and such resale restrictions may under certain circumstances apply to resales of the Notes and Warrants outside of Canada;

(c) each Canadian Purchaser, or any ultimate purchaser for whom such purchaser is acting as agent, is entitled under applicable Canadian Securities Laws to purchase the Notes and Warrants without the benefit of a prospectus qualified under Canadian Securities Laws, was not created or used solely to purchase or hold the Notes and Warrants as an "accredited investor" as described in paragraph (m) of the definition of "accredited investor" in section 1.1 of National Instrument 45-106 *Prospectus Exemptions* ("NI 45-106"), and without limiting the generality of the foregoing is purchasing or deemed to be purchasing as principal and is: (a) is an "accredited investor" as defined in section 1.1 of NI 45-106 or in Ontario, subsection 73.3 (1) of the Securities Act (Ontario); and (b) is a "permitted client" as defined in section 1.1 of National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations* ("NI 31-103"); and

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* ("**NI 33-105**"), any offerings under the Prospectus will be conducted in reliance upon an exemption from the disclosure requirements that may otherwise apply to underwriter conflicts of interest under subsection 2.1(1) of NI 33-105.

Rights of Action for Damages or Rescission

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if the Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Hong Kong

In relation to each Tranche of Notes and Warrants issued by the Issuer, each Dealer has represented and agreed and each further Dealer appointed under the Programme will be required to represent and agree that:

(a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes or Warrants (except for Notes or Warrants which are a "structured product" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the "**SFO**")) other than to (a) "professional investors" as defined in the SFO and any rules made under the SFO; or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the "**C(WUMP)O**") or which do not constitute an offer to the public within the meaning of the C(WUMP)O; and

(b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes or Warrants, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes or Warrants which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

IMPORTANT NOTICE TO CAPITAL MARKET INTERMEDIARIES (INCLUDING PRIVATE BANKS) PURSUANT TO PARAGRAPH 21 OF THE HONG KONG SFC CODE OF CONDUCT

This notice to CMIs (including private banks) is a summary of certain obligations the SFC Code imposes on CMIs, which require the attention and cooperation of other CMIs (including private banks). Certain CMIs may also be acting as OCs for the relevant CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of the relevant Issuer, a CMI or its group companies would be considered under the SFC Code as having an Association with the relevant Issuer, the CMI or the relevant group company. CMIs should specifically disclose whether their investor clients have any Association when submitting orders for the relevant Notes or Warrants. In addition, private banks should take all reasonable steps to identify whether their investor clients may have any Associations with the relevant Issuer or any CMI (including its group companies) and inform the relevant Dealers accordingly.

CMIs are informed that, unless otherwise notified, the marketing and investor targeting strategy for the relevant CMI Offering may include institutional investors, sovereign wealth funds, pension funds, hedge funds, family offices and high net worth individuals, in each case, subject to the selling restrictions and any MiFID II product governance language or any UK MiFIR product governance language set out elsewhere in this Offering Circular and/or the applicable Final Terms.

CMIs should ensure that orders placed are *bona fide*, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). CMIs should enquire with their investor clients regarding any orders which appear unusual or irregular. CMIs should disclose the identities of all investors when submitting orders for the relevant Notes or Warrants (except for omnibus orders where underlying investor information may need to be provided to any OCs when submitting orders). Failure to provide underlying

investor information for omnibus orders, where required to do so, may result in that order being rejected. CMIs should not place "X-orders" into the order book.

CMIs should segregate and clearly identify their own proprietary orders (and those of their group companies, including private banks as the case may be) in the order book and book messages.

CMIs (including private banks) should not offer any rebates to prospective investors or pass on any rebates provided by the relevant Issuer. In addition, CMIs (including private banks) should not enter into arrangements which may result in prospective investors paying different prices for the relevant Notes or Warrants. CMIs are informed that a private bank rebate may be payable as stated above and in the applicable Final Terms, or otherwise notified to prospective investors.

The SFC Code requires that a CMI disclose complete and accurate information in a timely manner on the status of the order book and other relevant information it receives to targeted investors for them to make an informed decision. In order to do this, those Dealers in control of the order book should consider disclosing order book updates to all CMIs.

When placing an order for the relevant Notes or Warrants, private banks should disclose, at the same time, if such order is placed other than on a "principal" basis (whereby it is deploying its own balance sheet for onward selling to investors). Private banks who do not provide such disclosure are hereby deemed to be placing their order on such a "principal" basis. Otherwise, such order may be considered to be an omnibus order pursuant to the SFC Code. Private banks should be aware that placing an order on a "principal" basis may require the relevant affiliated Dealer(s) (if any) to categorise it as a proprietary order and apply the "proprietary orders" requirements of the SFC Code to such order and will result in that private bank not being entitled to, and not being paid, any rebate.

In relation to omnibus orders, when submitting such orders, CMIs (including private banks) that are subject to the SFC Code should disclose underlying investor information in respect of each order constituting the relevant omnibus order (failure to provide such information may result in that order being rejected). Underlying investor information in relation to omnibus orders should consist of:

- The name of each underlying investor;
- A unique identification number for each investor;
- Whether an underlying investor has any "Associations" (as used in the SFC Code);
- Whether any underlying investor order is a "Proprietary Order" (as used in the SFC Code);
- Whether any underlying investor order is a duplicate order.

Underlying investor information in relation to omnibus order should be sent to the Dealers named in the relevant Final Terms.

To the extent information being disclosed by CMIs and investors is personal and/or confidential in nature, CMIs (including private banks) agree and warrant: (A) to take appropriate steps to safeguard the transmission of such information to any OCs; and (B) that they have obtained the necessary consents from the underlying investors to disclose such information to any OCs. By submitting an order and providing such information to any OCs, each CMI (including private banks) further warrants that they and the underlying investors have understood and consented to the collection, disclosure, use and transfer of such information by any OCs and/or any other third parties as may be required by the SFC Code, including to the relevant Issuer, relevant regulators and/or any other third parties as may

be required by the SFC Code, for the purpose of complying with the SFC Code, during the bookbuilding process for the relevant CMI Offering. CMIs that receive such underlying investor information are reminded that such information should be used only for submitting orders in the relevant CMI Offering. The relevant Dealers may be asked to demonstrate compliance with their obligations under the SFC Code, and may request other CMIs (including private banks) to provide evidence showing compliance with the obligations above (in particular, that the necessary consents have been obtained). In such event, other CMIs (including private banks) are required to provide the relevant Dealers with such evidence within the timeline requested.

By placing an order, prospective investors (including any underlying investors in relation to omnibus orders) are deemed to represent to the Dealers that it is not a Sanctions Restricted Person. A "Sanctions Restricted Person" means an individual or entity (a "**Person**"): (a) that is, or is directly or indirectly owned or controlled by a Person that is, described or designated in (i) the most current "Specially Designated Nationals and Blocked Persons" list (which as of the date hereof can be found at: http://www.treasury.gov/ofac/downloads/sdnlist.pdf) or (ii) the Foreign Sanctions Evaders List (which as of the date hereof can be found at: http://www.treasury.gov/ofac/downloads/fse/fselist.pdf) or (iii) the most current "Consolidated list of persons, groups and entities subject to EU financial sanctions" (which as of the date hereof can be found at: https://data.europa.eu/data/datasets/consolidated-list-of-persons-groups-and-entities-subject-to-eu-financial-sanctions?locale=en); or (b) that is otherwise the subject of any sanctions administered or enforced by any Sanctions Authority, other than solely by virtue of the following (i) - (vi) to the extent that it will not result in violation of any sanctions by the CMIs: (i) their inclusion in the most current "Sectoral Sanctions Identifications" list (which as of the date hereof can be found at: https://www.treasury.gov/ofac/downloads/ssi/ssilist.pdf) (the "**SSI List**"), (ii) their inclusion in Annexes 3, 4, 5 and 6 of Council Regulation No. 833/2014, as amended by Council Regulation No. 960/2014 (the "**EU Annexes**"), (iii) their inclusion in any other list maintained by a Sanctions Authority, with similar effect to the SSI List or the EU Annexes, (iv) them being the subject of restrictions imposed by the U.S. Department of Commerce's Bureau of Industry and Security ("**BIS**") under which BIS has restricted exports, re-exports or transfers of certain controlled goods, technology or software to such individuals or entities; (v) them being an entity listed in the Annex to the new Executive Order of 3 June 2021 entitled "Addressing the Threat from Securities Investments that Finance Certain Companies of the People's Republic of China" (known as the Non-SDN Chinese Military- Industrial Complex Companies List), which amends the Executive Order 13959 of 12 November 2020 entitled "Addressing the threat from Securities Investments that Finance Chinese Military Companies"; or (vi) them being subject to restrictions imposed on the operation of an online service, Internet application or other information or communication services in the United States directed at preventing a foreign government from accessing the data of U.S. persons; or (c) that is located, organized or a resident in a comprehensively sanctioned country or territory, including Cuba, Iran, North Korea, Syria, the Crimea region of Ukraine, the Donetsk's People's Republic or Luhansk People's Republic. Singapore

*For Notes which are classified in Singapore as units ("**CIS Notes**") in "collective investment schemes" ("**CIS**"):*

This Securities Note does not constitute an offer or solicitation by anyone in any jurisdiction in which such an offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

This Securities Note is confidential. It is addressed solely to and is for the exclusive use of the person to whom it is given, and must not, without the prior written consent of the offeror, be issued, circulated or distributed in Singapore, to any other person in Singapore. The offer or sale, or invitation for subscription or purchase, of the CIS Notes, which is the subject of this Securities Note, does not relate to a collective investment scheme which is authorised under Section 286 of the SFA or recognised under Section 287 of the SFA. The CIS is not and will not be authorised or recognised by the MAS and the CIS Notes are not allowed to be offered to the Singapore retail public. This Securities Note and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the CIS Notes is not a prospectus as defined in the SFA. Accordingly, statutory liability under the SFA in relation to the content of prospectuses would not apply. You should consider carefully whether the investment is suitable for you.

This Securities Note has not been and will not be registered as a prospectus with the MAS. Accordingly, this Securities Note and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the CIS Notes may not be circulated or distributed, nor may CIS Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than under exemptions provided in the SFA for offers made (i) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 304 of the SFA, (ii) to a relevant person (as defined in Section 305(5) of the SFA) pursuant to Section 305(1) of the SFA, or any person pursuant to an offer referred to in Section 305(2) of the SFA, and in accordance with the conditions specified in Section 305 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA. First sales of the CIS Notes acquired pursuant to Sections 304 and 305 of the SFA are subject to the requirements under Sections 304A and 305A of the SFA respectively. The CIS Notes are not being offered with a view to the holders subsequently offering the CIS Notes for sale to another person.

Where the CIS Notes are acquired by persons who are relevant persons specified in Section 305A of the SFA, namely:

(a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

the securities of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within 6 months after that corporation or that trust has acquired the CIS Notes pursuant to an offer made under Section 305 of the SFA except:

(i) to an institutional investor or to a relevant person as defined in Section 305(5) of the SFA, or which arises from an offer referred to in Section 275(1A) of the SFA (in the case of that corporation) or Section 305A(3)(c)(ii) of the SFA (in the case of that trust);

(ii) where no consideration is or will be given for the transfer;

(iii) where the transfer is by operation of law; or

(iv) as specified in Section 305A(5) of the SFA.

The offer, holding and subsequent transfer of the CIS Notes to persons in Singapore are subject to restrictions and conditions under the SFA. You should consider carefully whether you are permitted (under the SFA and any laws or regulations applicable to you) to make an investment in the CIS Notes and whether any such investment is suitable for you. You should consult your legal or professional advisor if in doubt. You should also ensure that any subsequent transfer of CIS Notes complies with the applicable transfer restrictions.

By accepting receipt of this document and any other document or material issued in connection with the offer or sale, or invitation for subscription or purchase, of the CIS Notes, the holder represents and warrants that he is entitled to receive such document in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein.

Calculation of Yield

The yield for any particular Series of Fixed Rate Notes will be specified in the applicable Final Terms and will be calculated on the basis of the compound annual rate of return if the relevant Notes were to be purchased at the

Issue Price on the Issue Date and held to maturity. Set out below is the formula for the purposes of calculating the yield of Fixed Rate Notes.

Issue Price=Rate of Interest× (1- (1/(1+Yield)^n))/Yield + [Final Redemption Amount × 1/〖(1+Yield)〗^n]

$$Issue\ price = Rate\ of\ Interest \times \left(1 - (\frac{1}{(1+Yield)^n})/\ Yield + \left[Final\ Redmption\ Amount\ \times 1/[(1+Yield)^n]\right]\right)$$

Where:

"**Rate of Interest**" means the Rate of Interest expressed as a percentage as specified in the applicable Final Terms and adjusted according to the frequency i.e. for a semi-annual paying Note, the Rate of Interest is half the stated annualised Rate of Interest in the Final Terms;

"**Yield**" means the yield to maturity calculated on a frequency commensurate with the frequency of interest payments as specified in the applicable Final Terms; and

"**n**" means the number of interest payments to maturity.

Set out below is a worked example illustrating how the yield on a Series of Fixed Rate Notes could be calculated on the basis of the above formula. It is provided for purposes of illustration only and should not be taken as an indication or prediction of the yield for any Series of Notes; it is intended merely to illustrate the way which the above formula could be applied.

Where:

n = 5

Rate of interest = 3.00%

Issue Price = 104.71%

Final Redemption Amount = 100%

104.71=3.00 (1- [1/(1+Yield)^5])/Yield + [100 × 1/〖(1+Yield)〗^5]

Yield = 2.00% (calculated by iteration)

The yield specified in the applicable Final Terms in respect of a Series of Fixed Rate Notes will not be indication of future yield.

Description of the Groenregeling

As of 1 July 2024, the Dutch tax authorities have qualified the Issuer as a 'green bank' (*groenbank*) for Dutch tax purposes. As a result of this qualification, Notes issued under the Programme for which it is so indicated may provide Noteholders resident in the Netherlands with certain potential tax advantages under the Groenregeling. The Groenregeling is a combination of tax measures that stimulate investments which are important for the protection of the environment, including nature and forest. The regulations came into force on 1 January 1995. As of 2001, the tax measures that simulate these investments are incorporated in Articles 5.13, 5.14 and 8.19 of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*). Since the introduction of the Groenregeling, a substantial number of sustainable environmental projects have been established.

In essence, the Dutch government wishes to stimulate investments in "green projects" (*groene projecten*) through the Groenregeling. Therefore, the objective of the Groenregeling is to stimulate private savers and investors to support green projects, by offering a beneficial tax treatment for individuals in Box I (income from labour and

owned housing (*inkomsten uit werk en woning*)) and Box III (the benefits from savings and investments (*voordeel uit sparen en beleggen*)). This benefit for private individuals consists of a levy rebate (heffingskorting) in Box I and a maximised exemption of the yield basis (*rendementsgrondslag*) in Box III. Investors are, therefore, willing to accept a lower return on their investment and the Issuer can offer lower interest rates for certified green projects. In this way, the Groenregeling stimulates the development of green projects, which offer a positive return, but which are considered less attractive, because returns are normally less than the market return. The fiscal relief is designed to give investors an incentive to invest in green projects.

However, as part of the Tax Plan 2025 (*Belastingplan 2025*) the Groenregeling will be abolished as a result of which the tax benefits currently available to investors under this regime will no longer apply as from 1 January 2027.
